

The Rev. Dr. Rick, and the Rev. Professor Gooden, will be in Salisbury, on Wednesday, the 14th inst., and on the 15th, preach at the Presbyterian Church on the evening of that day.

Gold.—A piece of Gold was recently found near Frederickburg, Virg. valued at \$300; which the Richmond Compiler presumes is the largest piece of that metal ever found in the United States. This is a mistake; some 25 or 30 years since, a piece was found in the neighboring county of Cabarrus, valued at between five and six thousand dollars; it weighed 28 lbs., and at Disputee and Ausin's mine, in Anson county, a piece was dug up last year weighing upwards of 13 lbs. and valued at \$3000. Many other pieces, nearly, if not quite as large, have been found in this State.

Legislature.—The Legislature of this State assembled in Nashville, on the 21st ult. Dr. Joel Walker, of the Western District, was elected Speaker of the Senate; and Ephraim H. Foster, Esq. of Davidson county, Speaker of the House of Representatives, both without opposition. The acting Gov. Wm. Hall, sent in a short, but very sensible message, the same day. The Legislature seem to have commenced business in good earnest; subjects of some importance, such as the judiciary, a penitentiary, state bank, impeachment of Judge Nat. Williams, Cobb's revival, &c. were fully before them in a few days.

The communication in relation to the extraction of a water-melon seed from the throat of a young man, shall be attended to in our next.

The Extracts from a Report on the Gold Region of the South, read before the Lyceum of Natural History in the city of New-York, from the pen of Mr. Nash, late Civil Engineer of this State, shall be published, or a part, at least, in our next.

U. S. Senator.—The Milton Gazette nominates Judge Murphy, of Orange county, as a suitable candidate for the vacant seat in the U. S. Senate. And in addition, so will take the liberty to mention that Maj. Daniel M. Forney, of Lincoln county, is also spoken of for said appointment. We have heretofore expressed our doubts of the propriety of announcing so many candidates; but that the course of other papers on the subject, left us no alternative but to follow their example. We know not that it accords with the wishes of some of the gentlemen, that their names should be brought before the public, in connexion with the appointment of a Senator; but that they have been spoken of in general conversation, is, perhaps, a sufficient warrant for us barely to mention the fact. We cannot refrain from reiterating our regret, that there should be, apparently, so little unanimity in the West, on this important subject.

Medical Department.—Far is it from my intention to discard the truth, and introduce error, in noticing an article which appeared in the Carolinaian, dated Sept. 5th, and signed by "Virginia," stating the mortality accompanying the prevailing epidemic, with which a particular section of our country is afflicted. Its cause, and treatment, but for the introduction of such objections with regard to its cause, (which is the only point in the piece that I deem objectionable) as "Virginia," it is hoped, will be good enough to elucidate.

"Fever," says "Virginia," in a most positive manner, "is an accumulation of black matter in the blood, produced by the operation of marsh effluvia." That blood drawn at a particular stage of the disease, exhibits a livid aspect, is admitted; but "Virginia" has certainly mistaken the effect for the cause. The lungs, the proper organ by which the substance that gives a dark appearance to the blood, is separated from it, cease for a while to perform its functions, in the full vigor of health, by the influence of the cause of fever; consequently the blood, which is dependent upon the healthy performance of such functions for its colour, will be altered.

It is further stated, that this effluvia is "carbonic acid gas, the identity of which has been satisfactorily established by the illustrious J. E. Cooke, of Transylvania." From a somewhat cursory view of his writings, I cannot discover that he has given any evidence of the fact, except that it alters the colour of the blood, and weakens the action of the heart; which I consider as paramount to no evidence at all. In order to illustrate the subject more clearly, it is necessary to make a few physiological remarks, with regard to the change effected on the blood in the process of respiration.

It is well known and universally established, that the blood, in its passage through the lungs, is changed from a livid to a scarlet hue; and that this change is caused either by the combination of oxygen gas with it, which is termed oxygenation, or by the combination of the same gas with the carbon which it contains, in its passage through the lungs, and its consequent expulsion in the form of carbonic acid gas, which is termed decarbonization; or by the combination of the same gas, viz. oxygen, with it in the lungs, which, in its course through the circulation, combines with the carbon which exists in the same fluid, of which it is freed when it again returns to these organs, and bears the appellation both of oxygenation and decarbonization; which shows that the lungs are the proper organs by which carbon is separated from the blood, and not the liver. From these remarks, it is evident, that if carbonic acid gas was the cause of fever, all that would be necessary to excite the system into a febrile action, would be to suspend respiration by choking a subject, or in any other way; carbon would thereby accumulate in the blood, and

bilious fever would be the result, which, in consequence, it is almost unnecessary to say, does not take place.

