

The last Bartlett Yancy... at a numerous meeting of the citizens of Caswell county, on the 11th inst. James Hainey in the chair, Jas. W. Brown secretary, it was resolved to wear capes 30 days in testimony of their esteem and respect for their late distinguished fellow-citizen, Bartlett Yancy, Esq.

Stephen D. Miller, Esq. senator in the South Carolina legislature, from Sumpter district, was complimented with a dinner there on the 11th inst. at which he was nominated as a candidate for Governor of that state, when the present incumbent's term shall have expired; and he will probably be elected.

Extensive damage has been sustained on the borders of Connecticut river, by a great flood in that stream in the beginning of this month. Great numbers of bridges, mills and other buildings, were swept away and destroyed; farms overflowed, and every movable article swept away. In an estimate of the damage sustained, by the Hartford Times, it would seem that one million of dollars would not make good the losses.

Premature burial.—A young lady in Philadelphia, aged about 19, having, as was supposed, died, was prepared for the grave; but while the grave was filling up, a groan was heard, the coffin was taken up, and opened: and it was found that the unfortunate girl had turned over, and blood had oozed out of her mouth and nose; every effort was used to resuscitate her, but without effect. Premature burials should be guarded against, particularly in warm seasons.

Dividends.—The Boston, Massachusetts, Insurance company, have declared a dividend of six per cent. on their capital stock, as the profits of that concern for the last six months. Insurance companies, we have noticed, almost invariably declare larger dividends than banking corporations.

Mulberry Trees.—At the present time, when our citizens are beginning to turn their attention towards the rearing of Silk Worms, and the manufacturing of silk, the following hint as to raising the mulberry tree, on the leaves of which the worm is fed, comes very opportunely:—

The quickest and most certain mode of raising the mulberry tree, is from cuttings of the old branches. Take a branch in the month of March, 8 or 9 feet in length; plant it half its length in any good soil, and it will succeed to admiration, producing fruit the following spring.

James Boyd, a respectable young man, aged 18 years, was thrown from his horse in returning from the race course in Warrenton, in this state, on the 15th inst. and killed. An esteemed citizen of this town, a few days since, very narrowly escaped the fate of young Mr. Boyd, in a similar way: he was seriously injured, but has nearly recovered.

In Vermont, Mr. Crafts, late member of Congress, has been elected Governor; and Mr. Olin Lieut. Gov. In the 3d district, there were a number of candidates for congress, and accordingly no choice was effected, it requiring, by the constitution of that state, a majority of the whole number of votes given in, to elect. Messrs. Mallory, Hunt, and Swift, are re-elected. From this election, it would appear that the Jackson men are very strong in some parts of Vermont.

Battle of King's Mountain.—Several militia companies of Lincoln county, in this state, and York district in South Carolina, contemplate celebrating the anniversary of the battle of King's Mountain on the spot, which is on the borders of the two states.

Melancholy.—Samuel H. Pullen, Esq. cashier of the Edenton branch of the State Bank, committed suicide on the morning of the 15th inst. by shooting himself thro' the head with a pistol. For several days previously, he had exhibited symptoms of mental aberration. He was a widower, and left two helpless children. He wrote a letter just previous to committing the desperate act, the purport of which is that all his affairs with the bank were perfectly straight; and from his character of probity, there was no doubt on that score. This is the second calamity which has befallen that institution, within a short time since; as it will be recollected a fire broke out in the bank on the 23d ult. which did considerable damage.

Factories.—It is mentioned in the Yorkville Pioneer, that Col. Breithaupt, of Edgefield district, S. C. has just returned from the north, whither he has been for the purpose of gaining information relative to the manufacturing business; and that he has determined forthwith to build a factory in Edgefield. It also states, that a gentleman of Spartanburg district has gone north, for the purpose of procuring machinery, with which to start a factory in that district. Success to their enterprise... this is the best kind of opposition to the tariff.

The President of the United States returned to Washington City on the 13th inst. from a visit to Massachusetts. His friends in New York had prepared to give him a dinner on his passage through that city: but the ill health of the President, Mrs. Adams, who it seems remained in Washington, induced Mr. A. to decline the dinner, and hasten on to the seat of government, to see after his family, and the affairs of the nation. He took care not to travel on the Sabbath, in returning, having been very roughly hauled over the coals by his Yankee friends for committing that wickedness in going, as our readers will have seen from divers articles recently in our paper on the subject.

