Salisbury:

DECEMBER 6, 1829.

CONGRESSIONAL ELECTION.

The election for a member to represent this District in the Congress of the United States, took place on Thursday last. The following is the result in Rowan county:

	Rencher.	Long.
Salisbury	343	69
Mocksville	150	40
Fulton	68	2
Brickhouse's	28	11
Thompson's Mill	29	25
Neely's Mill	53	21
Pinkston's	47	1
Morgan's	53	00
	771	169

Majority for Rencher 602

From Davidson county, we learn that Mr. Rencher received a majority of 201 votes in that county. We have seen no further returns than above stated; but we think we are safe in announcing, that Col. ABRAM RENCHER, of Chatham county, is elected a Representative from this District in the Congress of the United States, in place of JOHN GILES, Esq., who declined accepting the office.

UNITED STATES SENATOR.

We have a letter from our member, Gen. POLK, dated at Raleigh Tuesday morning last, 11 o'clock, at which time no choice had been made of United States Senator. There had been six ballottings, which resulted as follows:

	1st	2d	3d	4th	5th	6th
Donnell	46	55	55	55	55	59
Moore	42	39	49	57	63	62
Steele	31	28	21	49	46	51
Carson	27	30	27	withdrawn		
Murphy	19	8	withdrawn			

"It is clearly evident that no one in nomination has the confidence of the two Houses." About 60 seems to be the utmost strength of Judge Donnell; "and his friends will, I think, with one more trial," drop him.

"The transfer of Judge Ruffin from a fiscal to a judicial situation," leaves a vacancy that will be difficult to fill. It is important to the Institution, that his successor should be a Lawyer of eminence... conciliatory in his manners, and industrious in his habits. [Judge] Cameron, Hogg, Iredell, and Swain, are spoken of."

Col. THOMAS G. POLK, member of the House of Commons from this county, has been elected Major General of the 4th Division of N. C. Militia, by a majority of 27 votes over Brig. Gen. John N. Palfier, of Cabarrus county... in place of Maj. Gen. McLeary, resigned.

Col. WM. J. ALEXANDER, member from Mecklenburg, and the present Speaker of the House of Commons, has been elected Solicitor of the 6th judicial district of this State, in place of Joseph Wilson, deceased. The following were the ballottings:

	1st	2d	3d	4th	5th	6th	7th	8th
Alexander	71	76	81	74	71	77	84	94
Graham	73	76	81	70	54	40	34	4
Mitchell	43	35	21	40	56	68	66	88

Congress was to have convened, at Washington, yesterday... (first Monday in December.)

Great Fire in Camden.—A most awful calamity has befallen the town of Camden, S. C. A fire broke out in that ill-fated place, about 12 o'clock on Monday night, 23d ult., which burnt to the ground eighty-five buildings. Particulars in our next.

A portion, and a respectable portion, too, it is said, of the citizens of Rockingham county, Virginia, recently assembled, and publicly burnt Benjamin W. Leigh in effigy, for his aristocratic opinions, expressed in debate in the Virginia Convention. The warmest friends of Reform, express a regret at this act of folly.

On our first page, will be found a sketch of the proceedings of a Convention, recently assembled in Raleigh, composed of delegates from several county bible societies, and other friends of the Bible cause; the object of the Convention was to adopt a plan to supply every family in the State with the Scriptures.

We would refer the reader to an interesting sketch of the life and services of Gen. William Davidson, who was killed by the British at Cowan's Ford, on the Catawba river, during the Revolutionary war. It is on our last page.

"An M. D." shall appear in our next.

An unusual number of Advertisements, (the creation of our business) and the length of the Treasurer's Report, compel us to lay over much editorial and other matter.

Not more than 3,000 had passed the Cumberland Gap, by the first of November this year; last year, up to the same period, 40,000 had passed. Pork was \$3 per cwt. at Louisville, Kentucky, at last dates.

