

The President of the United States arrived at Washington City on Tuesday, the 1st inst. from a tour down the Chesapeake Bay, for the benefit of his health. It is stated that he has recovered the wonted vigor of his constitution.

The communication from Mecklenburg, relative to the mortality which prevails there, has been received, and shall be published in our next. It would not have been precluded this week, but for a temporary absence of the Editor. "Omega" is received, and shall be attended to.

Much sickness prevails in most sections of the country south and east of the mountain districts. We may remark, however, in general terms, that there is not much, if any, more sickness in Salisbury, than in ordinary years at this season. We are advised from Mecklenburg, that in some parts of that county an unusual degree of mortality attends the cases of fever this season: young and old fall victims to it.

Duels—Murderers—Cowards—Two cowardly fellows, one Mr. J. C. Sewall, the other a Dr. H. B. Crews, happening recently to fall out about some tobacco-spittle which escaped out of the leeward side of the Doc's mouth, and alighted somewhere in the region of the nasal feature of the other—or some other cause as trivial—agreed to try to shoot one another, in order to repair the terrible breach which said spittle had battered in their honors: accordingly, they met on the Alabama and Florida line, accompanied by their friends, falsely so called: after shooting at each other three times, at only about a dozen steps apart—during which, no doubt, like a boat rower, they looked one way and fired another, else we can't see how they so often missed their mark at such a distance—they agreed that their honors were whole again, as Sewall had drawn blood from the flesh of the Doc's right shoulder. They then sneaked off home; and thus ended the ridiculous and disgraceful affair.

Camden.—The Camden Journal does not report the prices in the market at that place, and we have no other convenient means of ascertaining them.

Cheraw.—The newspaper in this place being defunct, we shall hereafter be unable to give the state of the market there.

Gen. Wm. F. Gordon has been elected to Congress from the Albemarle district in Virginia, in place of Mr. Rives, appointed Minister to France.

Yellow Fever.—A paper from New-Orleans, of the 10th ult. states that the yellow fever was making frightful ravages among the inhabitants—forty or fifty died daily!

Awful depravity!—Some of the negroes of Dr. Floyd's family, near Lynchburg, Virginia, put arsenic in the coffee-pot; by which all the family were sickened, and a little son of the Doctor's died. Five of the negroes were put in jail, suspected of being in the nefarious plot to poison the family.

Rather a serious conspiracy among the Blacks at and in the neighborhood of Georgetown, South Carolina, was recently detected, and suppressed. It appeared to be the object of the slaves, to massacre the whites, and plunder their property. The conspiracy was not, however, as extensive as at first apprehended.

Mr. Poinsett.—In all probability the report of the assassination of Mr. Poinsett, our Minister in Mexico, is without foundation; as accounts from Tampico, of a later date than that on which the report rested, are silent on the subject.

Indian Treaties.—A treaty has just been concluded by the U. S. commissioners, with the Chipewya and Potawatomi tribes of Indians, on the Upper Mississippi river; by which the Indians cede to the U. States the district of country comprising the Lead Mines, and about 3,500,000 acres of valuable land. A treaty with the Winnebagoes was also agreed upon; by which they are to cede to the United States an extensive tract of land, from the Rock to the Ousconsin rivers. A council would soon be held with the Sacs and Foxes. The stipulations of the treaty are: the Winnebagoes are to receive annually, for 30 years, \$18,000—amounting, in all, to \$540,000; the Potawatomi to receive annually \$15,000, as long as they sustain their name as a distinct nation. Harmony prevailed between the Commissioners and the Indians, and the latter appeared satisfied with their bargain. These treaties are supposed to be the most important of any ever concluded with the Indians: the whole amount of lands ceded to the U. States by these treaties, is about six millions of acres, including the most valuable Lead Mines in the Union.

