ÆRONAUT.

Will stand the present cell, and to continue until the . 1st of August, at my stable in County, 10 miles from Salisbury, and 7 from Lexington; at the reduced price of eight dollars the season, payable by six dollars within the season; four dollars, prompt payment, the single lead; and excive dollars to insure a more to prove with foal, due as soon as the mare proves evidently with foal, or the property is transferred. Æronaut will stand in Salisbury and Lexington the four first days of each term of the Superior and County courts; when and where he will not sirrok from a comparison with any horse in America, as to symmetry and elegance of form, vigour of constitution and force of muscular power, combined with the finest action. He will be very generally found at his station, except when taken to be shown at public places, or to a small distance occasionally to oblige, for a single day or two, a particular neighbourhood.

Description .- Fronaut is a fine mahogany bay, with black legs, main and tail, a han-lsor and small blaze in his face, seven years old this spring, sixteen hands high; uniting, in a high degree, the size, grandeur and elegance of his sire the Imported horse Eagle, with the great substance, power and compactness of the sire of his dam, the Imported horse Dion. His great strength of body and limbs entitle him to stand high as a horse of power, and will enable his stock to carry weight at any requisite age, and render them more suitable for the harness, saddle, or draught, the most useful portion of their labour. Æronaut has never been trained to the turf, in consequence of there being no races near him when he should have been trained; yet his great power, symmetry and blood, and particularly the strength of his limbs, have made it evident to the best of judges who have inspected him, that he must have been a distinguished runner if he had been judiciously train-

Pedigree .- Econaut was sired by the Imported horse Eagle, his dam by the Imported horse Dion, gran-dam by Expectation, (one of the best sons of the Imported horse Diomede, out of a Shark mare) great grandam by Mr. Buc-hannan's thorough bred running horse Medley, out of a Celar and Fearnought mare, named Kouli-Kan, a fine chesnut, fifteen hands and a half high. From which it is evident, as far ashis ancestry can be traced, he must be very nearly if not entirely thorough bred, and from the most select stock of borses ever known in England and America, as will appear by the following statement :

ed at the proper time.

Eagle, the finest horse that ever was seen, and was the speediest home at Newmarket, or even in England, since the day of Childers: the above was headed in London, August 1st, 1810, by Thomas H. Morland.

Eagle was sired by Volunteer, Volunteer by Eclipse; Eagle's dam by Highflyer, gran-dam by Engineer, great gran-dam, Cade's Lass of the Mill, by Traveller, Miss Makeless, &c.

We do certify, that the above is the true pedigree of the Imported Horse Eagle, as taken from the English stud-book. Given under our hands, this 15th December, 1817. Walter Bell, John Roberts.

Dion was sired by Spadille, one of the best sons of the celebrated English horse Highflyer; his dam, Faith, by Pacolet, &c. Of Highflyer, it is stated that few horses in England were ever equal to him, and none superior, in united power and action.

Eagle's uncommon performances in England on the turf, entitled him to rank higher than any other horse on the continent, of his day, having won 400 guiness at York, beating Kite and Overton, seven subscribers. The same year he won 1800 guineas: he won the Craven stake at Newmarket, eleven subscribers, beating Whiskey, Alston, (first fruits of Ploughboy) Sir Sidney, Itobin Redbreast, &c. And after a long and successful career, almost without a parallel in the modern racing calender, he finally won 200 guineas at Newmarket, carrying 113 lb.; and beat Mr. Watson's b. c. Dread nought, carrying 78 lb.; and carrying 9 st. heat Sir Charles Bunbury's Eleanor, the finest mare in England, carrying 7 st. 9 lb., &c. &c.

Eagle's colts in England have been uncommonly successful, agreeably to the !ime of his standing there, which may be seen by the racing calencier; and many of his colts in America have distinguished themselves as eminent runners, in Virginia, Maryland, Tennessee, and at the City of Washington, as will appear by the aunexed certificates of John M. Clay, A. B. Drummond, and Lewis Sherly.

I do certify, that I trained and ron a colt by the imported horse Eagle, when three years old, four times; beating three races out of four; two of the races two mile heats, and two three mile heats, running one of the races in better time than I believe was ever run over the Nashville turf, in any Jocky Club, running both heats hard in hand, without either whip or spur. The race he lost, was owing to his being sick : the same horse he distanced a few weeks after Given under my band this 11th February, 1817. JOHN M. CLAY.

February 12th, 1808 .- This is to certify, that I trained the celebrated race more Lady Richmond; she by the imported Eagle; and ran her two races, which she performed exceedingly well. I have also known her run many first rate races at the different courses, winning at Newmarket, Warrenton, and several other courses, beating good nags, at one, two, and three heats. I also trained an Eagle colt, at three years old, which I found to possess uncommon speed. Given under my hand as above dated. A. B. DRUMMOND.

and fall of 1819, in Maryland, they were very successful.

