

Salisbury:

JANUARY 6, 1829.

EDITORIAL SUMMARY.

Auction.—There seems to be a simultaneous movement among the citizens of the large towns at the north, against the auction system. The different petitions and memorials on the subject from the city of New York alone, are signed by upwards of 22,000 people.

Gibraltar.—Accounts from Gibraltar to 28th October, afford the melancholy intelligence that the ravages of the Fever still continued at that place; and that the inhabitants still remained on board the vessels in the harbor.

Gov. Iredeil. the new Senator from this state, arrived at Washington, and took his seat in the Senate, on the 23d ult.

Both Houses of Congress adjourned on Wednesday, 24th, over till Monday 29th—in order to keep Christmas, we presume.

Alabama.—Wm. R. King is re-elected a Senator in Congress, for six years.

County of Marion.—The bill to erect a new County from Haywood, by the name of W. A. CON, has passed the Commons, by a vote of 64 for, and 61 against it: it is therefore a law.

8th of January.—Preparations are making in New York for a splendid celebration of this important era; the day is to conclude with a great military ball. They do things on a large scale in New York.

North Carolina money is 8 to 10 per cent discount in Nashville, Tennessee; while it is only 3 per cent. in the Northern cities. How is this?

The Hon. John C. Calhoun, Vice President of the United States, arrived in Washington, and took his seat as President of the Senate, on the 23d ult.

Tennessee.—Jackson 44,193, Adams 2,240; Jackson's majority 41,953. In Massachusetts, Jackson received upwards of 8,000.

Webster's Dictionary.—Mr. Converse, publisher of this work, gives notice to the public, in a Card, that although the book is printed, still some delay in its delivery to subscribers will take place, owing to the time required to bind it, &c.; and asks the indulgence of subscribers a little longer.

John M'Lean has been elected Senator in Congress from Illinois, in place of Jesse B. Thomas, whose term expires 4th of March next.

Col. Thomas Boykin, of Sampson county, was, on the 24th ult. elected by the legislature Brigadier General of the 4th brigade, in place of Gen. Person, dec'd. of Moore county.

Christopher Hughes, American charge d'affaires to Holland, has been nominated by the President to the Senate, as full Minister to that country.

Another Invention.—A Portuguese merchant in London has invented a new fire, by means of which a whole house can be warmed, and the necessary cooking done, for one penny sterling per day.

Damask Table Linen.—An enterprising gentleman in Pittsburg, Pennsylvania, (Hamilton Stewart) has commenced the manufacture of Damask Table Linen. He makes extremely neat, durable, and cheap Table Cloths. In weaving, almost any figure, name, or letters, can be made to appear in full view on the surface.

Duelling.—A law has been passed by the legislature of New York, making it murder to kill a person in a duel, whether fought in that or any other state.

Mendum and Whiteford, two murderers confined in the jail of Chesterfield county, Virginia, have cut their throats, to avoid the disgrace of a public execution.

Fernont Cotton.—Mr. Isaac Branch has raised some cotton this year in the state of Vermont, the first that ever grew in that state. It was planted about the first of May, and gathered the last of November.

Two negro fellows robbed the mail carrier between Georgetown and Conwayboro' S. C. on the 18th ult. and ran off into a swamp with the mail bag. If taken, they should be hanged.

We have been favored by the Hon. John Long, member in congress from this district, with a volume of documents that accompanied the President's message to Congress, for which he will please accept our acknowledgments. We have duplicate copies of this, and some other documents; which are at the service of such of our friends as may desire to examine them.

South Carolina.—William Harper, Esq. has been appointed Chancellor; and Gen. John B. O'Neal, and Daniel E. Huger, Law Judges, of this state, to fill vacancies.

The Legislature of that state adjourned on the 29th ult.

Bethel Academy, 12 miles from Yorkville, S. C. was burnt on the 12th ult. A pair of gloves and a number of books, belonging to Rev. James S. Adams, were destroyed.

Kentucky Pork sells in South Carolina at 2.50 gross, 3.50 neat, per hundred.

The mail stage between Columbia and Lincolnton, was run a day with the horses, 12 miles from Yorkville, 22d ult. The driver was thrown out, and ran over by the stage; he was a good deal injured, but not dangerously.

CONGRESS.

Dec. 16.—In senate, Mr. Noble introduced two bills to pension certain soldiers and widows; Mr. Barnard presented a memorial from a convention in Baltimore, praying that slavery may be abolished in the District of Columbia. In the House, a resolution was offered for reducing the duty on coffee, but was rejected, 70 to 74; several petitions were offered, for duties on auctions; the bill allowing an additional drawback on sugar refined in the U. S. was ordered to be engrossed, 117 to 71.

