ON THE WRECK OF THE POLASKI.

THY MISS P. W. HALL.

on the waters I and beautiful there Rides a bold vessel; her banner in air Streams with a motion, wild, graceful and free, As onward she takes her glad course o'er the sea.

Idhood is there in its innocent sleep ? The arm of the matter encircles her boyed.
While the father regards him with triumph and joy.

And youth with its lofty aspirings is there, And beauty is thinging her surls on the air; No sorrow bath dimin'd the clear light of her eye And what music is like her voice's rich melody !

The aged, whose locks are blanch'd for the grave, And the firmness of manhood, are met on the wave; And the truth and the softness of woman combine To light up the scene, and its pleasures refine.

Swiftly and joyously enward they keep :-Beauty and gladness fre over the deep; Masie and mirth float along on the breeze; And a sunset of glory gleams wide o'er the seas. Night on the waters! and in the clear sky,

The stars, one by one, take their places on high; While a soft mimic heaven is reflected below, And the white-created waves gleam, like wreath iogs of anow.

Night on the waters !- But where is the back Which was speeding so gally and gracefully? Hark !

A sound of dietress and of anguith is near, "Tis the death cry of those who are drowning I bear

The infant that lay pillow'd light on the breast Of the fair youthful mother starts wild from his rest And mingles his faint dying wail with the shrick That goes up where the strong arm of manhood is

The maiden in dreams deems her lover is near, That a low gentle whoper is breath'd in her car She starte; the bright, beautiful vision has fled. And the waters are strew'd with the forms of the

" Help! help! for the love of the Saviour! oh, fly " Are ye deaf to the call of our strong agony ! "The dark world of waters is closing as round, "Oh, God! can no helper, no rescue, be found!"

"Tis d'er; the brave vessel hath mak is her pride And the wise and the losely to gether have died : Mid the posris and the coral of ocean they sleep, Till the trumpet of judgment shall sound through the deep.

## -SCRAPS.

ABSTRACTION.

Sir Issue Newton feeling himself extremely cold e evening in winter, drew his chair very close to (post paid) as above. grate, in which a large flee and recently been lighted. By degrees the fire having completely kindled. Sir Isaac felt the heat intolerably intense, and rung his bell with unusual violence. His sermade his appearance. By this time Sir Isaac was almost literally rousted. "Remove the grate, you leav rascal?" he exclaimed, in a tone of irritation very socommon with that amiable and bland phiplier: " remove the grate before I am burnt to if" "And pray, master," said the servant, ght you not a ther draw back your clean I'-"Upon my sout," said Sir I souc, souling, "I never thought of that precadion."

An Invitation to Dinner .- It was observed that certain covetous rich man never invited one to dine with him. "I'll lay a wager," said a wag, I get an invitation from him. The wager leading accepted, he goes the next day to the rich man's house, about the time he was to dide and tells the servant he must speak with are master impediately, for he can save him a thousand pounds.

Sir," said the servant to his master, " here is a man in a great horry to speak with you who save he can save a thousand pounds," (Out came the

"What is that sir; that you can save me a thouand pounds ? "

"Yes air, I can; but I see you are at dinner; I will go myself and dine, and call again," Ob, pray, sir, come in and take dinner with

" Sir, I shall be troublesome. " " Not at all,"

The invitation wastaccepted. As soon as dione was over, and the family retired, " Well, sir," said the man of the house, "now to your business. Pray let me know how I am to save a thousand pounds. "

" Why, sir," said the other, " I hear you have a daughter to dispose in marriage."

"I have sir.

"And that you intend to portion her with to thousand pounds. " I do so. "

"Why, then, air, let me have her, and I will take her with nine thousand.

The marter of the house rose in a passion, and turned him out of doors.

The Ruling Passion .- A merchant who has escaped from his leger to catch a breath of air at EAR. Saratoga, being unable to drive from his mind the long familiar subject of dollars and cents, writes thus-" The village is very much crowded; the number of visiters present estimated at 83,000. "-

IN. Y. Timess. A merchant in Boston, writing to his daughter in Philadelphia, signed the name of the firm. On reading the epistle the young lady was not a littlebewildered by finding that closed,

With the affectionate rememberance, Of dear daughter, "Your obedient serv'ts,

" W \_\_ & M\_

According to the ancient laws of Hungary in eposequence, was extremly rare.

nary Evils .- If we except the bl of strength, health, and the testimony of a good connecence, all the other conveniences and pleusures of life depend on opinion. Except pain of hedy and remore of conscience, all our evils are ima-

A gentleman travelling in one of our back towns, w weeks since, observed a red headed archin hooing corn near the road side, when the following dialogue took place:
Gentleman,-My boy, your corn looks rather

Boy.-Yes, dad went all the way down to Un cle Nat's to get valler corn to plant this year.

