John Leland The New-Haven Connecticut Register publishes a long letter of this aged Baptist Minister, preceded by some remarks in which it is stated, that he wrote several political pieces in favor of President Jef. ferson, and was deputed by the. democratic inhabitants of Cheshire, (Mass.) to present the immense cheese, made in that town, to Mr. Jefferson. Mr. Leland was elected a member of the Massachusetts legislature, and was very active in procuring the repeal of the certificate law, In this le ter, Mr. Leland states that he has been in the ministry more than 53 years-has travelled 80,000 miles-preached 10,-000 times-and baptized 1458 persons. He has 82 descendants living ; and is himself now in good health.

The value of this excellent medicine, in cases of consumption, is liable to be diminished, and its character destroyed, by the indiscriminate use of the whole plant; whereas, the leaves alone ought to be employed. Dr. Hereford, of Haymarket, Virginia, to whom the public are indebted for a knowledge of this medicine, in the disease mentioned, has recently cautioned the invalids against using the root, as it contains a nauseous bitter, and possesses none of the virtues of leaves,

Steel .- A discovery has, it is stated, been made in the arts in Paris, (France) which promises to be of the highest importance. An English gentleman has succeeded in making the best sheer steel from M. Crawshay's common No. 2, iron. He asserts that by his process, he is able to convert the very worst iron of any country into sheer steel. A knife of this steel is described as a temper to cut iron pears that by the new process the steel than by the former methods, while it is also much tougher, therefore highly valuable for mining operations.

named their respective Plenipotentiaries, that is to say : The President of the United States of Amer.

ica. Albert Gallatin, their Envoy Extraordinary Minister Plenipotentiary to His Britannic and

And His Majesty the King of the United King dom of Great Britain and Ireland, the Right Honorable Gharles Grant, a member of His said Maesty's Most Honorable Privy Council, a member of Parliament, and Vice President of the Committee of Privy Council for Affairs of Trade and Foreign Plantations; and Henry Unwin Addington, Esquire ;

Who, after having communicated to each other their respective full powers, found to be in due and proper form, have agreed upon and concluded the following articles :

Asr. 1. All the provisions of the Convention concluded between the United States of America, and his Majesty the King of the United Kingdom of Great Britain and Ireland, on the 3d of July, 1815, and further continued for the term of ten years by the Fourth Article of the Convention of the 20th of October, 1818-with the exception therein contained, as to St. Helena, are hereby further indefinitely, and without the said exception, extended and continued in force, from the date of the expiration of the said ten years, in the same manner as if all the provisions of the said Convention of the 3d of July, 1813, were herein specifically recited.

Any. 2. It shall be competent, however, to either of the contracting parties, in case e ther should think fit, at any time after the expiration of the said ten years-that is, after the 20th of October, 1828-on giving due notice of twelve months to the other contracting party, to annul and abrogate this Convention ; and it shall, in such case, be accordingly entirely annulled and abrogated, after the expiration of the said term of notice.

ART. 3. The present Convention shall be ratified, and the ratifications shall be exchanged in nine months, or sooner, if possible.

In witness whereof, the respective Pleni-potentiaries have signed the same, and have affixed thereto the seals of their arms.

Done at London, the sixth day of August, in the year of our Lord one thousand eight hundred and twenty Gum seven.

MISCELLANEOUS LORD'S PRAYER.

The following is a literal translation of the Lord's prayer in Cherokee. F Wilkes county, a negro Boy, who says his Our Father who dwellest above, honored be thy name. Let thy empire like wood, and a file to be superior to spring to light. Let thy will be done all preceding manufactures. It apon earth as it is done above. Our food day by day bestow on us. Pity acquires a greater degree of hardness those who sin against us. And lead us not in any place of straying, but, on the other hand, restrain us from sin. For thine is empire, and the strength and the honor. So let it be.

AN EPIGRAM.

Women are made, so fate declares, To smoothe our linen and our cares ; And 'tis but just ; for, by my troth, They're very apt to ruffle both !

Diamonds .- The ancients attributed extraordinary virtues to the Diamond. They believed it could not be broken even by the greatest blows, but Pliny says, if it be soaked in the blood of a goat, it may then be broken. The ancients believed that a dimond kept in the house would prevent domestic strife between man and wife. This was mere idle imagination, but there is a diamond that may be kept in every family, which has this virtue: it is good temper.

A young lady was once told by a married lady, that she had better precipiate herself from off the rocks of the Passaic Falls, into the basin beneath, han marry .- The young lady replied. "I would if I thought I could find a unband at the bottom."

MATRIMONT. "My dear, what makes you always yawn ?" The wife exclaimed-her temper gone-" Is home so dull and dreary ?" "Not so, my love," not so ; "But man and wife are one, you know, "And when alone I'm weary."
