Resolved that the members of this Lodge wear crapes on the left arm for the space of 30 days, in testimony of the respect which we entertain for the memory of our deceased and worthy brother, ALEXANDER ERWIN, of Burke county, N. Important news from Mexico.—By an arrival at New Orleans, news is received from Tampico, that after five successive actions, the Spanish fleet, under the command of Don Juan de Guzman, has surrendered to the Mexican forces on the 12th Sept. He was to embark for Havana immediately. The conditions seem to have been very favorable to the conquerors. The Spanish officers were to retain their swords and colors; the wounded and sick, amounting to 1200, to be taken care of, and on recovering, to be sent to Havana at the expense of the Mexicans; &c. &c.

The U. S. frigate *Brandywine*, lately arrived at New York from the Pacific, is ordered to get in readiness to take another cruise, to touch at Lisbon, and other ports.

NEW-YORK, Oct. 24.

Cotton.—The late accounts from Liverpool and Havre per Pacific and Eric, were not of a very cheering nature. Our market throughout the week has been exceedingly dull; we cannot however make any change on our quotations—the total business from 17th to 23d inst. does not exceed 600 bales, principally to manufacturers, consisting of 500 Bales Uplands from 94 to 104 and 100 Bales Alabama from 74 to 11 cents.

Flour.—The demand, since our last, has been moderate, but the feeling is rather better, and an advance of 1/4 cent per bushel has been realized. Among the sales of the week are 500 bbls. of Richmond Country, at \$5 5/8, cash, and several small parcels of Georgetown Mountain at \$5 1/2.

The Markets.—No change of any consequence has occurred since our last, in the prices of Tobacco or Flour (save the Lynchburg Jeffersonian, 21st ult.) A hhd. of new Tobacco was sold on Saturday at \$3.75. Flour was 3.75 and Wheat 6 1/2 cts. to 6 7/8.

Cottons.—Our rates for United States short staple have undergone no variation since our last, but the favour we then noticed on ordinary to fair Sea Islands, has further increased, and the advance on these descriptions may be estimated at 15 to 20 cents upon last month. The sales since our last comprise 4969 bales.

The Convention.—The discussion has commenced in earnest in the convention, and the debate promises to be more extended than had been generally anticipated. Indeed, the Enquirer of Tuesday was of opinion, that it would not be concluded before the meeting of the assembly; but that opinion was changed on Thursday, from the circumstance that there was a manifest disinclination on the part of members to participate in the debate. We still think that the debate will be an extended one, from a firm belief, that the magnitude of the questions before the convention, involving, as they do the propriety or impropriety of an almost total revolution in the government of Virginia, the oldest republic upon earth, will not be allowed to be passed over in silence by such men as the venerable and talented chief justice Marshall, the able and profound ex-President Madison, the logical and sagacious Teazewell, and others whose names occupy a splendid station in the galaxy of Virginia's most brilliant and celebrated worthies. Nor do we suppose that those who have already addressed the convention, will be content with only once manifesting their zeal and intrepidity in the great cause which has been entrusted to their hands.

Old Dominion.

Among the *on dit*s of the late Paris papers, is one, that Prince Cobourg, the husband of the late Princess Charlotte of Wales is about to ask in marriage the Arch Duchess Maria Louisa, the widow of Napoleon.

FOREIGN NEWS.

New York, Oct. 25.—By the ship *Mary Lou*, from London, we have received the London Atlas of September 27, which announces the conclusion of peace between Russia and Turkey, in the following terms:

By Express.—By advices from Berlin which have just reached us by a special courier, we have positive intelligence that the Treaty of Peace between Russia and Turkey is actually concluded and signed.

The terms of the Treaty, our account says, will be an evidence to the whole world of the moderation of the Emperor Nicholas. They are based on the Treaty of Ackerman, with a provision of indemnity to Russia for the expenses of the war.

The Turkish Plenipotentiary immediately returned to Constantinople, bearing the Treaty signed by General Diebitsch, under powers vested in him by the Emperor, and escorted by 4000 Cossacks. The Sultan instantly released all the Russian prisoners of war, who are on their march homeward.

