Tilden's Dishonesty.

CINCINNATI ENQUIRER (DEM.) BE-FORE THE NOMINATION.

A private letter just received from New York, from a gentleman of fairness and intelligence, says: I had a good opinion of Tilden until I came among those that knew him, but I find they all agree that his show of reform is all a humbug. The recent

Albany conference is corroborative of all this testimony. The control-ling politicans, as well as the masses of the people in the Democratic partw in New York, who can draw a dividing line between an honest man and a Bengal tiger or a hypocrite, are alike aware that Tilden can not carry his own State."

There are a few facts concerning Sam Tilden, which, we trust, will sink into the minds of Southern and Western Democrats.

1. He can not carry his own State in November. 2. He can not carry any Northern

3. He is a hypocrite, a political swindler, and has long been a public

4. He did what he could to defeat the Democratic party in Ohio, in 1875 expending his money, and subsidizing the Eastern Democratic press to that end knowing that Ohio's victory was his defeat, and loving Tilden more than the Democratic party.— He has carned the enmity of the West and South.

5. He has sought this high office by methods so unprecedently shame-less and disreputable that it would be an everlasting stigma and a re-proach upon the American people to elect him.

6. Upon the foremost questions of the hour he is a most pittiless foe to the interests of the West and South He is the unscrupulous oppressor of the great struggling industries of the vast producing sections of the country. No Republican Administration try. No Republican Administration could be more hostile to them than would his.

Except that it is marked by extreme bitterness, it might have appeared, originally, in any Republican paper in the country. What must be Tilden's character when even his own party associates talk about him like this? If elected, "he will give us the most corrupt administration the country has ever known;" that is the colm deliberate judgment of his chief and only Cincinnati supporters. What do voters think of a candidate supported in this way?

Election Law.

By chapter 237 of the public laws of 1874-75, the election in North Carolina has been changed from the first Thursday in August to the Tues-day next after the first Monday in November, 1876. We publish below the amendments made to Battle's Rerisal and to the laws of 1873-74, by which the change was made, and would suggest to the press of the State the propriety of copying it:

Difference of Opinion.

The Syracuse, New York Journal has the following to say about a Democratic candidate for the Legislature in this State:

"Acts speak louder than words" and especially so when we find the Democracy of North Carolina—who support Tilden because he pronounced the war a failure-nominating for legislative office the most brutal and un-It could not but be that a man educated in couning, in hypocracy, in iniquity, nominated in corruption and leader, who was tried and convicted shameless effrontery, even though of instigating and participating in his millions could elect him, would some of the fearful outrages commitden could not rise above himself, or has been nominated for the State Legabove the source of his power.

A part of a field of corn was plastered before and a part after a heavy shower. That part plastered before the shower, where the plaster was washed out of sight immediately, put on a deep green color and grew rapidly, while that plastered after the shower where the plaster remained in a dry state around the hills, retained its yellow color, and grew more slowly; and although it assumed the deep green, and commenced growing when the other rains came two weeks afterward, it never overtook the other, the difference being plain to be seen during the summer.

A Sad Affair.

The Charlotte Observer says that Mary Woods, a girl about 20 years of age, and a daughter of Mr. David Woods, of Steele Creek township, committed suicide last Saturday morning, by hanging herself to pioce in the garret of her father's residence. She was missed and search idence. She was missed and search being instituted, her body was found hanging in the garret. The circumstances of the boy's death were peculiar. He was at Church a Sunday or two before he took his own life, when he accidentally dropped a pistol. It was discharged, and though no one was hurt, the boy, who was about 17 years of age, became very much alarmed of the consequences. To add to this, his companions twitted him continually about the matter, telling him that he would be brought here to Charlotte and put in jail, and that Judge Scherck would get after him and send him to the Penitentiary.—