Gentleman.—Bot it's very small; I think you

will not have more than half a crop.

Boy,—We don't expect to have, for we planted on the shares.

Law Case .- The following was stated by a Professor at Paris to his pupils. A gentleman dying, made his will, in which he provided, that if his wife shortly to be confined, should have a boy, he would take two thirds of the property, and his mother the remainder, but if it was a girl, then the mother was to have two thirds and the daughter one third. Now it happened that a boy and girl were born. The Professor inquired how the property was to be divided according to the wish of the testator. He called up one of his pupils and asked, gravely-" Sir, what was the intention of the teslator !" . " Sir," answered the student "it was his intention to have only one child."

" From the fulness of the heart the mouth speak th. "-One of the fair Yankee girls, born and bred on the green mountains, was lately thrown from a waggon, and carried to a neighboring farm house, with a dreadful gash across her cheek, and apparently devoid of either sense or motion. The village Esculapius was sent for, who pronounced it necessary to sew the wound up, when the rustic beauty immediately opened her eyes, and said, " for God's sake, sir, stitch it neatly?"

Jewish Devorce. - Jewish process of divorce, say an old Euglish publication, is short, and unattended with expense. Each party enters the synagogue attended by two priests, where after stating the cause of difference, the woman is asked if she in willing to part with her husband, on unswering is the affermative, he throws the bill of divorcement, each spitting in the other's face, and exclarming, "Cursed are they who shall wish to bring us together."

## CIRCULAR.

The article published below, concerning the new and popular doctrine advanced by the illustrious Goelicke of Gurmany, cannot fail of exciting a deep and thrilling interest throughout our country,

LOUIS OFFON GOELICKE, OF GREMANY.

The greatest of huntan Benefactors.

Citizens of North and South America.

To Louis Offon Gormers, M. D., (Europe.) belong the imperishable honor of adding a New and Passenger Docratics to the Science of Medicine a doctrine which, though vehemently opprojed by many of the faculty, (of which he is a valuable member,) he proves to be as well founded in truth as any doctrine of Huly Writ-a doctrine upon the verity of which are suspended the lives of millions of our race, and which he holdly challenges his opposers to refute, viz t Communition is a disease always occasioned by a disorder. I state of Vis Vites (or Life Principle) of the human and, in no case, whether resulting fatally or sur body: 0.7 often accretly turking in the system for constilly, has a patient used two whole phials. years before there is the least complaint of the tungs Co-and which may be as certainly, though headache. An invaluably processes electrine this, inventor does not clothe it with such infullibility. as it imparts on important lesson to be apparently. Maniers of vessels, who may wish to furnish healthy of both sexes, teaching them that this in themselves and their crews, each with a plual of it. " clavey houses" even while they imagine them discount by the pickage.

The illustrious benefigior of man is also entitled wear the glow of health, and while they "suspect to your autorgned gratitude, and the gratitude of a no dunger night an analoge which are occurs sorld, for the invention of his MATCHLESS SA-NATIVE,—whose heafing find may justly claim for it such a title, since it has so signally triumphed over our great common enemy 12 CON-SUMPTION, both in the first and last stages,—a medicine which has thoroughly filled the recessor. in the Materia Medics, and thereby proved itself room the Conqueror of Physicians—a medicine, for NATURE IS THE BREAT PHYSICIAN, which all mankind will have abundant cause to bless (the doctor and nurse only her servants;) and if the baneficent hands of a kind Providence,—a medi-cipe, whose woodrous virtues have been so glow-strictly to her infallible recipe. If she order for ingly portrayed even by some of our clergy, in their pastoral visits to the sink chamber; by which

ne of more value to man than the vast ource of Austria, or even the united treasures of our globe, -- a medicine, which is obtained equalifion the vegetable, animal and mineral kingd and thus possesses a TREE-FOLD power,—a medi-cine, which, though designed as a remedy for con-sumption solely, is possessed of a mysterious influ-ence over many diseases of the human system,—s edicine which begins to be valued by Physicians who are daily witnessing its automaking cares of many whom they had resigned to the grasp of the NEATINGE GRANE

DOSE of the Sanative, for adults, one drop; fo children, a half drop; and for miants, a quarter drop; the directions explaining the manner of ta king a half or a quarter drop.