Caution.—The house of Asa Johnston, of Iredell county, was consumed by fire on the 30th ult.; part only of the furniture was saved; and the loss, at this season, will be severely felt by the family. It was of accidental occurrence... perhaps negligence in not properly securing the fire. We hope this casualty will serve to infuse more caution into our citizens, at this particular season; especially the citizens of Salisbury, who are much more exposed to such accidents than their neighbors of the country.

FOREIGN NEWS.

LATE FROM EUROPE.
By the ship Great Britain, at Newport from Havre, French papers to 23d Oct. and by the ship Boston, at Boston from Liverpool, English papers to the 24th Oct. have been received by the New York Enquirer and Courier; from which papers we make the following extracts:

Austria continued its hostilities against Morocco. It was announced in London that the failure of the bank of Lisbon was inevitable. An open rupture between the Pacha of Egypt and the Sultan was predicted in letters from Alexandria. Spain has recognized the government of Miguel in Portugal. The Sultan ratified the treaty of peace on the 20th September, and the Russian army was preparing to evacuate Adrianople on the 27th October.

The island of Madagascar is trying to get into notice, and to figure in the newspapers. The Queen, who it would seem is too poor to have a name, has taken a great dislike to the French, and treats them with much severity. Two French corvettes have sailed for Madagascar, and we shall probably soon hear of their having carried off the island, Queen and all.

England.—The manufacturing districts are still suffering, although there are partial symptoms of improvement. There have been great floods in divers places, which have drowned many cattle, damaged bridges and impeded the mails.

The King's Health.—The London Atlas states "on the best authority," that the sight of one of the King's eyes is so seriously affected that all hopes of its recovery are gone, and that dangerous symptoms have appeared in the other eye. It adds that one of the King's knees has an increasing tendency to induration.

Arrangements have been made, says a London paper, for stationing a larger military force than usual in the Ionian Islands and at Malta, as a precautionary measure, until affairs in the East assume a more settled aspect.

We learn from the Courier that Mr. McLane had a long interview with the Earl of Aberdeen on the 16th, at the office of the Secretary of State for Foreign Affairs.

The property destroyed by the late fire at Manchester was variously estimated at very 150,000 to 150,000. It is stated that a very little of it was insured. Merchandise of the value of 112,000, belonging to different manufacturers, was consumed in one warehouse, and not a particle of it covered by insurance.

Thursday, Oct. 22, it is stated that "in prices there is no alteration; the market seems firm, the demand being extensive and the import small."

Ireland.—The Dublin Register states that the returns transmitted to England of the state of the Irish Revenue, gave an excess of about 140,000l. over the returns made up to the same period last year. The King had commanded 500 pounds to be placed at the disposal of the committee for the relief of the distressed Dublin manufacturers.

France.—The Gazette de France states that since the news of peace in the East, credit has been good and products high, but that France is filled with alarm and apprehensions, excited by the disaffected journals.

Calais and all the country in its vicinity were inundated, on the 13th ult. in consequence of continual rains. The crops not gathered, it was presumed, would be lost, or much injured, even if the weather should soon be fine.

Spain.—The French papers state a prevalent report that Ferdinand of Spain had recognized Don Miguel as King of Portugal. The intelligence was corroborated by private letters received in England.

LIVERPOOL, Oct. 24.—Cotton: This is the fourth successive week in which a very extensive business has been done in cotton; the sales during the last four weeks, reaching 83,890 bags. The import this week is 7406 bags, and the sales are 19,110 bags.

Turkey and Russia.—Letters from Adrianople announce, that the Russian army was to commence its return on the 25th September, and that Adrianople was to be immediately evacuated, the Porte being ready to make the first payment of indemnity. The Russians, it is said, will occupy Bourgos and Sizoboff for one year.

Nothing has been heard of General Gaisar since he started in pursuit of the Pacha of Scutari.

At Adrianople the Greeks were guilty of acts of violence to some Turks, and pulled them by the beard, but that they were punished by the Russians with the knout.

