 Salisbury, May 14, 1827. 62

REMOVAL.
Thomas Dickson, Tailor,
RESPECTFULLY informs his customers, and the public, that he has removed his shop from the stand he has for a number of years occupied, to a room in the building formerly occupied by Mr. John Murray as a Store, a few doors south of the Court House, in the town of Salisbury, where he is prepared to execute all descriptions of

Tailoring,
 After the newest fashions, on the shortest notice and most reasonable terms. Having made arrangements for receiving, periodically, from Philadelphia and New York, the latest fashions, accompanied with drafts and pattern papers, representing gentlemen in full dress, with the colors, he will be enabled to accommodate any gentleman with latest Coats, Pantalons, &c. cut and made after the very latest style in the United States.
 Summer Clothing will be made up on the shortest notice at the following reduced prices, to wit: Coats \$3; Pantalons, \$1 1/2; and Vests, \$1 1/2.
 Orders for every description of work from a distance, will be most faithfully executed according to direction, within the shortest time possible. Country produce received in payment for work at the market prices.
 T. Dickson tenderly acknowledges to those who have honored him with their custom, and hopes that their expectations will be fully satisfied, and a recommendation of their patronage, and a recommendation of his shop a trial.
 Salisbury, May 24, 1827.

Silas Templeton, Tailor,
 HAS just received the latest and most improved fashions from Philadelphia, accompanied with pattern papers, representing the different colors which are worn by the fashionable gentlemen of the city of Philadelphia and New York. The style of his fashions now received, is of a neat, elegant, and clean and elegant style, which is very becoming and elegant. All gentlemen who are desiring fashionable garments, may be assured that they can be well supplied at any other place in this or any adjacent States. Having in his employ a number of experienced dress makers, he is enabled to execute all descriptions of work from a distance, with the greatest accuracy and neatness, and in the shortest time. He is also prepared to receive orders for the most fashionable and elegant clothing, which will be made up at the most reasonable prices that he has been enabled to charge.
 He also here takes the liberty of expressing his sincere thanks to the public for the liberal patronage he has hitherto received, and he trusts that the style of his work, and the facility with which he will execute it, will ensure a continuance of the great number of orders which have hitherto been bestowed upon him.
 Salisbury, April 25, 1827. 59

BOOK BINDING.
 THE undersigned has removed his shop from the corner of Salisbury, and the adjoining building, that he may be better enabled to execute all kinds of work in his line of business. From a number of years experience in Great Britain and America, he is enabled to execute all descriptions of work in his line of business, and to give satisfaction to all who are desiring of it. He is also prepared to receive orders for the most fashionable and elegant clothing, which will be made up at the most reasonable prices that he has been enabled to charge.
 Salisbury, April 25, 1827. 59

The Latest FASHIONS.
RIBBON & WATS.
 HAVE just received, from Philadelphia, the very latest fashions in ribbons, wats, and the other articles of the North, accompanied with drafts and pattern papers, representing gentlemen in full dress, and the most elegant colors now worn, which will enable them to execute all descriptions of plain work at short notice, and on the lowest terms. They are grateful for the support already received in this place, and hope they will give satisfaction to all who are desiring of it.
 Salisbury, May 14, 1827.

Every man his own Miller.
 THE subscriber having purchased the right of Mr. Moses Mendenhall's Perpendicular, and William Benson's Horizontal Patent Great Mills, for Cabarrus county, and William Benson's for Mecklenburg county, now offers for sale these Mills, and the Single Rights, separately or by the number, on accommodating terms. Mr. John E. Mullan of Concord, is authorized to sell for the county of Cabarrus.
 The plan of both these Mills may be seen in Concord and Charlotte, at

The Wilkesboro' Hotel,
 IS now open, and amply provided for the accommodation of Visitors. Its local situation, in the Valley of the Yadkin, nearly central between the Blue Ridge and the Brushy Mountains, is picturesque, healthful and inviting; add to this a pure and salubrious atmosphere, excellent water, the agreeable society of a pleasant village, spacious and comfortable rooms, a well supplied *Ice-House*, and but little could seem wanting to insure the traveller a few weeks repose and enjoyment among the Mountains.
 The subscriber has been accustomed to this line of business in one of our Northern Cities, and he assures those disposed to favor him with their patronage, that no exertion shall be wanting, on his part, to render them most comfortable.
 The lines of STAGES from Salem to KODDYSVILLE, and from Chesapeake to Wilkesboro', stop at the Hotel, affording an easy access to the above Establishment. Fare for stage per mile, — way passengers, 64.

