

10. In Utica, New-York, on the 28th June, a gun-smith named Briggs, and a shoe-maker named Clark, who had always been bottle companions, got boozed together, quarrelled of course, and got into a scuffle, during which Briggs stabbed Clark in five different places with a jack-knife. Clark was still living; last account.

11. A crazy man named Elmer, at Greenfield, Massachusetts, killed a child two years old while lying in a cradle, by cutting its throat with a razor, on the 7th ult.; and then nearly killed his grandfather, by striking him on the head with an axe. He was taken up and confined.

12. A theatre in Canton, China, was burnt down in December, during the performance of what they called a "religious drama," in honor of one of the idols of the land; and more than sixty persons lost their lives: the fire was occasioned by a rocket, used on the occasion.

13. The steam-boat Kenawa burst its boiler on the 24th June, near Wheeling: 8 persons were killed, and a good many badly wounded.

14. Mr. Washington Williams, an old merchant of Laurens district S. C. committed suicide on the 24th June, by blowing his brains out with a rifle.—Cause unknown.

15. Mr. Enos Wildman, a respectable tavern keeper at Leesburg, Virginia, hung himself in his barn, on the 13th ult. Cause, mental alienation.

16. John McHenry was choked to death, at Economy, recently, by a piece of biscuit which stuck in his throat. People ought to masticate their victuals well....not attempt to swallow it whole.

17. William MacNeal hung himself on an apple tree, in Cooperstown, N. York, on the 18th ult. He was a drunkard; which is supposed to have induced him to commit suicide.

18. John Carlisle, living near Tuska-loosa, Alabama, killed his father on the 8th ult. by shooting him through the head with a rifle ball. The retention by the father of certain papers relative to property, was the cause of this murder: the murderer was put to jail, to await his trial.

19. Mr. James Hornsby, a school-master, aged 70 years, was drowned while bathing in a mill-pond, in Franklin county, on the 24th ult.

20. Laban Smith, a hatter, strangled himself to death in Boston, on the 23d ult. by twisting a silk handkerchief round his neck. No cause is assigned for the perpetration of the unnatural act.

21. The barn and stables of Henry A. Skinner, of Perquimous county, were struck by lightning on the 25th ult. and burnt to the ground; two horses were killed, and a negro boy dangerously burnt; 300 bushels of wheat, and 400 of corn, were destroyed in the barns.

MISSIONARY NOTICE.

The annual meeting of the Young Men's Missionary Society, will take place at Centre Church, Iredell county, on Saturday, 23d day of August. The annual address will be delivered by the Rev. Stephen Frontis, of Bethany. It is expected that this will be an interesting and important meeting; it is therefore most earnestly desired, that all the members of the society, and all others who feel any interest in the prosperity of the church in our state, any interest in the intellectual and moral culture, in the present welfare or the eternal destiny of their fellow-citizens, would attend on this occasion.

This institution, from its beginning, has enjoyed the smiles, and has been much blessed of the Great Head of the Church. It must rejoice the heart of the Christian to witness such results from such feeble efforts in the cause of the Redeemer. Good has been done. The existence of this society will tell with tremendous effect on the eternal interest of many. Truly, it seems to be a vine planted by the right hand of the Most High. He, too, hath nourished it; and already hath it brought forth to the glory of his name. "Not unto us, Oh Lord! but unto thy name, give glory." Christians, can you, then, now suffer it, with all its present promise, to be blighted by the killing frost of cold indifference!

August 3d, 1829.

George Evans has been elected a Representative to Congress from Kennebec district, state of Maine, in place of Mr. Sprague, appointed a Senator in Congress.

John M. Jones was convicted before the superior court at Lynchburg, Virginia, 22d ult. of the murder of G. Hamilton.

Maj. John Bidler, late of the United States Army, has been elected a delegate to Congress from Michigan Territory, by a majority of 700 to 900, over a former incumbent, the Rev. Mr. Richard, a Catholic Priest.

A coinage of half dimes (five cent pieces) has been commenced by the mint. Such a coin has long been wanted, and a very great convenience will result from a free circulation.

ELECTION RETURNS.

The General Election throughout this state takes place on Thursday next, the 13th inst. In some of the counties, it is held sooner, to avoid conflicting with the courts. By a letter from Oxford, we learn the result in that county: *Granville*.—William W. Sneed, senate; James Wyche, Spencer O'Brien, commons.

For Congress, Robert Potter received 1,150, Samuel Hillman about 60 votes.

