Tobacco Markets All Set For Opening Aug. 10

Big Things Expected in Robeson County This Season—Splendid Tobacco Crop in Many Sections and Cotton Crop in Excellent Condition.

FAIR PRICES PREDICTED.

(By R. W. McFarland)

Fairmont, July 31.—In this little "burg", which is the biggest tobacco market in the world to the size of the town, everything is getting cocked and primed for the opening of the tobacco market Tuesday week, and the hotel is commencing to "fill up" with guests.

They are expecting big things in old Robeson county this season, for they have a splendid tobacco crop in many sections of the county and from the looks of the "curings" it's going to be the kind that sells high. So Robeson county hopes and expects this year to still maintain its place as "first in the value of crops produced in North Carolina and 17th among the 50 leading agricultural counties of the United States." Its cotton crop in the section which we traversed seemed to be in excellent condition.

Last season the tobacco production or rather sales upon the border markets, which are Fairmont, Whiteville, Lumberton, Fair Bluff, Clarkton, Chadbourne and Tabor, were, in round numbers, twenty six and one half million pounds. In their territory this season around twenty percent less tobacco will be produced. The seven markets mentioned open their sales every season at the time of the opening of the South Carolina tobacco markets, which will be this season Tuesday, August 10th.

51 Million Pounds.

Your correspondence estimates that this season the South Carolina crop of tobacco will be about 72 per cent of last year's production, or around fifty one million pounds. Last year South Carolina produced 70,863,812 pounds of tobacco, of which 19,721,074 pounds was "pooled". As the "pool is out", the auction houses, notwithstanding the crop being shorter than it was last year will probably do as much business as they did last year, and the farmers receive fully as much for their tobaccos as if the pool was functioning. Probably more, for the auction people certainly handled their customers tobacco at several dollars—possibly five or six dollars per hundred—less expense to the sellers than did the "pool".

The South Carolina markets scheduled to open Tuesday week are, alphabetically, Andrews, Conway, Darlington, Dillon, Florence, Johnsonville, Kingstree, Lake City, Lamar, Loris, Lake View, Manning, Marion, Mullins, Nichols, Olanta, Pamplico, Sumter and Timmonsville. Nineteen in all.

The annual pilgrimage to the Georgia markets commenced several days ago as the markets of that State open this coming Tuesday. Your correspondent has seen but little of the Georgia crops this season and therefore bases what he is going to say about crop conditions down there upon information which he thinks is dependable. Georgia's tobacco crop last year was in round numbers forty-nine million pounds. The crop as a whole was of very low quality and sold for a very low price. The whole of the crop probably did not average as much as the first primings sold for, which was around 14-1-2 cents. This year, Georgia's production will be about forty million pounds, but the quality is a great deal better than last year's quality. They planted down there this year just as much as they did last, but it grew in spots. Twenty-one markets will be run in Georgia this season, counting Quincy, Florida, as a Georgia market. These markets are: Alma, Bainbridge, Baxley, Blackshear, Cairo, Camilla, Douglas, Fitzgerald, Hahira, Hazlehurst, Metter, Moultrie, Nashville, Pelham, Quitman, Thomassville, Tifton, Valdosta, Vidalia,

Waycross and Quincy, Florida.

Your correspondent believes that the average price per hundred pounds in all of the sections named will be in excess of last season's prices. Tobacco men returning from Europe and the foreign countries seem optimistic in their views as to prices for cigarette and pipe tobaccos, the consumption steadily increasing all the time on cigarettes.

State Farm Convention Was A Great Success

Meeting of Farmers and Farm Women Filled With Messages of Optimism and Helpfulness.

Raleigh, August 2.—Filled with messages of optimism and helpfulness from some of the leading farmers, agricultural leaders and civic workers of the State and county, the twenty-fourth annual session of the State Farmers convention held at State college last week closed Thursday, July 29, after a most successful meeting.

There were approximately 1,700 farmers and their wives registered at the convention. Other hundreds drove in for a day to attend some special session without registering for rooms at the college. The convention took up many outstanding problems of political affairs, rural schools, home building, and crop and livestock growing. Each afternoon was devoted to lectures on important farm and home problems while the forenoons were given over to special addresses. The evenings were devoted to inspirational talks and social affairs.

Mrs. J. S. Turner of Rockingham county was elected as the next president of the State Federation of Home Demonstration clubs. The other officers elected are: vice-president, Mrs. R. A. McCullen of Sampson county; secretary, Miss Belva Bennett of Beaufort county; recording secretary, Mrs. C. E. Carter of Buncombe county; treasurer, Mrs. Cornelia C. Morris of State college.

The new officers for the farmers convention are: president, C. F. Cates of Mebane; first vice-president, P. D. Bagley, of Moyock; second vice-president, James C. K. McClure of Asheville; secretary-treasurer, James M. Gray of State college.

Before adjournment on Thursday morning the assembled farmers passed resolutions advocating many of the important matters brought before the convention.

Blames Ku Klux Klan for Defeat of Governor Ferguson

James E. Ferguson, in a statement at Austin, Texas, charged that the Ku Klux Klan was the "silent force" behind the defeat of his wife, Gov. Miriam A. Ferguson, in the recent Texas primary.

"Nobody need be surprised to see the fiery cross in evidence and this crowd in a wild with victory that we need not be surprised to see a Ku Klux Klan parade in the next sixty days and perhaps some good American will fall a victim of the lash," the former governor declared.

"I hope in due course to be able to learn the real reason for the results in last Saturday's election," Ferguson said. "I think the opposition in their desire to gloss over the defeat of a woman will aid us in getting evidence."

Ferguson said that regardless of personal feeling, "my good wife and I are desirous and hopeful that Attorney General Dan Moody's administration may be one of service to the people."

Demands that Governor Ferguson resign "immediately" in keeping with

To The Farmers of Robeson and Adjoining Counties:

From our observation in traveling the tobacco section for past few days tobacco has greened up considerably. Our advice to you all, is to not crop again until it grains up as you will have plenty time to save it properly. This is dangerous weather to let suckers grow in your tobacco. By all means keep them out for early maturity.

We also note most people crowding tobacco on sticks to cure. String your tobacco thinner on sticks. You will find that it will be easier to cure and you will get better results.

WE WILL OPEN
Tuesday, August 10th

Bring us a load on that day.

We will grade tobacco for farmers until we open. Experienced graders from up country are grading our tobacco. We will give it our personal attention.
