JUNE 7, 1825,

Mr. Waire: I understand, that at the last meeting of the Commissioners of our good town of Sallabury, they passed a law taxing the Dogs; which, in my opinion, is a very salutary one. With due deference await the order of Mr. Sciener, to that worthy body, who have the guardisnship of the rights of the Police, I would submit the necessity of levying a Ephra. Brevard—the first bosoms that which infest the streets of our town—as eyer glowed with the joyous anticipation it is a query, in the minds of many, which of the tree is the minds of many, which of the two is the greatest nuisance. The dogs, it is true, may annoy the sweet rehave generally remunerated those who have suffered by the transgressions of the dogs. The hogs, also, I am told, are rather troublesome at times, in breaking neighbors fences, committing petty larceny on the gardens, corn and potatoepatches, &c. But the owners of these animals, unlike those of the mutton-eaters, never think of paying the damage, nor of even chastising the aggressorsfor with the addition of the former's paying, they generally add the rod of correction, the punishment which is usually inflicted on those guilty of petty larceny. For the above reasons, I submit to the

consideration of the voters in the Borlevy said tax, to instruct their next representation to procure a law passed to that effect at the next meeting of the Legislature, making it imperious on said Commissioners to levy said tax, in proportion to the tax levied on the dogs.

A CITIZEN

TROUBLE DY THE" DOG-KENNEL The reader will perceive, from two communicated articles in this day's paper, that there is likely to be something of a seditious breaking out among a cerver experienced at any former meeting, tain portion of our population, in consequence of our municipal rulers having thought it meet, during some of their wise communings, to " ordain and enact" that a canine holl-tax should henceforth be levied and collected within the precincts of the Borough. A neighbor, the other day, in muttering out his complaint, said that, without attempting to raise a question as to the authority of the commissioners to pass the law, he could'nt help thinking it was rather invidious to impose a heavy excise on the heads of the canine species, when their constitutional enemies the feline race, are suffered to roam from messuage to messuage troled by statutory enactments.

But we like the law, if such an one has really been passed.* We have suffered increased by a donation of Dr. Marshman's so grievously, this season, from the depretranslation of the Bible into Chinese, and dations of dogs, cats, hogs. &c. that we 72 yolumes from a Roman Catholic Ec- are glad to hear the Commissioners have clesiastic in the island of Cuba. Revell & Templeton.

TAILORS, SALISBURY, REPECTFULLY acquaint their friends of Salisbury and the public generally, that they have commenced the Tailoring Business in senew Shop, built for the purpose, situated in Main street, next door south-west of Mr. E. Cress' store, likewise opposite to Mr. Thomas Alison's store, and quite convenient to every gore in Town; where they are better prepared fian ever to accommodate any gentlemen with Taile ing, and in the most fushionable and neatest style. Any person wishing to vary from the prevailing fashions of the different seasons, can have their fancies suited by giving neces-

vary directions.

Revell if Templeton have put themselves to considerable trouble and expense for the pur-pose of baving a complete and lasting establishment in this place, for which it appears its citi-zens have been long in want of. There will be no necessity, for the future, of any gentlemen putting themselves to the trouble and inconvenience of going or sending off to other parts of the country for their clothing, when they can be equally as well accommodated at home, where they get their own support. The pub-lic will please to recollect, that all the ingenuity and taste necessary to our business, is not particularly confined to one set of cities or townsthat Salisbury has a share; and we flatter ourselves we will establish the fact by the work which shall be turned out of our shop for the future.

We have become subscribers, annually, for ten years, to a couple of gentlemen in Philadel-phia, who make it a business to send the fashions to any part of the United States: the plan which they have adopted for that purpose, is so complete, that any person understanding it thoroughly, and possessing sufficient ingenuity and practice of cutting, and the great art of putting different garments together, (which we boldly assert we do) can give to their customers the different fashions with as much accuracy and taste as they can be got in Philade other town in the United States.

We have just received the latest fashions, which are quite different to those of the last season; likewise, one of us has just returned from off a tour to a number of large northern towns, and made it a business to go into a number of Tailors' shops in each town, for the purpose of gaining all the information possible, appertaining to our business. We hope, by paying that attention which our business requires We here return our sincere thanks to those who have encouraged us in our line of business lince our commencement in this place.

We would be very glad to take one or two boys to the business, who can come well recommended, and not over fifteen years old. June 3, 1825.
