MY NATIVE LAND.

Thou art the land of Greece and Rome,
Of India's Coral strand,
But there is none, I call my home,
Except my own, dear Native Land.

The place where passed my childhood years
With school-mates, hand in hand,
On youthful hearts, unknown to cares,
When in my own, dear Native Land.

That place is best, while here on earth,
Its green turf, and its snowy sand,
I hail the place that gave me birth,
'Twas dear, 'twas my own Native Land.

I've walked its paths in evenings mild,
In many a frolic band,
Gathering the sweets of nature wild,
When in my own, dear Native Land.

But now, when memory steals my heart,
In wondrous thought, I stand,
To think how friends are torn apart,
By distance, from their Native Land.

But memory still doth claim the grave,
Where wondering, how that heart, and hand,
The parent of my younger love,
Lies, lonely resting, in my Native Land.

But hope, dear hope, my griefs attend,
My every anxious wish demand,
Con-sole me, and thine influence lend,
Giant, I may see my Native Land.

ITEMS.

A noble hearted Mother.—During the fire in Albany on Saturday, the occupants of one of the buildings in Rose Alley, in the haste and confusion of saving their little effects from the devouring element, and after being driven out by the flames, discovered that one of her children, a boy of about four years old, remained yet asleep in the upper part of the house—the mother after hearing of the situation of her child, rushed through the flames and seized her sleeping boy, and no sooner had she gained the object for which she was willing to risk her life, it was discovered that all means of escape was cut off save that of leaping from the second story window with her child, which, without a moment's hesitation, was done, without any material injury to herself or child.—*Philadelphia Inquirer.*

The late discovery of Iquique to extract the minutest portions of silver when contained in ores, had far to be of incalculable benefit to this country, where the production of the precious metals has from various causes been retarded. Electro magnetism is the power which forces the silver, however tenaciously adhering to its various metals, salts or acids, and however small the proportions of the same to the other substances may be, even one part in 1,000, to separate and to appear in a pure metallic state.—*Alex. Gaz.*

Awful Occurrence.—A man called at the Poor House in Exeter, in this State, kept by Timothy Peckham, on Wednesday evening last about 12 o'clock, and demanded admittance—he was refused, they told him he could go into the barn and sleep, he threatened to have revenge.—A short time after, the house was discovered by the neighbors to be on fire.—Six of the inmates, the poor of the town, and two persons on a visit from Newport to Mr. Peckham's family, perished in the flames! Mr. and Mrs. Peckham, barely escaped with their lives, by leaping from a second story window. The person suspected of having set fire to the house was of intemperate habits. Mr. Peckham was his guardian.—*Proc. Journal.*

Death of Gen. Samuel Smith.—Gen. Samuel Smith—a revolutionary officer—a veteran statesman—an accomplished merchant—a public spirited citizen—a man whose name is interwoven with the history of our city, our State and the United States, died at his residence in Baltimore on the 22d ult., in the 87th year of his age.—*Balt. Chronicle.*

The "President, Directors and Company" of the Western, (Ala.) Trading Company, or Free Banking Association, have all absconded, in a body, to Texas, after having swindled the community out of \$130,000 or \$140,000.

Fatal Duel.—An unfortunate affair took place yesterday, near the Dismal Swamp Canal, between ten miles this side of Lake Drummond Hotel, between Jo. Sewell Jones, of Shocco, N. C., and Mr. H. Wright Wilson, of the city of New York.

The parties met about 12 o'clock, near the house of J. F. Foreman, in Norfolk county, and Mr. Wilson fell dead at the first fire. We have received the information from a gentleman who was on the spot, and we are assured by him that this melancholy affair was conducted in the most honorable manner by all parties. The quarrel originated at Petersburg during the late races at that place. The cause of the quarrel we learn, was the following words, spoken by Mr. Wilson in presence of Mr. Jones: "I know enough of Southern people to know that they never comply with their obligations." They fought at a distance of six paces.—*Old Dominion of April 27.*

Daniel W. Courts, Esq., Consul of the United States for the port of Matanzas, sailed from the city of New York on the 1st of the present month.

