The following is an extract from a forthcoming work of Dr. Peters, the discoverer of the celebrated 'Vegetable Anti-Bilious Pills.'

Health, wealth, and enjoyment, are the three prime objects of life. The two former are only sought as a means to obtain the latter.

But wherefore, methinks I hear the reader ask, serves this homily on so plain and hackneyed a subject? Do we not all know the value of health!

Very true, Doctor—men do not as you say, always pursue the right road to health. Now, I know of some people who are always doing themselves with physic, and running to the doctors and apothecaries every day of their lives.

And have you ever taken his medicine? 'I have; I were a blockhead else.' 'They tell me he is none of your quacks, who on dertake to mend and regulate the human machine, without so much as knowing of what parts it consists, and how they are put together.'

He does not undertake what he does not understand—He was regularly bred to the hearing art. He has spent years in the acquisition of knowledge; he has devoted himself to the study of the human frame, and the diseases to which it is subject, and now he is applying his acquisitions to the relief of suffering humanity.

For this purpose he prepared, with much care and a just adaptation to the purpose, the Vegetable Bilious Pills, which he is happy to say, from long experience and the abundant testimony of those who have employed them have answered, more than answered his most sanguine expectations.

Believing the spontaneous testimony of those whose experience is the best of the truth they assert. Dr. Peters has thrown together in the following pages, a few of the many hundreds of testimonials received from every quarter when his pills have come into use.

GOELICKE'S SANATIVE. THE SICK are all taking this wonderful Medicine which is astonishing Europe, and America with its mighty cures.

THIS is a monthly Magazine, devoted chiefly to Literature, but occasionally finding room also for articles that fall within the scope of Science; and not professing an entire disdain of useful selections, though its matter has been, as it will continue to be, in the main, original.

Reviews and Critical Notices, occupy their due space in the work; and it is the Editor's aim that they should have a threefold tendency—to convey, in a condensed form, such valuable truths or interesting incidents as are embodied in the works reviewed;—to direct the reader's attention to books that deserve to be read;—and to warn him against wasting time and money upon that large number, which merit only to be burned.

Essays, and Tales, having in view utility or amusement, or both—Historical sketches—and Reminiscences of events too minute for history, yet elucidating it, and heightening its interest,—may be regarded as forming the staple of the work.

The times appear, for several reasons, to demand such a work—and not one alone, but many. The public mind is feverish and irritated still, from recent political strifes;—The soft, assuasive influence of Literature is needed, to allay that fever, and soothe that irritation.

It was from a deep sense of this local want, that the word Southern was engrained on the name of this periodical; and not with any design to nourish local prejudices, or to advocate supposed local interests.

THE Public are informed that the Lexington Cotton Manufacturing Co. is now in full operation, and can supply all demands for COTTON YARN of a quality equal to any manufactured in the State.
