**Beattie's Ford.**—James M. Burton, Esq., has been appointed Post Master at Beattie's Ford, Lincoln county, in place of Dr. Middleton, deceased.

**ELECTION RETURNS.**  
We have been favored, by friends in Wayneville and Franklin, with the returns of the election in Haywood and Macon counties. Hyde is now the only county we have not published returns from.

**Haywood.**—William Welch, senate; Nipian Edmondston, James R. Love, commons.  
State of the poll: for the senate, Welch 162, J. H. Walker 79; for the commons, Edmondston 31, Love 358, R. Osborne 237, A. Enloe 100.  
**Macon.**—Thomas Love, senate; James Whitaker, Asaph Enloe, commons.

**MACON COUNTY.**  
On the fourth Monday in March last the first County Court was held for Macon county, at Franklin. At which term, the following county officers were elected:

R. W. Bell, Sheriff;  
N. B. Hyett, Clerk;  
Montreville Patton, Solicitor;  
John Dolson, Register;  
Michael Wickle, County Trustee;  
Nathan Smith, Coroner;  
Jacob Siler, Surveyor;  
James R. Gray, Standard Keeper.

**Deplorable.**—In our last, it was with a peculiar satisfaction we commented on the refraining at the late elections in this state, of the people from the ordinary disgusting scenes of drunkenness and debauchery; but if the following extract from the Wilmington (North Carolina) Reporter, be a faithful representation of the scenes enacted in that town at the election, all our fond anticipations are blasted, and we shall still have to mourn over the depravity of our people, in the exercise of the most inestimable of their privilege as freemen,—the elective franchise:

“There were seven open houses, three grog shops, two boarding houses, where the gentlemen voters could regale themselves with something to eat and drink, and fast, though not least, two dance houses—where the gentlemen voters, after having refreshed themselves during the day at the grog shops and boarding houses, could retire at its close and under cover of night, to spend the time until the return of day, in the most republican freedom of intercourse, with white, yellow and black; all colors and conditions mixed together, in the most lovely confusion.”

It is stated in the Savannah Georgian, that the Caterpillar is doing extensive damage to the Cotton and other crops in that part of the state; and if the wet weather should continue, it was feared the rat would finish what the caterpillar might leave. But in the upper part of Georgia, both cotton and corn promised an abundant crop.

**Georgia.**—George H. Gilmer, and Joel Crawford, are it appears, now fairly before the people of Georgia, for Governor. Gov. Forsyth having declined running again for that office, expecting to be elected to the U. S. Senate, in place of Judge Berrian, appointed Attorney General of the U. States. Henry G. Lamar, and Oliver H. Prince, Esq., are named as candidates for representative in Congress, in place of Mr. Gilmer, resigned.

**Jackson, Tenn.** Aug. 12.—Bacon 10 to 12½, butter 12, cotton, 7½, corn 75 cents per bushel, flour 3 dollars per hundred, peach and apple brandy 81 to 1.50 per gallon; whiskey 62. These articles can be had in North Carolina for about half the above prices, except cotton.

**Bilious Fever.**—A Dr. Davis, who advertises himself in a Jackson, Tennessee, paper, as formerly of the New-Orleans Charity Hospital, says that “he relies on cold bathing in the cure of about bilious fevers, as a powerful and certain remedy, when skillfully administered, in aid of other cautious and prudent medical treatment. The doctor does not say whether he was in the “charity hospital” as a patient or physician.

**Tallahassee, Florida.**—The Floridaian gives the following result of a census of the city of Tallahassee, capital of Florida: Population, 2063; dwelling-houses, 163; other buildings, 150; total, 318 houses.

**Alabama.**—In the Huntsville district, Clement C. Clay has been elected to Congress; in the Mobile district, Dixon H. Lewis; in the Tuscaloosa, or Middle district, we learn that Col. R. L. B. Baylor is elected. The Hon. Gabriel Moore is elected Governor, without opposition.

visitors at the Springs, was never greater. People (those only, of course, who have a quantum sufficient of the useful) congregate there from every part of the United States—and, indeed, from all parts of the globe. It would be a curious piece of information, were it ascertained how many bales of Southern Cotton it annually takes to pay tribute to these Springs!

**SINGULAR MARRIAGE.**—In the city of Natchez, Mississippi, a young widow of 19, and a bachelor of 22, were recently tried for some petty theft, convicted, and sentenced each to one week's solitary imprisonment in the county jail. During the trial, however, it seems they had been smitten with each other's charms; and applied to the judge for liberty to be united in holy wedlock; which being granted, a justice of the peace soon performed the service; and they were locked up together. So that by this process, they evaded the solitary part of their punishment.

**The President's Health** is represented by the last accounts to be restored. Indeed, at no time has he been any thing worse than in ordinary cases of summer complaints, although contrary reports have been industriously put about by the coalition papers, for sinister purposes. The U. S. Telegraph of the 28th ult. says that letters from the President to his family, represent his health as fully restored; and he would return to Washington in a few days.

The Raleigh Register states, that Gold has been discovered, in two or three different places, in that (Wake) county.

