

THE WESTERN CAROLINIAN.
Savannah, Georgia: In almost every paper that comes to hand, I see something about manufacturing Establishments being built in North Carolina.

Exchange as last quoted, 1 cent on Northern notes. (Overseer is in very good order.)
Annexed we give you freight list for the week past. Arrived on Saturday, 23rd, steamer Henrietta with dry goods, groceries, mill, &c., for merchants here and in the interior, among which we notice Williams & Haywood, Wagon & Goodman, Haywood & Little, W. Wadell, Johnson & Albright, Cowles & Wallace, and Henry A. London.
Departed, 25th, steamer Henrietta, with boat Diligence in tow, with cotton, flour, silver ore, cotton, &c. The silver ore mentioned was from a mine in Davidson County, but we have not been able to ascertain what the value of it is, or what portion of the pure metal it is brought to yield.
The Henrietta steamboat Company have, this week, launched from the stock, a new boat, the "Benjamin R. Root," intended to run on the Cape Fear, 130 feet in length, with 25 depth of hold 5 feet, will carry a freight equal to 2,000 sacks salt, or 1,500 bales cotton. By to-day's mail from Wilmington, we learn that the steamer Regulus, and A. Patton, were in, having some other goods for Jesse Henshaw, Cowles & Wilcox, J. A. Young & Co., F. Young, J. & W. Murphy, and J. Ellis of the interior of this State.

Foreign News.
From the New York Courier and Enquirer, March 26.
LATE FROM ENGLAND.
The Liverpool Packet ship Siddons, Captain Barrow arrived yesterday. She sailed on the 15th ultimo, and we have received by her Liverpool papers of that date, and London of the 16th. They manifest, however, only this morning, and then, at so late an hour, that we have no time left to make extracts. We confine ourselves, therefore, to a brief notice of such parts of their contents as will be of interest here.—Ed. Courier.

In American securities there is scarcely any alteration, but most of them are firm, as the demand for them is becoming much more extensive not only in London but throughout the country. Alabama five per cents, 93; Indiana five per cents, 93; Illinois six per cents, 93; Louisiana five per cents, 96; Mississippi five per cents, 93; New York five per cents, 93; Pennsylvania five per cents, 93 to 3; and South Carolina five per cents, sterling (Barrings) 95 1/2 to 96. United States Bank shares are £24 1/2 to 25.
We are without any arrivals to-day of interest or novelty and affairs in the city, generally, do not present any particular feature. Trade, on the whole, continues rather languid, and we regret to find that letters from the manufacturing districts are not so satisfactory as they were a short time since; but this, it is thought, has been chiefly occasioned by the unfavorable aspect which political affairs presented lately; and as the apprehension of this head is fast wearing away, it is expected that Manchester, Leeds, and other places will shortly recover the activity which prevailed at the beginning of the year.

MILWAUKEE, FEB. 9.
The Edinburgh, Bristol, burthen 658 tons, from New Orleans for Liverpool, laden with 1,816 bales of cotton, 68 bales sarsaparilla, and 28 hds. tobacco, struck on the Crow Rock last night and went to pieces. It appears from the statement of Mr. Simpson, the chief mate, that they have been without an observation for six days, and supposed they were running up St. George's Channel, when about a quarter past eleven o'clock, last night, being under close reefed top sails, the wind blowing hard from S S W, they struck; the vessel in about half an hour afterwards, broke up in several places, and drifted ashore at Penzance, between Long and St. Gove's Heads, to the Southwest of this harbor. The masts were cut away immediately after she struck.
By this melancholy event, the captain, second mate, one seaman, two boys, the cook, and two passengers, (Lieut. Dixon, R. N., a native of Ireland, and Mr. W. Brown, an American,) were drowned. The remainder of the persons on board, consisting of the chief mate, eleven of the crew, and one passenger, were saved. Some of them were drawn up the cliffs, upwards of 70 fathoms in height, by means of a rope; the others scrambled up as well as they could. No part of their cloths are saved. The cargo is strewn over the rocks; the mate supposed a good part might be saved, but it will be difficult to bring it to the surface. Feb. 10.—160 bales of cotton have been saved from the wreck of the Edinburgh.
A number of bales have been washed into a cavity, under Luney Head, and it is feared, very few of them will be saved, and many more must have drifted up the Channel. The anchors and cables will be saved in fine weather. The vessel was in a thousand pieces.