Paper—Three and one third rix dollars\* (82,50

DET HALF OUNCE.

\* A German com, value 75 cents.

A brief history of the unmortal Experimente who has sacrificed a large property and nearly sta-gears of mental and bodily toil upon the altar of buman benevo ence, must be fraught with thrilling interest to the Western as well as Eastern World He is a kinsman of Dr. Andrew Offon Gor-LICKE, the well known author of the "Historia Medicinæ Universalis," who gained a great repotation throughout Germany, in the commences of the last century, by zealously advocating the doctrines of the eccentric Dr. STAHL. Having lost his father by Consumption, Goelicke was left with a large estate. Fortunate for us, and fortunate for generations yet unborn, his polar star was the good of his fellow men, and he " vowed, m the name of the Being who made him, that he would spend his last shilling and his life with it, ere he would stop short of the discovery of the CAUSE and CURE of that dreadful disease which had toro from him a beloved perent."

The lofty spirit of Goelicke was chafed by the too just reprouch cast upon the healing art, that its imbecility and ignorance serve but to court and faster disease,"-and his aspiring soul would not permit him to grovel on with the great mass of physicians, in the dim twilight of medical knowledge .- "What !" said be, "has the God of nature been more provident for the eartify reptiles that crawl at our feet, than for the noblest of his creation, Man? Has he not kindly provided an antidoty to the maladies even of the hateful toad, in the very leaf that was designed as its shelter from the storm? Dure we, then, impiously charge our Maker with a WANT OF FORESIGHT? Heaven forbid!

Being fully persuaded of the existence of a soveeign remedy for Consumption, then undiscovered, this giant-minded philosopher and experimenter commenced runsicking the three kingdoms of nature, vegetable, animal and mineral, and, with the key of chemistry in hand, unlocked her sacred archives. Not satisfied with surveying the beautiful exterior of her triane temple, this zealous chemist made a hold entrance into the inner courts; and there, directed by the Great Chemist of the Universe, obtained from NATURE'S MEDICINE CHEST his Matchless Sagative.

Dr. HERNAN ETMILLER, and two other of our most emment physicians (whose festimonials will be found annexed to this prospectus) publicly acknowledge its mighty efficacy in curing not only Consumption, but other fearful maladies which they have heretofore believed incurable. They frankly confess, that it is the most unaccountable in its action Such is the demand for this mighty, health restorer in Germany, that Mr. Anthony Strumer,

one of our booksellers, sold, in one mouth, 147 shinly, being more than six packages; Mr. E. P. Manhattan, 128; Mr. James Sevier, inn keeper, 105; and not a single agent, who has made returns of money to the depository, has sold less than 100 per month, since he received his appointment. An association of gentlemen, with Mr. Manhattannt its head, and comprising twenty agents, recently offered Gosticke \$40,000for the driven at RECIPE

for propering the Sanative, but this was refused. Mr. Manimitan has cause to prize this medicine since one of his daughters, whom Dr. Van Gautt attended in a long stekness, and whom he acknowlerised to be in a "confirmed consumption," has been perfectly cured by using only " three quarters of a plum." Also, a young men, who was former-ly a clock in his store, and who had, for several

years, been subject to fits, was restored to uninterrupted health, on taking less than half a phial. Several other very important cures have been disinterestedly reported to the public by the before named physicians, suce their conversion to the Vis Vita doctrine, as will be seen by their annexed testimonials.

Of most medicines before the public, the patient is directed to " take five or six buttles, and if these do not cure, persevere in the use of ten, or even filteen ?" but not so with the Matchless Sanutive. It is here worthy of romark, that in almost eve-

ry instance where cures have been wrought by this remedy, less than a plant has removed the disc

The Sanstive is above all estimate, as a general preventive of CONTAGIOUS DISEASES, -and by many

man convicted of bigamy, was condemned to live means they often become the happy instruments of roice. In other words, the patient should eat and with both wives in the same house? The crime, changing despendency into hope, sickness into drink whatever his appetite crares, not forgetting is epissequence, was extremly rare.