New-York.—Our readers are already advised, that Judge Thompson and Francis Granger, have been nominated as the administration candidates for Governor and Lieut. Gov. of New-York. Judge Thompson has given a kind of negative approval, if we may thus speak, of the nomination. But Mr. Granger, having been nominated for Governor by an anti-masonic convention at Utica, has, in a letter published in the papers, declined the latter honor, but says he has, hitherto, neither accepted nor declined his nomination by the Adams party as Lieut. Gov.; and seems to be greatly perplexed what to do about it.

The anti-masons, however, have relieved Mr. G. from all difficulty in relation to themselves, by relinquishing all claims on him, and nominating Solomon Southwick, Esq. Editor of the National Observer, and ring-leader of the crusaders against masonry, as their candidate for Governor.

of the great state of New-York. All these doings, it will be recollected, are the work of the Adams people; the friends of Jackson have not yet made their nomination; their convention will meet at Herkimer the last of this month, when their candidates will be nominated, who will doubtless be such men as the republican party will unite on, and secure their triumph, by a handsome majority.

We have received a specimen sheet of a Religious Newspaper, styled The Evangelical Port Folio, by the Rev. Colin M'iver, of Fayetteville: It is in the form of a newspaper form, on a full demi-sheet. Mr. M'iver proposes, should he meet with sufficient encouragement, to continue the publication of a paper like it, once a week, at \$1.50 per annum. We hope the paper may be encouraged; such a periodical is needed in North Carolina. Were all those in this state who support papers of a similar character from abroad, to take this, it would be well supported. The Rev. editor is so well known to our readers, as a gentleman of respectable literary and theological acquirements, of irreproachable seal in the holy cause of his Divine Lord and master, and of untiring industry in whatever he undertakes, that it would be entirely supererogatory for us to say one word in his commendation, for we could not add a jot or tittle to his well-deserved eminence: all we can do, is to advise our Christian friends to take his paper.

Col. Ratliff Boon, a thorough-going Jacksonite, is elected to Congress from the 1st congressional district in the state of Indiana, over Col. Blake, the sitting member, and an Adams man, by a majority of 77 votes: this fact has been announced by Mr. Blake himself, in a letter to his friend in Washington. He admits that many friends of Jackson voted for him; and is compelled to give it up, that Indiana is decidedly for Jackson.

Maine.—By the recent state elections in this state, it appears that the Jackson candidates for the legislature had a majority of votes over their Adams opponents in the Cumberland Electoral District. If this election is any test of the Presidential strength there, Jackson will get one vote in Maine. About 1-3th of the members of the legislature are Jacksonians. Rather squally for the powers that be!

Counterfeiters.—We mentioned, in our paper of the 2d inst. the apprehension of a gang of counterfeiters in Guilford county, who had spurious \$10 bills on the branch of the United States Bank at Mobile: it appears some of the same concern had an establishment in Montgomery county, at the house of a man by the name of Joel Hurley. Some short time since, three of the accomplices, by the names of Lewis, Blakey, and Griffin, were taken up, and examined in Lawrenceville; various implements for counterfeiting were found on them, but as they had no spurious money with them, having probably hid it, they were very improperly discharged. Soon afterwards, however, further light having been shed on their transactions, a warrant was issued for their apprehension again; but in the mean time they had, (with the exception of Griffin, who was taken, and is now in jail) very prudently for their own safety, fled; young William Hurley, who had been detected in passing some of their money, escaped with them. They left behind a considerable quantity of their paper, unstamped, and various other implements for counterfeiting and altering bank notes. Besides the U. S. notes above-mentioned, they had made and put into circulation \$1 notes on the State Bank of North Carolina. The public should be on their guard against taking this spurious emission of money.

Maj. White: At a muster, in Lincoln, on the 18th September, of the officers of the 21st regiment, commanded by Col. Peter Hoke, it was proposed and agreed to ascertain the sentiments of the officers present, on the pending presidential election; the result of the vote was, For Jackson, 42 Adams, 15

On the succeeding day, at a review of Col. Reinhardt's regiment of cavalry, the vote was also taken, which stood, for Jackson, 59 Adams, 23 "On the fence," 2

The above officers and troopers are citizens from every section of Lincoln county; and the vote was fairly taken, without any preliminary remarks to the prejudice or in favour of either candidate. It is therefore reduced almost to a certainty, that Gen. Jackson will receive, in this county, at the Nov. election, at least two-thirds of the votes.