Should the arguments already advanced be insufficient to prove that carbonic acid gas is not the cause of fever, they can be confirmed by others of equal or superior magnitude. Miners, and well-diggers, who are almost constantly exposed to atmosphere containing an inordinate quantity of this gas, in consequence of the deep caverns which their occupations compel them to work in, are not more subject to fever than those who live upon the surface of the earth. Blacksmiths, whose daily labor constrains them to form carbonic acid gas, by the combination of the oxygen which exists in the atmosphere with the carbon of the coal which they burn, are not particularly subject to fever. A multitudinous variety of such facts might be introduced to prove the doctrine erroneous; but I deem those already advanced, amply sufficient. I shall therefore bring my arguments to a close; and in doing so, I shall advance no theory; for then it might be imagined that I was endeavoring to erect an edifice upon the ruins of another.

Charlotte, Sept. 28th, 1829.

Mexicans and Spaniards.—Accounts from Mexico state, that the Spaniards had full possession of Tampico; which was very sickly, 700 of the troops being down with the fever. The Mexicans were at Old Tampico, one mile distant, under Gen. Santa Ana, fortifying themselves. The Spanish Gen. Barradas, being absent in the country, with part of his troops, the Mexicans attacked and took the Old town; but on the return of Barradas, it was surrendered, and the Mexicans retired.

Gov. Holmes.—Rumors have reached this city, which we fear are but too well founded, of the death of the Hon. GABRIEL HOLMES, member elect from the Wilmington District and late Governor of this State.

Important News from Europe.—The packet ship Napoleon brings to the New York editors Liverpool papers to the 26th and London to the 24th August, inclusive. The intelligence from the seat of war by this arrival is highly important. It appears that the Russian General Diebitsch having been reinforced at Aidos with the corps of 12,000 men which had been landed at Siebobl, followed the Turks to the town of Kirk Killiss, twenty French leagues from Constantinople. Here a great battle took place, in which the Turks were defeated and dispersed, and the Russian army was left without any obstacle to oppose its march to Constantinople.

Already, according to accounts from Vienna to the 10th August, in anticipation of the approach of the Russian Army to Constantinople, many of the wealthy inhabitants of that capital had removed their property, and made preparations for proceeding to Asia. The friends of the Janissaries had begun to show themselves at Constantinople and had set fire to the Greek suburb of Pera. Fifteen hundred houses had been destroyed in the conflagration. All accounts seem to concur in the fact, that in consequence of some dexterous manoeuvres on the part of the Russians, and some negligence, perhaps, on the part of the Grand Vezier, affairs have taken a favorable turn for the invading army.

The Pensacola Gazette states, on what it considers the highest authority, that the U. S. ship Hornet, Capt. Norris, is now down at Tampico or Vera-Cruz, ready to give assistance to Mr. Poinsett, and to afford every protection to the citizens of the U. States, and their lawful commerce. It also states that the Grampus is affording active convoy from Havana and Matanzas; that the Shark is on a cruise on the South side of Cuba, protecting our commerce particularly between Cape Cruz and Antonio.

Liverpool dates to the 12th ult. inclusive have been received at Boston. The Lord Lieutenant of Ireland has issued a proclamation, stating that a party of Orangemen on their return home, after dining together in the vicinity of Arneybridge, were attacked by an assembly of Ribbonmen, when one of the Orange party was piked to death, and six others wounded, three of whom had died. He offers a reward of £200 for the apprehension of the persons concerned in the murder.

A London paper of the 10th says:—At a late hour we are favored with intelligence, by express from Constantinople, to the 17th ult. It fully confirms our statement that the Sultan instantly rejected all overtures of peace from Russia, and that the offers of mediation of the English and French Ambassadors were also declined.

An arrival at Boston from Liverpool, brings English papers to 22d Aug. The intelligence from the seat of war shews a rapid progress of the Russian arms. The accounts from Constantinople, on the other hand, do not indicate that spirit among the Turks which has been exhibited on former emergencies. The orders for a levy en masse have produced but 20,000 men, and these only from the districts where there were a sufficient number of troops to compel the levy.

A letter from Madrid, published in France says that Gen. Vives, Captain General of Cuba, addressed to the King of Spain a sensible and energetic remonstrance against the project of invading Mexico, in which he represents Barradas, the commander of the present expedition, as a dangerous man, whom he had several times been under the necessity of expelling from Havana.