In burning ferers, mock and the patient's instinc-live call for cooling tirling, by simply moistening (!) out a parallel in the history of medicine.

Theregore No. 1.

A Letter from H. F. Shermood, Eng. of No. 1. slake his thirst at pleasure. This is reason; this

TO AGENTS. The General Avent for the atchless Sanative, in the Western Hemisphere, is Dr. DAVID S. ROWLAND, Borron, in the uneient State of Massachuserts, North America. To prevent any attempt at counterfeiling, the directions accompanying each package will contain a private check mark, made known to the generat agent in Boston, who is duly authorized to employ an inspecting agent, at the expense of the depository, to visit occasionally the sub-agents in the difrent sections of the country.

It was deemed absolutely necessary by the inventor, that the general agent in America, should be a gentleman acquainted with medicine; but while said agent has power to create additional agencies, in any town or city whenever he shall think proper, he has it in charge not to appoint either druggists or apothecaries as agents, and consequently this medicine will not be for sale at their

As Goelicke does not wish the reputation of this medy in America to depend upon the cases herein reported, but upon its own merits alone, he is perfectly willing, nay, he asks it as a facor, that publishers of newspipers, throughout the whole country, will throw open their columns to PHYSI. Clans, for the free admission of all their argumentative communications (over real names) which they may offer against the validity of the new doc-In regard to the SANATIVE, the public will

robably prefer to make actual trial of its worth, ather than rely upon what may be said of it, eiher by its friends or its foes. Not being at all dearous of a certificate reputation abroad, the inentor would not have consented that the following ases should have been published, had not the unnexed testimonial, which corroborates the facts, have been so kindly and unsolicitedly presented to him, by three of our most distinguished physicians, who were, till very recently, his BUTTEREST OFFO-BERS. Having designed his medicine as an antidote to only one disease, he could not have believed that it possesses such a controlling power over the boman system, were not the cases here given, attested to by gentlemen, who were individually though some of the Physicians here are actively knowing to the facts, and whose veracity no one opposed to it, I do sincerely believe at saved my will presume to call in question, viz: 28 of Incipient and Confirmed Consumption; 9 Palsey; 13 Fits; 21 Venereal; 5 Dropsy; 3 Insanity; T Emaciation; 15 Indigestion; 7 Pleurisy; 3 Gout; 4 Piles; 9 Dysentery; 6 Gravel and Stranguary; Disbetes; 15 Kheumatism; 5 Spine Complaint; Rickets; 12 Janudice; 1 Partial Deafness; 17 Nervousness; 8 Ague; 35 Weak Lungs and Spiting of Blood; 3 Delirium Tremens; 7 Beartburn; 18 Vertigo and Headache; 12 Loss of Apperite and Debility; 4 Liver Complaint; 32 Obstionte Coughs and Coids; 9 Asthma; 23 Diseases f the Eyes; 6 St. Anthony's Fire; 10 Disturbed Sleep and Watchings; 2 Cancer; 11 Ringworms; 8 Ulcer and Fever Sores; 9 Wind in Stomach and Bowels; 5 Hypochondriac; 10 Night Sweats; 6 Strains; 13 Scurve; 12 Scald Heads; 4 Carboneled and Pumpled Face; 9 Leprosy; 6 Tic Dououreux; I Poisoned; 4 Sickness to Pregunncy; 3 Tumors; and many difficult female comp besides numerous cases of Humors, Fevers, &c.

All persons whom the Sauative shall save from hreatening disease, are particularly desired to communicate their cases (post paid) to the deposi-

CAL PROFESSION, in Germany, in Europe.

