

The Carolina Journal, and a writer in the Western Carolinian, complain, and with much reason, we think, of the appointment of Judge Mangum to the bench of the Superior Courts, by the Council of State.

We have heard other objections to the appointment, which it is needless to mention—it is as popular here as in the west, and a strong hope is entertained that the Legislature will not confirm it.

CHEAP TRAVELLING.

The price of travelling in the Canal Packet Boats, on the whole line between Schenectady and Buffalo, is three cents per mile, including board, or two cents without board.

A late New York Evening Post exemplifies the truth of the above statement, in the publication of an anecdote respecting an itinerant merchant, commonly called a pedlar, who conveniently took passage on board of one of the Canal boats, just before dinner.

The Lone Mountain.—A letter from a gentleman to the Editor of the Georgia Statesman, says, "About two hours' ride from this, there is a lone, solitary Rock, that lifts its awful brow more than a thousand feet above all of the surrounding objects of the wilderness."

The Boston Traveller mentions that the demand for that able work the North American Review, has increased so much of late, that a second edition of the last two numbers, and a third edition of a previous number, are now in press.

We understand that Mr. Dawkins, the Commissioner to the Congress at Panama, left that place upon the adjournment of Congress, and has returned to England.

The editor of the paper printed at Poughkeepsie, Vermont, says that the quantity of grasshoppers in that part of the country, are equal to about 15 bushels to the acre; and that they destroy grass, corn, and potato tops, strip the orchards and forest trees of their foliage, and strip the mullein leaves to the very stock.

A curious phenomenon was observed a short time since in Winchester, in England. A shower of rain fell for several minutes—the moon and stars shining bright all the time, and not a cloud to be seen in the heavens.

Now-York Statesman.

RUSSIA. St. Petersburg, July 2.—The appearance of this capital is still very gloomy and it would, perhaps, be incorrect to attribute this general sadness only to the ceremonies which have succeeded each other for some months.

GRASS-HOPPERS. A silver mine has, it seems, been discovered in Adams county, Penn. An attempt is making to form a company to work it.

I do hereby certify, that I have extracted out of 25 or 30 lbs. of ore, coming from the place of Thomas Barnes and Robert Wesley, 11 ounces of silver, the cost required to make the extraction amounted only to three dollars, and it is my belief, that the iron and lead contained in the ore, will, if carried on on a large scale, pay for producing the silver.

From the Cincinnati Register, we learn that Mr. Jesse Beader, a citizen of that place, has recently invented an instrument which has long been a desideratum in mathematical operations. It is called a Universal Mathematical Measuring Instrument, and is calculated to afford new facilities, in taking courses and distances, without the use of any other instrument.

Sir W. Scott, in his article in the Quarterly Review, on the Colloidal papers, mentions a characteristic instance of an old Highland warrior's mode of pardon. "You must forgive even your bitterest enemy, Kenmuir, now," said the Confessor to him, as he lay gasping on his death bed.

At public meetings lately held in the counties of Bucks and Westmoreland, Pennsylvania, resolutions were adopted, eulogizing the character and qualifications of Gen. Jackson for the Presidency.

The Tarborough Free Press says, in this district, we understand that Richard Hines, Esq. the present member, and Dr. Thos. H. Hall, formerly a member, are candidates for Congress, at the ensuing election.

The editor of the 'New Hampshire Statesman,' has lost two subscribers from his paper, on account of the injury the produce sustained from the grasshoppers. Why not bring an action against them for damages? Without doubt he would recover.

It is stated in a late Athens Centinel, that Major Merriweather has declined being a candidate for a seat in the Congress of the United States, and that General Walter Colquett will offer in his stead.

Staf. Offer.—The citizens of Oxford (N. Y.) have offered a reward of \$300 to any person who will discover "an inexhaustible coal bed" in Chenango county! The citizens have the safe side of the question. How is the fact of inexhaustibility to be determined.

It is stated that 9000 strangers have visited Saratoga Springs during the present season. At present there are 1000 drinking the water. In one day 32 post coaches and hacks arrived with fresh cargoes.

