POETRY.

FROM THE ALBUM.

THE GOLDEN AGE.

There was a time by gay creation's morn,
When rolled round labour's without a thorn,
When Beauty adored pain, found charm the brow
And lovers told, without the lovers sigh.

From fragrant orange groves, and citron shade,
The bird pair's first an fervent serenade,
Fireside began o'er the valleys rolled,
And trees bestrewn themselves enthralled gold.

The sweetbrier and chameleon, Elysian poetry,
Pure rills of nectar rolled o'er enchanted flowers,
That drank the sun, and bathed their golden crowns!
In the glad silence of the dynamite's breast.

The gems crept gleam, enthrone, superb and bright,
The gem-ribbed mountains wore their hair of gold,
The fields of pearl their harvests bore,
And fruits of diamond hid the swelling grounds.

The golden age to find to others shore,
Where angels crowd in compound love!
But we can taste its glories here, sometime,
The golden age will smile upon us yet. SENEX.

FROM THE PHILADELPHIA ALBUM.

BETTER MARRY THAN BURN.

BY ELLICE OSBORN.

In India, our day, an American sat
With a smart native lass at a window;
Do your widows burn themselves? pray tell me that,
Said the pretty inquisitive Hindoo.
Do they burn? that they do! the American said,
And that was the case with my mother;
Our widow, the moment her husband is dead,
Immediately burns—for another!

MISCELLANEOUS.

CRITICISM.

Among the critiques which the late message of the President has drawn out, on this and the other side of the water, there are few, probably, precisely of the character of the following. It is an extract from a much longer article published in the Pittsfield Sun. The calculation, as to the merits of the article in question, is an estimate at least, upon a *new* scale; we are not prepared to say how far it may prove to be an *improved* one:

"The history of the whole world, for 1657 years, contains but 4241 words. The part of that history which treats of the starry heavens has only five words. *He made the stars also.* But words, like other things, have multiplied. Gen. Burgoyne, of Saratoga memory, held two estates, by descent from his ancestors. These estates were called *Putney* and *Sotton*; once the possessions of John D'Gant, who deeded them away, by the following instrument:

"I, John of Gant,
Do give and do grant,
Unto William Burgoyne
And the heir of his loin,
All Putney and Sotton,
Until the world's rotten."

"But this was done in barbarous times, when members of Parliament would box each others ears, if one said that which displeased another:—Long before technical phrases were used to smother common sense, and a flood of words to drown ideas, 26 words were then sufficient for a transfer of lands.

"When Bonaparte was in his glory, he was consulted by the Protestant Bishops, in France, to know what they were to expect. His answer was—"Where conscience begins, Empire ends."

"At the inauguration of Mr. Jefferson, his speech contained something more than 1700 words; but the late Message has about 9000 in it. The President is certainly a man of words, and he knows how to put them together, for his learning is profound. About 86 such messages would make a book as large as the *Bible*, which contains 786,683 words."

CUSTOMS IN MEXICO.

The shops in Mexico have no signs nor names in front, and nothing is exposed in the windows. Silversmiths' work is done in a tedious manner, and is clumsy and heavy.—The tailors make a great profit, and clothes are three or four times dearer than in England. They sit on stools, and not with their feet under them. Milliners' shops are carried on by men. Twenty or thirty brawny fellows of all colors, may be seen in a shop, decorating dresses, sewing muslin gowns, making flowers, trimming caps, &c. while, perhaps, at the next door, a number of poor girls are on their knees, engaged in the laborious occupation of grinding chocolate by hand. Confectionary and sweetmeats are in great demand, and five hundred different kinds are made.—The druggists and apothecaries ask exorbitant prices. Mr. Bullock paid a dollar per pound for an article, the produce of the country, which is sold for fourpence in England.—Hops sell for two and sixpence per ounce, and other drugs in proportion.

Barbers are numerous and important, and the price of shaving is ten times more than in England. Cabinet-makers have but few tools, and their work is very inferior and expensive.

THE PRESS.

The following elegant Eulogium on the press is from the oration of D. Waldo Lincoln, Esq. delivered at Boston on the 4th of July last:—The Press, (says Mr. Lincoln) is the safeguard of public rights. It is the messenger of truth, the herald of science, the interpreter of letters, amanuensis of history, and the teacher of futurity. Like the sun, it illuminates the gloom of the Gothic night, irradiates the shade of ignorance, and pours a flood of knowledge on the world; it dilates the perceptions of man, extends his intellectual vision, inspires his heart with sensibility and his mind with thought, and endows him with past and present omniscience. It directs his way to the Pierian mount, and discovers to faith the radiate path by angels trod to Zion's holy hill."

