secords of your Legislature bear me out in the will you havitute an almosting between the two can didutes on the day of the Election !—I think not— Charles Figure is the east; and, if alcoted, his devotion to year interest and his Republican character will be a sure gon unter that he will not deceive you, or betray the trust imposed.

A FARMER.

Rowan county, July 31, 1839.

TOR THE WESTERN CAROLINIAN.

PARRINGTON, Davie Co., July 23d, 1839.

Marsha. Entrons: My attention was called yesterday, by my old friend, W \_\_ J \_\_, to the notice of a piece in the Ashboro' paper headed, "bragging too soon." My old friend reads this little dirty paper, he says, because he wishes to know how many talschoods they will publish about Mr. Fisher, and the election:—for my own part, I was offered one of the papers gratis, when it first reached Farmington, directed to Mr. ——, one of the Caucus nominees, but not wishing to handle such fifth, I declined. We have been blest with the caucus disciples in these parts, having no less than three in the immediate neighborhood. I am well acquainted with them all, we used to call them Federalists, they always were, and are now, high Tariff men, of course they would therefore be opposed to Charles Fisher who is a Republican and against an oppressive Tariff; and in favor of Dr. Henderson ho has been and is now, as far as any of us know. the advocate of this system, so oppressive on the South, and immical to ber interests.

I am not a violent partisan, Messrs. Editors, but go for principles, according to the best of my judgmout, and for qualifications and fitness in a candidate to fill a station-and looking at the acquainmade which the public has with Mr. Fisher's ability as a Statesman and his acknowledged relents. I do not doubt the issue of this contest, in his fayor by a large majority.-He has served us for many years to various stations, faithfully and honestly, and I wish to know, what more can he asked from a public servant, -and I would ask if it is right for us to throw him off, to make way for a man who has no claims on our support. The causin paper that I mentioned above, has made statements, on the authority of letter writers that I know to be untrue.—I am getting old Messrs. Editors, and have lived here long enough to know something about these Counties, and I firmly believe that we will give Mr. Fisher a majority of more than 200 in this County, and that in Rowan, and Davidson he will get overwhelming majorilies :- as to Chatham and Randolph, I am not so well-able to form an opinion of the probable issue, but bolieve they will be true to the Republican fold .- Mr. Fisher has met the false charges of his enemities so promptly and fully, that it has convinced many before opposed to him, and he has been and is pas gaining ground every day.
The 5th day of August will find us at the polls

ready to sustain the Whig principles of '98. We do not fear or doubt the result of that day's A FARMER OF DAVIE.

[FOR THE WESTERN CAROLINIAN.]

Messas, Entrops: It is known that the Caucusites rased by subscription, a sun of money to pay Ben Scalin to-print a weekly supply of alander against Charles Fisher, but it is not gaperally known where it is manufactured. I was informed from Asiloro not long ago, that the most of the falselscode published in Swaim's paper are fabricated in Salisbury and Mocksville. It is said there that the Editor of the Watchman, who is also Doctor Henderson's brother-m-law, writes a good many of the filthy pieces in the "dirty sheet." He is ashumed to defile his own sheet with them, and seads them on to Swaim, who, for me lish anything. Also another lawyer in Salisbury empties his gall in the same sneaking manner through the same vehicle. And the Caucasites of Mocksville, poor fellows, write day and night, they are so giad to see what they write in print. No other printers in the United States of America would publish such dirty productions, but Ben Swaim, and the abolitionist Garr Ah, yes, I had like to have forgot him, a small scale Lawyer in Pittsburn, is reputed to contribute his mite to the "dirty sheet." What a cause it must be to reto the "dirty sheet." What a cause it must be to require such dungs to support it! What a contempt the Hun-Laghts must have for the people to behere that ruch proceedings will influence them! Can any decent man read the "dirty sheet" without disgust!

A FREEMAN.