A curious phenomenon was observed a short time since in Winchester, in England. A shower of rain fell for several minutes—the moon and stars shining bright all the time, and not a cloud to be seen in the heavens.

RUSSIA. St. Petersburg, July 2.—The appearance of this capital is still very gloomy and it would, perhaps, be incorrect to attribute this general sadness only to the ceremonies which have succeeded each other for some months.

There are no assemblies any where. The strangers, who are numerous in St. Petersburg, are induced, as their only amusement, to visit the public monuments, and the Court, when it is here. The sudden death of the Empress Elizabeth, threw all classes into consternation, particularly the people, by whom she was beloved.

Besides, that the emperor Nicholas is naturally disposed to clemency, he seems to think that chastisements inflicted, even on great criminals, would only augment the misfortunes which, for some time, have overwhelmed this empire. The diplomatic body assisted, the day before yesterday, at the funeral service to the memory of her Majesty the empress, the widow of

Alexander. In the evening, Marshal, the Duke of Saxe-Coburg, Extraordinary of His most Christian Majesty, assisted at the ceremony celebrated in the cathedral of St. Peter and St. Paul, the French journal of this town is filled with the details of the ceremonial observed on the arrival of the body of the Empress Elizabeth. The reigning Emperor and Empress are always present at the services performed evening and morning in the cathedral. The emperor, who duly appreciates the devotedness and loyalty of his subjects, has authorized the ensign of the dragon guard, Stierwood, to add to his family name that of "Faithful," in recompense for his conduct at the time of the conspiracy formed against the Emperor, against the security of the empire. The Senate have received orders to devise armorial bearings, or the family of the young officer.

In Rutherford county, on the 24th of August last, by the Rev. Drury Robbins, Mr. John S. Ford to Miss Sophia Weston Camp.

DIED. In Mecklenburg county, (Waxawa) on the 1st inst. of a bilious cholic, Mrs. Elizabeth Walkup, wife of Robert Walkup, Esq. in the 40th year of her age. The disease was too obstinate to be made to yield to any medical assistance; and she lived but 8 hours after she was attacked. She cheerfully submitted to her fate, under a hope of restoration to eternal happiness. In the death of this exemplary lady, society has lost a good member, and the settlement an excellent neighbor. She was an affectionate wife, and an indulgent but prudent mother. Her piety and holy walk through life endeared her to all her Christian acquaintances, and gave her an unshaken confidence in God. She has left an affectionate husband, and seven children, with many relatives and friends, to weep over her early grave.

At New-York, Sept. 4, the Hon. William P. Van Ness. He died of the house of J. O. Hall, Esq. without a moment's sickness, or any apparent pain. Judge Van Ness, after having filled several honorable public stations under the State Government, has been for the last fourteen years the United States District Judge for the Southern District of New-York.

Death in Montgomery, Alabama, on the 12th August last, after a confinement of three days by the bilious cholic, Andrew M'Boyle, Esq. deeply lamented. Mr. M'Boyle was born in Charleston, S. C. but his family, when he was in his infancy, removed to Salisbury, in North-Carolina, where he received a good education, preparatory to his entering on the stage of public usefulness. He was honored by many offices of trust in the county of Mecklenburg, and was elected Sheriff of that county.

More his residence among us, his conduct has been marked by temperance, urbanity, gentleness, industry, and brotherly love. No acquisition has ever tinged his character, nor the hand of slander dared to point the finger of scorn against him. For several years he has been an acting magistrate in this county, in which capacity he gave general satisfaction; his decisions were influenced by justice and compassion; and a disposition to do justice. The death of such a man is a loss to the community.

Mr. M'Boyle, who, at the time of his decease, was Master of Montgomery Lodge, was greatly beloved by his companions and brothers; and his mortal remains were entombed by them on Sunday last with appropriate Masonic honors, under the direction of Mr. N. E. Benson, Grand Master of the State. A disconsolate widow, and three children, remain to lament this sudden and sorrowful bereavement.

By Saturday's Mail.

