town, or its vicinity. At the present time, when a heavy pocuniary pressure is felt by the great body of the people, arising in some measure from the operation of the new tariff law. combined with other causes, it behooves every citizen of the South to meet the exigency with efficient action, instead of factious declamation, and threats of secession from the Union. In this opinion. nine tenths of the politicians of North Carolina concur. They believe that the most effectual means of conteracting the operous effects of the tariff, and remedy ing the other evils under which the country is suffering, is to give a new direction to their industry,-to bestow their labor and capital on some other branch of business than the raising of cotton. And ilthough there may be some little diversity of opinion, as to the particular branch of business that holds out the fairest prospect of affording relief to the country and personal gain to those who wish to invest their capital, it is the opinion of most of those whose political forecast is entitled to weight, that the establishment of Corton Manufactories, presents to the citizens of Western Carolina, the most likely

There are at this time Cotton Manufactories in Lincoln county, at Payetteville, and at Tarborough, in this state; and we are informed that the business yields a handsome profit on the capital establishments, which were built when Machinery, as well as every other article of which they are constructed, was 30 per cent, dearer than now ;---add to which the fact, that the spirit of opposition to the tariff in the South will cause southern articles to sell much more readily than they heretofore have done,and there can be no doubt but what a Cotton Factory to be now established. would yield very large profits to the proprietors.

means of alleviating their present embar-

Men of enterprize, of public spirit, and of patriotism, have, then, every inducement to unite in forming a company, for establishing a Cotton Manufactory at, or in the vicinity of, the town of Salisbury. Should the company be formed, it is contemplated to get it incorporated at the next session of the General Assembly.

Central Rail Road .- A, writer in the Greensboro' Patriot, expresses some surprize, that the people of the West should be so lukewarm and ctive in relation to the contemplated Central Rail Road through the State, - which he believes is the only feasible plan that can be adopted for relieving the people from the heavy pressure under which they are now suffering. We will not undertake to say that the plan of a Central Rail Road through the state, is unanimously approved of by the enterprising and public spirited men of the western part of the state; but we can venture to say this much, that the rail road system has gained very many friends among us within a year past; and that the most valuable of our public characters are solicitous that an experiment, on a small scale, should be made, of the advantages of that mode of improving the facilities of transportation :- and that they will not be backward in putting their shoulders to the wheel, when the time arrives for action,

Movement of dead builter. It is stated in a Bath (England) paper, than on opening the grave of a person who bad been buried some years, the face was turned down; this was mat-ten of surprise to some of the by-standers; but a person who had an experience in opening grayes, of 23 years, stated, that in the course of composition, the face of every individual turns to the earth-he never heard of but one exception! > Cotton Picking, -It is mentioned in the Columbia, S. C. Gazette, that four negro men lately undertook to pick out cotton on a wager: two picked out 251 pounds each; the others picked, one 283 pennds, his partner 281 pounds; beating the two former 3 pounds.

----Delaware.-There is much noise made breath, ink, and froth, so ut about the election in the little state of Delaware, the whole territory of which, after brushing off the musquito s, Mr. Clay could cover with the acc of spades. Mr. Johns, the administration candidate, has been re-elected to congress, by about 400 majority; and there is an Adams majority of eight in the legislature; so that the three electoral votes of Delaware will be given for the administration. But this is no more than a drop in the bucket. In all the calculations made by the Adams people, they have claimed this little state; why, then, crow so much about it f It is ments. The regiment musteged about 1200 a sure evidence they are hard pushed, for something to keep their spirits on. ----

Maryland .- In this state, the election for members of assembly, &c. took place the first week in this month; the two Jackson candidates succeeded in the city of Baltimore, by a majority of nearly 400 votes; and the four free people should always the the strong arm of Jacason candidates for the county of Baltimore their country's defence. are elected. In Ann Arundell, Kent, Frederick, and Charles counties, the administration tickets have prevailed; in Annapolis city, and Prince George's county, parts of each ticket are elec-ted; in Harford, Washington, Cecil, Worcester. and Queen Ann's counties, the Jackson tickets have prevailed: the house of delegates will be composed of 47 Adams, and 3) Jackson members; and two are ned. From this result it may be calculated with certainty that four (at least) Jackson Electors will be returned in Maryland.

Pennsylvania. - The partition of the adminis tration have been flattering themselves with the expectation that Pennsylvania would finally vote for their candidate; and in their estimates have invested. Such being the case in these put that state down as doubtful! The result of the general election, which was held there on the 14th and 15th inst. shows how fallacious were their calculations and their hopes. Judge Hemphill, the Jackson candidate in the 2d congressional district of the city of Philadelphia, has beaten his Adams opponent, John Sergeant, the famous Panama minister, by a majority of upwards of 500 votes. - And the whole Jackson ticket has succeeded, by from thousand majority.
