

Buffalo Shoal School.
 A feeble constitution, renders it impossible for me to take an extensive circuit in the practice of my profession as a Lawyer; and I therefore propose, assisted by my brother, to open a school at my house in Lincoln county, on the Catawba river, nine miles from Statesville, and twenty-four from Lincoln, on the first Monday in March next, by which time my buildings will be completed. My house is large and airy; and I have begun to erect small but comfortable Cabins, similar to those at the Wimbrough and Flat Spring Academies of South Carolina. The situation is a handsome one—is known to be perfectly healthy, and has the advantage of being entirely removed from all places of dissipation. No scholar will be taken who cannot board with me as a member of my family.

I will teach the Latin and Greek Languages, the Mathematics and the Elements of the other Sciences; And also, if required by parents or guardians, I will teach with great care the elementary branches of an English education. Tuition and boarding, including candles, washing, &c. &c. will be furnished for one hundred dollars per annum, twenty five of which must be paid in advance. No scholar will be taken for a less term than one quarter, but entrance may be had for one or more quarters at any time after the opening of the school.

I now have one Law Student, and am anxious to get a few more; to whose examination and instruction I would devote a sufficient portion of time to enable them to proceed with much greater ease than they generally do in lawyers' offices; for it is a notorious fact, that practicing lawyers have neither time nor inclination to direct the studies of their students, and that they do not examine them as often as once a month. Under such circumstances, a young man must pass for a free man, or deny his real owner, or alter his name. He was from the jail of Randolph county, N.C. 8th August last. I purchased him from Moses Chambers, Person county, N.C. twelve months since; and he may aim to get back there. It is requested that information may be given to the subscriber immediately, at Chesterville, S.C.

The system of studies in its general, preparatory to one University. The common English branches—spelling, reading, writing, geography, arithmetic and English grammar—are interspersed throughout the course. Tuition in the higher branches of education will be given to such as desire it.

Regular tuition fifteen dollars per session.

Gold mines, land & negroes.
 THE subscriber, wishing to remove from the neighborhood, offers for sale his valuable Plantation, four miles west of Charlotte, N. C. containing 600 acres of land, 200 in Mecklenburg county, and 400 in North Carolina. It is well founded, and the opinion of the best authorities is, that Gold abounds in two hills, particularly on the plantation; a branch runs through it, for three fourths of a mile, which, it is thought by men of judgment, is as rich in the precious metal as any of the Burke mines; there is also on the place good water-power for mining operations.

Also, 20 or 25 likely NEGROES for sale, or a part of them, such as may not wish to follow me.

Any person desirous of purchasing, can call and view the premises, or inquire of Robert I. Dinkins, in Charlotte, for a description, &c.

All those thrashing machines, turned by horse power, which strike upwards, are an infringement on the subscriber's. He will shortly have one made, for the inspection of those who may wish to purchase.

Beware of the Villain!
 ON the night of the 5th November, 1829, a certain ISAAC SWEAT, of Montgomery county N. C. stole and carried off the daughter of the subscriber. Sweat is aged about 27, about 6 feet high, well proportioned, light complexioned, and a long nose; my daughter, Polly Hagler, whom the villain has inveigled away, is small in stature, stoop shouldered, fair complexioned, with blue eyes. Sweat has left behind him a good wife and two small children, in a forlorn condition. They started in a one-horse wagon, with a large blind bay horse, and I suppose they aim for Caloway (or Carroll) county, Tennessee. They went in company with two colored men and their white women, and some children by the name of Carter, and one Willis Carter. As said Sweat may attempt to marry or live with my daughter in some unlawful way, I request all good citizens, who may have it in their power, to stop and break up the criminal connexion.

POETRY.
BUSTING IN GOD.
 I love the man who will can bear
 Misfortune's angry frown;
 I love the man whose soul is deep,
 Though all its ends are flown.

I love the soul on sob, profound
 That misery cannot break;
 That soul that braves the raging crowd,
 And sternly claims its right.

I love that fortitude of mind
 That sorrow cannot shake;
 I love that strength of soul and mind
 No earthly power can break.

I love the man who scores to beat
 Beneath affliction's blast—
 Who trusts in an almighty Friend
 To soothe his woes at last.

COMMUNICATION.
Auxiliary Bible Society of Asheville, N. C.
 At a meeting of a number of the members of the Asheville Auxiliary Bible Society in May last, it was deemed necessary and expedient inasmuch as they had failed to observe the annual meeting, agreeably to the provisions of the constitution, to recognize the Society, by the adoption of a new constitution, containing such provisions and necessary alterations as would more fully meet the views and approbation of the members; whereupon, the society adjourned to meet again on the 4th of August last past.

The Society met, according to adjournment. The Rev. Dr. Chapman was called to the chair, and Peter Stradley appointed secretary. After a fervent and pathetic supplication to the throne of Grace, from the chair, in behalf of the society and the important object connected therewith, Col. Samuel Chunn submitted a revised Constitution; which being considered, and amended, was unanimously adopted.

The society then proceeded to the choice of Officers, for the current year; and the following were chosen:
 Rev. Robert H. Chapman, D. D. President;
 Rev. Christopher Bradshaw, Vice President;
 Col. Samuel Chunn, Treasurer; John B. White, Corresponding Sec'y; Peter Stradley, Recording Secretary.

The following persons were chosen to constitute the Board of Managers: Silas McDowell, Swan F. Barnett, David Vance, Thomas Stradley, Thomas West, John Corn, and R. E. Fortune.

The business being closed, prayer was offered up by the President; when, on motion, the Society adjourned, to hold an annual meeting on the fourth Saturday in September last past.

