VARIETY.

New and Delicious Spinage.—The Editor of the American Farmer announces with peculiar gratification, the introduction of a new and most excellent spinaceous vegetable, in the Chenopodium Quinoa.—It is deemed, at his table, very far superior to any kind of spinage, when prepared as such, and to any kind of vegetable usually called greens. It is extremely tender, and of fine rich flavour. It is easily grown, even more so than any other vegetable, a patch a rod square furnishing an abundance for a family of ten persons for a month, and this requiring only an ounce of seed. One plant of early spring sowing, left standing on a rich part of the patch, will produce an abundance of seed for the next year's use.

Well, tarnation take the boy, run and rub it on a brick bat, and by gosh, if ever you do the like again, if you shan't grind it!
