## THE WEB OF YEARS.

From out the loom of Time the years Daroli a fabric all must wear, The woof of joy and warp of tears. Are spun by moving hopes and fears, And pressed by weighty rolling Care.

What meaneth unto each is given? A span may guage the greatest parts And yet the least from earth to heaven Do reach, as in the quiet even Prayers sent up from children's hearts.

The web too quickly for us all Is wove, while pass the shuttles fleet And when the threads have ceased to fall. Death throws it o'er us as one pall. Or round us as our winding sheet.

An African Belle.

Lieut. Cameron found one tribe in Africa where women were much more respected than is common in that country. This deference of the male sex had, however, the usual effect. The "respected" women became much more addicted to fashion than their less-favored sisters. One of the belles of this tribe is thus described by the traveller: She is a merry sort of person, this "Mrs. Pakwanywa," and really ladylike in her manners. It was great fun rocks nearly a hundred feet beneath, showing her a looking-glass. She had never seen one before, and was half afraid of it, and ashamed to show she was afraid. A large necklace of shells was round her neck, and round her waist a string of opal colored singo-mazzi, and a rope made of strings of a red-colored bead, Her front apron was of a leopard skin, and the rear one of colored grass-cloth. with its fringe strung with beads, and cowries sewed on it in a pattern; bright iron rings were round her ankles, and copper and ivory bracelets on her arms. Her hair was shaved a little back from her forehead, and three lines each about a quarter of an inch wide, were painted below. The one nearest to the hair was red, the next black, and the next the lip protruded a comple of inches, giving a hideous expression to the face, and making her articulation quite indis-
