Messes. Eproas: Our neighbourhood was visited last evening, by a Tornado from the south-west, by which we have sustained considerable injury. Our fences were thrown down, leaving our crops exposed the roofs of houses taken off and much timber destroy ed. It was attended with some hail, but not sufficien to do material injury to the wheat crop. I have no been able to ascertain the extent of its ravages; but am led to believe, from the little information I have gained, that its destruction is considerable. We are sorry to hear, this morning, that Alexander Telbert, aged about 19 years, was suddenly killed by

lightning in the same storm.

This should admonish us to prepare for death: We

know not at what hour or minute we may receive the aummon to appear before Jehovah. How important, then the preparation! ELI HARRIS.

[FOR THE WESTERN GAROLINIAN.]

MESSES. Epirons: I noticed in your paper of the 25th ult, that the Edward Shippen, a boat on the Mississippi river, performed a trip from New Orleans to Louisville, Kentucky, and back in 13 days, and that it performed the trip down the river to New Orleans in 4 days. There is a query suggested in this notice, which, if you please, may be put to the younger of the students of our seminaries.

Query .- What is the average rate of the stream, or what length of time would be required for the power of the engine aloue to propel the boat from one point to the ROBERT.

PAYETTEVILLE, May 4, 1839.

There is but little of importance in the transactions of the present week. Cotton still keeps up to las week's quotations; core has been brought here in considerable quantities this week; sales from waggons \$1 a 1 10, from store \$1 10 a 1 20; bacca 10 a 11; butter 15 a 25; oats 50 a 55; sales leaf tebacco 10; flour is dull, and comes in plenty, \$5 50, 6 00 a 6 50.—Back country whiskey has come in very pleuty; all the bayers are full—it goes off very dull at 50 cents; sales apple brandy 55 a 60, (scarce.) No change in price of groceries worth notice from our last quotations. Exchange on New York I per cent.

We have had a number of country merchants in this

week making purchases.

Arrived, April 20th, Henrietta Company boat Benja min Rush, with full treight Spring goods, &c., for sundry merchants here and in the interior, among which we notice Lash & Co., C. B. & C. K. ### ITEMS.

It appears that the bounty paid by Massachu-setts on the culture of silk has had the desired effect of increasing the product to a great extent.-In 1836 a law was passed authorizing a bounty to be paid, under the provisions of which \$85.20 only were expended. On the first of March 1839, \$397 99 had been paid for the year immediately preceding, thus showing an increase of nearly four told. There were paid to a single individual \$159 35, and the whole amount of cocoons raised was 760 pounds, the quantity recled and thrown during the same time was 822 pounds.

The Custom-House, at Vera Cruz, with all its contents, was consumed by fire, on the 7th of April. The loss estimated at \$1,500,000; the principal part of which fell on the French and German merchants.

A fatal accident occurred yesterday morning in Strawberry alley. A number of carpenters and brick-layers were engaged in placing the joints for the second floor of two new buildings on the east side of the siley near to Market street. The old wall of the house on the north line had been cut away through half its thickness to receive the joists of the new building. These had been placed but a short time, when the upper part of the ald wall fell, and was instantly followed by the new partition wall and joists just macreed, which fell to the celler, burying in the ruins the persons engaged on the new joists. Isaac Coombas and Joha Dye were killed; Amos Packer and Mark Balderson were carried to the Hospital, very dangerously in jured; and Jacob Prince, Benjamin Keyser, Martin Baldwin, John Pearce, Caleb Lamberson, and

Patant Corn Planter .- It is stated in the Norfolk Herald of Monday, that a very ingenious and yet simple contrivance for planting corn, has been invented and patented by a Mr. J. M. It is represented to be in the form of a plough, and as the furrow is laid off by the share, the grains are dropped with it through an aperture in a round, revolving box, con- ton. - Communicated. taining the corn. A couple of hoes, attached to the machine, throw the earth from both sides of the furrow, and cover the seed corn thus strewn, to a proper depth. The machine is one which effects a great saving of labor, and is said to perform its allotted task with mathematical precision and certainty.

A Relie of Antiquity .- Mr. R. S. Presscott, of this city, in ploughing up a field, in what is called the Yorkshire Quarter, a few rods from the Derby Turnpike, a few days since, turned up from a deep furrow, an ancient silver com, of about the size of a half dollar, which, on being cleansed, was found to be in good preservation. It is covered with Hebrew characters, (as we are informed, not having seen it,) and bears the date of 1197consequently must have been coined upwards of 640 years ago. It is a mystery how it came there, as the land is in the suburbs of the town, was never built upon, and for many years was not cultivated. We hope some learned antiquarian will give be a correct description of it .- New Haven Herald.

Late and important from Peru.-Letters from Callao to February 1st, brought by the supercargo of to gentlemen who have Bace Horses, gratis. of the brig Ocean, which arrived at Mazatlan (Mexico) 20th March, bring intelligence that a bat-tle had been fought near Lima, between the Chilian and Peruvian armies, each 6,000 strong, resulting in the loss of 1,500 killed and wounded on some experience, to engage as a partner in the Mercaneach side, and the defeat of the Peruvians under Sonta Cruz. Remarkable Suicide .- Mr. Henry B. Bolt, of Norfolk co., Va., committed suicide some days ago, by cutting his throat with a razor in a most shocking manner. He had previously made his will, and left his whole estate, estimated at \$20,000, to his wife, to whom he had been united about three months! He survived two days, during which he retained his senses and conversed rationally. He assigned no cause for the rash act, but said be beheved that he committed it while in a state of mental derangement.
