#### AGRICULTURE.

He who has dominion over an acre, and rescues it from barrenness, and covers it with a smiling harvest, has more of virtuous self applause, than the conqueror of large territories, waste and desolate. The culture of the earth sado vours of filial affection. It is our do bounteous mother: it affords us nourishment, and shelter, and shade-fertile streams, fragrant flowers, and redo freshing fruits. We should love it for the sake of the living, for the sake of the dead. A beautiful plant, or a luxuriant vine, may suggest to a poetical mind the spirit of departed beauty, no end to petty cavils about state rights putting forth again from the earth, where the form was inured.

They were of the petition of a number of inhabitants of Bladen, praying to be annexed to Cothen brought up before Judge Brockenbrough, upon a writ of habeas corpus. The judge determined to adjourn resolution: the case to the general court, it being of novelty and importance, and in the mean time admitted the seamen to bail. This case at Richmond brings into

There is, no doubt olution: that the law, which relates to the service of seamen, is the law of Virginia. There is no hacknied doubt of consti- lief of the heirs of persons dying without will, tutionality. It is me rely a question whether that state will permit her justices of the peace to act under a law of the United States. A refusal to do so leaves the law almost a nullity, for the the expediency of instituting a Board of Uniter. States have no judicial officers Commissioners in each County to superof the description of justices of the intend the Public Roads, and of transferpeace; and if the judges of the Su- ring from the County Courts to said Board preme and District Courts may be the superintendence and regulation of the Court of Pleas and Quarter Sessions to be held or package, at a small advance from the or ginal supposed to have the powers of ordifor Lincoln County, at the Court-House in Lin- cost, for cash or town acceptances. matter of course, the Virginia magistracy were bound to enforce it; or that, t any rate, they might do so much for the sake of courtesy.

The reason assigned for this course of conduct is, that the state and general governments may be kept more distinct from each other, and the state be thereby the better secured from an apprehended contamination. But mark the opposite probable consequences.

The undoubted and constitutional laws of the United States must be enforced. The Virginia magistracy are prohibited from enforcing them. The United States, therefore, will be driven to the necessity of appointing justices of the peace of their own within the state.
