

**State Bank.**—On our first page will be found the result of the recent meeting of the Stockholders of the State Bank. Our readers will not doubt be pleased to find, that, by the determined firmness and moderation of the State's representatives, Gen. R. M. Saunders and L. D. Wilson, and Isaac Wright, Esq. any hasty or rash measure was prevented; and all further proceedings deferred till the next annual meeting, in December, when the Legislature will be in session; and when some plan, consistent with the rights of Stockholders and the embarrassed condition of the debtors, may be devised, for the common good of all concerned.

It will be seen, from the conclusion of the report, that the Bank and its Branches are to make no further discounts or loans, except special loans, the punctual payment of which will be rigidly exacted;—that is, for instance, a bond payable in ninety days, is discounted for \$500, the whole amount must be paid at the maturity of the paper.

We would call the especial attention of all who feel interested in the condition of the State Bank and its Branches, to the report.

**New Paper.**—The New-York Enquirer and the New-York Morning Courier, have been united, under the title of *Morning Courier and New-York Enquirer*; James Watson Webb, and Daniel E. Tylee, Esqs. have become the proprietors of the new paper; Maj. M. M. Noah is to continue as one of the Editors. We are well assured, that with such a combination of skill, industry, and talent, this must become one of the most valuable papers in the Union. And we would recommend it to the patronage of those who may be desirous of receiving a useful and entertaining political and commercial paper from the city of New-York. Price, only \$4 per annum, for the paper twice a week.

**Judge Wm. P. Preble,** of Maine, has been appointed Minister to the Netherlands.

**Washington Irving,** of New-York, Secretary of Legation to England.

**Maj. T. L. Smith,** of New-York, Register of the Treasury, in place of Joseph Nourse.

The extremely wet weather which we have experienced for more than two weeks past, will, it is feared, do essential injury to the Wheat crop, which is fast ripening for the sickle. Corn, oats, &c. have, however, had a very rapid growth during this period: it has been too wet for cotton. And, as it was to have been expected, the weeds have not been idle during this growing weather: the cotton and corn crops are so greatly overrun with them, that it will require all the force and industry of the farmer to master them before he is called into the harvest field.

**Whitfield Kerr,** Esq. has been appointed Post Master at Statesville, in place of James Mac Knight, Esq.

It is reported that Col. Jarvis, late partner of Gen. Green, in the Telegraph, is to be appointed Consul General to France, to reside at Havre.

**Masonic Celebration.**—Phalanx Lodge, No. 31, in Charlotte, will celebrate the anniversary of St. John the Baptist, on the 24th inst. An oration will be delivered by Marshal Pak, Esq.

It seems that only two banks have recently failed in the state of New-York: Columbia Bank, at Hudson; and Middle District Bank, at Poughkeepsie. We have only three Banks and their branches, in all North Carolina, except the U. S. Branch at Fayetteville.

**Melancholy.**—We learn that during a thunder storm, on the 8th inst. the house of Mr. Charles Edwards, living in Lincoln county, about three miles from Sherrill's Ford, on the Catawba river, was struck by lightning, and Mrs. Edwards killed. All the family were more or less shocked; they however recovered, with the exception of Mrs. E. The electric fluid entered the house by passing down the chimney. Also, a small tree, adjoining a well-house, about a mile from the above, was struck; and several hogs outside the building killed, and the stiller, brother to Mr. Edwards above named, prostrated speechless; he fortunately, however, recovered.

The work of "reform" appears to have reached the New-York Custom House. During the last week a number of new Inspectors, Weighers, &c. were sworn into office, while an equal number "went swearing out."

Mr. Dauby, editor of the Utica Observer, has been appointed Postmaster at that place, vice James Platt, removed.

**The Morgan Conspiracy.**—Eli Bruce, formerly Sheriff of the county of Niagara, (New-York) has been sentenced to two years and four months imprisonment in Ontario county goal, for being concerned in the abduction of William Morgan. John Whitney, an accomplice, has also been sentenced to imprisonment in the same goal, for one year and three months.

**Alabama.**—The young cotton crops in this State, are said to have been destroyed by the severe weather experienced a short time since; besides which, it is said, that there is not seed in the country sufficient for the purpose of replanting.

Rev. Asa Eaton, Rector of Christ Church in Boston, has resigned his pastoral office on account of ill health. The church have voted him an annuity of \$500 during life!

### FOREIGN.

French papers to the 26th April have been received at New York. The following scraps of news we take from the Courier and Enquirer:

Dates from Constantinople of March 26th, state, that the Sultan is still at his camp near the capital; that Hussein Pacha has concentrated all the troops between Adrianople and Chumla.

The second division of the Russian army, under General Witt, consisting of 20,000, have entered Bulgaria.

The English and Russian Admirals in the Mediterranean, have had some difference about the capture of two Egyptian vessels by the latter, who has insisted upon the rights of his sovereign, as a belligerent power.

Brasils of burden are said to have entirely disappeared from Moldavia, and peasants are said to perform the duties of horses. This is rather too rough a story for the opening of a campaign.

Mr. Gordon, who succeeds Mr. Stratford Canning as ambassador at Constantinople, has been at Paris some days.

