ACADEMY AT WEST POLAT. The Board of Visiters at this institution made their report to the Secretary of War on the 31st of June. This report is very, favorable to the situation of the Academy In mathematical knowledge, the primary object of the establishment, the progress of the Cadets is not unworthy of the care lines;—Valling falled in lak, to very memory articles. bestowed; and as the course of instruc- p tion is limited to the brief periot of four years, the attention of the professors is particularly applied to certain branches of the general science. The mathematical course of the Aret year consists of the elements of algebra, geometry, descriptive geometry, analytical trigonometry, plain and apherical. During the accord or of the State, having arrived in the state of Transmee, took the throughged shadows, analytical geometry, differ and shadows, analytical geometry, differ place to partake of a public finner, as a testimogive geometry, the most important of the place to partake of a public finner, as a testimogive geometry, the most important of the ligh consideration of his social virgive geometry, the most important of the finner, as a testimogive geometry, the most important of the finner, as a testimogive geometry, the most important of the finner, as a testimogive geometry of the most important of the finner, as a testimogive geometry of the most important of the finner, as a testimogive geometry of the most important of the finner of the finne plain and spherical. During the second these branches in point of practical utill. turs and efficial services; which invitation he his principal opponent, which will probably ty, (since the graduates will frequently be politely accepted. Accordingly, an excellent is elected, 6/9; election. Col. John Willist employed where projects must be con. dinner was furnished at Mr. Slaughter of lames Anderson, to the b.majority, over C. ceived and developed, and then executed,) which, a respectable company of gentlemen,

The studies of the third year appear conducted with equal success; these embrace an extensive rourse of natural philosophy. The Visiters witnessed with high gratification, the display of analytic al application to some of the finest problems of the Newtonian philosophy. Pro voted to the principles of our free institutions.

2d. The University of North-Carolina, and the positions of serious difficulty were demon-strated in statics, dynamics, hydrostatics. &c. In the fourth year, the preparatory knowledge acquired during the preceding ones, is brought to immediate application to civil and military engineering. These, with military tactics, complete the course of instruction.

second year's course.

In connexion with engineering, is embraced the counideration of materials employed in constructions, of their properties, and relative filmest; of the construc-&c. In tactics, the manceuvres executed in the field, and illustrated on the black board evidenced the high advancement of the pupils; and of the drawing department, and the indefstigable teacher, employed in it, the Board speak in high terms, with a recommendation of an appropriation for supplying casts, engrav ings and other facilities, which are now much wanting. The civil economy of the academy is entirely satisfactory; and on the whole, say the Board, the institution possesses attributes that are pledges of its stability. They recommend that in future, the minimum period of admission. be fixed at the age of sixteen; the maximum at that of twenty. Batt. Amer.

THE MURDERER, DESRA.

In the pardon of longe B, Desha, (the murderer of Baker) the Gov. of Kentuckes Isaac's

" And, whereas the whole of the evi dence against the said Isase B. Desha. being treeoneilable. I HAVE NO DOUBT of demagogues. his being innocent of the foul charge; there fore, is an object worthy of executive clemener"-and therefore he grants the " full and free pardon for the authored offence."

On this the Frankfort Commentator remarks:

"Two different juries had found the young man guilty, upon testimony as conclusive, as perhaps ever was adduced against a criminal; and considering the great mass of testimony, it was remar kably clear of discrepancies. His father heard both of these trials, and yet, if we may believe his professions, thinks Isaac was innocent !"

Com. Porter .- The Richmond Enqui rer, in mentioning the orders for the U. S. West India squadron to proceed to Key West, says-" We understand from a source in which we place reliance, that despatches are to go out immediately from New York, in the Erie, commanding Com Porter to leave Key West. This will be all right, if our government, at the same time, should require Com. Laborde to wait the number of hours allowed by the law of nations for Com. Porter to start ahead."

Peace .- A letter has been received in Baltimore, by a late arrival, dated at Rio Janeiro, (capital of Brazil) the 23d of to bring home his two daughters. A widow, June, which says, that "on the 2d of the month, Mr. Garcia, the Buenos Ayrean Minister, sailed in the British sloop of war Heron, from Rio, on his return to Buenos Ayres, carrying with him the Preliminaries of a treaty of Peace between the two countries." The Baltimore editors, however, infer from verbal accounts; that the Emperor had proposed such terms, as would not be acceded to by the Bucnos Ayrean government, the latter, it is said, being required to renounce all claim to Monte Video and the Banda Oriental.

winting) we were under the necessity of pro-uring some made in this town,—which is ather a poor substitute for the genuine article; ad which, we are afraid, will leave on the ninds of the readers of our paper, a bian unfa-

DINNER to Gov. BURTON

His Excellency Hutchies G. Burton, Govern the Cadets possess adequate and exten citizens of Maliabury, and its vicinity, partook, sive knowledge; and their application of its principles in perspective, and shades and shadows, proved in a clear light to the Visiters, the powers of mental appli McClelland was called to preside, assisted by cation possessed prior to the close of the Charles Fisher, Esq. as Vice President. After dinner, the following toasts were drank, interspersed and enlivened by social conversation, and patriotic songs.

Ist. The Brate of North-Carolina: In the Revolutionary Struggle, but few of her sister ference, died in that city on Survey states made greater sacrifices in the cause of ult. after a short but painful illess. We are liberty; at this day, none of them are more degratified to learn, however, the the secret of

3d. The Judiciary of the state: An enlightened Judiciary, is a ours rafe guant of the people's rights. 4th. Our respected guest, Governor Burton