P. S.—I submit the following query as a subject to be discussed at the next meeting of the Lexington Debuting Society, to wit:—" What is the difference, in a mural point of view, between telling lies made by one's sif, and circulating lies made by Ben Swaim and his correspondents?"

### FOR THE WESTERN CAROLINIAN.]

THE CHOCTAW CLAIM. Messas, Epirons: I have often heard it said that seen the saying more truly verified than in the present contest for Congress. The opponents of Mr. Fisher having been completely found and driven from the political objections to him, have given up politics in despur, and now turn all their attention to the circulation. petty lies, and bolder talschoods. It is disgusting to hear the talue and reports industriously put into circu lation by persons who have themselves no moral character, and who daily live in violation of the laws of deceacy and morality. But the thing on which these desperate electioneerers make their greatest effort, is the Cherraw Chain. Dector Henderson has also tried his hand on this subject at all the musters he has at-tended, and has never yet gained a vote by it, but if the accounts are correct, his been every where completely defeated. I heard him make his charges as regards his neuter at two pinces, and heard Mr. Pisher reply; the came forward with various charges against Mr. Feber, and read, in proof of them, a paper be called Black's report, and certain one-sided depositions had before the Legislature of Mississippi. Black's report recommends to Congress to refuse the appointment of a Board of Commissioners to examine the claim.—

Congress rejectable advise of the report, throws under the congress rejectable advises of the report, throws under the congress rejectable advises of the report, throws under the congress rejectable advises of the report, throws under the congress rejectable advises of the report, throws under the congress rejectable advises of the report, throws under the congress rejectable advises of the report. He came forward with various charges against Mr. the one-sided depositions, and actually passes as act ap-punting Judges to examine these claims. Those three Judges, as a Board of Comen seigners, met and have exaumed many of these claims, and wrote down all the evidence taken on oath, and by examination, and cross etammation.—This evidence, as you last week stated —is recorded in a Book and wasinid before Congress, and contains every thing about the claims.—Now if Doctor Henderson and his help-mates wished to publish the truth, and nothing but the truth concerning these claims—ought they not, I ask again, to go to this re-ord and speak from that? Certainly they ought, but instead of this, they go and but up the false papers that were lain before Congress by Black, and which Congress rejected and threw ande as unworthy of no-tice.—This shows that these men wish to deceive and tice.—This shows that these men wish to deceive and mislead, and are willing to do so by resorting to the mislead, and are willing to do so by resorting to the mislead, and are willing to do so by resorting to the mislead to the unions, and not bring up old papers rejected and thrawn easile by Cougress, as unworthy of the least notice! Let every candid man decide for himself.

But after all what do the efforts of these tricksters amount to 1—The people know both parties too well to be misled by such doings, and on the 6th day of August it will be found by these men, that their labors are vain.

A VOTER. UNITED IN WEDLOCK.

aris. County, on the let instant, by Allen Rose, Mr. JAMES A. ATWELL to Miss JAME M.

"May love attend the happy pair, Who now have join'd their hands, Until the momenter, death [ shall dare To NULLIFY their bands." DEPARTED THIS LIFE,

In this County, on the 27th sit., MARY ISABEL-LA, daughter of Forgus Graham. Aged 7 years.

#### BRICK MACHINE

We had the pleasure yesterday of witnessing the operation of a machine for making brick which is one of great ingenuity, and it appears to us like-The machine is chiefly of east iron, ponderous and strong, as it is necessary it should be, for the work

Six moulds, worked by six horse power engine. will make in a common day's work, 20,000 bricks, fit without other labor, to be set in the kilo. The only labor besides the piling the bricks, is that required to dig the clay, and haul it to the machine, where it is taken by elevators, and passes from step to step, until the brick is pushed by the machine steel from the mould, ready to be put in the

The depth of clay in the mould before the pressure, is about 41 inches, which is compressed by the immense weight of near 100 tons, brought into action by toggle joint to the common thickness of two inches. The machinery by which the mould is filled, is curious and efficient, and its efficiency is only equalled by its simplicity. The machine now built is the first put up by the inventor. and works welll and satisfactory, so far as has been tried. The material used was the loamy soil in the vicinity of Kensington, and from this the bricks, as they came from the moulds, were square, solid, and very ponderous. The machine was built at the Franklin Iron Works, James T. Sutton, pro-

The present machine is intended, we understand, for Baltimore. As they must have the effect of reducing the cost of making brick, nearly two thirds, and, consequently, the price of brick, we hope to see these machines in general use.—Phil. U.S. Gaz.