Dec. 17.—In Senate, after the presentation of various petitions, resolutions, &c. a long discussion took place on Mr. Eaton's joint resolution, to make a majority of votes necessary in the election of Printer to the Senate—the resolution was finally adopted. In the House, the resolutions offered by Mr. Hall, of this state, against the constitutional power of Congress to carry on a general system of internal improvements, were ordered to be laid on the table; the bill to allow additional drawbacks on sugar refined in the U. S. passed by a large majority; two petitions were presented against running the mail on the Sabbath day.

Dec. 18.—In Senate, a memorial was presented, 40 feet in length, of about 2000 citizens of Baltimore, for a duty on public sales at auction; Mr. Dickerson's bill for distributing a portion of the national revenues amongst the several states, was twice read, and laid on the table; the bill authorizing the printing of the military tactics,

was filled with \$14,790, and ordered to be engrossed; the bill relative to printers to congress, was passed; and the bills to authorize the President to sell certain salt springs and lead mines, were ordered to a third reading. In the House, a resolution asking information from the President, relative to frauds committed on the revenue at Buffalo N. York, was agreed to; Gen. Smyth's resolutions for amending the Constitution, were some time under consideration; Mr. Barney presented a petition from about 3000 citizens of Baltimore, with Charles Carroll at their head, against the auction system.

Dec. 19.—The Senate did not sit this day. In the House, not much of public interest was transacted, the general appropriation bill for the 1st quarter of 1829, was passed and ordered to be engrossed; three petitions were presented against transporting the mail on Sunday; a petition was presented from 3 to 4 thousand mechanics of the city of New York, for a duty of 10 per cent. on sales at auction; a similar petition was presented from the city of Richmond, Virginia; the House adjourned to Monday.

Dec. 22.—In Senate, Mr. Smith presented a memorial from Baltimore, for the United States to subscribe to the stock of the Baltimore and Ohio Rail Road company; a bill was passed to arrange Col. Daniel Bissell to the 2d regt. of artillery. In the House, a resolution was agreed to, for an inquiry into the price of printing for congress; the bill establishing the Territory of Huron, was some time under consideration, some amendments were made to it, but the house adjourned before the question on the engrossment of the bill was taken; nine petitions against transporting the mail on Sunday, were this day presented.

Supreme Court at Salisbury.—We regret extremely to learn from the Raleigh Register of 30th ult. that the bill to authorize an annual session of the supreme court at Salisbury, was rejected in the Commons, on the 29th, 66 to 57. We had indulged a hope, that this sheer act of justice to the West, would have met with some favor in the eyes of the Legislature; but it seems we need not expect any thing at their hands: for all that they are benefitted thereby, the West might as well be unrepresented in the Legislature.

We shall next week pay our respects to "P. W." in relation to our article some time since, exposing, and cautioning the public against, a nest of counterfeiters recently broken up in Montgomery county.

THE BANKS.

An unexampled pecuniary pressure is, at this time, bearing down the people of this state. The Banks have (although we believe wrongfully) to bear the burden of mainly causing these hard times. They are certainly chargeable with a share of the mischief; but the people ought to take some blame to themselves, for they had no business to run heels over head in debt to the banks. But after thus getting the people involved, and after having for a long time made fat profits from them, it was expected the banks would, from sheer compassion, (although 'tis said corporations have no souls nor consciences) be as lenient as possible towards their creditors. This would seem to be particularly called for now, as it is believed there is not money enough in the country to satisfy the demands of the banks. There is a debt of two and a half millions owing to the banks in this state;—to the branch in Salisbury, upwards of 300,000 dollars! And by a late resolution of the directors, dealers are obliged to pay one tenth of their original debt at each renewal—the whole to be paid in ten instalments. Now where is all this money to come from? The people haven't got it, nor do we believe they can get it within the time required, two years and a half. Gloom and despondency hang over our people and country, and we have nothing but distress and ruin in prospect. From Haywood to Hyde, from Buncombe to Bunswick, the people of North Carolina cry out for RELIEF! They look, with intense interest to their Legislature, for some measure which will stay the progress of that besom of destruction, which, in the shape of a bank debt, is fast sweeping away their substance.

The following article, from the late Raleigh Register, is the last information we have received, of what the Legislature is doing on the subject of the Banks. We learn from a gentleman who left Raleigh this day week, that the subject was under debate in the Commons on Monday, and Tuesday when he left; and would probably continue to engross their time for a number of days. What would be the result, no one could divine.