The celebrated English horses, Childers, nought, all the immediate progenitors of Aronauf, were famed for their great substance or tiz: all under five years of age, to carry 148 lb.; prayer of the petitioner, and all over five, 168 lb. Medley ran 4 miles Attest: ISAA in 7 minutes and 30 seconds carrying 145 lb. Childers ran 4 miles 358 yards, in 7 minutes and 30 seconds, carrying 128 lb. Eclipse ran 4 miles 350 yards in 8 minutes, carrying 168 lb. Dion ran with such universal honesty, as to win 4 mile heats twice in one week: he was the are of Gallatin, Don Quixotte, and several other apital runners. Gallatin was very nearly allied to l'arthenia, the dam of Eronaut, being both by Dion, and both from Medley mares; he was will be plead in bar. W. B. evel produced in North-Carolina, having run two miles in 3 minutes and 30 seconds, so affir-med to me by Mr. Lacy; and carried the heavi-est weights, and beat all the best horses of his day, the longest distances, and never failed in his speed or limbs. Although Fearmought, Medley, and Dion, left a numerous stock of celetrathd runners of great weight of body. I have yet to be informed that any of them ever gave way in their limbs, a deficiency always to apprehended from a light, filmsy race of horses, when they have to carry heavy weight. Aronauf's colts are uncommonly large, fine

and vigorous, very generally resembling their sire, in colour, figure and gaiety. ROBERT MOORE.

DAVID C. McNEELY.

The following lines are taken from the New-Haven (Connecticut) Journal; they were composed on the lamented death, by small pax, of Mr. David C. McNeely, son of Mr. James Mc-Neely (nut of Sunnual McNeely, as inadvertently mentioned in our last) who departed this life on the 25th March, 1828, near the city of New Meyers. Connecticut. He was a member of the Haven, Connecticut. He was a member of the Senior class in Vale College, and would have graduated in June next, had his life been spared.

Comrades, ye're gathered in your crowd!
Your whispers tell the hour's on; Why linger ye slowly to tread, The road of shadows you? Ye will not see him gathered here, No requiem shall be said; The oft trod able is allest th Nor up, ye'll bear the dead !

Ye've said your prayers, sudly and lorn, Where your young hearts were full; And late, ye saked a day for him, A man, now in his pall! Ye will not find his like again, Of all your gathered crowd :-Tho' oft ye'll seek a fellow one, Of him now robed in his shroud!

Who was the man without a foe; Of all your number, men? To you small band of mourners go, And ye may look on him! Ay, he was the noblest, among Your southern dark-eyed men! Death marked him, the manliest of your throng And ye've not looked on him!

On, comrades, on to yonder steep, That ye may mark his hearse; Ye there, far-off, may lonely weep, As on they wend their course. Quick ye your pace! the knell is tolling! They'll move ere ye are on ;-I mark your bursts of manly feeling, Ye are soft hearted, men!

Slowly, bearers! slow with your trust, Par-off eyes are on thee ! Ve bear a high-soul, southern boy's dust, With " Brothers" behind thee. Ye've reached the place of burial, Where now ye will lay him; Break, Brothers, break ye your thin file; And gather ye round him.

Now we are sad! 'tis manly to weep, While earth o'er him is colling! Other warm hearts from the heights, are deep While his requiet is telling.

CONVEYANCE OF SOUR D.

The wide spread sail of a ship, rendered concave by a gentle breeze, is also a good collector of sound. It happened once on board a ship sailing along the coast of Brazil, 100 miles from land, that the persons walking on deck, when passing a particular spor, always heard most distinctly the sound of hells, varying as in human rejoicings. All on board listened and were convinced, but the phenomenon was mysterious and inexplicable. Months afterwards, by comparing notes, it was ascertained, that at the time of observation the bells of the city of St. Salvador, on the Brazilian coast, had been ringing on the occasion of a festival; the sound, therefore, favoured by a gentle wind, had travelled over one hundred miles of smooth water, and had been brought to a focus by the sail in the particular situation on the deck where it was listened to. It appears from this, that a machine might be constructed having the same relation to sound that a telescope has to light.

" Old Maids."- With all due defer-

ence to wiser heads, we cannot believe that the state of " single blessedness" is the best subject in the world for ridicule. If it be indeed a blessed state, it will hardly admit of the said ridicule; if it be an unfortunate one, it shows neither good sense, nor good feeling, to ridicule it. Ridicule is an exceedingly good remedy for the follies, but a very bad one for the misfortunes of mankind. As it respects "Old Maids," that man must be a very churl, an unchivalrous, ungalfant, unjust, shallow sort of a fellow, who undertakes to satirize them as a class. If there be any among them who think it really desirable to be married. but have been neglected thus far, they are rather to be pitied than laughed at ... If they do not think it desirable, they are not subjects of pity certainly, and we think, not the best of all subjects. of ridicule. We know that ignorant, weak-minded people delight in painting them, as a sour, disconsolate, unhappy race of beings. But if they were so miserable as they are represend ted, what a magnanimous, heroical exploit it must be for a gentleman to attack and beat them, " all hollow !" But that is not so easily done. If we were disposed and had room, we might mention Elizabeth Carter, Hannah Moore, Hannah Adams, and 2 host of others, the very snap of whose Manufactures .- An English paper, pen, would put to rout forty dozen in speaking of the progress of manu- of their puny satirists.
