SCULPTURING. JOHN HOLSINGER. He now has on hand and for sale, a good supply of MILL STONES, of various sizes and prices, from twenty-five to thirty dollars a pair, of the best grit and workmanship;—also WINDOW SILLS, from \$2 to \$1.50; DOOR SILLS from \$2 to \$3; DOOR STEPS \$1.50; ROUGH BUILDING ROCKS from \$1 to \$1.50; GOLD (up shaft) GRINDERS \$20 a piece.

THE CATAWBA SPRINGS. THE Proprietor of this establishment gives notice, that he is repairing and fitting it up at considerable expense, and in a superior style, and will have it ready for the reception of company by the 30th of May. It is situated on the great Eastern and Western line of Stages, from Salisbury via Lincolnton to Asheville, &c.; (a stage passing there every day in the week but one). The country around is broken and proverbially healthy, and besides the mineral properties of the waters, there are many inducements to turn the attention of invalids and others towards this place. Its proximity to the lower country—the cheapness of living—the excellence of the neighboring society—the abundance of game—the rich field afforded to sciences—especially to Mineralogy and Botany, are facts not to be overlooked by the travelling world. But it is in the Mineral qualities of the Springs that the great attraction towards this spot consists. The Proprietor has no exaggerated lists of cures to present to the public, for he has just taken possession, nor would he deem it a compliment either to the good taste or sagacity of the public, to present such if he had them. But he has the assurance of some of the most scientific Physicians and Chemists, to the rare and valuable properties of these Springs. In 1824 Professor Omsted (now of Yale College) made a strict analysis of this water, and pronounces its foreign ingredients to be Sulphuretted Hydrogen, Sulphate of Lime, Sulphate of Magnesia, Muriate of Lime.

For a more extended statement see his geological Report of North Carolina, authorized by act of Assembly, pages 122-30. Space will not permit us to add the very flattering remarks of this gentleman—but any one at all acquainted with the subject cannot help perceiving the peculiar adaptation of these minerals to the disorders that most prevail in the South.

The Proprietor can only superadd his determination to meet patronage, by an unflinching attention to the wants, wishes and comforts of his visitors. The Springs are now, and will be throughout the year, open for the accommodation of travellers. JOS. W. HAMPTON. March 16, 1838.

The Camden Courier, Columbia Times, Charleston Mercury, Augusta Constitutionalist, Milledgeville Recorder, Savannah Republican, and Columbus Enquirer, will insert the above two months, weekly, and send accounts to Catawba Springs. J. W. H.

THE RIGHTS OF WOMEN. Some ladies have distinguished themselves by declining against the oppression of women, which they say exists in our Christian land. They say women are kept in a condition of inferiority to men, and that of rights they ought to be equal. We have been thinking the matter over, and have come to the conclusion that the wrong is quite the other way; and that if rights ought to be divided half and half, we should be for a new division. Not on the ground upon which Miss Grimke goes, that men are not women, or permitted to engage in women's occupations, but because, when the simple question of superiority is at issue, the men at large have to give up. If ladies and gentlemen meet on the side-walk, who has to turn out? If there are not seats for all the company, who has to stand up? When there is a dinner to give, who goes behind? If there is a curiosity to gratify, who goes behind? If there is a speech to be made, who has to stand up? If there is a public occasion, a party, a strike, little boys, boys, and girls, who has to stand up? If there is a public occasion, a party, a strike, little boys, boys, and girls, who has to stand up? If there is a public occasion, a party, a strike, little boys, boys, and girls, who has to stand up?

THE CUTEST TRICK YET. The following trick to raise a good bottle of wine free gratis for nothing, is the "cup shoal" of all the pieces of imposture we have heard of lately. In the present instance a genteel looking lady entered a store in this city where he knew they had a splendid article in the shape of wine, and at a time when he knew the master had gone to dinner and nobody but a small boy left in attendance. Entering with all the importance of a regular wholesale dealer, our hoster commenced with "Is Mr. — in?" "No, sir—he's just stepped out—gone to dinner sir."

WHEREAS, certain persons have been in the habit of selling in my Pond for some time past, with false or untrue descriptions, and believing that this method will, in fact, entirely destroy the fish, or prevent their increase at least, I have concluded by and with the advice of my friends, to prevent the same.— This, therefore, is to prohibit and forbids all those who have been, or may hereafter be thus engaged, from doing the same from the date hereof, under the strictest penalty of the law. I would remark, however, that I have not the least objection of any gentleman or lady, or parties of such, to fish with Hooks and Lines, at any time. WM. S. MACAY. Salisbury June 15, 1838.

MONTAGUE'S BALM; AN INDIAN CURE FOR TOOTH-ACHE. THE established reputation and constantly increasing demand for this effectual remedy of pain and preservative of the Teeth, has induced the subscriber to offer it to the American Public. Arrangements have been made to supply agents in all the principal cities and towns of the U. States, so as to place it within the reach of those suffering, and likely to suffer, with the most harassing of all ills, (tooth-ache). When applied according to directions given on the bottle, it has never failed to afford immediate and permanent relief.— It also arrests the decay in defective teeth and relieves that soreness which so frequently renders a strong tooth useless.

The application and remedy are simple, innocent, and not unpleasant; and the large number of persons, in various sections of the country, that have already experienced such delightful and salutary benefits from the use of the Balm, are ready to bear (for the public good) their testimony to its unrivaled qualities.

It is an Indian remedy, obtained singularly and unexpectedly, and may be regarded by the civilized world as the most valuable discovery of the Red Man of the Woods.

WILLIAM W. GRAY'S INVALUABLE OINTMENT, For Ulcers, Tumours, &c. Can now be obtained of the patentee, at the office of the Raleigh Register. Single Pot, 1 dollar.—One dozen, 9 dollars. WILLIAM W. GRAY. Raleigh, October 8, 1836.

The above Medicine is for sale in Salisbury at the Store of JOHN MURPHY.

For five or six years previous to the Spring of 1831, a Negro man of mine had been much afflicted with an ulcerated arm and hand, which rendered him almost useless. The ulcer embraced that part of his arm from the elbow down, including his entire hand, which was literally a mass of putrefaction. A joint of one finger, and a part of the thumb, perished and dropped off. A more distressing and hopeless case, I have never beheld. It was abandoned by his physicians as incurable, except by amputation of the hand.

The best medical treatment having failed to relieve the man, I placed him under the care of Mr. William W. Gray, in this place, who, with his Ointment, has effectually cured the case, although the Negro was frequently absent, for weeks and months together. He has been entirely well for the last eight months, and I have good reason to believe will continue so.

WILLIAM BOYLAN. ANOTHER GREAT CURE! RALEIGH, September 21, 1836. I am now 58 years of age—when in my 17th year, I received a wound on my left leg, which became ulcerated, and continued so until the first of March last. It would occasionally heal up, and then break out again; but most of the time, it was in a very painful condition, the sore having extended to a large size, and become very deep. I tried many remedies to make a cure, without success, until I applied Gray's Invaluable Ointment, two pots of which have effectually cured my leg, and reduced it to its natural size. The cure would have been made much sooner, had I strictly attended to the directions for the use of the Ointment; but this I failed to do, while I took much exercise, and very imprudently used tight bandages. My leg has been well for more than six months, during which time, I have walked much, yet it remains firm and free from all soreness or inflammation. After having been afflicted for a period of forty-one years, I now enjoy the benefit of a sound leg again. LEWIS/HOLLOMAN. A supply of the above valuable Medicine kept constantly for sale at THIS OFFICE.