Alabama.—Some of the papers have stated that Francis W. Armstrong has been elected to Congress from the Mobile district in this state: this seems to be a mistake; Dixon H. Lewis has been elected, as stated in last week's Carolinian. He received more votes than both the other candidates, Messrs. Oliver and Armstrong; Armstrong, so far from being elected, was the hindmost on the list.

University of Georgia.—The Trustees have elected

The Rev. Alonzo Church, President of the University.

Mr. McGhee, Professor of Mathematics; and

Mr. James P. Waddell, Professor of Languages.

The duties of Professor of Belles-Lettres and Ethics, are, for the present, to be discharged by Dr. Church.

Milledgeville Jour.

A drove of from 80 to 100 fine Mules recently arrived at Baltimore from Kentucky, and were sold at fair prices—\$75 being the lowest sum that was paid for any one of them.

Ireland.—We regret to find various indications of new troubles in this country, exaggerated, no doubt, by one side of the press, but showing that the country is still in a state of fermentation.

London, July 22.—The Dublin Evening Post of Saturday last exclaims:

"What a state is the country reduced to! In Tyrone, Armagh, and Fermanagh the Catholics have been obliged to retire to the mountains for protection. The milk cows are suffered to run wild about the country for the want of proper care—the children and their mothers have fled from their homes, under the terror of assassination; and if vigorous measures be not speedily adopted, the civil war in the North may be extended to other quarters."

The Privy Council has terminated its deliberations; and the result is a proclamation, calling upon the authorities of the country to obey the laws, which will produce about as much effect as the invitation to Master Barnardine to come down and be hanged. The Dublin Evening Post has hit the nail on the head—"Disarm the yeomanry and proclaim martial law." There is no use in shilly shallying when multitudes are taking the field against each other. In all cases of this kind severity is mercy. In a country where the magistrates are partisans, the law is a mockery. The only efficient discipline is martial law, administered unsparingly and impartially, without regard to religion or party.

When Jesse Benton, and Patrick Darby, and Henry Clay, used to trump up stories against Gen. Jackson, the Toby Watkins party never heeded who the Authors were; the invention, not the inventor, was what engrossed their attention; but now the tune is changed; a friend of our side relates a number of facts touching the public interest, and straightway, there is a fuss to know who he is!

Balt. Rep.

The Virginia planters on the Roanoke, since the opening of the Dismal Swamp Canal, have turned their attention to that channel of communication, instead of pursuing the old plan of waggoning to Lynchburg. Between six and seven hundred hogheads of tobacco, of the present inspection, have been shipped from Danville to Norfolk, by the route of the canal.

In Zanesville, Ohio, the inhabitants celebrated the 4th by a great barbecue on the east bank of the Muskingum. Among other delicacies served up, was an Ox roasted whole.

[It may have been roasted whole, but we do not believe it was wholly roasted.]

The editor of the Androscoggin Free Press, says that the other day he saw seventy-five ox teams, each containing fifteen females, all of whom were going a blue berry-ing.

Buenos Ayres.—Intelligence from Buenos Ayres to the 15th of June had reached us, at which time the result of the war still remained in the same uncertain state as at the date of the previous accounts. There was no prospect of peace between the belligerent parties. Flour was quoted at a doubleton per barrel, and in consequence of the long continuance of the civil commotions the price of the article was expected to be maintained.

"The law's delay."—A suit in London, commencing in the reign of Charles the first, has just been settled by which a Dr Boucher recovered 140,000. Who pays costs?

A machine is advertised in England to destroy bugs by steam. It can be used without taking the bedstead to pieces, and will not injure the furniture to it ever so rich.

From a late London Paper.

Recently a fellow of the name of William Robertson, was convicted in the Police Court, Edinburgh, of stealing Bell's Life in London and two other newspapers in a coffee room, and was sentenced to the discipline of Bridewell for sixty days. The paper mentioned was sticking out of his pocket, and during the resistance he made to be turned out of the house, his hat fell off, in which the other two papers were discovered.

