Salisbury, N. C., August 30, 1839.

Mr. Fleming,

I HAVE lately completed and put in operation a large Iron Foundry at my mill on the South Fork river (formerly Persons) in Davie County; where we are prepared to make all kinds of castings, such as—the running wheels of cotton or woolen mangles, cast-iron gears, and saw mills, threshing machines, wind mills, plow mowers, gutters, iron shafts, pulleys, drums, driving wheels, and, in short, every thing else that is usually made at iron foundries. We are also prepared for turning shafts, &c., and for finishing and fitting up all kinds of machinery in the line of business.

I have employed James W. Wagoner, formerly of Baltimore, a very skilful Mechanic, to superintend and manage my establishment. Mr. Wagoner has worked all his life in establishments of this kind, and is distinguished for his skill as a Mechanic, and Millwright. He will also make combinations, like water-wheels, mill-gearing, &c., and when the machinery is obtained from us, we will attend to putting it up. Our prices are those of similar establishments at the North.

Orders addressed either to James W. Wagoner or myself at Salisbury, will be promptly attended to.

TOMB STONES,

so that he can execute any order in that line, on the shortest notice.

—ALSO—

He is prepared to execute any work which may be called for in SCULPTURING, STONE-CUTTING, ENGRAVING, &c., and he assures those who may favor him with their work, that unless well done according to contract, he has no pay.

A complete large Dairy Trough for sale, cut of Rock, for the purpose of preserving milk cool. Apply to the Subscriber.

ENOCH E. PHILLIPS.

November 1st, 1839.

To Owners of Mills.

THE Subscriber has an improved patent Spindle for Mills, by which, a mill will do much better than with the usual form of Spindles. It is so constructed as to keep from heating or killing the meal in any manner. The runner is so confined by the Spindle as always to preserve its balance, and of course there is no rubbing of the stones.

I think, by this improved Spindle, the same water will do at least one-third more business, and the meat of superior quality.

Any person wishing to use one of these Spindles, may obtain one or more, by making application, (within a short time) to the Subscriber at Mocksville, Davie Co. N. C. I think the probable cost will not exceed \$30 for the Patent and Spindle ready for use.

The following persons have my Patent Mill Spindle in successful operation:—Col. W. E. Kelly, Thos. Foster, Joseph Hall and Sam'l. Foster of Davie County; Gilbert Dickson and David J. Ramsour of Lincoln; Charles Griffith of Rowan; Addison Moore of Davidson; and William Doss of Surry, all of whom are highly pleased with its performance.

L. M. GILBERT.

October 25, 1839.

BRICK MASONRY.

THE SUBSCRIBER living near Lexington, Davidson County, takes this method of informing the Public that he will enter into contract with any Person, or person, either in Davidson, Rowan, or Cabarrus Counties, who wish houses, factories, or any other kind of buildings erected of Brick, to build them as cheap, as durable, and in as good style as any workman in this country.

He will also, mould and burn the Brick, if wanted. He trusts that his long experience in

MOULDING AND LAYING BRICK,

will entitle him to a share of public patronage.

He would refer gentlemen wishing work done in his line of business, to the Female Academy and the new Iron Foundry office in Salisbury, as specimens of his work.

N. B. Those wishing work done, will please leave word at the office of the Western Carolinian, and it shall be punctually attended to.

MOFFAT'S VEGETABLE LIFE PILLS AND PHENIX BITTERS.

The universal estimation to which the celebrated Life Pills and Phenix Bitters are, is satisfactorily demonstrated by the increasing demand for them in every State and section of the Union, and by the voluntary testimonials of their remarkable efficacy which are every where offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow-creatures, than from interested considerations, that the Proprietor of these pre-eminent medicinal remedies is desirous of keeping them constantly before the public eye. The sale of every additional box and bottle is a guarantee that some persons will be relieved from a greater or less degree of suffering, and be improved in general health; for in no case of suffering from disease can they be taken in vain. The Proprietor has never known or been informed of an instance in which they have failed to do good. In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, rheumatism, asthma, nervous and bilious head-ache, costiveness, piles, general debility, scrofulous swellings and ulcers, scrofulous skin eruptions, and all other chronic affections of the organs and members, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs, which, if neglected, superinduce the most fatal diseases of the lungs, and indeed the viscera in general, these medicines, if taken but for three or four days, never fail. Taken straight, they so promote the insensible perspiration, and so relieve the system of febrile action and feculent obstructions, as to produce a most delightful sense of convalescence in the morning; and though the usual symptoms of a cold should partially return during the day, the repetition of a suitable dose at the next hour of bed-time will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionable quantity; and persons retreating to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown, and can easily be subdued. In the same way, visceral turgescence, though long established, and visceral inflammations, however critical, will yield to the former to small and the latter to large doses of the Life Pills; and so also hysterical affections, hypochondriacal, restlessness, and very many other varieties of the Neurotical class of diseases, yield to the efficacy of the Phenix Bitters. Full directions for the use of these medicines, and showing their distinctive applicability to different complaints, accompany them; and they can be obtained, wholesale and retail, at 375 Broadway, where numerous certificates of their unparalleled success are always open to inspection.

