At a public Dinner, on Tuesday, a toast complimentary to the General being given, he rose, and, expressing his grateful acknowledgments to the citizens of Charleston, gave the following beautiful toast #

Perpetusl and ever increasing prosperity to the City of Charleston, where an American recruit received a first blessing. and which shall have the last wishes of a grateful veteran.

The Ball given in the theatre was most splendid, the mere enumeration of the various decorations occupying a column of the Charleston papers. About Aftern Aundred ladies were present ; the number of gentlemen not stated.

On Thursday last, at 12 o'clock, the General left Charleston, on board the Steam boat Henry Shultz, on his way to Savannah, where preparations were mak-ing to receive him in a splendid manner. Thus is it wherever this great and good man is expected. Thus may it ever be with the brave and virtuous.

Carolina Observer.

It is well known that LATAYETTE, when he came to deliver North-America from a foreign yoke, debarked first on our shores, in the vicinity of this city. It is not as well known, but it is a singular coincidence, that Gen. BOLIVAN, on his way to achieve the literties of South-America in the year 1816, landed first in Charleston, from a vessel from France. Chas. Courier.

Among the items of intelligence received by the late arrivals from England, we notice the following, as having a highly important bearing upon the trade of Nat. Jour. this country : Price of Iron .- We hear from Birmingham that considerable inconvenience is felt there from the great and adden rise of the price of iron. The price is now such, as not only to make competition with foreign manufacturers difficult, but to render the execution of large orders which have been actually given, impossible. Immense orders from foreign ogents, ospecially from America, have been made at a price at which, from the present price of iron, the goods cannot be supplied.

Wool Trade .- Thirteen pence per lb. the wool (for combing purposes) was sold In Yorkshire till within a few weeks, when an advance of one printy per 1b. took place. About three weeks since 15d. was offered ; a week after 16d. ; and now 18d. is the general price, one or two individuals having obtained well 19J.; the advance has been so rapid and sudden, that the growers have been taken rather by surprise ; and the present feeling appears to be in favour of much higher prices, as very little of the old stock is now in the possession of the growers. Leeds Mercury. Trade and Commerce .- We understand. says the Manchester Courier, that, within the last week, many of the principal manufacturers at Bolton have advanced the wages of their weavers is, per cut. Messrs. Ormrod and Hardcastle are now paying 9s. inch. 24 yords in length ; this may be considered the medium fabric. Whhin the last 3 weeks, short woolshave risen from 30 to 40, and long wools of which " millions unborn" will reap the from 50 to 60 per cent, with every pros- benefit. So little has been thought of pect of a farther advance. As a consequence of this, blankets, and, indeed all goods made from the coarser kinds of our native fleeces, have already risen fully 10 per cent. with cloths, the product of combed wool, have experienced on advance of very nearly double the amount. Iron has again advanced. It is now double the price it was in Dec. 1823. In the London market, extensive purohases of Tobacco have been made on speculations, at an advance on the lower qualities of from forty to fifty per cent. The fine qualities have also advanced considerably. At Liverpool the Cotton market had again become animated. The sales for the 3 days preceding the 16th, consisted of 16,774 bales, at an advance in price of 1-4d. per lb. and a further advance was expected.

WASSTROTON, MARCH 12.

Oxford, N. C. on February 24th, and yesterday morning, accompanied by his concluded on Wednesday the 2d of family, for his residence in Georgia. It March, 1825. Bishop Sours only atten is impossible to take leave of one, who ded. Natwithstanding the weather was exceedingly inclement, the houses of worship were crowded. The following are the appointments of the Preachers for the present way, in situations of high trust, and in times of great public embarrassment, without feeling nome degree of sadness and sorrow at the reflection, that we may have seen him for the last time. Mr. Crawford retires from service, we be-lieve, with a fortune by no means ample, and with a constitution considerably impaired by the myages of a severe and long continued disease. The inhabitants of this city who have had the happiness to know him in his domestic and social circle, will long have cause to regret the necessity of his departure from among Journal.

It is understood that a Court of Inquiry is about to be instituted, at the request of Commodore Porter, to investigate his conduct in regard to certain matters referred to in letters of Mr. Randall and Mr. Mountain, officially transmitted to Congress at the last semion, touching the transportation of specie, by vessels of the United States, &c. We have not heard when or where the Court is to assemble.

Concerning the Faxardo affair which was made the occasion of the Commodore's recall, we have not heard of any thing further, except that it is to undergo investigation.

Waiting the official reports on these subjects, we shall only now express our hope, that they will redound to the credit of the Commodore, and to the joy of his many and sincere friends-Nat. Jour.

AMERICAN GLASS .---- The Baltimore American mentions a curious and elegant specimen of American industry and talent from the glass-making establishment of Messrs. Bakewell, Page, and Bakewell, of Pittsburg, It consists of cut-glass tumblers, the bottom of each of which, by a very ingenious process, is imbedded an excellent likeness of some distinguished American citizens, no Adams, Jackson, La Fayette, &c. The likeness is formed of a composition having the appearance of silver, and although presented in bold relief, every part of it is enclosed in the solid glass, and is consequently indelible.

We learn that the same Court of Inquest of Com. Ponten, to inquire into is selected. the conduct of that officer, in regard to

Batract of a letter to the Editor, dated at Havana, 8th wit :

" The late and present rains are unparalleled in the remembrance of the oldest inhabitants, at this season of the year. one, I believe, since that noted in the Al- ; tants of Cuba ; but the spirit of inquiry is manacs, as having fallen forty-two years awake-and it is easy to predict, that a ble and the crop of Sugar will fall immensely short of even the limited quantity which had some time since been foreseen. Coffee, of course is in the same predicament." Chas. Courier:

Internal Improvement .- The financial Committee, in the Legislature of New-York, have reported, that " it is inexpediens to make any alteration in the assessment and collection of taxes, as probably taxes will in a short time be entirely disposed with." Let the sceptical on this importent subject look at this, and let them ber furthermore be assured, that Internal Improvement is the true Philosopher's stone, which sooner or later will convert whatever it touches into tangible property .- ib.