The Asheville Auxiliary Bible Society, being now established upon a basis which is conceived to be more safe and permanent, and having received an additional increase of members, it is confidently hoped, with the blessing of Divine Providence, that the sphere of its operations will be so extended as to reach the case of every family in Buncombe county, destitute of a copy of the Holy Scriptures.

The present institution having taken upon itself the high and solemn responsibility to supply every destitute family in the United States with a copy of the Bible, and the light of divine truth; this society will most cheerfully co-operate, to the utmost extent of its means, (unfortunately very limited at present) in the furtherance of this benevolent and philanthropic resolve. While the most enlarged and liberal efforts are making in almost every part of the civilized world, for the extension of the inalienable benefits of Religion, we will not stand by as mere "lookers on," as inactive spectators of the passing scene; but we will actively and zealously co-operate in promoting this good work, with the promotion of which, is connected the moral and political welfare of our country, and the endless felicity of man. In behalf of the Managers,
 R. E. FORTUNE, Cor. Sec'y, pro tem.

ITEMS.
 The eldest son of General Blocher died on the 10th of October, at Koenig. This officer held the rank of Major-General. He died after protracted sufferings, in consequence of the dangerous wounds he had received in the campaigns of 1813.

Most important to the fair.—An exquisite improvement has been lately made in the manufacture for *billet-doux*. Mr. Donaldson, paper manufacturer, N. J. has contrived to impart all the delicious fragrance of the rose and geranium to that which he designs for fine letter.—The fragrance will remain for years, even though the paper should be exposed to the air.

Rats.—Near Edinburgh a farmer who was troubled with rats, recently caught 400 by placing a large copper kettle in his corn loft, filling it about half full of water and strewing a thin sprinkling of chaff over it. By a few boards extending from the wall to the kettle the rats could jump among what they took to be a fine lot of grain, and died the death of.....fools!

New subjects of Theft.—The Boston Advertiser says, a physician's saddle-bags were lately stolen from off his horse in the town of Bangor, (Maine) containing sundry boluses, boxes of pills, &c. If taken, the rogue should be made to expiate his crime by swallowing his prize.

Mr. E. Burchard, of Dartmouth, Mass. has invented a travelling *Grist Mill*, to be drawn in a wagon by one horse, and capable of grinding as many bushels of corn per day, as the horse can travel miles, viz.—one bushel to the mile.

An unsocial Horse.—A coachman in England was lately kissing his favourite horse, when the animal bit off his under-lip, and swallowed it.

Condensed Facts.—Common salt applied as a manure in gardens, will quickly destroy snails.

Apples may be kept the whole year round by being immersed in a solution which receives no injury from contact. If it were universally practiced, we should hear no more of decayed and rotted apples.

100 wt. of raw meat will yield 40 lb. of roast or 50 of boiled, and 200 of broth.

The common elm, growing in wet soil, and in good earth, acquires a full increase in about one hundred and fifty years.

When the upper branches of a tree, it indicates that the tree is undergoing alteration, and is going to decay.

Fine glass bottles, containing oil in good preservation, were found in the excavations of Pompeii.

A solution of caustic in turpentine, used as a size for paper will effectually prevent its being stained, humidity or insects.

The roots of an old black mulberry tree sent forth shoots after having appeared inactivity for 24 years.

Dogs can swallow with impunity even large quantities of the iron viper.

Things I have never seen.—I have never seen such hard times as the present in all my life.

I have never seen a pretty girl did not know it.

I have never seen a lawyer receive fee on account of his client's property.

I have never seen a woman who was tongue-tied.

I have never seen a girl that was sewing without being asked at least ten times.

I have never seen rich men marrying poor girls.

I have never seen but one lady in a bed-wrench and pin to tighten her corsets!!!

I have never seen more confident than at present for all vacant offices.

I have never seen a woman die with the lock-jaw.

I have never seen the necessity young ladies (who are not bald) wearing false hair.

I have never seen the Great Serpent, or Tom Thumb, or Cleopatra Symmes, or the man in the moon; would have travelled to see all things, but my guardians pocketed me in my eyes.

Paper.—The entire value of paper manufactured in the United States annually, is supposed to be between seven and eight millions of dollars. No. of persons employed in the paper is about 11,000. The value of paper annually saved in the states near about two millions of dollars. Large quantities of rags have been imported from Germany and Italy.

The largest mill in the United States is that built by Messrs. Gurnee on the Brandywine in Delaware. The sheet of paper can be made by machines, to the length of 100 miles. It issues its paper in a single day which is afterwards cut to the size desired.

Nicholas vs. Alexander.—The New York Gazette gives the following remarks from Bell's Weekly Messenger, on the difference of disposition and policy evinced by the present Emperor of all the Russias, and his predecessor on the throne:
 "The Emperor Nicholas, as we know, is a very different man to the late Emperor Alexander. The late Emperor Alexander was of a mild temper, fond of ease, and not excited to war. He had imbibed a good deal of the philosophy of the French school from his tutor, the mouls La Harpe; but it had not corrupted his generous heart, or polluted the sources of moral and religious truth. If it made him a little coxcomb, it still left him a Christian. His master-piece of policy, the Holy Alliance, was conceived in the motives, and had, with Alexander's merit of being dictated by a virtuous and conscientious principle. His powers clung to it, as a barrier against their own subjects, and a fence against popular rights. We have seen against the flow of liberal opinions. But, in the intention of Alexander, was meant to preserve, and for years it did effectually preserve, peace and quiet of Europe. The Emperor Nicholas has contrived to break his neck out of this collar; and now that the sluices are open and the waters flow in, who can tell where they will stop?"