For additional particulars of the above medicines, see Moffat's "GOOD SAMARITAN," a copy of which accompanies the medicines; a copy can also be obtained of the different Agents who have the medicines for sale.

French, German, and Spanish directions can be obtained on application at the office, 375 Broadway.

All post paid letters will receive immediate attention.

Prepared and sold by WILLIAM B. MOFFAT, 375 Broadway, N. Y. A liberal deduction made to those who purchase to sell again.

Agents—The Life Medicines may also be had of the principal druggists in every town throughout the United States and the Canadas. Ask for Moffat's Life Pills and Phenix Bitters; and be sure that a fac simile of John Moffat's signature is upon the label of each bottle of Bitters, or box of Pills.

FEVER AND AGUE—TO MY FRIENDS IN THE WEST, and particularly those who have used the LIFE MEDICINES in treatment of FEVER AND AGUE.

It is but a very short time since these Medicines have been introduced into the Fever and Ague Districts, and the proprietor flatters himself that during that period, they have done more towards exterminating the disease, than all other remedies and prescriptions combined. It is now more generally known, that they cannot cure diseases which people are in the habit of considering incurable. Medical experience is continually doing away a part of the list of the incurable diseases, and Mr. Moffat has the happiness of confidently announcing that Fever and Ague now to be added to the number of complaints which modern skill has conquered.

In Fever and Ague the Life Medicines not only give quicker relief than any other remedy, but, if continued, in effect a permanent cure; so that if the patient is only originally weak, and resorts directly to his medicine upon the first symptom of tendency to a new attack, it may always be ward off. To escape one chill would be of infinitely more consequence to the sufferer than the value of the remedy—to remove the disease permanently would confer a benefit upon him which cannot be estimated by any earthly standard. That these Medicines will effect what is here claimed for them, the Proprietor has the testimony of all who require them, and their applications and use in the Fever and Ague; and his object in now addressing his friends at the West is to request them that they spare no pains in communicating their experience, and disseminating this highly interesting information, now that the season for Fever and Ague has arrived.

It is not for the mere purpose of disposing of a few hundred packages of the Life Medicines, that the proprietor makes this appeal. The demand for his Medicines is already greater than he can conveniently supply; and even were it insufficient to afford him business, he would conceive himself supremely selfish, if his pleasure was not greater at the benefit conferred upon the suffering part of our community by an increase in his sales, than at his own pecuniary gain.

The Life Medicines, if properly used and preserved in the public mind, will be a permanent benefit, and hence the propriety of advertising them. It is hoped, therefore, that the proprietor will not be accused of egotism when he says that there is no medicine or mode of treatment extant, for fever and ague, so appropriate, thorough and positive in its happy effects as Moffat's Life Pills and Phenix Bitters.

For further particulars of the above medicine see Moffat's GOOD SAMARITAN, a copy of which accompanies the medicine. A copy may also be obtained of the different Agents who have the medicines for sale.

French, German, and Spanish directions can be obtained on application at the office, 375 Broadway.

NEVER AND AGUE POSITIVELY CURED.

Fever and Ague is a most obstinate disease, and in warm and humid climates, frequently resists every ordinary mode of cure, so as to become very distressing to the person, and by the extreme debility which the disease induces, it often gives rise to other chronic complaints. Marsh miasmata, or the effluvia arising from stagnant water, is the most frequent exciting cause of this disease; and one of the great peculiarities in its susceptibility of a removal from very slight causes, such as from the prevalence of an easterly wind—even with the repetition of the original exciting cause. In this, Fever and Ague differs from most other fevers; as it is well known, that after an ordinary fever has once occurred, and been removed, the person affected is not liable to a fresh attack as one who was not so affected. These circumstances render it extremely difficult to effect a permanent cure of Fever and Ague, though to relieve the patient for the time being is a very easy task.