TWELVE DAYS LATER FROM ENGLAND.
The Liverpool packet ship, Roscoe, Capt. Delaney, arrived this morning, when on the point of putting this paper to press. We have, therefore, but time to refer to the intelligence she brings. The date reads the 27th from London, at 2 1/2

The London money market has been excessively heavy. Cables have fallen since the defeat of Mr. Villier's motion, from apprehensions of political troubles. American securities were in more active demand. A large business had been done in United States Bank shares at £25. Florida Sterling Bonds had risen 2 per cent.

The Ministerial arrangements remained unsettled. Nothing of importance in Canadian affairs had occurred.
Our Paris correspondence is to the 21st February. The political world was a little more tranquil, but still looking forward to the election. Some pressure was felt in the money market, and in Belgium additional and important suspensions had taken place. Among others, M. Mosselman, of Louvain. The difficulties with Holland were not yet settled.—Ed. Cour.

From Tampa Bay.—About the 1st. Gen Taylor shipped 250 Indians, consisting of 65 warriors, women, children, and negroes westward. The women were very reluctant to go, and upbraided the men with cowardice, in refusing to die upon their native soil. The vessel departed amid their lamentations and taunt, and reproaches upon the conduct of their warriors, among the negroes, is Abraham, well known as an interpreter, and a wily and treacherous rascal.

By the steamer Santeo, Capt. Poinsett from the Southern post, we learn that the troops are all well. No demonstrations of the enemy since the affair at Miami—and that Lieut. Mackall is rapidly recovering.
Gen. Taylor has secured the above amount of Indians with but little noise—and their shipment is the first intelligence received by us of even their capture.—St. Augustine News, of March 13.

Awful news from Gaudaloupe—upwards of four thousand persons destroyed by the Earthquake.—From our files of Havana papers, (says the New Orleans Bulletin) we learn that the earthquake recently experienced at Martinique and other windward islands with such fearful consequences, has had still more disastrous effects in Gaudaloupe.—There the victims extracted from the ruins of buildings are stated to have exceeded four thousand! Thus truly appalling intelligence is received through the Captain of the American brig Madrid from Barbadoes which arrived at Trinidad de Cuba about the 6th ultimo. We await the details of this visitation with impatience.

Well Done Michigan!—There is nothing that Michigan enterprise is not ready to turn its hand to—from a wild cat Bank to a rail-road. They have now established, at White Pigeon, the first Root-Root-Sugar Manufactory ever begun in this country. The burr oak land is found admirable for the beet. With her canals, rail-roads, universities, shipping trade, splendid flour, silk and sugar manufactories, &c., Michigan presents a spectacle of industry and advancement in the useful arts that an old State might be proud of. We shall forgive her for her wild speculations in bank paper. The Michiganites are chiefly New Yorkers, and worthy of the "Empire."—New York Star.

The Upsetting Case.—We learn from the Baltimore Patriot that in the case of W. B. Stokes vs. Francis W. Saltoun, before the Supreme Court of the United States, the Court on Saturday, affirmed the judgment of the Circuit Court of Maryland, with costs and six per cent damages.—This is the case, it will be recollected, in which the jury gave Mr. Saltoun about \$6,000 damages for injuries received by Mrs. Saltoun from the upsetting of a stage coach owned by Stockton, Stokes & Co.

PHILADELPHIA, March 26.
We have nothing new, and excepting the termination of the Great Presbyterian Case, nothing interesting.
Yesterday morning, Judge Rogers gave a very clear and learned charge to the jury, which evidently strengthened the hopes of the new school party—and after a very short time the jury returned with a verdict for the plaintiffs—that is for the new school.
I understand that an appeal will be taken by the old school to the United States Courts—though I did not learn that any thing was done in the matter yesterday. The trial has excited great attention here, and I suppose elsewhere—and the result has had a proportionable effect; differing according to the different views of those who have watched the progress of the trial.—Corres. Courier & Enquirer.

Mulberry Trees.
AS the demand for Mulberry Trees is much greater than can be supplied, the Subscriber has concluded to dispose of part of his Stock intended for his own use. They are of the genuine Morus Alba, so extensively cultivated in Italy and France; and which writers upon the Silk Culture admit, make the best kind of Silk. Being of the second year's growth, they are large enough to be transplanted, which may save two years delay on the part of those wishing to engage in the business. What I have to spare can be delivered at any time between this and the 1st of March, and upon terms much lower than the Northern prices. Letters addressed to me at Davidson College, post paid, will be promptly attended to.