**Destructive Rains.**—It is with regret we learn, that the heavy rains with which we were visited in this section of country week before last, have done extensive damage. In Davidson county, we are told the injury done to the standing crops, to mills, bridges, gold-mining establishments, &c. by the swelling of the water-courses, and overflowing of the low-lands, has been very serious. It has been so excessively wet and rainy, for some weeks past, that the farmers will lose a good proportion of their fodder.

**Dull Times.**—The Cheraw Radical has been discontinued, at the end of the first year of its existence. The editor says he has not stopped for lack of patronage, and we will not gainsay his declaration; but then we have our own opinion about the matter: Every body knows, that in these dull times it is as rare an occurrence for a man to give up a lucrative business, as it is to witness an Eclipse of the sun or moon. But as the latter is actually to take place, (if we can credit the Almanac, and a correspondent of ours two or three weeks back) on the 12th inst. it may be that the former phenomenon has been exhibited in the conduct of the Editor of the radical. It is but a few years back, that there were two papers published in Cheraw; both of which seemingly received a living support. Now we are unable to divine the cause of these mutations in the business at Cheraw.

Can it be a fair criterion whereby to judge of the declination of business in that once flourishing town? Or are people becoming so little covetous of the honors incident to the Editorial vocation, and so little ambitious of acquiring distinction in that way, as to be cautious of adventuring in such hazardous enterprises, without estimating the cost, profits, &c. Cheraw, in our view of the business, is not the only town where two newspapers have been started, when the patronage would hardly warrant the profitable continuance of one.

The Vermont Journal, also, printed at Windsor, the oldest paper in the state; the Journal of the Times, at Bennington; and Freedom's Banner, at Chester; all in Vermont,—have been discontinued, for want of support.

An inquiry is now going on at Paris as to the titles purchased by Frenchmen and foreigners at Rome. Many of the possessors of these titles are found to be persons of light character, who having become marquesses, counts, barons, and knights, by purchase of the Pope's secretary, set themselves up for fine gentlemen in Paris, and practice a good deal of deception on the unwary. These titles are disposed of there by an agent, at something like the following prices; for a marquessate 20,000 francs; for a barony or a countship 12,000, and for a knighthood 3,000. More than one purchaser of knighthood has had the effrontery to dub himself Sir, in English society, here.

Two or three males and females, belonging to the Seneca tribe of Indians, have been put to death recently, charged with being witches!

**State Bank.**—We have pleasure in stating, for the information of merchants and others, who may have occasion to make payments to the North, that Checks or Bills of Exchange on New-York can be obtained at the State Bank, in exchange for notes issued by the Institution at Raleigh; and at a premium of one half per cent. for other current Bank notes. Raleigh Register.

**Punctuality.**—It is due to Mr. Ephraim Mann, Sheriff of Tyrrell, and Mr. Walter Davenport, Sheriff of Lenoir, to state that they have been the first to settle their annual accounts with the Public Treasurer of the present year. Raleigh Register.

Ral. Reg. 31st ult.

you has received a letter from Gen. Gratiot, Chief Engineer of the United States, stating that the Secretary of War has ordered Lieutenant W. H. Harford, a highly scientific graduate of the Military Academy, in compliance with the request of the Governor, to assist John M' Rae, Esq. of Fayetteville, in making a compilation of the Map of this State, the materials for which have been collected by that gentleman.

It may reasonably be hoped that the assistance thus afforded Mr. M' Rae, will enable him speedily to issue a correct Map of the State, a work which is much needed by our citizens. Ral. Star.

**Swearingen Convicted.**—The trial of George Swearingen, for the murder of his wife, in Allegany county, Maryland, has just taken place, and resulted after a laborious investigation, in his conviction. He was, at the time of the perpetration of the deed, Sheriff of the county, and highly respected as a citizen. He fell a victim to the wiles of a woman, from all accounts, Milwood, in the tragedy of George Barnwell, was an unequal match.

Possessing, perhaps, as great a share of personal beauty as was ever lavished on a human being, she prostituted it to the vilest purposes. Instigated by her machinations, Swearingen murdered the partner of his bosom. For her he sacrificed every thing—fortune, honor, fame, and for her he is to die a felon's death! Ral. Reg.

**NORFOLK, AUG. 21.**  
The President of the United States left Washington on Wednesday last in the steam boat Potomac, Capt Jenkins, and landed yesterday at the Rip Raps. We learn it is his intention to remain at Old Point Comfort, until Monday week; the 31st inst. for the benefit of his health. The President is accompanied by Major Eaton, Secretary of War, and Gen. Gratiot, of the Engineer Corps. Herald.