For the following returns we are indebted to the last Raleigh Register:

Edgecombe.—Louis D. Wilson, senate; Gray Little, Moses Baker, commons.

Currituck.—Caleb Etheridge, senate; Benjamin T. Simmons, Willoughby D. Barnard, commons.

For Congress, William B. Shepard received in this county, a majority of 277 votes over Samuel Sawyer. It is thought this will insure Shepard's election.

From the Tarboro' Press, we learn the result of the election in—

Pitt.—Marshall Dickenson, senate; Alfred Moye, William Clark, commons.

The New-York Atlas.—We are pleased to learn, that this valuable Paper is increasing in patronage and usefulness. The Atlas of the 25th ult. contains the following announcement:

In acknowledgment of the support by which our labours have been thus far encouraged, and to make the Atlas still more conducive to the gratification and advantage of its patrons, we propose, after the 15th of September next, to issue regularly a second edition of the paper, after the plan of *Bell's Weekly Messenger* in London.

The object of this arrangement is, to furnish to such of our readers as may not feel interested in commercial matters, a substitute for the contents of the last page, of a character more suited to their taste; and thus to give a new feature to the work, and add to the attractions of our journal: at the same time, being published at a later hour, it will afford an opportunity to transmit the most recent news on occasions of importance.

Such of our present subscribers as may prefer to receive the second edition will please to give us timely notice; and those ordering the paper in future are requested to state explicitly which edition they require; the first being that in which the commercial intelligence will always be contained. The expense of each to subscribers, will be the same; but all must expect to receive constantly either the one or the other, according to the selection they may make, since changes can only be effected at the half-yearly periods of each subscription. Letters relating to the subject will not be attended to unless they come free of postage.

The *Atlas* is very neatly printed, in quarto form, on a large imperial sheet; and contains as interesting and valuable selections of foreign and domestic intelligence, and literary and miscellaneous matter, as any periodical in the Union. Price \$5 per annum, in advance.

LATEST FROM EUROPE.

The British ship *Jean-Hastie*, at New-York from Grenock brings Glasgow papers to the 15th June, inclusive. They contain London advices to the 13th and Paris to the 10th June.

The most important articles they furnish are two Russian bulletins. The first is dated May 11, and only announces the passage of the Danube at three different points. The second is dated from the camp before Silistria, (May 22d), detailing the preparations which are making to carry on the siege with the utmost activity. The bulletin says that the enemy remain quiet, and seldom disturb even the Russian outposts which are stationed at only 300 fathoms from the counterscarp of the place. The remainder of the bulletin relates to the advantages gained over the Turks led on by the Grand Vizier in person, who left Shumla with the intention of attacking Pravadi, with 15,000 men, and was afterwards reinforced with 10,000 more; but he was ultimately defeated after much hard and furious fighting, with the loss of 2,000 of his troops, and was forced to retire to Shumla. The Russians lost 1000 men.

A letter from London, June 8th, says—"There is the Devil to pay in the Cabinet, and very little to pay with in the Exchequer. Important changes are in rapid progress and preparation.

A riot had taken place in Carrick-on-Smir, Ireland, between some soldiers, and at length increased to a great mob. The 70th regiment were ordered to fire among the crowd. Some persons were killed and others wounded. The Rev. Mr. Standish Grady, who was hastening to suppress the riot, was thrown from his horse and killed.

The rumors in relation to the removal of the Lord Chancellor continue. Lord Lyndhurst is said to give satisfaction to nobody, neither to the bar nor the suitors, nor the ministry, nor the king.

On the 29th of May, the great and celebrated philosopher, Sir Humphrey Davy, closed his mortal career in Geneva, in the 51st year of his age.

Success of the Greeks.—The Glasgow Courier of the 16th June, says—"Official advices have at length been received by the Government from the Ionian Islands, of the surrender of Missolonghi, Anaxotos, and the Castle of Lepanto, to the Greeks.

Baltimore Market.—There is yet no settled prices for flour. Yesterday dealers were giving \$5.25 to \$5.37 for fresh ground Howard street flour from wagons, and it was held at \$5.50 from stores.

Grain.—A further decline has taken place in wheat, and a small advance in corn. Our quotations embrace the rates at which sales were made yesterday. Farmer, 31st ult.

LIVERPOOL MARKET.