CONDITIONS OF THE FARMER'S REGISTER
For Vol. VII. Prices still more reduced for punctual or advanced payments.

I. THE FARMER'S REGISTER is published in monthly numbers, of 64 large octavo pages each, and neatly covered, at \$3 a year, payable in advance. Of the 64 pages may be purchased two copies of the same current or forthcoming volume, if so ordered and paid for in advance, (at the time of making the subscription,) in current money, (as described below,) and without loss or deduction for postage, or any other charge to the publisher.

II. Subscribers now on the list, who have already paid the regular subscription price of \$5 in the manner above required, for a single copy, shall have the privilege, upon sending a post-paid order, of having a second copy of the same volume, sent to any new subscriber, without further charge, for that volume.

III. A like privilege will be allowed to every old subscriber who has not yet paid, but who shall do so, as above, before the issue of the 4th number of the 7th volume; thus in effect reducing to half price the cost of the work to every subscriber, old or new, who may choose to avail of the offer.

IV. If however, no more than one copy is ordered the subscription price will still be, as heretofore, \$5 the volume; as it is not designed to permit any subscription debt, or payment, to be made for less than \$5. And if an order is sent for two copies, without compliance with the conditions annexed, only one will be sent.

V. The price of back volumes, as heretofore, is \$5 for one alone, \$10 for any three together, and in the same proportion (\$3.34 cents for each), for any number of volumes, except vol. I, which is at \$6, and to be furnished only as part of a full set.

VI. All mail payments must be made in notes, or checks, of par value in Virginia, or of a City and specie-paying bank of the State in which the subscriber resides.

VII. The risk of loss of payments for subscriptions, sent free of postage, which have been properly committed to the mail, or to the hands of a postmaster, is assumed by the editor.

VIII. All letters to the editor in regard to the Farmer's Register must be post-paid—except such as contain articles for publication.

IX. If a subscription is not directed to be discontinued before the first number of the next volume has been published, it will be taken as a continuance for another year. Subscriptions commence with the beginning of some one volume, and will not be taken for less than a year's publication.

X. The mutual obligations of the publisher and subscriber for the year, are fully incurred as soon as the first number of the volume is issued; and after that time, no discontinuance of a subscription will be permitted. Not will a subscription be discontinued for any earlier notice, while any thing thereon remains due, unless at the option of the editor.

PROSPECTUS OF THE AMERICAN MUSEUM.
A monthly Magazine, embellished with Steel Engravings.
ON the first of January, 1830, was commenced the second volume of the American Museum of Literature and the Arts. This Magazine is a depository of papers in the various departments of Literature, Science, and the Arts, calculated alike to instruct, profit and please the reader. As utility is the characteristic of the age, the Museum contains articles of solid interest upon Science, Literature, History, Geography, and Morals. Reviews and literary criticisms, so important in this publishing age, occupy a prominent place in the work. It also, contains short reviews of the entire works of distinguished American authors, accompanied by portraits engraved on steel.
The solidity of the work is relieved by lighter articles—such as graceful essays, interesting and amusing tales, criticisms upon the fine arts, legends, sketches of travel, literary and scientific intelligence, and poetry of a superior order.

The very favorable reception which the work has met from the press and the public, has justified the proprietors in making liberal arrangements for contributions to the second volume; and they have accordingly made large additions to their corps of regular contributors. In the January number will be found original papers from the following popular writers: Rev. Dr. Boswell, Rev. J. G. Morris, Rev. J. H. Clinch, David Hoffman, Esq., W. G. Sumner, Charles West Thompson, T. R. Holland, H. T. Tuckerman, E. A. Poe, Professor Fisher of the University of Maryland, Professor Ferguson, W. B. Tappan, Mrs. Sigourney, Miss H. F. Gould, Mrs. Emma C. Embury.—Besides these, many other writers of known ability have contributed to the work, and will continue to aid us.

In this number is the commencement of a series of "Italian Sketches," by a gentleman of taste and scholarship who has been sojourning in that classic country. Besides these, the future numbers of the Museum will contain articles from distinguished European writers, although we are far more anxious to receive assistance from, and encourage, native talent.

TERMS.—The AMERICAN MUSEUM is printed on good paper, with new type, and makes two volumes a year, of more than 500 pages each. Price \$5 per annum, payable in advance. Four copies will be sent one year for \$15. We shall be happy to receive applications, post paid, for travelling and local agencies, with references enclosed. All communications must be post paid, and directed to the editors.
TRAVELLING AGENTS greatly needed.