APPOINTMENTS BY THE PRESIDENT.
Dennis Prieur to be Collector at New Orleans after the 30th of June next, in the place of J. W. Broedlove, resigned, to take effect on that day.
Francis S. Beattie, Collector of the Customs at St. Marks, Florida, vice Ambrose Craun, removed.

Steamboat burst.—The Steamboat Pennsylvania was burnt at Paducah on the night of the 21st inst. She had on board a valuable cargo for the Tusculum, Florence and Knoxville markets, and \$50,000 in specie for the Decatur bank. Only about \$10,000 of the specie was saved and that in a damaged condition, being partially melted. The hull filled and sunk shortly after, and no hopes were entertained of recovering any thing more. The cargo and specie were insured, and \$5,000 on the boat. No lives lost.

The Liverpool.—The steamer Liverpool, which was to leave Liverpool on the 30th inst, will sail from New York on the 18th of May. Already a large number of nearly all the berths are engaged, such is the spirit of travelling. Messrs. Guest & Shultz 97 South Wharves, are the agents in this city for the Liverpool, and will give all necessary information desirable to those who would take passage.
The Hon. Daniel Webster and lady will be among the passengers in the Liverpool on her next trip.—*Philad. U. S. Gaz.*

Fifty two patients prisoners mentioned in the late accounts from Upper Canada as being about to be set free, have been unconditionally discharged, and are now on this side of the line. Twenty seven prisoners had been discharged a few days previously. These instances of generosity on the part of the British authorities, will do much to allay the bad feeling which for many months past has existed along our Northern frontier.

Annihilation of the United States.—The St. John Chronicle, speaking of a war between Great Britain and the United States, says, "We see nothing to prevent the total annihilation by Great Britain, of the United States, as a nation!"

Progress of Steam.—We are gratified to learn from the New York Star that the steam frigate Fulton, for some time in that port, has been assigned for the special service of a practice and experiment ship, under Commodore Perry, with an additional number of officers. Capt. Perry will thus create an able corps of engineers for the steam vessels of war building, a class of craft which we have no doubt will supersede all others, both in war and merchant service. The first lieutenant is Mr. Lynch, the Surgeon, Dr. Dubarry.

Marble and Limestone.—A week or two ago, it was mentioned in this paper, that a large bed of limestone had been discovered within a few miles of this place, within the last two weeks, further searches have been made; and so far as present impression may be relied on, they have been without success. A few pieces of rock, were brought into town the other day, which on trial, were found capable of receiving a very fine polish; and were pronounced by the knowing ones, to be marble of a superior quality. It is very beautifully variegated; and may be obtained in almost any quantity. The quarry is but three or four miles from Lincoln.

We believe it is now ascertained beyond a doubt, that limestone may be obtained, within a few miles of this place, in the greatest abundance. We hope the agricultural part of the community, will avail themselves of the facilities now afforded them, of improving the conditions of their farms.—*Lincoln Republican.*

We learn from the Charleston Courier that a match race for twenty thousand dollars a side, half forfeit, has been made by Mr. John C. Rogers, with Mr. Hatcher of Virginia, to come off on the New Market Course, near Petersburg, the first day of the fall meeting. Mr. Hatcher names Portsmouth or Omega, Mr. Rogers, Monarch, or the Queen. The parties have the liberty of running either of the horses named.—*Augusta Sentinel.*

Emigrants.—It is stated in the New York Post that all the Havre packets are coming out full of passengers, mostly German agriculturists of the best class. The new ship Iowa, of Boston, Fox and Livingston's line, has four hundred persons of this class, all bound for Illinois and Michigan.

A young man named John D. Burns, aged twenty-two years, employed as a clerk at Union, Mo., committed suicide on the 15th ult., by shooting himself through the head with a pistol. Before doing so he dressed himself in the clothes in which he wished to be buried. The motive assigned was unrequited love.