LATEST FROM EUROPE. By the arrival of the ship John Jay, at New York, from Liverpool, London papers to the 7th August have been received. There is a report of an engagement between the Russians and Turks, between Shumla and Verna, having turned out very unfavorably to the former. Ireland.—A paragraph from Sligo, August 1st, says: "Mr. O'Connell left this at two o'clock to-day for Boyle. I have just had authentic intelligence of the organization of a plan in that town, for the purpose of assassinating that gentleman. Particulars hereafter." Russia and Turkey.—Letters from Bucharest state, that, at a council of war held at Karasou, it was resolved to employ all means to penetrate to the capital of the Turkish empire, as soon as possible, in consequence of the serious preparations making by the Turks. The Porte continues obstinate, or, at least, shows little signs of coming to terms. Greece is much the same as usual. Austria is beginning to move a little. Portugal is in a most deplorable state indeed. The inauguration is expected to be restored. In practice, indeed, it has been restored, and with all its horrors. The London Courier ridicules the French expedition to the Morea. The English papers are full of speculations and remarks on O'Connell and the Clare election. The following are said by a London Morning Paper to be the secret articles

of the Treaty of Tilsit. If true, it will be seen that Russia is now going to act upon the first article. "Art. 1. Russia shall take possession of European Turkey, and shall extend her conquests in Asia to whatever extent she may think fit. "Art. 2. The reign of the dynasty of the Bourbons in Spain, and of the house of Braganza in Portugal, shall cease. A Prince of the family of Buonaparte shall reign. Rome and its dependencies shall be re-united to the Kingdom of Italy. "Art. 3. Russia undertakes to assist France in her naval force in the conquest of Gibraltar. "Art. 4. France shall take possession of the Cities situated in Africa, such as Tunis, Algiers &c. and at the general peace all the conquest which France may have been able to effect in Africa, shall be given as indemnities to the Kings of Sardinia and of Sicily. "Art. 5. France shall take possession of the Isle of Malta, and no peace shall be made with England until she shall have ceded that Island. "Art. 6. France shall take possession of Egypt. "Art. 7. The navigation of the Mediterranean shall be permitted only to French, Russian, Spanish, and Italian vessels—all the other nations shall be excluded from it. "Art. 8. Denmark shall be indemnified in the North of Germany, by the House Towns, on condition, however, that she will consent to place her squadron in the hands of France. "Art. 9. Their Majesties the Emperor of Russia and of France shall agree between themselves upon a regulation by which no other Power shall be permitted for the future to send merchant vessels to sea, unless that power keep up a certain number of vessels of war. According to the French papers, a congress of all the powers was to be held at Laybach. Don Miguel had formally declared his acceptance of the Crown, and on the 7th July took the oath, at the Palace of Ajuda, in conformity with what was done in the Cortes held in the year 1841.

FAYETTEVILLE, SEPT. 18. New Cotton.—We learn that 12 bales of new cotton have been brought to this market within a few days past; and sold readily at 9 3-4 to 10 cents. The quality is very good. Observer.

GREAT NATURAL WONDER! The following is a copy of a handbill published in Liverpool, England; the gentleman who brought it to the United States, declares that he saw himself, in the eyes of the child, the letters and figures described in the handbill: Natural Wonder.—Just arrived in this town, under the patronage of the nobility of Scotland, one of the greatest Wonders of the World, in the detection of human guilt.—The marvellous work of divine providence is strikingly displayed in this wonderful boy, which the nobility and gentry are respectfully invited to behold. A woman residing in the Spring Holme, in the parish of Urr, in the county of Kirkcudbright, became pregnant, and the father of the child repeatedly declared that he would not own it, unless God sent it into the world with its father's name on its forehead. To the astonishment and wonder of all, it was born with its father's name, John Wood, in his right eye, and year of his birth (1817) in his left eye.

The boy has been visited by the nobility and gentry, and also by the College of Physicians of the cities of Edinburgh and Glasgow, and also by a great number of Medical Men in other parts of the Kingdom, who allow him to be the Greatest Wonder ever beheld, and a warning to the guilty, to beware of rash vows.

The Boy cannot walk, but has a very good address, and being afflicted with the Water in the Head, was recommended by the Faculty to travel, to endeavor to improve his health.

