REPUBLICANS OF DAVIDSON!

Attend the meeting at Lexington on Tuesday of Court week. Come and pledge your efforts to aid in redeeming the old North State.

Thursday next, the 12th November.

Is the day, as our readers doubtless know, on which the people of North Carolina are to give their votes for Electors of President and Vice President.

No good Democrat, no true patriot, no man who is fit to be free, will fail in his duty on that day.

We are in the midst of a struggle that will tell hereafter as a happy or a fearful omen for good or for evil on the destinies of our Republic.

The Democracy are contending in a conscientious and noble way with the naked weapons of truth alone, for the Constitution and the rights of the People.

The Bank party are confident that no man of their trained hands will be absent on the day of election.

Let every man, but recollect, the true issue, and do not fail to vote for his country and himself, as he falls or hesitates.

Go, then, every Democrat, to the polls! Fair weather or foul, rain or sunshine, fail not to go.

One of the Federal orators related a pitiful anecdote, at the con skin show in Raleigh, how Mr. Van Buren and Mr. Forsyth had had a difference and vulgar quarrel concerning some contemptible matter on the return of Maj. Eaton.

Go, then, every Democrat, to the polls! Fair weather or foul, rain or sunshine, fail not to go.

The moral development of a nation and its political progress are the result of the Federal confidence in the result of the Presidential contest.

No wonder the leading braggarts of this crowing party could claim every State in the Union, knowing that the voice of the American people fairly expressed, would avail nothing against a deliberate and organized plan of fraudulent voting.

For some time past, with the design of diverting suspicion from themselves, the characteristic trickery of the party has been exercised in making charges against the Democrats of the intended frauds.

They have talked magnificently of public virtue, and the purity of elections, who would barter to British stock brokers rights and assumptions violative of the Constitution, and buy with British gold the fraudulent accomplishment of their unwholesome purposes.

What is most alarming in these frauds, is the fact that they were planned and carried on by the aid of men, whose honor and integrity has stood heretofore above suspicion, but who are now convicted by judicial proof of having been accessory to, and in some cases, actually concerned in, the commission of the offences!

Let our Democratic friends be on their guard against any returns which the Federal party may circulate on the day of Election, conveying the news of reported Federal victories in other States.

Take care that there is no fraudulent voting. This we have to apprehend, more than the strength of the Federal party.

Let men of boldness take their stand at the polls, and see that there is no illegal voting.

Some astute Federalist has lately made a discovery that ought to immortalize him with the con skin party, forever;—it is nothing more nor less, than that the loco focus have concocted a most wicked plan to kill Old Tip—don't be alarmed reader—only on paper, just at the eve of election; and, in this way, prevent the good cider men from voting for him.

Several chapters of the "Life and Adventures of Ned Johnny Cake," are on file. We withhold them at the request of the author for the present, as the demand for the first number has been such as to induce a suspension of their further publication in the newspapers.

The Federalists crowded too soon over Arkansas. She has not yet mounted the Black Cockade. Instead of a Federal victory, the late elections have resulted in a brilliant Democratic Triumph.

The Democratic Governor goes in without opposition. Judge Cross, the Democratic candidate for Congress, has been elected by over 2,000 majority.

The Legislature elect stands—Senate, 15 Democrats to 6 Federal Whigs. House, 41 Democrats to 23 Federal Whigs.

FOR THE WESTERN CAROLINIAN. MEETINGS IN MECKLENBURG.

Mr. BURTON: I never saw the invincibility of true Democracy so gloriously displayed, as it was in the old Republican County of Mecklenburg on Tuesday last.

The Democrats and the Federalists of the County had each a meeting advertised to be held in the Courthouse on that day; so, in the morning, to prevent confusion, and that the people might have a fair chance to hear both sides, the Democrats made a proposition to the Federalists that both parties should assemble together and have free discussion, but, with their usual fear of the lights of truth, and love of humbuggery, this proposition was declined by the Federalists.

The Democrats were assembled together, the Federalists came dragging their log cabin by, and carried it about 40 yards down the street, stopping immediately in front of their opponents, and where they could best annoy their meeting and prevent discussion, with their songs and shouting, and their duab show.
