Actions the most trivial, apparently the most unimported, have often a most singular influence partant incidents of our lives to their secret source, not have happened; and you will often find what a triffe has most affected your most important inter-

In speaking of the transmigration of souls, a Dandy withily observed, that he remembered being and proposed the discussion of it another time. the golden caif. "And now you've only lust the gilding," replied a lady.

"Gortlemen," said an individual on being toastof the last time I made a speech I made a fool of myself; but I'l be hanged if I do it now-so I drink all your good healths."

" Make me a superfine suit of clothes, and I shall remain your everlasting debtor," said a gentioman who was being measured by a tailor." "Heaven forbid," ejaculated the operative.

Worthy of Initation.-There is a gentleman in Springfield, who regularly celebrates the anniversary of his marriage, by paying for his newspa-

A Change widow, being found fanning the tomb of new husband, was asked why she performed so singular an operation? She said she had promised not to marcy again while the tomb remained damp, and that as it dried very slowly, she saw no harm in assering to the process.

An elderly lady meeting a newly married man and once been her servant, carrying home a cranto, exclaimed: "Ah, John, these are the fruits of marriage." ." No, madem," replied John, " this be only the fruit basket."

Praise the frichess of the day when it is ended -a sword when you have proved it-a maiden when she is married—the ice when you have crossed-and a newspaper when you have read and PAID for it.

" No one would take you to be what you are," said in old-fashioned gentleman a day or two ago, to a dandy who had more hair than brains. Why ?" was the immediate reply. "Because they cap't see your ears!"

Advice.-Be extremely careful to mind two things in this world:

1st. Your own business

2nd. Let other people's alone.

Hard to Get .- An editor down East advertises for " a devil of moral character."

Mr. Theodore Helgerad has commenced a printing establishment at Tubingen, in Wurtemburg. in which all the compositors and pressmen, one hundred and umety six in number, are deaf and dumb. The King has conferred on Mr. Heigerad a large gold medal, of the order of civil merit, for this great reclamation from the social and moral waste. - Canden Journal.

Douth of the Ocean.-The sen, was recently sounded by lead and line, in latitude 57 deg. South, and 85 deg. 7m. West longitude from Paris, by the officers of the Freuch thip Venus, during her vayage of discovery, at a depth of 3,470 yards, or 24 miles. No bottom was found. The weather was very serene, and it is said that hauling in the lead took sixty sailors upwards of two hours. An Apr to the Shop.—A butcher of espirance one in company with several ladice at which, where, saving lost two or three rubbers, one of the ladice addressing him, ashed, "Pray, vir, what are staken sow?" To whith, thinking of his business, he realised, "Medam, the best virioto, I cannot sell at less

Forensie Wit.-A lawyer, now deceased, a celebrated wag, was pleading before a Scotch judge, with whom he was on the most intimate terms; happening to have a client, (a female, of the name of Tickle) defendant in an action, he commenced his speech in the following humorons strain:—
"Tickle, my client, the defendant, my lord." The auditors, amused with the oddity of his speech, were almost driven into hysterics by the judge replying:-" Tickle her yourself, Harry, you are

"That's the way it works is it ? " Well, Tom, is it a fact that the Chinese walk with their feet fernent our feet, and their heads down."

"Yes, sir. " And is it a fact that the devil's fire works are right under the earth ?"

" Well, I wonder if the Chinese aint bothered a good deal with the smoke?"

Affectionate-very.- Cooper says, I remember mere chance, strolled into a coffee house, where he met with a captain of his acquaintance on the point of sailing to England, and from whom he received an invitation to accompany him. This he accepted, taking care, however, to inform his wife of it, which he did in these terms :

"Dear Wife, I am going to England. Yours, &c."

Her answer was not less laconic or tender : " Dear Husband. A pleasant voyage. Yours, &c.

The Mammoth Iron Steamer .- A gentleman who recently arrived in the Acadia, informs us that the iron steamer, building by the Great Western Steamship Company at Bristol, will register about 3.000 4 tons, but that her actual tonnage will exceed 3 600 tons, or about 600 tons more than any ship ever built. A great saving in stowage will be gained in consequence of the adoption of iron for her hull, whilst her draught of water will be comparatively small, owing to the great buoyancy possessed by 18 iron vessels. She will consequently be able to car-25 ry coals sufficient both for her outward and home ward passages. Her engines are to be of 1,000 horse power, and it is confidently expected that the 9 average voyage across the Atlantic will be reduced 16 to ten days.