The Lieut. Governor of Upper Canada has expressed his intention to put a stop to all distilleries in that province, for a time, in consequence of the disastrous results of the grain harvest this season. Wheat is now one dollar and a half per bushel, and will probably soon be raised.

Benjamin Bailey, John Targee, and Stephen, Allen, Esquires, are nominated by the friends of General Jackson for Presidential Electors, from the District composed of New York city and county.

So perfectly transparent was the atmosphere after the late rains in New-York, that the Moon and the planet Venus were seen as distinctly as at twilight, at 9 o'clock, A. M. notwithstanding the blaze of the morning sun.

The communication of G. on the subject of Assault and Battery cases in the county courts, shall be attended to in our next.

The communication from Mecklenburg, relative to Gen. Jackson's birth-place, shall appear in our next.

The steamboat Grampus burst her seven boilers lately, near New-Orleans and was completely wrecked. Seven persons were killed and five are missing, who are probably drowned.

M. Irwin, on the 11th inst. Mr. Charles Churchill, formerly of the state of Connecticut, to Miss Matilda, daughter of James Johnston, Esq. of that county. Also, on the same day, H. Young, Esq. attorney at law, of South Carolina, to Miss Lucy, daughter of Capt. John Young, of that county.

DIED. In Anson county, on Rocky river, near Austin's Gold Mine, on the 17th inst. Mr. Green Deberry Austin, eldest son of Col. Jacob Austin, aged 25 years. Also, in Montgomery county, on the same day, Mrs. Chelaty Austin, wife of Col. Jacob Austin, aged 48 years;—both with the typhus fever, very prevalent in the settlement. Mrs. Austin has left a kind and affectionate husband, and nine children, to bemoan her sudden departure from this life; and Mr. Green D. Austin has left a bereaved wife and one child. In Lincolnton, on Saturday, the 13th inst. Lemuel Moorman, Esq. a native of Virginia, but for several years past a citizen of the former place. Intelligent and enterprising, indefatigably industrious in his vocation, and strictly exemplary in his deportment, Mr. Moorman united all the essential qualifications of a good and useful citizen. In the tender relations of husband and father; no man was more endeared. The community of which he was a member, most deeply sympathized with the sorrows of his afflicted companion and bereaved offspring. His loss to them is indeed irreparable; but may he who "tempereth the wind to the storm lamb," sustain them under this distressing visitation of his providence, and may they be consoled, even in the bitterness of their grief, with the cheering hope that his dying visions were brightened with the dawning prospect of that unclouded existence beyond the grave, "where the wicked cease from troubling, and the weary are at rest." [Communicated.]

In Statesville, on Tuesday, 9th inst. Mr. Abram Lowrance, aged about 80 years, after a lingering illness, of five or six weeks. Mr. Lowrance was an eminently pious man; his head had grown gray in the service of his God, into whose cause he embarked early in his youth. He was a member of the Presbyterian church; and died in the full hope that he was about to depart, only "to be with Jesus, which is far better." He was a good citizen, and an honest man.

In England, Mrs. Mary Saunders, aged 62. She died with fright during a thunder storm.

Dr. Thomas I. Johnson, HAVING effected the object for which he declined his professional business, again offers his services to the citizens of Charlotte and adjacent country, in the practice of Medicine and Surgery. He only considers the pressure of the times, and will make his charges accordingly. Sept. 1828. 3136

Fall Fashions! SILAS TEMPLETON HAVING been absent on a distant visit the past summer, respectfully informs his old customers and the public generally, that he has returned home, and resumed business, which during his absence was conducted by his partner, Mr. Lowry. They continue at the shop formerly occupied by S. Templeton; and are furnished with the Paris and London Fashions, for Ladies and Gentlemen. These fashions have been more generally admired and adopted by the Bon Ton of the Northern Cities, than any hitherto received; and although it requires more than usual skill and taste to give them full effect, yet the subscribers pledge themselves that their execution of them shall not be surpassed in the Union. Ladies Habits and Pelices, and Gentlemen's Clothing, will be made up at prices lower than such work was ever heretofore done, in order to conform to the unexampled pressure of the times. Orders for work from a distance, will be thankfully received, and punctually attended to, according to directions.—SILAS TEMPLETON, SQUIER LOWRY. Salisbury, Sept. 30, 1828. 34