FROM THE N. YORK DAILY ADVERTISER.

A short time since, Lieut. Ingalls found a curious animal in a bottle, that had been drifted ashore on Governor's Island. It had probably belonged to some gentleman fond of collecting the rare productions of the South. When it was presented to Dr. Mitchell by Major Howard of the revenue department, it was pronounced to be a *Mantis*, usually called the "Walking Leaf;" and apparently of the species called the *Praying Insect*, from the way it has of raising its body, and approximating its fore-feet, after the manner of a supplicating man. The Turks venerate this singular creature; and the Hottentots consider it with more exalted regard. Some of these insects inhabit Italy and the South of France; others the Cape of Good Hope, and others again S. America. It has been said that a straggler has been occasionally, though very rarely, observed in our country.

BUTTER.

In the dairies near Philadelphia, it is well known, that sweet butter of the first quality cannot be made but from cream *quickly* produced from *fresh* milk, and that whenever the milk remains many days to produce us cream, such cream acquires an unpleasant taste that is imparted to the butter.

Since the month of January, 1823, my dairy people have been in the practice of always placing the pans containing the milk in water simmering hot. The oily parts, which constitute the cream, are by such heat separated from the other ingredients, and then from their specific lightness, they of course ascend to the top in the form of cream. Cream is thus obtained during the coldest weather in winter, in the course of about twelve hours after the milk has been taken from the cows. And the operation of churning such cream never exceeds twenty-five minutes. The milk pans remain in the hot water about 30 minutes. The butter has invariably been of a fine flavor, and of a beautiful yellow color; and in the nature of things, it never can be otherwise, unless the dairy women should be utterly ignorant of the art of making sweet butter.

It may not be amiss to state to you, that the skim-milk under this process, is a very pleasant beverage.

R. SMITH.

BOILING MILK.

Perhaps it is not so generally known as it ought to be, that the boiling of milk before it is set away for the cream to rise, will completely divest it, and of course the butter made therefrom, of the very unpleasant flavor arising from the cows having fed upon garlicky pastures—the boiling ought to be continued for at least half an hour. *N. E. Farmer.*

MUSTARD.

The common mustard seed is worth from three to four dollars per bushel. An acre of good land will produce from 15 to 20 bushels. *Ibid.*

Flame of a candle.—It appears from a series of experiment, by M. Davies, of Manchester, that the flame of a candle is a conical surface, the interior of which is not luminous—a section of the flame being a narrow luminous ring surrounding an obscure disc.

A box of *human skulls* was brought to the New Orleans market a short time ago. We are not told for what this strange importation was intended.

All Persons

WHO are indebted to the late firm of Revell & Templeton, Tailors, in Salisbury, are earnestly desired to make settlement, by cash or note, as soon as possible, as it has become absolutely necessary to close the concerns of the firm. It is as painful to the creditor, as it is mortifying and perplexing to the debtor, to resort to the force of law for the collection of debts; from this consideration, then, if from no other, it is hoped those who are in arrears to the above named firm, will feel it to be their interest, as well as our benefit, to close their accounts with us.

THE FINE YOUNG HORSE *AERONAUT,*

He is a fine mahogany bay, the color most highly esteemed by the greatest judges on the subject, and free from all blemish or imperfection.

Æronaut was gotten by the celebrated imported horse Eagle; his dam by the imported horse Dion; grandam by Expectation, one of the best sons of the imported horse Diomede, out of a Medley mare, &c. Expection was the favorite horse of his day in North-Carolina, having beaten Rubicon, Molly Long-legs, &c. The celebrated horse Eclipse and Highflyer, of England, were both his great-grandsires; and the famous Horse Flying Childers, considered the fleetest horse ever known in England, or perhaps in the world, was the grandsire of Eclipse. Aeronaut will be shown at the terms of the Superor Courts in Salisbury, Statesville, and Lexington; where gentlemen disposed to view him, can decide for themselves whether he is not the finest young horse ever produced in this state. He will be found regularly at his station, except when taken to be shown at public places. His pedigree and reputation, will be further illustrated in handbills, at the commencement of the season. 99