From the New Orteans Courier of July 16. TEXAS.

The arrival of the steamer Columbia last night, puts us in possession of news from Texas to the 18th instant, of which the following may be con-

The Presbytery of Concord will meet in this Town on Wednesday, September 11th, a(110 clock, A. M. The members of Presbytery are requested to stop at the loase of the Subscriber, as they enter the Town, to the dian frontier. A large body of Texians, regulars, volunteers, and militia, had marghed to the Northseria frontier, where it was understood Indian parties from twenty tribes were about to meet them. The result was expected anxiously. The Texians, it was said, were determined to compel the Indians to abandon the Northern counties, and it was thought the savages would give battle rather than consent. We shall not know the result of this meeting for some weeks.

More than 100 persons are said to have already squatted on the site of the new capital of Texas on the Colorado; and it was thought the competition would be very great at the approaching sale of the

The citizens of Houston appear to have had a very serious brush with the gamblers.

It is said the cotton crop of Eastern Texas will this year fall little short of 20,000 bales

Besides the marauding parties of Camanches on the Western frontier, the trade between Texas and the country beyond Rio Grande del Norte is now said to suffer from the depredations of land pirates, or armed bands of white men, who plunder alike Mexicans and Texians, when the opportunity offers.

THE FOREIGN NEWS.

The most important news by the late arrival is that of the war between the Sulvan and Mchemet Ali and Thrahim Pacha. From the notes which have passed between the French and Russian Gov. ernments, it is apparent that new relations have been recently created on the part of Russia with the Porte, which the French consider in conflict with the safety and interest of the other European powers. "The armed intervention of Russia in the internal affairs of Turkey," protested against by France may be called into requisition by the war just declared; and in a view to that event, a large grant of money to the King of the French has been made by an almost unanimous vote of the Chambers.

The apprehension is that the power of the Ottoman Empire, so favorably situated to hold command over Europe, Asia, and Africa, is the great object of ambition to the Czar-the modern Cæsar. If the war now declared, and which looks to the dismemberment of the Turkish power, should be turned to account by any one of the European sovreigns to extend control over the Ottoman throne, it will produce a general war in Europe. - Globe.

From the Chergue Gazette.

The following communication speaks for itself. Almost every man is interested in having the rogues their patronage. And he only asks a call and trial.

MURRELL MEN IN ANSON.

Two men, one driving a gray horse in a Carry-all, the other riding a dark chesunt sorrel mare and leading a bright sorrel horse with flax mane and tail, have been passing through Anson County, during last week, telling as they went that they had six wagon loads of bacon just on behind. The one with the two horses stayed at my house Saturday night, the 20th inst.; he said his name was Young, and that he lived in Rowan county, N. C. he told me the same tale about the six loads of bucon just behind. Early Sunday morning, the Carrvall man passed on towards Cheraw, and about ten o'clock returned going up.-Young went out and had some conversation with him, then called for his horses and started to the direction of Cheraw, and said he was going there; but I under stand that in an bour afterwards he was three miles upon the other end of the road, and in company with the Carryall man. Young endeavored to persuade off one of my negro boys with him, I understand he also tried three or four in the neighborhood, and a very valuable fellow of William Ratliff's has been actually missing ever since Sunday, the day which they passed through that neighborhood. They no doubt have Ratisf's negre: nor can they be heard from or traced in any direction since. I think the public should be put upon their guard against such villians,

JNO. GRADY, Jr. Sacedaboro', N. C. July 25, 1839.