POETRY.
THE TWO FOUNTAINS.
 (BY MRS. S.)
 I saw from yonder silent cave
 Two fountains running side by side;
 The one was man's impid wave,
 The other cold oblivion's tide.
 O love, said I, in thoughtless dream,
 As'er my lips the Lethe pass'd,
 Here in this dark and chilly stream,
 Be all my pains forgot at last.
 But who could bear that gloomy tank,
 Whose joy was lost as well as pain?
 Quickly of man's fountain I drank,
 And brought the past all back again—
 Ah! said, O love, what'er my lot,
 Still let this soul to thee be true—
 Rather than have one bliss forgot,
 Be all my pains remember'd too.

MISCELLANEOUS.
STAMPAH.
 "Come then with me this morn'g join,
 "And ease my woe by telling thine."
 It is a pure stream that wells the heart of sympathy—it is an excellent tide that interests itself in the feelings of others—it is a heavenly disposition that engages the affections, and extorts the sympathetic tear for the misfortunes of a friend. Mankind are ever subject to ills, infirmities, and disappointments. Every breast, at some particular period, experiences sorrow and distress. Pains and perplexities are long-lived plagues of human existence, but sympathy is the balm that heals these wounds. If a person, who has lost a precious friend, can find another who will feelingly participate in his misfortune, he is well high compensated for his loss.—And delightful is the task, to feeling mind, in softening the painful pillow of the sick, amusing the thoughts of the unhappy, and alleviating the tortures of the afflicted.

YOUR LIFE.
 Whenever I was to be expensively happy I fell up to my recollection the past more comely as which thrilled in the bosom when it ad counsell'd about eighteen summer days. The age of romance, fancy, and imagination, in the time of my youth, and twenty, but there is no pleasure so exquisite as the first sensation which female loveliness excites in the bosom of a romantic youth. It appears to be the ecstasy of a higher existence. The object of his thoughts when afar off is sufficient to put him on flame. The very green sward which she treads acquires the character of holiness. The house in which she resides kindles the flame of devotion. But how soon all these fine feelings subside in the breast of the male sex! It glows, and flames, and burns for a few short years on each side of twenty, and then sinks down forever. The heart of woman is different. Love and affection are the absorbing of her whole existence. Man has a hundred other objects.

RECIPE for making Leather-Block Paste.
 Mix together a quarter of a pound of tallow, three ounces of common turpentine, one ounce of shellack, and one ounce of bees' wax. Make the tallow or shew perfectly dry. This is absolutely essential, and warm, and then rub in this mixture, as hot as possible, and repeat this operation every other day, for at least four times successively. The articles thus impregnated will be found perfectly water proof.

COMMODORE PORTER
 Long the hapless hero's name,
 Whose name on battle's field,
 Who longer dar'd for deathless fame,
 And for his country's good,
 Fung of him who met the foe,
 Fung on the stormy sea,
 Whose valor laid the tyrant low,
 'Mid shouts of victory,
 And where is he whose noble sublime
 Now gild the glorious name,
 Whose boldness down the tide of time,
 Shall light a future age?
 Aye, where is he whose blade hath drunk
 A tide of tyrants' gore,
 Whose wrath beat with the billows sunk,
 The proud of Albus' shore.
 O tell it not on Europe's strand,
 My country's shame shall be,
 An exile from his native land,
 Dishonor'd now is he,
 Dishonor'd now the cruel shame
 Stains not the hero's scroll,
 As bright and brilliant as his fame,
 As dignified his soul,
 But on the heads of those who thirst
 For vengeance void of laws,
 On hearts of robbers that curst
 The hapless hero's cause,
 Shall fall the curse of him forlorn,
 Who was from crime exempt,
 And they shall meet their country's scorn,
 The nation's cold contempt.
 Sat. Ev. Post. MILROD HARD.

SODOM AND GOMORRAH.
 Dr. Daubany, in his lately published work on volcanoes, endeavours to show, from the description of Moses, and from the present aspect of the country, that Sodom and Gomorrah were destroyed by a volcanic eruption, which the Deity used in executing his will against those guilty cities. He supposes that Lot's wife was overtaken by a stream of lava, which deprived her of life, encrusted her where she stood, and rendered her an admonitory example to future generations.

Lying.—As universal a practice as lying is, and as easy a one as it seems, I do not remember to have heard three good lies in all my conversation, even from those who were most celebrated in that faculty. Swift.