We, the undersigned, practitioners of medicine in Germany, are well aware that, by our course, we may forf it the friendship of some of the facul-ty, but not of its benevolent members, who are untuffered by selfish motives. Though we shall retrain from an expression of our opinion, either of the soundness or unsoundness of Dr. Goolicke's new doctrine, we are happy to say that we deem his Samtive too valuable not to be generally known for what our eyes behold and our ears hear, we

We hereby state, that when Dr. Louis Offen Goelicke first came before the German public, as the pretended discoverer of a new doctrine and a new medicine, we hold him in the highest contempt, believing and openly pronouncing from to be a base imposter and the prince of quacks. But, on hear-ing so much said about the Sanative, against it and for it, we were induced, from motives of curionity merely, to make trial of its reputed virtues upon a number of our most hopeless patients; and we now doesn it our hounden duty (even at the expense of our self-interests publicly to acknowledge its effica-cy in coving not only consumption, but other fear-ful unladies, which we have heretofore believed to be incurable. Our contempt for the discoverer of this medicine was at once swallowed up in our at ter astonishment at these unexpected results; and as amends for our abuse of him, we do frankly confem to the world, that we believe him a philauthre put, who does honor to the profession and to our country, which gave him birth.

The record adoption of this medicine into so of our European hospitals is a sufficient guaranty not so quickly, cured, as a common cold or a simple it is said to be a never-felling antidote, though the the st performs all its promises. It needed not our headache. An involumbly procious decirine this, inventor does not clothe it with such infullibility. testimony, for wherever it is used, it is its own best

HERMAN ETWELLER, M. D. WALTER VAN GAULT, M. D. ADOLPHUS WERNER, M. D. v. Dec. 10, 1836

He appears by the following information gives It appears by the following information given Let PHYSICIANS answer, to the public by Dr. Rowland, that the much take at of Matchiese Sanctive is indeed what it professes to be—an effectual and valuable medicine, warthy the serious attention of every consumptive person and the nick generally.]

Matchless Sanative.

DAVID S. ROWLAND, the General Ameri can Agent for this mighty osedicine, (invented by the immortal Goelicke of Germany,) has great pleasure is publishing the following highly impor-tant letter from a respectable gentleman in New York, which he has received, with many others of a mortar character-also very interesting intelligence from several of his Agents, as will be neer below-which, together with the certificate from three eminent German physicians, must forever es-

• 188 Washington Street.

New York, Oct. 9, 1807. DR. D. S. ROWLAND, -Sir: About the middle of July last, I accidently noticed in a newspathe advertisement of the Matchless Sanative which I perceived you were agent, and which fessed to be a sovereign remedy for Con-

As my wife was then fast wasting away w dreudful disease, and as our family physician was health without seccess, I stepped over to his house and asked him if he had any objections to her taking this medicine. He replied that "he was perfectly willing Mrs. Sherwood should take that or another medicine she might choose, but he though it could do her no good, as her lungs were ru consuming, and no human means could sure her Still, the Sanative, being recommended by the physicians who had used it in their practice, is concluded to give it a trial. I sent and purchased a phial, which she commenced taking three time day, giving a free indulgence to her appetite at cording to the directions. By pursuing this course, she suffered considerably for the first eight or in days, but was shortly able to cut and drink freely. without the least inconvenience.

Within four weeks from her first using the me. dicine; her feeble health and wasted form begants put on new strength, and she has been gaining from day to day until the present moment, to the une astonishment of our family physician and friends She is now enjoying a comfortable (though not perfect) state of health, is able to be about house and attend church.

Mrs. Sherwood and inviself are both fully of opin on, and so are all who know her remarkable that she owes her life to the Sanutive alone : and as there are probably many consumptive person in the United States, who have not yet heard d this medicine, measures ought speedily to be adon. ed to have it more generally known.

A number of persons in our neighborhood, I m derstand, are taking it for other serious complains with very great benefit.

I think of going to the South, with my family sometime this fall, and in case I do, I will proclaim the virtues of the Sanative in that quarter; for al wife from an opening grave.

Ir you think this letter will serve the public good you are at liberty to publish it.

Respectfully, &c. H. F. SHERWOOD. TESTIMONY No. 2.

[From the Brunswick Advertiser.] "One person in our village, who was considered by his physician to be in a Consumption, has taken the Sanative, and is now well. Another person subject to epileptic fits, has been greatly benefited by a short course of this medicine. There can be no question but this medicine has performed was

derful cures in a host of cases, and that it is weethy of general attention.

TESTIMONY No. 3. The Matchless Sanative .- By an article in our paper to-day, it will be seen that this medicine bu for it appears to be working similar cures in Ausrica to these which have autonished Europe.
