" Indian News - The brggage Iraia between Wassenses and Fort Farming, with an escort of seven men, was attacked by ten Indiaus; loss 1 white killed, 3 woulded; 2 horses, 4 maies killed, and wagon burned."

Extract from a letter dated
New Oursess, Sept. 29.
"Our sugar crop will be one of the largest ever made in Louisiana, The cane is truly splendid, and many planters are preparing to come grinding by the first of next month.

"The cotton crop continues fine—we have re-ceived over 8,000 bales of new already, and it is elling at from ten to thirteen cents, principally ar twelve cents."

Governor Hill, in the Monthly Visitor, estimates the wheat grop in New Hampshire at half a million of bushels; which is more than a bushel and a half, to each man, woman, and child, in the State. It is, basides, of an excellent quality. And the remark is applicable to the wheat crop throughout New England.—New York Whig.