The Czar was expected at Balin about the beginning of June.

**Suspicious.**—The London Observer of April 21, says, Sir Sidney Smith is about to embark in the steamboat *Holton Soluffe*, on a secret expedition. His attendants are fifty chosen men. His only cargo is ballast, consisting of brass cannons. He has cleared for Corfu and Malta, but it is expected that he has an ulterior destination. The ornaments of his vessel are entirely composed of crescents and turbans.

**France.**—It is said, that the Duke de Leval, now French ambassador at Vienna, has been nominated Minister of Foreign Affairs.

**Portugal.**—Don Miguel is in a bad way, and likely to be in one that is worse.

**Buenos Ayres.**—Letters from Buenos Ayres received at New York, continue to furnish very gloomy descriptions of the situation and prospects of that distracted country. Every cargo that has been disposed of since the peace with Brazil, has been sold at a sacrifice. The whole country is laid waste by the banditti, and the people within the city are in continual alarm for their own safety. There is also much defection within the town. It seems likely that a just retribution will soon overtake Lavalle, Brown, and the party adhering to these traitors and murderers of Dorrego. Alex Phenix.

**Portugal.**—The latest advices from France, fully confirm the account here before published respecting the attempt of the infamous Miguel upon the life of his sister. Every effort has been made in Portugal to shroud the horrible affair in mystery; but the truth is too well and too generally known, to admit of successful concealment, or of serious doubt. Indeed, so notorious had the fact become, that the most infatuated zealots in the party of Miguel do not longer pretend to disguise it. It is confidently stated that the desperate and abandoned wretch himself is so conscious of the ignominy which popular sentiment is heaping upon him, that he is making preparations to effect a clandestine escape from the kingdom. A scheme for this purpose, it is asserted, has been contrived in Spain by the Portuguese—a hunting party is to be formed, under pretence of joining which, the usurper is to repair to Villa Vicosa, on the Spanish frontier, and thence flee into Spain, where he expects to be protected by the Spanish government. It is a pity that the treacherous villain could not be furnished with a secure lodging in one of the comfortable cells of the Holy Inquisition. Boston Bulletin.

**Works below Wilmington.**—We have pleasure in stating, that Governor Owen was favored with a letter from Brig. Gen. Gratiot, of the Engineer Department, dated the 29th ult. saying, that the charge of the operations for the improvement of the Navigation of Cape Fear River below the town of Wilmington, is assigned to Capt. Geo. Blaney, of the Corps of Engineers, to whom instructions have been given for the commencement of the work at the earliest practicable period. Capt. B. has been directed by Gen. Gratiot to inform Governor Owen of the time when he will be prepared to take charge of the work, that proper measures may be taken by the Board of Internal Improvements to aid his operations. *Ral. Reg.*

**Distressing.**—The ruffled shirt party in one of the Eastern States has been thrown into convulsions on discovering that a post master lately appointed was a shoemaker! The nobility ask themselves if this is to be the end of the "Coalition." *N. Y. Cour. & Eng.*

The Milledgeville (Geo.) Statesman, of the 23d instant, states that the amount of notes received for discount at the Central Bank in that place considerably exceed eight hundred thousand dollars. It is therefore supposed, that there will be an enormous amount of notes offered on the 16th day of June, the day on which it is understood the Bank will commence business.

We understand that the Constellation frigate is fitting out at Norfolk, for the purpose of carrying Mr. Maline to England and Mr. Rives to France. It is expected that she will sail about the 1st of July. *Rich. Compiler.*

### 20,000 Acres of LAND

FOR SALE,  
LYING in the county of Surry, N. C., and is believed from recent discoveries, within the Gold Region of North-Carolina. This tract was granted by the State, in the year 1795, consists of one continuous survey, adjoining the county line of Wilkes, and extending from the Blue Ridge to within three miles of the Main Yadkin River. It is intersected for fifteen or twenty miles by Mitchell's river, affording an abundant supply of water-power at all seasons, and many sites convenient for the application of this power to the purposes of Machinery. Gold has lately been found in the neighborhood of this land, but its mineral treasures are in a great measure unexplored. Persons desirous to purchase, are referred to the Editor for more particular information, with whom the plat of this land is deposited. Salisbury, June 12th 1829. 71

SUCH of our customers as have not yet paid their last year's score for Beef, will please to do so without delay. It is disagreeable for us to dun our customers, and still more disagreeable to warrant them! but we shall be compelled to adopt the latter alternative unless we are speedily paid our just dues. ### Goods at Auction.

I WILL expose to Auction, the balance of the Stock of Goods of E. Allemond, on the 13th and 14th of August, 1829,—the day of the Election. R. H. ALBXANDER, Trustee. Salisbury, June 13th, 1829. 9179  
Some showman of wild boasts a Rochester, New York, gives notice—that in addition to the number of bears, monkeys, &c. in his menagerie, he has four white mice of beautiful plumage, from Bengal. This fellow must be related to the honest Patlander, who shot the frog. "Poor bird! says Pat, I've shot every feather from the creatur's body." *Cat. Jour.*