Liverpool, June 13.—This week the Cotton market was very flat, but steady and firm until Thursday, when the demand revived, and considerable business has since been done. There is no alteration in price; last week's rates have been fully supported. The sales of the week have been 13,557 bales: We quote Uplands at 5 to 6 3/8; New-Orleans 5 1/8 to 7/8. The Corn trade today is extremely dull, and may be quoted fully 3d or 4d cheaper than on Tuesday.

Frigate Hudson.—The Washington correspondent of the New-York Courier, says:—"I have just seen a letter dated 12th May, 1829, from the Rio de la Plata, stating that affairs on board the Hudson frigate are in a terrible state, that armed sentinels with bayonets fixed are parading the ward room before the state rooms of two lieut-

tenants, who are compelled to be content with playing bo-peep, through the small aperture of their state room doors. Sundry midshipmen are in confinement, and it is expected all will be tried by court martial, the moment that the Boston and Vandalia arrive from their cruise. This is a novel state of things on board an American frigate, and but seldom witnessed.

FROM THE BALTIMORE REGISTER.

We have recently met with a file of the *Pennsylvania Chronicle*, printed at Philadelphia in 1767, from which we make the following extract:

Williamsburg, Va. ay 7, 1757.

By a gentleman from North-Carolina we are informed, that on the 16th ult. his Excellency Lord Charles Greville Montague, Governor of S. Carolina, His Excellency William Tryon, Esq. Governor of North Carolina, and the Hon. J. Stewart, Esq. Superintendent of Indian affairs for the Southern Department, are to hold a Congress at Salisbury, in North Carolina, with the Cherokees, in order to settle a boundary line with that nation; a matter that seems very interesting to the frontiers of the southern colonies, as many acts of violence have been lately committed by that nation for want of proper restrictions as to their hunting grounds.

The National Debt.—An article from the Philadelphia Sentinel announces the pleasing intelligence, that by a late payment, our National Debt has been reduced nearly one-seventh of the whole amount. We have heard it remarked, that it is the purpose of the President, during his term of office, to effect, if possible, the extinction of the Public Debt; and if the present rigid administration of our fiscal concerns, shall be followed by an accession of revenue from the contemplated commercial regulations, he will in all probability succeed in accomplishing that very desirable object.

Newbern Sentinel.

Mr. Gilmer.—In all parts of the state there appears to be a determination on the part of the people, and which is zealously promoted by some of the leading men, to re-elect Mr. Gilmer to the seat which he has recently vacated. On the part of the people the design is without doubt honorable towards the gentleman, and intended to retain his superior talents and worth in the councils of the nation. Athenian.

France and Algiers.—The last accounts from the Mediterranean state, that the French were preparing a fleet of men of war and transports to attack Algiers by sea and land; and that they had already in commission on the Mediterranean 87 men of war. On the 23d of May, off Alicant, they saw a French frigate under jury masts, which they supposed to be one of the squadron destined for Algiers. N. Y. Courier.

Judicious Tariff.—The New-York Enquirer, of the 9th inst. gives the following definition of the term "judicious Tariff": "But the judicious Tariff!—What do you mean by a judicious Tariff? We mean a Tariff which shall give a liberal protection to manufactures, and yet shall not destroy commerce; a Tariff which, in yielding a support to commerce and agriculture, will be able to throw its protecting mantle over our manufactures; a Tariff which shall consider our manufactures in a state of infancy, not manhood; which shall direct its steps, not aid it to gallop over a precipice; which shall give it gradual strength, not place it in battle array with the old systems of the old world."

SECRETARY OF THE NAVY.

The Philadelphia Sentinel of the 27th ult. says:—"The Hon. J. Branch, Sec'y. of the Navy, arrived in our city on Friday afternoon last, and devoted Saturday to the examination of our Navy Yard and United States Naval Asylum on the Schuylkill. Prior to his visit to us, he had examined the Navy Yards at Norfolk and New York. It cannot fail to be a subject of gratulation to the people of the United States, to know that the head of the Navy Department is personally inspecting those extensive establishments, which, notwithstanding they are approved of by the nation at large, require, at the same time, that the funds of the government to be expended upon them should be laid out with a single eye to the good of the country. This early exemplification of the Secretary's zeal in his new station, is an ample pledge of the ability and fidelity with which he will execute the duties of his Department.

To Cotton Ginners.

THE subscriber having been frequently solicited by his old customers, again to establish the *Gin Making Business*, has opened his shop in Salisbury, where he is prepared to make and repair Gins, of the very best materials, in a superior style of workmanship, and on terms the most accommodating, even in those hard times.