Abductions.—The Globe states that Mr. Ormy, a teller in the Bank of the Metropolis, took fifty thousand dollars from the Bank. The suspicions of the cashier being awakened by appearances, he counted the money, and discovering the deficit, charged the teller, who confessed every thing, and pointed to the person who had it in possession, Mr. Goodrich, a clerk in one of the Departments. Mr. G. was arrested and the money re-secured.

The Secretary of War has forbidden the sale of ardent spirits to the Indians on the Frontier.

Direct Importations.—Most of our readers will probably be astonished to learn that a quantity of Eggs, from France, "imported direct," were disposed of in this market, at a rate below what the "domestic" article commands, and affording a handsome profit to the importer.—*Char. Cour.*

Fine Prices for Tobacco.—A hhd. of Tobacco, made by Maj. Benjamin Hunter, of Campbell, was sold at Martin's Warehouse, on Tuesday last, at \$29.50 per cwt., purchased by Colonel Augustus Leitch for his Southern friends.—*Lynchburg Virginian.*

Important from Canton.—An arrival from Canton, at New York, informs us of the suspension of the foreign trade, occasioned by the smuggling of Opium, within the Bogue, on the river Whampoo, and also in the foreign factories at Canton. Mob law had also raised its crest within the limits of the "Celestial Empire," serious riots having grown out of the same cause.

Wheat.—The fine prospects every where presented this season for a bountiful crop of wheat, are much lessened of late by the discovery of serious ravages by the fly, and what has not been considered common, the Farmers generally find their late sown Wheat injured much the most.—*Virginian.*

The Canal receipts at Albany during the first ten days navigation this year were \$32,405; last year \$19,385. Increase, \$13,020, or about 65 per cent.

Murders in Kentucky.—Bishop Smith in a letter to the Hon. R. Wickliffe, says it has been ascertained that there have been from thirty to forty homicides in Kentucky annually for three years past, and not a single execution. There have been within three years but five or six penitentiary convicts of murder. He ascribes this impunity in the crime to the law for capital punishment, and recommends that imprisonment be substituted in the place of hanging.

Cost of Railroads.—The cost of sundry railroads is thus stated in the late report of the Directors of the Housatonic Railroad:

THE HEATH TRACT, containing six hundred Acres of Land, situated about six miles East of Lexington, Davidson Co. on the road leading from Lexington to Fayetteville is now offered for Sale.
There are about 100 acres improved, and 500 in Wood and Timber.
The Tract is located in a very HEALTHY REGION, and is peculiarly adapted to farming. It has on it a Orchard, and a good Meadow. The celebrated *Courser Gold Mine*, is situated a few hundred yards south of it, and according to the direction of the Veins of that Mine, they must necessarily pass through a part of this Tract.
Any person wishing to view the premises or get a more minute description, will call on Rigdon Wadsworth, in Lexington, who will give the desired information; or any person wishing to contract for the same, will call on Dr. Austin, Salisbury; or address a Letter to the Subscriber, Trenton Post Office, Jones Co. Any one wishing to have painting done, will always find me in Salisbury, unless necessarily absent on business.

Davidson, April 18, 1839. 11

To Owners of Mills.

THE Subscriber has an improved patent Spindle for Mills, by which, a mill will do much better than with the usual form of Spindles. It is so constructed as to keep from heating or killing the meal in any manner. The runner is so confined by the Spindle as always to preserve its balance, and of course there is no rubbing of the stones.
I think, by this improved Spindle, the same water will do at least one-third more business, and the usual of superior quality.
Any person wishing to use one of these Spindles, may obtain one or more, by making application, (within a short time) to the Subscriber at Mocksville, Davie Co. N. C. I think the probable cost will not exceed \$30 for the Patent and Spindle ready for use.
Col. Wm. F. Kelly and Thos. Foster, in the vicinity of Mocksville, have recently tried the improved Spindle, and are highly pleased with it.