NEW YORK, SEPT. 26. Cotton.—The sales amount to 1250 bales; of which about 900 were Upland, consisting of middling at 84c, fair quality at 82c, good at 80c, and prime at 104c; about 250 at 9c, and a parcel of New Orleans at 10c, and about 100 at 84c lb. Export, 2644 bales.

Editor.—We are sorry to see the decline of the price of this article, both in the British and French Markets. The resumption of it also is rapidly declining in France. N. C. Journal.

An arrival from Valparaiso brings intelligence, that a Revolution in Peru had been effected by the party friendly to Bolivar, and that a plot, involving a revolution, had been discovered in St. Jago.—Gen. La Fuente (a partisan of Bolivar) with 1500 troops, had revolutionized Lima, taken possession of the palace and Castles of Calla.

At Albany, N. York, a lady, 40 years old, obtained a verdict of five hundred dollars damages, against a young man of only about 20, for a breach of promise of marriage!

DIED. In Guilford county, on the 17th ult. Mr. William C. Rankin, a man who was respected and esteemed.

In Newberry District, S. C. on the 21st ult. Mary, infant daughter of William Gilliam, Esq. of that district, aged 15 months.

At the residence of David Mock, Esq. in Davidson county, on the 15th inst. the Rev. Wm. N. Abington, an itinerant Preacher of the Methodist Episcopal Church, formerly of Henry county, Va.

In Lincoln county, on the 25th ult. Mrs. Jane B. D. McLean, wife of Dr. John McLean, and daughter of Gen. Ephraim Davidson, of Iredell county. It is needless to say, that this dispensation has cast a deep shade of sorrow over the circle of her relatives and friends. In the bloom of life, with a purity of heart, and unpretending mildness of character, she meekly moved in the sphere of her duty, esteemed and beloved most by those who knew her best. Her consolation for those to whom her virtues had endeared her, and who the more deeply grieve for her early blight, that such a life was a meet preparation for death, and a happy immortality.

Departed this life, on the 25th of August last, Jane Catharine Summerow, aged 3 years 11 months and 11 days. Again; Mary Harriot Summerow, on the 31st of the same month, aged 5 years 7 months and 20 days; Again; Robert Michael Summerow, September 9th, aged 2 years 7 months and 19 days. All children of Mr. Andrew and Charlotte Summerow, of Iredell county,—the rising offspring of a youthful pair. An only one is still left in their care.

The Almighty Sovereign, who gave them breath, In mercy and wisdom has willed their death; In the morn of life, just had been enrolled, Yet on the threshold of the eternal world; Thou Great Supreme! thy ways are dark and high; Most sure! the Judge of all the earth does right.

Iredell county, Oct. 3d, 1829.

THE MARKETS.

Salisbury Prices, October 10. Cotton 14 to 12 cents, corn 25 to 30, beef 3 to 4, butter 8 to 10, flour 3 75 to 4 per barrel, wheat 50 to 60, Irish potatoes 30 to 40, sweet do 25 to 35, brown sugar 12 to 15, coffee 15 to 22, salt 1 1/2 to 1 25, homespun cloth 15 to 25, whiskey 20 to 25, bacon 8 to 10.

Gold Mine for Sale.

The subscriber has a Gold Mine, in the county of Cabarrus, which promises, as he believes, better than any other mine in the country; which he is disposed to sell, on the most accommodating terms. Persons, or companies, desirous of making a fortune at the business, would do well to apply soon to the subscriber, at Concord, Cabarrus county, N. C.

Emporium of Fashion!  
WM. J. COWAN, Tailor,  
RESPECTFULLY informs the inhabitants of Rowan county and the public in general, that he has taken a shop at Cowan & Leeves Store, Wood Grove, in said county, 13 miles west of Salisbury; where he intends carrying on the TAILORING BUSINESS,

in all its various branches. Having made arrangements regularly to receive the New-York and Philadelphia Fashions, and having himself worked in the most fashionable shops in the state, he feels a confidence in stating, that his garments will not be excelled, as to style, fashion, and durability of workmanship.

All orders from a distance, shall be promptly attended to, and executed at short notice.

He hopes, by unremitting attention to business, to merit and receive a share of public patronage. The smallest favor will be thankfully received, and gratefully acknowledged.

Wood Grove, Rowan co. Dec. 8, 1829. 3909

Estate of Robert Penry.

AT August term of Rowan county court, 1829, the subscriber obtained letters of Administration on the Estate of Robert Penry, dec'd. All persons indebted to said estate, are requested to make payment without delay; and all those having demands against the same, are requested to bring them forward, legally authenticated, for settlement, within the time prescribed by law, or this notice will be filed in bar of their recovery.

ABNER FEINSTER, Adm'r.