A conspiracy had been detected at Constantinople against the life and power of the Sultan, and 500 of the old Janizaries lost their lives.

No Peace Yet.—The arrival of the packet ship *Sully*, from Havre, at New York, which brings French papers to the 1st of Oct. proves that the Express of the London Atlas, carried forged news, no Peace having been concluded as late as the 5th Sept. at Constantinople, though negotiations are still going on.

The actual condition of affairs at the last dates may be thus stated. On the 1st September, negotiations were opened at Adrianople, then the Russian head quarters. On the 2d, and 3d, these negotiations were suspended, but not broken off, the Turkish Commissioners having asked them to consult their Government upon one of the points at issue.

The Russian chief acceded to this delay, under stipulation that the treaty should be signed and ratified by the 14th September, in the mean time his troops were advancing upon Constantinople, and were within 15 leagues of it, at the latest dates. There will, then, we doubt not, be peace.

The works of fortifications are pushed with activity. The Sultan does not quit his camp at Harnis Tschitlick. The Mussulmans are enjoined not to lay aside their arms. This measure, and the appearance of Russian troops at Karaburnu, on the Black Sea, and at Czurlu, indicates but too clearly that Gen. Diebitsch intends to follow up his operations until the conclusion of peace.

The following intelligence from Belgrade, Sept. 8, is also furnished by the Augsburg Gazette.

Letters from Adrianople, announce that the Turkish Commissioners charged with negotiations at the Russian head-quarters, endeavor to protract them, but Gen. Diebitsch has fixed a term peremptorily, after which he will attack the capital without delay.

Our Ministers, Mr. Brown, and General Scott of the U. S. Army, with their families, arrived in this vessel.

The Packet Ship *Corinthian*, from London, arrived at Norfolk, brings papers to the 30th of Sept. but nothing later from the Continent. Though no peace has yet taken place, there is no doubt that there has been a suspension of hostilities.

The London Court Journal of the 26th says that when Diebitsch had received information that the Sultan was disposed to treat for a peace, he assured the allied ambassadors that if the commissioners were named he would not march upon Constantinople; having received orders to act with the greatest moderation, and to avoid all useless conquests. It is stated, that on hearing that a general insurrection was feared in the city, the Russian General sent to offer a detachment to protect the Sultan and the city. It is added that this might have occasioned the rumor of the capture of Constantinople.

Portugal.—A private letter from Madrid, dated Sept. 14, contains the following:—"The partisans of the Apostolic party, speak of a treaty said to have been concluded between the great European Powers as well as Spain and Brazil. By this treaty Portugal appears to be given up to Miguel. The King of Spain cedes the provinces of Rio de la Plata to Donna Maria, to indemnify that Princess for the loss of Portugal; she is, moreover, to espouse a prince of the house of Austria, who is to govern their kingdom as an Absolute Sovereign. The Emperor of Brazil, to whom this treaty must be the most obnoxious, is not to grant any territory, having only to yield his consent to these transactions, in which it may be seen, the Spanish King acts with singular generosity, since he gives up possessions over which he has no control. This treaty, it is said, will not be executed till the affairs of the East have been arranged. This project is attributed to the Duke of Wellington.

Egypt.—The Pacha of Egypt is about to declare himself independent of the Porte.

Paris, Sept. 1.—Orders have been sent to the authorities of Lyons, to prevent La Fayette being feasted as proposed.

Sept. 9.—The reception of La Fayette at Lyons was superb; upwards of 80,000 persons were present.

The crowning of the Princess of Sweden took place at Stockholm, the 21st Aug.

The King of Naples will pass through the South of France for Madrid, with the Princess Christine (sister of the Dutchess of Berry) who mounts the throne of Spain.

We cannot withhold the tribute of our admiration when we look at the rapid

and masterly march of Count Drouvillé. He is a great man, and his laurels are imperishable. "The Passer of the Balkan," is a title which will be his distinction in history. The Grand Vizier is no soldier—he wants eyes and ears, or he would have seen and heard something of the vast army which in crossing the Balkan passed Chumla at a few miles distance.