Our Currency.—We are glad to find that our Legislature has, at length, entered upon this important subject. The Reports of the Bank Committee are before them, and Mr. Fisher has called up his bill proposing to consolidate the present Banks in a new Bank, to be founded on the funds of the State, and the profits of which are to go into the Public Treasury.

The 2d reading of the bill is made the order of the day for Tuesday, when no doubt, the subject will be fully discussed.

Mammoth Turnip.—A Turnip grew in the garden of Mr. Abram Area, of Concord, this season, which weighed twelve pounds and three quarters; it measured 33 inches in circumference, and 13 in diameter. There were a great many others in the same patch nearly as large as turnips.

Turnips have not, generally, turned out well this season; but in patches where they have done so, the root is found to be remarkably large.

We learn, says the United States Gazette, that a new work from our countryman Washington Irving, will shortly appear from the press of Messrs. Carey, Lea, and Carey, who have purchased the copyright. The name is "A Chronicle of the Conquest of Granada."

Awful shooting to death!—From all accounts of the Election in this and other States, it appears that Gen. Jackson and his friends have been guilty of shooting ahead of Mr. Adams and his friends, inasmuch that no hope remains of their recovery. The coalition have now some grounds to charge the General with murder! because he has actually shot a head of Mr. Adams! N. York paper.

Extraordinary Weather.—It is now as warm and pleasant as April; there has been no snow, and but few frosty nights. The following is from the Charleston City Gazette, of 27th Dec.: from which it would seem that the Charlestonians, as well as the Salisburyans, have had no winter.

Among the extraordinary evidences of the mildness of the season, the Savannah Georgian notices that excellent Water Melons were picked from a green vine at Mulberry Grove, about 12 miles from that city, on the 15th inst. At the same place Squashes were in a high state of maturity.

We mentioned the above fact to a gentleman last evening, who informed us he has ripe Straw berries at the present time in his garden in Cannonborough. The season has truly been a most extraordinary one.

Northeastern Boundary.—Messrs. Gallatin and Freble are now in this city, preparing the argument and evidence in the case of the difference between this country and Great Britain, relative to our northeastern boundary line, which is to be submitted to the umpirage of the King of the Netherlands. U. S. Telegraph, 27th.

Deservable Punishment.—We learn that Elisha Lee, Esq. of Sheffield, Mass. from the avails of lands to be sold as soon as practicable, has determined to make the following donations: and has signified the same to the Societies concerned:

To the American Education Society, for a permanent scholarship, \$1000
American Board of Foreign Missions, 600
American Home Missionary Society, 600
American Bible Society, 400
American Tract Society, 400
Total, \$3000

He wishes to see these purposes accomplished while he lives.

Judges Owsley and Mills of the Court of Appeals for Kentucky having resigned, were nominated again for the same office by the Governor. The Senate refused to consent to the reappointment of the old Judges, 20 to 18.

A letter from Mexico received at New York states, that the Senate had refused to ratify the Treaty with the United States negotiated by Mr. Poinsett—but that this decision was to be reconsidered, and it was hoped would be reversed.

The same letter states, that Gen. Rincon had attacked the forces of St. Anna, and pursued them into the city of Oaxaca, which place was occupied by both parties.

Gen. George Izard, Governor of the Arkansas Territory, died on the 22d Nov.

Treaty with Brazil.—A letter from a respectable American gentleman, dated at Rio Janeiro, Oct. 31st, to a house in New York, says—"Mr. Tudor has just concluded a commercial Treaty with this government."

Thomas W. Cobb, late a Senator in Congress from Georgia, has been elected Judge of the Ocmulgee circuit, in that state, in place of Judge Shorter, resigned.

Mr. Clay a Candidate.—The partisans of Mr. Clay have already placed him in the field as a candidate. They think they foresee that Gen. Jackson will be compelled to submit to existing abuses. To retain in office the retainers and experts, who having a taste of office, look to Mr. Clay for further promotion, or else, give great offence to those who are discharged, and also to a host of disappointed expectants. It is to recruit odds and ends of parties that Mr. Clay now throws himself in the foreground. His views have been distinctly announced in Kentucky, Rhode Island, New York and Richmond. U. S. Tel.

When the Tennessee Electors put in their votes at Nashville, for Gen. Jackson, the event was announced by the discharge of 100 cannon, and in the evening the town was illuminated.

Greece.—A despatch from the Marquis de Maison, commander of the French expedition to the Morea, 10th November, announces the surrender of all the fortresses left in the hands of the Turks and Egyptians, after the departure of Ibrahim Navarin. Modon, Coron, Patras, and the Morea castle, did not, in all, amount to 6000 men, a force totally inadequate to any lengthened or effectual resistance.

