BEAUTIES OF CONSISTENCY !

We shall now make a few additional remarks, particularly on the last paragraph of that article. It is in these words:

"At this Salisbury meeting, one Resolution was de voted to our humble self, and another, as above stated, with sundry specifications against the Vice President We esteem it an especial compliment to be denounced in company with so distinguished an individual. In deed, we look upon the assertions of such consistent politicians as some at Salisbury, as of more value to us than a letter of recommendation from our friends."

And the Editor of the Standard esteems it an especial favor to be denounced in company with so " distinguished an individual !" Really, we think but few disinterested men in North Carolina will envy his laste. But it is not true, that Philo White was dramaced by the Rowan meeting. However great a man P. Or did any of you ever hear of a nuclic meeting hold for that purpose! The question was repeated, and it was particularly requested of any persons present, who had any accency on the appointment of Philo White, that such persons should say so No one answered-all shock their heads, and showed, by their fices that they knew mithing of it; and, as it was afterwards ascertained, there was only one or two in the whole assembly who had any knowledge of the proceeding. This being the case, was it not therefore the laty of this meeting-of these one thousand free men, to pull the fine forthers of of this JACK DAW, and let the world see that he was not what he pretended to be-the representative of the republicans of this District !