Free Blacks.—The Norfolk Herald states that the schooner Washington's Barge, captain Benedict, has been chartered by the Government to take out to Liberia the captured Africans at Amelia Island, 120 in number. She was to sail immediately for the Island, to take them on board. A. H. Mecklin, Esq. goes out in the Washington's Barge, as agent on the part of the government, and Doctor J. Vaughn Smith, of the Navy as surgeon of the vessel.

The papers are beginning to publish steam boat ballots for the next presidency. One of the Editors of the New-York Commercial was recently present at one of these trials, which terminated in favour of Mr. Clay. "The result was, exactly two to one"—two turns to a leg of mutton, we suppose.

Webster's Dictionary.—Mr. Baker, of Thetford, Eng. proposes to reprint Webster's American Dictionary of the English Language, in Paris, to be completed in two volumes, quarto.

Extract of a letter from Charles Carroll, Jr. to a friend in Baltimore.

DONOVANIAN MANE, 26 JULY, 1829.

"I regret that the short stay of Gen. Jackson at the Manor prevented my asking you to meet him at dinner; but he left us yesterday morning in consequence of an engagement he had made for that evening in Washington.

"His address, as you know, is as agreeable as possible, and his conversation particularly on the events of the last War, in which he was so distinguished an actor, is replete with the most interesting details; showing strongly his accurate knowledge of character and his natural talents for war. It is impossible to be a day in his company, and not to feel convinced, that he is resolved to pursue a straight-forward and upright policy, regardless of the sneers and abuse of opposition."

Tooth Drawing.—Two men have been charged before the London police of stealing 400 sets of human teeth, valued at £300, and, in spite of their teeth, have been committed to durance.

Difference of Trade.—The amount of the trade of England with France, during the past year, is stated at only £800,000; while the trade with Turkey during the same period is estimated at more than £1,000,000.

A sea Fox, measuring 13 feet in length and 4 feet in circumference, was taken in Wiscasset harbor lately.

MARRIED.

DIED.

At his father's residence, Mecklenburg county, on the 12th ult. after suffering the pangs of a protracted and painful illness, James Columbus Harris, Esq. attorney at law, in the 25th year of his age. He yielded up his soul, with pious resignation, into the hands of Him who gave it, and has, we trust, ascended into the bosom of his Father and his God, there to receive the reward of a well-spent life. [Communicated.]

In Iredell county, on the 6th inst. William Carson, Esq. in the 40th year of his age. He was an enterprising man, and much beloved by his acquaintances. In the domestic circle, he was tender and affectionate; and his afflicted family will long deplore the loss of the husband and the father. [Communicated.]

In Davidson county, on the 29th ult. Doctor William Dobson.

At the residence of her father, Maj. Jonathan Harris, in Mecklenburg county, on the 1st inst. Miss Sophia S. Harris, aged 14 years. [We regret our inability to publish the obituary accompanying the announcement of Miss Harris's decease, this week: it shall find a place in our next.]

Also, in Mecklenburg county, on the 29th ult. Mr. John Black, county surveyor. Also, Mr. Hugh G. Kilpatrick. Also, on the 1st inst. Mr. John Barnett, Sen.; who was a staunch Whig during the Revolution, and an honest man throughout life. Also, on the same day, Mr. John Patterson, jr.

In Iredell county, on the 5th inst. after a short but painful illness, Mrs. Elizabeth Campbell, wife of Mr. Asa Campbell, aged 28 years 6 months and 7 days. Also, on the next day, 6th inst. Mr. Asa Campbell, husband of the above named deceased, aged 28 years 5 months and 9 days. They died within 24 hours of each other, were carried to the burying ground together, in the same wagon, and laid in the same grave, there to sleep until the Lord Jesus shall descend from Heaven, and with the voice of the Archangel and trump of God, shall awake the nations under ground, and usher on the glorious morning of the Resurrection. They were lovely and pleasant in their lives, and in death were not divided. They left four small children, and many connexions, to mourn their loss. [Communicated.]