The governor of Navarin, the first place against which the French arms were directed, said "that the Porte was not at war with the French or the English—but act of hostility will be committed—but the place will not be given up."—It was given up, however, without resistance, as well as the other fortresses, and probably by orders from the Turkish government.

The Morea has thus been cleared of Turks and Egyptians, and the independence of Greece may be dated from the period of the surrender of the fortress.

A writer in a London paper says, "So homely and economical are some of the American Legislators, that a Member of Congress from the Middle States will send home his dirty linen and worn out pantaloons, franked by the mail, to be returned to Washington by the same conveyance when washed and mended."

Board of Agriculture.—The Board of Agriculture of this State met in the Capital on Tuesday evening last. Charles Fisher, Esq. was re-appointed President. James Mebane, Vice President, and Jo. Gales, Secretary. Reg.

Kentucky.—The Senate of Kentucky have rejected, by a vote of 17 to 21, the bill for calling a Convention in that State.

St. Domingo.—The latest intelligence from this Republic, received at New York states that President Boyer had left that place at the head of all his disposable force for Aux Cayes, which port, it was said, was blockaded by a Spanish fleet from Havana. The event had caused a good deal of sensation in the island, and it was feared serious consequences might result.

Home Department.—Since the Presidential contest was over, several newspapers have started the project of establishing a new department at Washington, to be called the Home Department. We believe this to be required by the public at large. Traveller.

A Connecticut Editor, speaking of the 20th Congress, now in session, says:

"If the members neglect the business of the nation, as in times past, to throw mud at each other like so many scavengers, we shall occasionally pull their honorable noses with our editorial tongues."

A Smyrna paper states, that upon the departure of the Egyptians under Ibrahim from Navarino, the Greek slaves, whose liberation was provided by the treaty of evacuation, refused to accept their liberty, and insisted on accompanying their masters to Egypt. Out of six hundred slaves in the power of the Egyptians, only eleven would accept their freedom, notwithstanding the exertions of the English Admiral to persuade them to a different course. The Smyrna Editor says they prefer kindness, luxury, and comfort, though accompanied by dependence in Egypt, to harsh treatment, famine, and starvation with freedom in their own country.

The fishermen of Massachusetts take four million of dollars of fish annually.

MARRIED.

In Mecklenburg county, on the 11th ult. by the Rev. John Williamson, Major Rufus Reid, of Rowan county, to Miss Nancy Latta, daughter of James Latta, Esq. of Mecklenburg county.

In Stokes county, 18th ult. Mr. John Null to Miss Frances Bennett. On the 23rd ult. Mr. Isaac Oakes of Stokes county, to Miss Elizabeth Parish of Guilford county.

DIED.

In this county, on the 28th ult. Susan Beard, infant daughter of Mr. William Howard, aged 3 years 6 months and 23 days.

As the sweet flow'r that scents the morn;
But withers in the rising day;
Thus lovely was this infant's dawn,
Thus swiftly fled its life away.

It died ere its expanding soul
Had ever burnt with wrong desires,
Had ever spurn'd at Heaven's control,
Or ever quenched its sacred fires.

It died to sin, it died to cares,
But for a moment felt the rod;
O mourner! such, the Lord declares,
Such are the children of our God.

Communicated.

On Saturday night, 27th ult. at his residence in Cabarrus county, John P. Phifer, Esq. in the 43d year of his age. His illness was short, but painful, and accompanied, from the 3d day, with an almost continual delirium, which prevented him from bearing his dying testimony to the power of that Religion, in the profession of which he had long lived. As a professor of religion, his views were clear, and strictly evangelical; his conduct was exemplary, and he seemed usually to enjoy a strong hope of happiness beyond the grave. He left a large circle of respectable relations, to lament, not his, but their loss; but they have no cause to mourn as those who have no hope. Communicated.

In Concord, 31st ult. Mr. Richard M'Ree, aged about 36 years. Also, in the neighborhood of Concord, on the same day, Mr. George Misenheimer, aged about 45 years.

In Philadelphia, on the 17th ult. at an advanced age, Maj. William Jackson, distinguished as an officer during the Revolution, and highly regarded as a scholar and accomplished gentleman.

WILKESBORO' ACADEMY.

The subscribers, finding it necessary to be absent from Wilkesboro' for a few months, has employed the Rev. Mr. Anderson, a graduate of one of the colleges of Pennsylvania, to take charge of the Academy, during his absence. Mr. Anderson is well qualified for the performance of the duties of an instructor; and it is confidently hoped that the cheapness of board and tuition, combined with the well known local advantages of the situation, will secure to this Institution a full share of public patronage.