Espartero. - As the name of this Spanish General is daily used in relation to the present ullairs of Spain, it may be interesting to our readers to know his origin and history. He was born in 1793; was the son of a carpenter in middling circumstances, who lived in Don Quixotte's celebrated province of La Mancha. At an early age he went out to South America, where he soon became distinguished for his bravery, and his determined efforts to reduce the revolted colonies to obedience. Failing in this, he returned to Spain, and in the ve-r 1825, married the only daughter of a wealthy land proprietor, by name Santa Cruz. It was not until the death of Ferdinand that Espartero, resumed active military life, when he unhesitatingly gave in his adhesion to the Queen Regent.

A Rise of Prices .- A poor laborer, who had been swindled into the support of Harrison by the discourses of his employer on the necessity of raisand say if I had not gone there or done this, or if I had gone there and did at do so and so, this would not have happened; and you will often find what a election, "Boss," says he, "the campaign is closed. Harrison has been successful, there is to be a change of administration, will you please to ruse my wages!" It is needless to say that the employer did not seem to comprehend the paint of the argument,

It will be provided with entirely new and fair type, on paper of the best quality, and afforded to subscribers at \$2.50 in advance, (on the receipt of the first number,) or \$3 it corresponds to issue this Prospectus in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he will be aided in his own name, with a hope that he undertaking, by all the friends of the Temperance cause throughout the country, and that the paper may soon have an extensive circulation.

Friends of the Temperance Cause! to you we make a most earnest appeal—while thousands upon thousands of dollars are annually expended at theatres, at circuses, at the race track, at groceries, while no pains

could find at all times an unshrinking advocate. Its success rests chiefly with the Republican party of Meck-lenburg—and to them, and the Republicans of the surrounding country, the appeal is now made for support

The JEFFERSONIAN will assume as its political creed, those landmarks of the Republican party, the doctrines set forth in the Kentucky and Virginia Resolutionsbelieving, as the undersigned does, that the suthers of these papers, who bore a conspicuous part in framing our system of Government, were best qualified to hand down to posterity a correct exposition of its true spiritthe best judges of what powers were delegated by, and

what reserved to, the States.

It will oppose, as dangerous to our free institutions, the spirit of monopoly, which has been stealthily, but steadily increasing in the country from the foundation of our Government. The most odious feature in this system is, that it robs the MANY, imperceptibly, to enrich the PEW:-It clothes a few wealthy individuals with power not only to control the wages of the laboring man, but also at their pleasure to inflate or depress the country—exciting a spirit of extravagance, which it terminates in pecuniary ruin, and too often the moral degradation of This system must be thoroughly reformed before we can hope to see settled prosperity smile alike upon all our catizens. To aid in producing this reform, will be one of the main objects of the Jeyers. sonias. It will war against exclusive privileges, or partial legislation, under whatever guise granted by our Legi-latures; and, therefore, will oppose the chartering of a United States Bank, Internal Improvements by the Federal Government, a revival of the Tariff System, and the new Pederal scheme of the General Government assuming to pay to foreign money chan-gers the two hundred millions of dollars, borrowed by

few States for local purposes. As a question of vital importance to the South, and one which, from various causes, is every day assuming a more momentous and awful aspect, the Jefferso-NIAN will keep its readers regularly and accurately ad-vised on the subject of Northern Abolitionism. It upon which these works are printed, would sell for as must be evident to all candid observers, that the partigan presses of the South have hitherto been too silent upon this subject. We shall, therefore, without fear of being denounced as an alarmist, lend our numble aid to assist in awakening the People of the Fouth to due vigilance and a seuse of their real danger.

Winie a portion of the columns of the Jerrensontan will be devoted to political discussion, the great interests of Morals, Literature, Agriculture, and the Mcchanic Arts, shall not be neglected. With the choicest selections on these subjects, and a due quantity of light

PROSPECTUS

Western Carolina Temperance Advocate, A monthly paper devoted to the Temperance Reform, Published at Asheville, N. C., and edited BY D. R. M'ANALLY.

A TRESPREANCE CONVENTION that was held at this place early in September, resolved on publishing a paper of the above title and character, and appointed Dr. John Dickson and D. R. The present is the first effort that has been made to establish an organ at the birth-place of American Independence, through which the doctrines of the Democratic party could be freely promulgated and defended—in which the great principles of Liberty and Equality for which the Alexanders, the Polks, and their heroic compatriots periled their all, on the 20th May, 1775, could find at all times an unshrinking advocate, its of Virginia, and the Eastern part of Tennessee particu-larly, need a periodical of this kind, and it is for you now to say whether they shall have it.

The Congressimal Globe is made up of the daily proceedings of the two Houses of Congress, and the speeches of the members condensed.—The year and nays on all important subjects are given.
