Mr. McDuffie's Letter .- According to promise, we blish in this week's paper, Mr. McDuffie's letter on he financial schemes of the day. It is of some length, out will, we think, prove interesting to all our readers. For sound intelligence, and honesty of purpose, few ank higher than Mr. McDuffie. His experience, and cknowledged political integrity entitle his opinions to candid consideration by all impartial men. If he is wrong in his opinions, he errs in judgment, not will.

THE GOVERNOR'S ELECTION.

Gov. Dudley's majority over Mr. Branch is now as ertained to be, as far as the results have been received pwards of 17,000 votes. This is a sweeping majority: we must not, however, deceive ourselves and conclude that the votegiven to the respective candidates is a demsactorious that the administration party in no section of Rico. he State rallied on Mr. Branch. The truth is, the NOMINATION made in Wake County turned out to be un-drised, without concert, and certainly highly impolitic. that he has been badly beaten.

We regret to see that some of the Administration papersont of the State are calling Gov. Dudley the Federal Candidate. We have no personal acquaintance with tion. Dudley, but we have the best authority for believing that he is not a Federalist. He has always belonged to the Republican party, and holds to Republican principles. This was distinctly understood to be the ase, when he was brought out two years ago,-and spee then he has made no avowals of opinion of a contrary character, at least we have neither seen, nor heard of any such. Until he does come out for the Tariff.-for Internal Improvements by the General Goveryment,-for a National debt,-for extravagant appropriations and the other federal measures of the day, se feel unwilling to write him down as a Federalist.

Election Returns .- The election returns from Alaboms. Illinois, and Missouri, have as yet been but partially received. We have enough, however, to make the conclusion probable that all these States have gone in layor of the administration.

Indiana .- The latest returns give a considerable mawrite for the Whigs, in this State, as far as the result has been ascertained.

Kentucky.-This State has gone for the Whigs by a large majority

ELECTION RETURNS.

According to the returns, which are now complete of the late election in this State, -the whig party will have in the Legislature, on joint ballot, a majority of 14.-4 in the Senate, and 10 in the Commons.

ds of Gov. Dudley have sequitted themselves well,—be received about 3,000 votes more than at his last election, in our next we will give a statement in full of the votes for Governor, in the different counties throughout the State.

The Connecticut river is so unusually low as to bu fordable,—all the factory streams are dried up.

We understand that in a section of country South of this a curious worm resembling that which may be found is the care of green corn, is devastating the mendows, and corn-fields; the devour the green grass, and blades of corn, and have in this way laid waste some farms.

Crops in the North-West .- The crops in Missouri, and the North-Western States are said to be unusually fine, and promise great abundance. The late severe drought has not been experienced in those States; late accounts also state that in parts of Alabama, and Missimippi the corn crops had assumed a more promising appearance, but cotton was so backward as to be irredeemable by any thing but a late and favorable Fall.

67 A mistake occurred in our last week's paper in enticing the decease of Capt, GEORGE BOOE. The communication not being written very plain the Composifor mistook the name, and it was inserted Capt. Geo. Roso,

Since the resumption of assecie payments the exchanges of the country are rapi there money, according to the last accounts was an follows:—exchange on Richmond I to 1½ per cent,—on North and South Carolina Vi,—on Augusti and Savannah 4½ to 5,—on Mobile 10,—on New Orleans 5. The exchange on Mississippi, and Tennessee money has fallen rapidly, and greatly;—a few months since it was at the enormous rate of 20, to 30 per cent,-now it has fallen to 7 and 8, and is still getting better. This is a cheering prospect; but let it be understood that we owe no thanks to Nicholas Biddle, and his Bank for this improvement in the exchanges of the country. The whole change has been brought about against his will, and without his co-operation. He was the last man that came into the measure of resumption, and yielded finally because he was ferced to do so. It is to be hoped that his speculations in Cotton, and Tobacco will now be at an end.

The late accounts state, that a pardon has been granted to the greatest part of the Cauada prisoners, a short time since condemned to death.

ITEMS OF INTELLIGENCE.

From the N. Y. Daily Express.

As a chronicler of the passing events of the day, perhaps the following fact, as almost unprecedented n locomotion, may not be unacceptable.

A gentleman arrived here in the Royal William steamship, left Trieste on the 15th June; and after passing through Italy, Switzerland, France and England, and visiting four of the European capitals, and spending twelve complete days at the different places mentioned above, on his route until his arrival at Liverpool, the port of debarkation, reached New York on the 24th July, making 39 days in all, from which deducting 12 days of detention at these

The Exploring Squadron was expected to sail yesterday. Every thing was ready—officers all on board, in fine spirits, and the fleet riding in gallant at vie abreast of Fort Monroe, waiting only for wind. It consists of the following vessels: sloop of war Vincennes, Licut. Wilks, commanding the squadron; ship Relief, Lieut. Long; sloop of war Peacock, Lieut. Hudson; brig Porpoise, Lieut. Ring-gold; Schooner Flying Fish; passed Midshipman Knox; schr. Sea Gull, passed Midshipman Reid. The schooners are pilot built and of about 100 tons; the sloops of war carry only eight guns each .-