Cour. of Eng.
A nobleman, high in the confidence of the Emperor of Brazil, has been charged with a mission of great importance to this and other European courts, and only awaits the arrival of the Queen of Portugal at Rio Janeiro to proceed on his mission.

[London Morning Herald.]
A meeting has been held at Cork, at the head of which the Earl of Mountcashel presided, which is likely to cause a strong sensation in England, as well as Ireland. The individuals composing the meeting were all churchmen and Tories; the object of the meeting was an extensive reform of the abuses in the church establishment of the United Kingdom.

Revolutionary Soldiers.—It is in contemplation to memorialize the ensuing Congress in favor of such Non-Commissioned Officers and Soldiers of the Army of the Revolution, as enlisted for three years, served to the close of the war, and were honorably discharged, and who receive no pensions.

With this view, it is deemed expedient to ascertain their number. Will some person in each of the United States volunteer in this service, and communicate the result as soon as practicable to James Fairlee, Esq. City Hall, N. York?

The parties interested are most likely to be found in the humble walks of life. Officers of the Revolution, and patriotic citizens, will therefore do well to circulate this notice—their patronage is solicited.

Note.—Claimants must be particular to put down their whole time of service, whether in one or more campaigns, and their present places of residence, and pay their postage.

Death of Gov. Derbigny.—The New Orleans papers of the 7th inst. (some of which are in mourning as a tribute of respect to his memory,) announce the decease of Peter Derbigny, late Governor of Louisiana. That event took place on the day preceding, and was caused by a wound in the head, received from the trunk of a tree, whilst he was leaping from his carriage to avoid the danger likely to result from its being overturned.

General Post Office Department.—It is stated in the *Washington Telegraph*, that the receipts of the Post Office Department for the quarter ending on the 1st of July, exceeded those of the corresponding quarter of the previous year over \$25,000. Such is the result of "Reform."

The Kentucky Gazette.—By a private letter from Lexington we learn that since the affair with young Wickliffe, Mr. Trotter, the editor of the Kentucky Gazette, has received one challenge from one of Mr. Clay's sons and another from a near relation of Mrs. Clay, both of which were afterwards withdrawn.

Kings and Emperors are becoming quite condescending of late. The Emperor of China permits his paternal uncle, now 84 years of age, to appear in his celestial presence without kneeling, and he allows his brother to walk freely about the palace.

From Portugal.—Capt. Warren, at this point on Saturday evening from Lisbon, whence he sailed on the 8th September, informs that part of the squadron engaged in the attack upon Terceira, had returned to Lisbon and reported a loss of 750 killed and drowned, and 550 wounded and taken prisoners; and that considerable chagrin was manifested by the friends of Don Miguel, and exultation by his opponents. It was stated that the other vessels of the squadron remained off Terceira, expecting a reinforcement of men and munitions of war from Lisbon; but as it was publicly reported that Don Miguel was without money and without credit, it was thought they would have to wait a long time.

Buenos Ayers.—The Editor of the National Gazette has received a file of Buenos Ayres papers to the 17th August inclusive. The *Gaceta Mercantil* of that date congratulates the republic on the dispersion of all the clouds which blackened the political horizon, and proclaims that the new ministers would make every effort to re-establish order and prosperity. The revenue yielded by the custom house of Buenos Ayres in the month of July was nearly 650,000 dollars; and the receipts down to the 16th August were proportional. From that source alone, the new government derived in seven weeks, nearly a million—so fruitful is the trade.

An Anaconda, and a Boa Constrictor, said to be the largest ever brought to this country, are exhibited at New York. The Boa was to be fed yesterday, for the first time since he left London. The Anaconda has fasted for 3 months.

One of the Russian generals in Asia is Count *Buristoff*. He must be a cousin of General *Puff*, and distantly related to Rotzoff and Karusoff.

Accounts from Algiers to the 8th August, state that there was no hope of a peace being agreed upon between that power and France. The French Admiral Bretteville commanding the blockading squadron, after two unsuccessful interviews with the *Dey*, was informed that himself and suite might consider themselves fortunate in being permitted to return on board in safety—his vessel was fired upon by the batteries on leaving the port.
