FOR PRESIDENT ANDREW JACKSON

OF TENTERSEE. -0 4000

We are authorised to announce Aure Cowaw. Esq as a candidate to represent the county of Bracm, in the Senate of the next General Assembly.

Partarlins mentes et nascitus ridiculus mus which according to our deep's translation, means the great Balrimore Convention has been in labor and has brought forth, the little New York Juggler,-Martin Van Buren, Now this is just what we said would be the result or the me hing, many months before it was called. and therefore we refused to unction it. We knew that it was gotten up by the friends of the "mayiran" for the purpose of caucusing him into the Vice-Presidency, and therefore we opposed It. But this convention does not speak the sentiments of the people of the United States. A few individuals from each State cannot meet to solemn caucus and say this man shall have this office and the people must obey. No they are not such slaves. They think for simple, and the saving in the expense of con. themselves and they will set for themselves. They remember the attempt which was made by Mr. Crawford's friends to Juggle him into the Presidency in the place of Genl Jackson by success and they know that this same Van Buren was one of the most active in that attempt. But we will give the vote as taken in the Baltimore caucus as a matter of curio-ity, as an not of barefaced impudence and as a

shameful attempt to impose upon the people 1.

Which makes 63 in States where the President even is in a minority, and which taken from the 208 leave 146. We will take from these 146, the votes of those States which will go for Barbour, but which were set down to Van Bu-Pen in the caucus, and we will reduce the ma Biclane vote to 117.

The reduction must still go farther. Illinois will certainly go for Johnson, yet two of her votes are set down to Van Buren. This leaves 115. Pennsylvania, it will be recollected refuned to accede to the proposition for the call of the Baltimorg Convention, but met is Conven-tion and nominated Mr. Wilkins. Her thirty es must therefore he taken from the 115 which will leave only 85, which may possibly he reduced to 62 hy taking away the 23 votes of Tennemer and New Jersey, which are doubt-Where will he get his votes? Why will those, presending to be Jacksonmen, press his claims, when they know that defeat must attend them. With Mr. Earnour the case is different. He is risin of at least ninety-five votes, and perhans more. If therefore the friends of the litungler would drop him the much dreaded test in the Senate, would be avoided. ige Harbour would be elected by the people, and there would consequently be no dan-gar of putting the election to Congress.

It remains, then with Van Buren's friends to say, whether they will have union or discord among the friends of the Administration. If they do push his claims, and if the election does go to Congress, upon them let the odium of mich an act rest.

We will go, with the people of North Caroline, for Jackson, Barbour and Ten Consmitt-

TYROLESE MILL

We are highly gratified to learn that the Ex-Trexter's mine, near this place, remove all doubt of its success. The mill itself should be made of cast-iron, but not having the exact dotails of every part of the mill, Mr. Figure determined to have one gnestracted of wood of purpose sq try the principle, and that any alteration might be made in the parts,—with a view after the whole was well understood, to have a number of those mills cast. The experiment has succeeded to admiration, though the my chipe must necessarily be more imperfect in its construction, than if cast by correct patters,

We afe gratified to learn that a friend of My. Faller's in London has procured, at considerable expense, one of these milts constructed on the best model, and in the best style, and has already sent it on to him. It was shipped for New-York, and has by this time reached that

If this machine performs what has been said of it and we now believe it will, it will be worth an immense sum of money to the gold mines of North Carolina, -or rather to all the gold mines of the whole world. It will bring under operation many mines too poor to be worked by existing machinery, and double the value of all the best mines. The machine is extremely struction will be immense. We congratulate the whole gold-region on the prospects opens tained letters of Administration on the ing before them,

The great question of a reduction of the Tariff will soon be fairly before Congress. The proceedings of that body then will be of the most absorbing interest. We shall devote a good portion of our paper to the proceedings upon the subject, when they get fairly under bar of their recovery. Also, all those

REFORM BILL LOST IN THE HOUSE OF LORDS

We see it stated in a late New-York paper, that the English Reform Bill has been lost in the H. of Lords on its second reading. Name can foretell what the consequences of this rejection of the demands of the people for a restoration of their rights will be We should not be surprised were the next Foreign arrival to bring us an account of a revolution ir that Country. People begin now to know their rights in the old as well as in the new world, and they will have them. The Aristocracy may attempt to rivet chains of oppression upon them, but the redeeming and onward marching spirit of LIBERTY will burst them asunder, and teach them the important lesson "that a people to be free have but to will it."

We publish by request the following act Assembly ?

AN act to prohibit the circulation in this State after the time therein mentioned of bank notes under five dollars issued by the banks of other States.

BE it enacted by the General Josembly of the State of North Caradan, and it is hereby enucted by the authority of the same, I bat it shall not be tawful for any person from and after the fourth-day of July, one thousand eight hundred and thirty-two, to nass, circulate or receive in pay-ment within this State any bank note bill, prommary note for the payment of money usued b inder the denomination of five dollars.

Be it further enacted. That any person offen ding against any of the provisions of the proce ding section shall forfeit the nominal amount of such bank note pill or promissary note with cost of suit to be recovered in the name and for the use of any person who shall sue for the same and prosecute such suit to judgment in any jurisdiction having cognizance thereof.

At the public meeting in Chowan County, (which we noticed briefly in our last,) resolu-tions approving of the Baltimore Convention tions approving of the Baltimore Convention were introduced, and met with strenuous apposition. The account states that after an anima ted and elequent debate, which was listened to with the deepest interest and most undivided attention, was closed, the resolutions were put to vote and lost. The following resolution was then presented, and unanimously adopted:

Resolved, That we believe PHILIP P. BARBOUR, of Virginia, fitted for the second office in the gift of the people, and we invite the co-operation of the freemen of North Carolina in electing him Vice President. Washington (N. C.) Union

We observe by the last Oxford Examiner, that a public meeting is to take place in Oxford on the 26th inst, "to determine whether Mr. Van Buren or a Southern man, (opposed to the Tariff,) shall be supported for the Vice Presidency; and if the latter, to appoint delegates to attend the State Covention, to be held in Raleigh next month, for the purpose of nominating a suitable person to be suprorted for Vice President by the South."

The following resolution, among a number of a similar stamp, was passed at an Anti-Van Buren meeting recently held in the city of Natches. Mississippi Revolved, As the sense of this meeting, that the numination of Martin Van Buren, as a captor to execute all kinds of work in his

didate for the Vice Presidency, will not be ap proved by a majority of any party of this State, and that the doctrine is novel and dangerous that the rejection of a man, held unwarrhy to serve abroad, should be converted into an argument for his promotion at home.
