MISCELLANEOUS.

THE JEWS.

The present physical, moral, and social condition of the Jews must be a miracle. We can come to no other conclusion. Had they continued, from the commencement of the Christian era down to the present hour...

Singular Arithmetical Combination. It is a very remarkable coincidence that the figures 1789 the year in which the French revolution commenced, added together make the sum 25...

North and South. The Whig Legislature of Connecticut, the other day, following in the wake of Vermont, passed resolves in favor of reviving the protective system.

The Whig Legislature of Georgia have lately passed resolves against the protective system. This is Harrisonism on the other side.

The new Whig Legislature of Maine will, it is said, resolve in favor of one. The Harrison Convention certainly stands justified in refusing to "make any general declaration of the views of the opposition party."

From the New York Journal of Commerce. THE REMAINS OF NAPOLEON. By the ship Tarquin, Capt. Hunt, from Manila via St. Helena, we have received the following letter:

St. HELENA, 18th October, 1840. The French frigate "Belle Poule," commanded by the Prince de Joinville, and sloop "Favorite," both from France, are now here for the purpose of taking to France the mortal remains of the Emperor, Napoleon Bonaparte.

The remains are to be taken on board the "Belle Poule" on the 15th October, that being the day on which Bonaparte arrived at St. Helena.

There is a Sarcophagus of ebony by the "Belle Poule," for the purpose of holding the coffin of Napoleon. On board the "Belle Poule" is a chapel fitted up for its reception, which is lined with black velvet, in small panels, sprinkled all over with silver stars, festooned with silver cord and tassels.

The following account of an attempt, made during the Revolutionary War, to blow up the British vessels of war in New York harbor, may be of interest to most of our readers.

Died. At Lyme, (Conn.) on the 20th ult., Captain ERRA LEE, aged 72, a Revolutionary Officer. When the British fleet lay in the North River, opposite to the city of New York, and while Gen. Washington had possession of the city, he was very desirous to be rid of such neighbors.

The following account of an attempt, made during the Revolutionary War, to blow up the British vessels of war in New York harbor, may be of interest to most of our readers. It is copied from a New York paper of November, 1821, and is an obituary notice of the gallant soldier who made the daring attempt.

MISCELLANEOUS.

THE JEWS.

The present physical, moral, and social condition of the Jews must be a miracle. We can come to no other conclusion. Had they continued, from the commencement of the Christian era down to the present hour, in some such national state in which we find the Chinese, walked off from the rest of the human family, and by their selfishness on a national scale, and their repulsion of alien elements, resisting every assault from without in the shape of hostile invasion, and from an overpowering national pride forbidding the introduction of new and foreign customs...

Singular Arithmetical Combination. It is a very remarkable coincidence that the figures 1789 the year in which the French revolution commenced, added together make the sum 25, the precise number of years it lasted. These 25 years added to 1789, give the year 1814, at which time Napoleon was driven out of France.

North and South. The Whig Legislature of Connecticut, the other day, following in the wake of Vermont, passed resolves in favor of reviving the protective system. This is Harrisonism on one side.

The Whig Legislature of Georgia have lately passed resolves against the protective system. This is Harrisonism on the other side.

The new Whig Legislature of Maine will, it is said, resolve in favor of one. The Harrison Convention certainly stands justified in refusing to "make any general declaration of the views of the opposition party," by the best of all imaginable reasons. The thing was an impossibility.

From the New York Journal of Commerce. THE REMAINS OF NAPOLEON. By the ship Tarquin, Capt. Hunt, from Manila via St. Helena, we have received the following letter:

St. HELENA, 18th October, 1840. The French frigate "Belle Poule," commanded by the Prince de Joinville, and sloop "Favorite," both from France, are now here for the purpose of taking to France the mortal remains of the Emperor, Napoleon Bonaparte.