TO BUTTER MAKERS.
 Few articles of living are more indispensably necessary in a family, than good butter; and few that are more nauseous and unhealthy than bad butter, and a very great proportion of the butter brought to the market is bad. And much that is called good, is very bad when compared with that which is really good. This must, in a great degree, be owing to a want of knowledge in those who make it. If those who keep cows would adopt the following method of making butter, they would have more and better butter than they can have in any other way. Let your milk pails, pans, and churns, be always clean and sweet; let the milk you keep over night, be churned with what you milk in the morning while the latter is warm. In this way your butter will be sweet; and if you work out the butter-milk, and salt it well, it will be solid and good, and command the highest price in the market. Many persons while churning, are in a habit of putting water into the churn; and also of washing their butter with water; this is a bad practice, and should be avoided by all who wish their butter to remain sweet.

BLACKBERRY SYRUP.
 The present being not only a reasonable time to prepare this valuable medicine, but to recommend its usefulness, particularly amongst children afflicted with bowel complaints—a feeling mother offers the following recipe for public benefit:
 Take the fruit before very ripe, extract the juice, and to each quart add one pound of white sugar, skum and boil it about half an hour, when cool enough to bottle add a small tea cup full of brandy. From one to four table-spoons full, may be taken frequently, as age and circumstances require.

SEAMLESS SHOES.
 A method has been invented in England, of making a shoe from a single piece of leather, without a seam. The mode of operation is simple. Thick leather is taken, and cut to a shape resembling that of a common slipper when pressed flat; it is then split by knives, adapted to the use, and the upper portion being raised from the lower, is made to conform to the foot by stretching it on a last. The superfluous parts are then pared off, and the manufactured articles are said to exceed in neatness, and equal in durability, those made in the usual way.

Good Double Pun.—Somebody asked Baron Rothschild to take some venison. "No!" said the Baron, "I never catch venison: I don't hick it; I shoo coot ash mutton." "O!" said the Baron's friend, "I wonder at your saying so; if mutton were better than venison, why does venison cost so much more?" "V!" replied the Baron, "I will tell you v—in dish world de peebles always prefer what is deer to what ish sheep."

Valuable Discovery.—It is affirmed that a professor at Munich, of the Academies of Sciences, has discovered a method of rendering wood incom-bustible. He has combined caustic alkali in solution with a certain earthy substance, washed and sifted and applied on the wood, to which it gives a nitrous surface, which renders it almost impervious to water, and to all kinds of humidity. The architectural committee of the Theatre Royal, Munich, have made a trial of this method on two small buildings one of which was prepared according to the professor's plan, the other not. Fire having been lighted in both, the one was burnt, the other received no injury. The expense of the application was only two francs for 100 ft.

I once heard a gentleman make a very witty reply to one who asserted that he did not believe there was a truly honest man in the whole world. "Sir," said he, "I do not think possible that a single man should know all the world, but it is probable that some one man may know himself."

Professor Beccari, the celebrated Italian geologist and mineralogist, who has been travelling in Africa five years, at the expense of Mohammed Ali Pacha, as the Director of a European Mining Company, and who lately examined the gold mines in Senegal, is stated in a letter from Trieste from one of his friends, to have died at Cairo, just as he was on the point of returning to Europe with the valuable acquisitions which he had made in his travels.

WHAT WE CALL DEBTS.
 Every man ought to pay his debts—if he can.
 Every man ought to help his neighbor—if he can.
 Every young man and woman ought to get married—if they can.
 Every Representative in Congress and the Legislature, ought to inform their constituents what they are doing—if he can.
 Every man should do his work to please his customers—if he can.
 Every man should please his wife, (when it is very difficult,) if he can.
 Every wife should submit herself to the will of her husband—if she can.
 Every lawyer should tell the truth—if he can.
 Every preacher of the gospel should be a christian—if he can.
 And finally, every reader may add to the above, by paying the printer, if he CAN! —*Mrs. Gaz.*

GAMING.
 The love of gaming is the word of ills,
 With ceaseless storms the blacken'd soul it fills,
 Inveighs at Heav'n, neglects the ties of blood,
 Destroys the power, and will of doing good—
 Kills health, pawns honour, plunges in disgrace,
 And what is still more dreadful sports your face.
 On the rankled soul
 The gaming fury falls, and in one gulph
 Of total ruin, virtue, peace,
 Friends, families, and fortune, headlong sink.
 Thomson's Hibernia.

A tunnel from Liverpool to the Cheshire shore, under the river Mersey, is proposed, a distance of more than a mile. The length is much greater than that of the Thames tunnel. The expense is estimated at £200,000.

He that blows the coals in quarrels he has nothing to do with, has no right to complain if the sparks fly in his face.