FLUCTUA RETURNS. Tyrrel.—John R. Beasley, senate; Daniel N. Bateman, Frederick Davenport, commons. Huntington.—Bangs! Davenport, senate. Wilkox Bateman, William Armstrong, commons.

Let us yesterday received from Kentucky, says the Intelligence of this morning, announce the death of Hon. Robert P. Henry, a Representative in Congress from that state. He died very suddenly, about the last of August. As a politician, we knew comparatively little of Mr. Henry, except that he was held in much respect where best known. As a gentleman, he was of courteous and urban manners and a property of deportment, which secured him general respect.

LIFE FROM EUROPE.

London and Paris papers to the 31st July, and Liverpool to the 2d August, have been received at York. The New-York papers contain a variety of extracts from these papers, the most important of which are given below. Mr. Gallatin had arrived at Liverpool. News of the death of Messrs. Jefferson and Adams had been received in England. Mr. Canning was going to the continent. Cotton had improved a little. No material change had taken place on the continent, in the money or other markets, since our former advices. There were symptoms of a revival of trade in some of the manufacturing districts. Twenty-seven persons had been indicted for riotous and disorderly conduct at the Preston election. It is stated that an E. I. Company's ship had been purchased and converted into a 74, for the use of Lord Cochrane; she had sailed from London for Greece, completely equipped. This is important information.

Greece and Turkey.—The Greek Government has issued a proclamation for putting an end to piracy. It is reported that Tripolizza had been retaken from the Turks by storm and that Admiral Miaulis had destroyed two Turkish frigates in the Dardanelles. The Admiral was waiting to join Lord Cochrane who was daily expected.

Extract of a private letter of July 22, from Marseilles:—Fifty officers, sub-officers, and volunteers, for the most part of respectable families, sailed yesterday from this port, under the command of Lieut. Col. Baybard, animated with the desire of fighting as privates in the ranks of the Greeks. The vessel also conveys a large quantity of provisions and ammunition. Besides this supply, the brig La Jenne Emilie, with 500 muskets on board, presented to the Greeks by the Liege Committee, is ready to sail.

Extract of a private letter from Hermanstadt, in Transylvania, dated July 14:—"I have this instant received intelligence from Burcharest, that the Janissaries of Constantinople have gained a signal victory over their barbarous master. After having set on fire all the buildings destined for the new soldiery, they betrayed the Sultan in his palace, demanding the abolition of the new order of things in Bosnia, Andrinople, Sephia, and all the principal towns of the Turkish empire. mobs are daily formed who utter the most violent threats and swear to avenge their comrades. The Janissaries upon the Banks of the Danube have forced the Bulgarians to take arms and march with them upon Constantinople, which they wish to destroy. It is said that the Turkish Commissioners sent to treat with those of Russia, have received orders to stop at Selistria, where they wait for the Sultan's commands."

Third Creek, Rowan County, A. C. Sept. 16th, 1826.

Judge Murphey's Lottery.

TICKETS in this Lottery, are for sale at the Office of the Western Carolinian, Salisbury, \$5 each. The scheme (which will be found on the first page of our paper) is a very good one, and holds out as great a chance to adventurers for obtaining Prizes, as that of any lottery now before the public. The prospect of direct personal gain, is the first and greatest inducement with all who purchase lottery tickets, but there are others, and scarcely less powerful inducements, for citizens of North Carolina to purchase tickets in this lottery: every cent that is expended in this way, indirectly benefits all the people in the state, by contributing towards the publication of a correct "History of North Carolina," and will also minister to the relief of one of the most esteemed and useful citizens of the state. By reference to the scheme, it will be seen that the first drawing of the lottery takes place this week; that 500 tickets will be drawn out on each day's drawing; that 18 days drawing will complete the whole; and that the \$50,000 prize remains in the wheel till the last day. The drawing will be completed early in December; and as the lottery is made richer by every drawing, the price of tickets may rise after a few drawings; so that those who wish to take a chance for a fortune of twenty thousand dollars! would do well to purchase before tickets rise. Salisbury, Sept. 9, 1826.

F. PATTERSON, WM. P. WAUGH, JOHN FINLEY. Sept. 19th, 1826.