**King of Spain.**—The editors of the New York Mercurio Espanol have published in the Spanish language a letter, dated Madrid, June 17, which states that the capital abounds in intrigues in relation to the proposed marriage of Ferdinand. The apostolic party wish to force the King into an alliance with the Princess of Sardinia, who is said to be young and beautiful, and withal a great devotee. The moderate party, which is composed of the Princess Donna Isabella, (wife of Don Francisco Paula, and sister of the Dutchess de Berri, of France,) and the younger and more numerous of the courtiers, are very desirous that Ferdinand should marry the Princess Donna Christiana, daughter of the King of Naples, who is also said to be young and very beautiful. This party represent to Ferdinand, that an union with the Princess Christiana will prevent the crown of Spain from passing into the family of his brother Don Carlos to whom the more rational and liberal of the people are very much opposed. Bost. Bulletin.

**Mr. Poinsett.**—The last Pensacola Gazette has a very unpleasant report, brought from Trinidad by Captain Voorhees of the U. S. Schr. Shark, that our Minister, Mr. Poinsett, had been assassinated in Mexico! It is said to have been generally believed in Trinidad on the 20th July—such a report had been brought on that day in letters from Vera Cruz. But this account comes by a very circuitous route; and is not probably as late as the other accounts we have had more direct from Mexico. It is possible that the attempt to assassinate Commodore Porter may have been swelled out into an actual assassination of Mr. Poinsett. Rich. Com.

**Copper.**—We have this day seen a specimen of pure metal copper, obtained from the ore which has recently been dug from Mr. Ansley's copper mine near Mineral Point. We learn from that gentleman that there is, in all probability, a large body of this valuable ore in that section of country, and it is only requisite that the manufacture of copper be commenced to render it a valuable article for exportation. Gallena (Illinois) paper.

**Anti-Newtonian System.**—Mr. Richardson of Illinois is delivering lectures at Indianapolis [Ind.] in opposition to the Newtonian system. His arguments are said to be very ingenious.

**Health of Fayetteville.**—Our town enjoys its usual degree of health, so far as we know. And what is almost of as much consequence to comfort, it enjoys an unusual exemption from those little troublesome summer visitors, the mosquitoes. The almost daily rains, by preventing the water from stagnating, have had this good effect, at least. Fayetteville Observer.

**Heavy Damages.**—At the late term of the Milledgeville, (Geo.) Superior Court, in the suit of George W. Murray, Cashier of the Darien Bank, against Maj. John A. Jones, for slander, the Jury assessed the damages at \$9,000.

**Spain and Morocco.**—Austria has declared war against Morocco. Hostilities have been commenced—two Morocco corvettes have been burnt and a little lost taken by the Austrian squadron.

**From the theatre of War.**—Kumror talks of negotiations for peace. An article from Bucharest says, that the reserve, under General Tolstoy, is marching to the Danube; and that Gen. Diebitsch is preparing to pass the Balkan. It is a rough road across Mount Hæmus; and the toll, at Choumla, is extravagant. Perchance Redchid Pacha will not open the gate.

**Paris July 17.**—Gen. Lafayette gives orders to sell the lands which he possesses in the United States, to pay the debts of Mr. Monroe. The latter has refused to accept the gift; but the General's agent has received orders, at all events, to follow his instructions. This is the reason for which the lands of Gen. Lafayette in the United States have been recently put up for sale.

**One day later from Paris.**—The brig Columbian, at Philadelphia from Havre, brings papers to the 22d ult. inclusive, one day later than by the Charlemagne at New York. The Aurora has the following paragraph:

A paper of the 22d of July contains a Russian bulletin, dated Camp before Schumla, June 24, which states that the Grand Vizier, who returned to Schumla two days after his defeat, with a small detachment of cavalry, attempted in vain to re-organize his army. Many of the soldiers, both of the regular and irregular corps, took advantage of their defeat to return to their homes. Thus, of the 40,000 men which the Grand Vizier had in line, there remains scarcely 15,000. The Russian army remained in observation, but the Turks, still alarmed at their late defeat, prudently kept within the walls of Schumla. Several small skirmishes had taken place on the banks of the lakra.

**Lord Castlereagh.**—We understand Castlereagh (son of the Marquis of Londonderry) is to succeed Lord Brecknock, who retires on account of ill health, as one of the Lords of Admiralty. Lord Castlereagh is said to be a young nobleman of great promise. Courier, 19th June.

**Rice.**—A correspondent of the New-York American says “the way to boil Rice is not to boil it all. Put it in a pot and cover it over with water, place it near the fire, or over coals on the hearth, where it will get gradually hot, but not at any time faster than to simmer. It will then be cooked so that every grain will be distinct and separate, and have that crawling appearance so much boasted of by the Carolinians.” Chas. Courier.

Our last paper contained an account of some Indian disturbances in Missouri. We are pleased to learn from the St. Louis Beacon, that “all the information received from the western counties concurs to prove that the late disturbance with the Indians was an accidental affair, the result of momentary circumstances, and not the premeditated commencement of hostilities.” Measures have been taken to preserve the quiet of the country.

The New-York Journal of Commerce states that a seizure was made in that city on Monday, of a large quantity of Jewelry, that had been smuggled from on board an European vessel. The property labelled consists of several first-rate gold watches, precious stones, rings, &c. to a very large amount.—Several parties supposed to have been engaged in the transaction, have been arrested. Some of them have given bail in \$6000 each.
