A nest of ranaway Negroes was lately broken up, in the fork of the Alabama and Towhighee meet, in the state of Alabama, by a party of geatlemen from Mobile and vicinity. Three negroes were shot, before the others surrendered, home of them had been runaways for several years,—had built two cabins, and were about putting up a fact, and establishing a regular rendezrous, from which they were to depredate on the whites. No doubt the lives of those who were not shot, will pay the forfest of their crimes. It is necessary they standed be rigidly dealt with, as a terror to those of their species who are slopeed to follow their guilty foot. who are disposed to follow their guilty foot-

The Charlotte paper complains of the leregu-lar receipt, at that place, of the National intel-ligencer, and sundry other papers from the north of the same politics; while the U. S. Telegraph, Richmond Enquirer, and others of like principles, come regularly to head. An irregularity in the assistal of the same papers is complained of at the office in this place; while papers whose politics are of an opposite com-plexion, come to hand as often as the mail-bag serives. The custome faculties of the Charlotte arrives. The guessing faculties of the Charlotte | left with my friend Col. It is not known that he was laboring under any alienation of mind; but it is thought that

" Jealousy, that green-eyed morater
"That doth make the mest it feeds on," was the mischievous cause of the commission of this unnatural act! . This is a striking illustration of the frailty of poor human nature. It is, to us unaccountable, how this old man should suffer himself to be worked into a belief of his wife's incontinency, when, from the waning season of their lives, it was naturally to be expected that all the sources of gallantry were long since dried up in both of them. The Richmond Enquirer says it has authentic assurances, that Jackson will get one half or two thirds of New-York. But the Whig, of the same place, declares its belief that he will not get, at most over six votes in that state. Perhaps to split the difference between these calculations, would not be far from the truth: which would give Jackson fifteen votes. PROM THE KRWYDORY REPORTER.

TO THE PUBLIC.

On my arrival at Wheeling, on the 23d in stant, I was informed that Mr. Carter Beverly, then at that place, had received the preceding night by mail, a letter from General Jackson, which he had exhibited to several persons, and russl, and which I was told formed a subject of general conversation, and had produced much excitement in the town. The Captain of the Beindeer baving kindly detained his steamboat for my accommodation, and as I was unwilling longer to delay his departure, I had only time the letter, and I now seize the first moment, after my arrival at home, to present it to the public, together with a copy of another letter addressed by Mr. Beverly to Col. Zane.

I purposely forbest, at this time, to make several comments which these documents authorize, and confine myself to a notice of the charges which General Jackson has brought forward in his letter.

These charges are, Ist. That my friends in him that, if he would say, or permit any of his confidential friends to say, that, in case he was elected President, Mr. Arlams should not be continued Secretary of State, by a complete union of myself and my friends, we could put an end to the Presidential contest in one hour

2dly. That the above proposal was made to Gen. Jackson, through a distinguished member of Congress, of high standing, with my privity

and consent. To the latter charge, I oppose a direct, unqualified, and indignant denial. I neither made, nor sutherized, nor know of any proposition whatever to either of the three Candidates who were returned to the House of Representatives at the last Presidential election, or to the friends of either of them, for the purpose of influencing the result of the election, or for any other purpose. And all allegations, intimations, and inuendoes that my vote, on that occasion, was offered to be given, or was in fact given in consideration of any stipulation or understanding, express or implied, direct or indirect, written or verbal, that I was, or that any other person was not, to be appointed Secretary of State, or that I was, in any other manner, to be personally benefitted, are devoid of all truth, and destitute of any foundation whatever. And I firmly and solemnly believe, that the first of the two above mentioned charges are alike untrue and groundless. But if (contrary to my full belief) my friends or any of them made any such proposition or offer, as is asserted in the first charge, it-was without my knowledge and

without my authority. The letter of Gen, Jackson insinuates, rather arrangement was proposed and made between Mr. Adams' friends and mine, by which, in the event of his election. I was to be appointed Secretary of State. I pronounce that charge also, as far as I know or believe, to be untrue and without the least foundation.

Gen. Jackson having at last voluntarily placed himself in the attitude of my public accuser, we are now fairly at issue. I rejoice that a specific accusation by a responsible accuser, has at length appeared, though at the distance of 2,000,000/. This deficiency is to be supfirst put forth, through Mr. George Kremer.— The opening commerce of South Amerisation is of the most serious nature. Hardly ca, and the operation of more liberal any more atrocious could be preferred against a representative of the people in his official Europe, are looked to as the sources character. The charge in substance is, that which are to rescue the country from its deliberate " propositions of baryain" were made by my Congressiona! friends collectively, through Congress to Gen Jackson The meet week Congress, to Gen. Jackson that mentioned that was, by these "means of bargain and corrup- Lord Cochrane" had struck a great blow, tion," to exclude Mr. Adams from the Depart- but the particulars had not transpired. ment of State, or to secure my promotion to office; and that I was privy and assented to these propositions and to the employment of those means.

Such being the accusation and the prosecutor, and the issue between us. I have now a right to expect that he will substantiate his charges by the exhibition of satisfactory evidence. In that event, there is no punishment which would exceed the measure of my offence. In the opposite event, what ought to be the judgment of the American public, is cheerfully submitted to their wisdom and justice. H. CLAY.

Lexington, 29th June, 1827.

The Washington Telegraph gives the followng note from the "distinguished member of Congress" who informed Gen. Jackson of the great intrigue" which he affirmed was going on. From this letter, we are led to believe, that in due time, a full developement of the "great intrigue" may be expected.