A private letter from Wallachia gives a different account of the Russian forces. According to this account, the whole of the Russian army employed in the operations of the war in Europe, is to remain in the Turkish territory, till payment of the indemnity has been completed. The head quarters of Count Diebitzsch will remain at Adrianople; Count Pahlen will occupy Wallachia with 12,000 men; and General Kisselew, Moldavia, with 8000 men; General Roth is to remain with his corps between the Danube and Balkan; and the Third Corps, commanded by General Krassowski, which is still before Choumli, is to go back and cross the Pruth. Lieutenant General Satchin is mentioned as the President of the Principalities in future, and Gen. Kisselew is said to have made a halt near Sopolia, in order to get new instructions.

The Czar has elevated Count Diebitzsch to a dukedom, and intends to confer upon him the dignity of Vice President of Poland.

The Sultan had despatched orders from Constantinople to all the Pachaliks of the Empire, to cease hostilities against the Russians, and to treat the Russian nation as one on the most friendly terms with the Porte.

The rumor of an attempt to raise a loan in Paris, on account of the Turkish Government, was confirmed by the advices received in London; but success is yet problematical.

Beware of the Villain!

On the night of the 5th November, 1829, a certain ISAAC SWEAT, of Montgomery county N. C. stole and carried off the daughter of the subscriber. Sweat is aged about 27, about 6 feet high, well proportioned, light complexioned, and a long nose; my daughter, Polly Hagler, whom the villain has inveigled away, is small in stature, stoop shouldered, fair complexioned, with blue eyes. Sweat has left behind him a good wife and two small children, in a forlorn condition. They started in a one-horse wagon, with a large blind bay horse, and I suppose they aim for Galoway (or Carroll) county, Tennessee. They went in company with two colored men and their white women, and some children by the name of Carter, and one Willis Carter. A said Sweat may attempt to marry or live with my daughter in some unlawful way. I request all good citizens, who may have it in their power, to stop and break up the criminal connexion. 3198 JACOB HAGLER.

Buffalo School.

AN enfeebled constitution, renders it impossible for me to take an extensive circuit in the practice of my profession as a Lawyer; and I therefore propose, assisted by my brother, to open a school at my house in Lincoln county, on the Catawba river, nine miles from Statesville, and twenty-four from Lincolnton, on the first Monday in March next; by which time my buildings will be completed. My house is large and roomy; and I have begun to erect small but comfortable Cabins, similar to those at the Wimsborough and Platt Spring Academies of South Carolina. The situation is a handsome one—is known to be perfectly healthy, and has the advantage of being entirely removed from all places of dissipation. No scholar will be taken who cannot board with me as a member of my family.

I will teach the Latin and Greek languages, the Mathematics and the Elements of the other Sciences: And also, if required by parents or guardians, I will teach with great care the elementary branches of an English education. Tuition and boarding, including candles, washing, &c. &c. will be furnished for one hundred dollars per annum, twenty five of which must be paid in advance. No scholar will be taken for a less term than one quarter; but entrance may be had for one or more quarters at any time after the opening of the school.

I now have one Law Student, and am anxious to get a few more; to whose examination and instruction I would devote a sufficient portion of time to enable them to proceed with much greater ease than they generally do in lawyers' offices;—for it is a notorious fact, that practicing lawyers have neither time nor inclination to direct the studies of their students, and had they do not examine them as often as once a month. Under such circumstances, a young man must pursue his studies to great disadvantage, and obtain license to practise without a competent fund of practical information. I do not propose to deliver law lectures; but I will point out the authors, or the parts of them, which ought to be read; examine the young men daily upon them, converse with them upon the changes which have been made in the English law by the constitution and laws of the U. S. the constitution and laws of this state, and by the decisions of the Supreme Court. I have a very good library of elementary law books; for the use of which, for instruction, and for reading, including candles and washing I will charge each student one hundred dollars per annum, twenty-five of which must be paid in advance.

All applications must be made to me in person, or by letter, direct to Thomas' Ferry, Iredell county, or to Statesville.

For particulars as to my qualifications, I refer to Judge Badger of Raleigh, or to Major Henderson of Lincolnton.

The Raleigh Register, Columbia Telescope, and the North Carolina Journal, are requested to insert the above two months, and forward their accounts to Statesville for payment.