NEW GOODS.  
THE subscriber has just received, from New York and Philadelphia, and is now opening, at his Store in CONCORD, a general assortment of GOODS; consisting of Dry Goods, Hard Ware, Cutlery, Saddlery, Medicines, Paints, &c. &c. Having purchased entirely for cash, and intending to sell for cash, he feels assured that he can sell on terms which will be satisfactory to those wishing to purchase. The public are respectfully invited to call and examine for themselves.

Bargains in Land.

THE subscriber having more Land than he can conveniently keep in cultivation, is desirous of disposing of the following tracts, viz: A tract containing 24 acres, lying on the South Fork of the Yadkin river, 7 miles north of Statesville, with a dwelling-house, and 20 acres cleared and in cultivation. Another tract of 100 acres, lying on the waters of said river, with a dwelling-house, barn, and 25 acres in cultivation. Another tract of 144 acres, adjoining the above, 11 miles north of Statesville, on the main road leading from thence to Wilksboro. Another tract of 138 acres, on the waters of Rocky Creek, unimproved. Another tract, of 100 acres, on the waters of Elk Shoal Creek, adjoining lands of N. Norton; with a house, and 8 or 10 acres in cultivation. Another tract of 80 acres, on the waters of Third Creek, 8 or 10 miles north west of Statesville, with a house, and about ten acres in cultivation. And another tract, of 50 acres, unimproved, on the South Fork of the Yadkin river. Prices and payments will be made accommodating, and can be known on application to the subscriber, at Liberty Hill, Iredell county, N. C.; or, in his absence, to John Feinster. Persons desirous of obtaining bargains, and settling themselves in a healthy country, would do well to call and examine for themselves. There are churches, grist mills, saw mills, wool machines and cotton gins, convenient to the above lands; and there are on them plenty of good pure wholesome springs of water. Gold has been found on lands adjoining two of these tracts.

October 1st, 1829. 3:90

DANIEL H. CRESS,

HAS just received, and opened at his Store in Salisbury, a large and handsome assortment of Spring and Summer GOODS; Also, Groceries, Hardware, Cutlery, Plated Ware, Hats, and Hatters' Trimmings, Crockery, a good assortment of Hosiery, Cloths, Shoes, Bonnets, &c. and every article usually asked for in stores. His stock of goods has been purchased entirely for cash; and he is determined to sell them as low as can be had in the place, for cash, or to punctual customers on a short credit. The public are respectfully invited to call, examine, and judge for themselves.

Salisbury, June 2d, 1829. 70

A CARD.

A. TORRENCE & Co. HAVE removed to the north corner of the Court-House—the Store attached to the Mansion Hotel; where they are disposed to sell GOODS very low.

Salisbury, September 18th, 1829. 83

Great Bargains!

THE subscriber's intention being to retire to the West, if possible in the spring, offers the following Property for sale, upon reasonable terms, to-wit: 330 acres of Land, lying in the Forks of the Yadkin, nine miles from Salisbury, adjoining Fredrick Ford, Zachariah MacAtee and others, on which are some improvements; and as for health, supposed to be equal to any plantation in the county.

Also, 26 or 30 acres Land, lying on Crane Creek, three quarters of a mile from town, adjoining John Utzman, Thomas Mull, and others, on which there are ten or twelve acres Meadow Ground, of first quality.

Also a number of Stills and Tin Ware, for sale at his store in Salisbury. Also, a new and complete Stick GIG and Harness. For all which, good notes of hand, or negro property, will be received in payment. In exchange for, or in payment of, the above property, notes of hand on solvent persons, or negro property, will be received. Those who wish to buy, would do well to apply soon.

EDWARD CRESS.

Salisbury, Aug. 1st, 1829. 88

N. B. The remaining Stock of GOODS on hand in Concord, comprising a good assortment, belonging to the subscriber, will be sold off on low terms; and payments made easy to the purchaser, if the whole stock could be disposed of at once.

20,000 Acres of Land FOR SALE.

LIVING in the county of Surry, and, as is believed from recent discoveries, within the Gold Region of North-Carolina. This tract was granted by the State, in the year 1793; consists of one contiguous survey, adjoining the county line of Wilkes, and extending from the Blue Ridge to within three miles of the Main Yadkin River. It is intersected for fifteen or twenty miles by Mitchell's river, affording an abundant supply of water-power at all seasons, and many sites convenient for the application of this power to the purposes of Machinery. Gold has lately been found in the neighborhood of this land, but its mineral treasures are in a great measure unexplored. Persons desirous to purchase, are referred to the Editor for more particular information, with whom the plat of this land is deposited.

Salisbury, June 12th, 1829. 71