MOFFAT'S LIFE PILLS AND PHENIX BITTERS

have been thoroughly tested, and proved to be positive and radical cures of Fever and Ague. Hundreds of his fellow-creatures in the West, have voluntarily come forward to assure Mr. Moffat that the Life Medicines are the only medicines that will thoroughly effect a removal of the most tedious and disagreeable disease.

Others who have emigrated to that rich and promising portion of our country—men who want not full of hope, and confident of winning a competence from the insurance of the soil; or who, carried to the bosom of our settlements the mercantile or mechanical experience won in the crowded cities and towns of the Eastern States, have either returned with shattered constitutions and depressed spirits, or they remain in their new homes, dragging out a weary life; at last, to sink under some disease to which they are predisposed by the terror of the West, the Fever and Ague. Their lives are blasted—their business energies destroyed—Sore El Duroso became a desert, and the word, made to the ear, is broken to the hope.

To these individuals, Mr. Moffat would say—"Try the Life Medicines, and you will yet anticipate your most sanguine expectations, for they will certainly restore you to health."

Fever and Ague is a complaint which requires to be met at its first approach, and combated at every stage. Seldom fatal of itself, it reduces the strength, and impairs the functions of the organs, so that upon the manifestation of disease, Nature is unable, unassisted, to resist the invader. The Life Medicines, when taken strictly according to directions will cure it, and give to the weak and trembling victim of disease, new health, life, and strength.

For full particulars of the mode of treatment, the reader is referred to the GOOD SAMARITAN, a copy of which accompanies the medicine. A copy may also be obtained of the different Agents who have the medicines for sale.

PROSPECTUS

REPORTER AND MORNING DAILY OMBUS

FROM and after the 1st of December proximo, will be published in Washington city, a DAILY PAPER, under the above title; affording to the People at large, the first opportunity offered of obtaining from Washington a complete report of the many farcical doings transacted here, and to the citizens themselves, a never-failing fund of humor and amusement.

The character of the paper shall be truly independent, (and rock-like) in the most extended sense of the term; the editor being convinced that it is independence alone which can secure to the newspaper press, the proud station it should ever occupy, and that without it, can never subvert any useful end.

As a Political "REPORTER," politics, and the movements of political men, will be boldly discussed; and in point of variety, humor, and promptness in news matters, the "OMBUS," shall not be surpassed by any other paper of equal dimensions; for it shall be our pride to record with despatch, and in a pleasing style,

"The devices quail, and follies ever new,
That tread on each other's heels."

With such small variety in this ever-changing, varied and wonderful world.

The "REPORTER AND OMBUS" will be printed in the neatest style, upon good paper, about the usual size of penny papers, and sold by the Carriers at ONE CENT per single copy, or SIX CENTS a week. Price of the daily for one year (six months) FIVE DOLLARS.

For the accommodation of those in the country, who prefer it, a TRI-WEEKLY edition of the paper, containing all the reading-matter of the daily, may be had at the very low price of THREE DOLLARS per annum, mailed to order. The tri-weekly, per month, fifty cents.

Address, (postage paid)
"REPORTER AND OMBUS,"
Washington city.

S. B. No order for the paper by mail will be attended to, unless accompanied by the cash, or its equivalent.

UNPARALLELED!

A TRI-WEEKLY PAPER FROM WASHINGTON CITY, FOUR MONTHS FOR ONE DOLLAR!!

The publishers of the "Reporter and Morning Daily Ombus," in Washington city, desiring to afford to the people at large, an opportunity of receiving during the approaching session of Congress—a Congress which promises to be so replete with important and interesting incidents—a correct as well as entertaining and amusing report of its proceedings; as also to facilitate the circulation of a truly independent paper, offer the TRI-WEEKLY "Reporter and Ombus," as above, for the unprecedented low price of One Dollar! Three times a week, for four months, at One Dollar!

Always in advance—50 Cents a month.

Two Dollars cash remitted will pay for one copy during the whole session, which is expected to consume eight or nine months; and Ten Dollars cash will pay for six copies during the session.
