PROSPECTUS

OF THE

Congressional Globe and Appendix.

THESE works have now been published by us for ten consecutive sessions of Congress. Commencing with the session of 1832-3. They have had such wide circulation, and have been so universally approved and sought after by the public, that we deem it necessary only in this Prospectus to say that they will be continued at the next session of Congress, and to state, succinctly, their contents, the form in which they will be printed, and the prices for them.

The Congressional Globe is made up of the daily proceedings of the two Houses of Congress. The speeches of the members are abridged, or condensed, to bring them into a reasonable, or readable length. All the resolutions offered, or motions made, are given at length, in the mover's own words; and the yeas and nays on all the important questions. It is printed with small type—brevier and nonpareil—on a double royal sheet, in quarto form, each number containing 16 royal quarto pages. It is printed as fast as the business done in Congress furnishes matter enough for a number—usually one number, but sometimes two numbers, a week. We have invariably printed more numbers than there were weeks in a session. The approaching session of Congress, it is expected, will continue 7 months, if so, Subscribers may expect between 30 and 40 numbers, which, together, will make between 500 and 600 royal quarto pages.

The Appendix is made up of the PRESIDENT's annual message, the reports of the principal officers of the Government that accompany it, and all the long speeches of members of Congress, written out or revised by themselves. It is printed in the same form as the Congressional Globe, and usually makes about the same number of pages. Heretofore, on account of the *set* speeches being so numerous and so long, we have not completed the Appendix until one or two months after the close of the session; but, in future, we intend to print the speeches as fast as they shall be prepared, and, of course, shall complete the work within a few days after the adjournment.

Each of these works is complete in itself; but it is necessary for every *Subscriber* who desires a full knowledge of the proceedings of Congress, to have both. Hence, then, if there should be any ambiguity in the synopsis of the speech, or any denial of its correctness, as published in the Congressional Globe, the reader may return to the Appendix to see the speech at length, corrected by the member himself.

Now, therefore, to secure to the Congressional Globe and Appendix from which a person can form a full history of the proceedings of Congress, GALES AND SEATON'S Register of Debates, which contained a history, has been suspended for three or four years. It cost about five times as much for a session as the Congressional Globe and Appendix, and did not contain so much amount of matter, a great portion of the current proceedings being omitted. We are enabled to print the Congressional Globe and Appendix at the low rate now proposed, by having a large quantity of type, and keeping the Congressional matter standing for the daily and semi-weekly Globes, waiting for the Congressional Globe and Appendix. If we had to set up the matter purposely for them, we could not afford to print them for double the price we charge.

Complete Indexes to both the Congressional Globe and the Appendix are printed at the close of each session, and sent to all subscribers for them.

We have on hand 3,000 or 4,000 surplus copies of the Congressional Globe and Appendix for the Extra Session, which make together near one thousand royal quarto pages. They give the fullest history of Congress that has ever been published. We can sell them for $3 each; that is, $1 for the Congressional Globe, and $1 for the Appendix. We propose to our subscriber for the Congressional Globe and Appendix for the next session, have them for 50 cts. each. They will be necessary to understand fully the proceedings of the next session. The important matters discussed at the last, will be brought up at the next session, in consequence of the unprecedented election created in the late elections with the Veto and Fiscal system of policy which the people have introduced, and which was forced through Congress without consulting public opinion, or allowing the full discussion which its importance demanded. Appended to the Appendix will be found a correct account of the Receipts and Expenditures of the Government, which will be found highly interesting to the people at this time.

TERMS.

For the Congressional Globe and Appendix, $4 for the Extra Session, $3.

For the Appendix alone, $1.

For the Congressional Globe alone, $3.

Payments may be made, at the risk of the publishers, by mail. By a rule of the Post Office Department, postmasters are permitted to frank letters containing money for subscribers.

The notes of any bank, current where a subscriber resides, will be received by us at par.

To insure all the numbers, the subscriptions should be in AS SOON AS POSSIBLE after the first December next, at furthest, though it is probable that we shall print enough copies to fill every subscription that may be paid in before the 1st day of January next.

No attention will be paid to any order unless the money accompanies it. BLAIR & RIVES.

Washington City, October 25, 1841.

LATH,

Grand-Sired by the

AMERICAN ECLIPSE,

The Champion of America,—

Winner of the great match race,

The North against the South,

$20,000 Aside.

THE thorough-bred horse *LATH*, bred by Col. Wade Hampton, of South Carolina, will make his *fourth* and *last* Season, which is now commenced and will end the 1st July, at the following places, viz: at Jacob Coleman's, Catharrus county, every Monday and Tuesday; at Salisbury, Wednesday and Thursday; and at Lexington, Davidson county, Friday and Saturday. He will be regularly at his stands, public days and high water excepted. He will be let to mares at the following reduced prices:—$12 the season, to be discharged by ten if paid before the season expires, and $15 to insure, payable as soon as the mare is ascertained to be in foal, or the property changes owners, and fifty cents to the groom. ☞ Care will be taken to prevent accidents, but, in no instance, will I be responsible for any that may occur. R. W. LONG.

Salisbury, N C., March 18, 1842. TF.

PEDIGREE:

I certify that *LATH* was bred by me, and that he was foaled in the Spring of 1833. He was got by Godolphin, his dam Pocahontas by Sir Archy; his g. dam Young Lottery, also by Sir Archy, out of Col. Singleton's celebrated Lottery, by the imported Bedford out of the imported mare Anvilina; Godolphin was got by Eclipse; his dam Sylph, by Hephestion out of Lottery by imported Bedford, &c. Hephestion was got by the imported Buzzard out of the dam of Sir Archy.

DESCRIPTION, PERFORMANCE, &C.

LATH is a fine bay, without white, 15 hands, 3 inches high, with good bone, and capital action. At 3 years old, he won the produce stake at Columbia, 2 mile heats, beating Mr. Taylor's Filly Daisy, and Capt. Spann's Colt, Convention, nine others paying forfeit.—Two weeks afterwards he won the Jockey Club Purse, 3 mile heats, at Augusta, beating Kite, and distancing Black Bird. At Charleston he was beaten by Clodhopper for the Jockey Club Purse, 3 mile heats; being very much amiss he was withdrawn after the first heat. At 4 years old, he won the Jockey Club Purse, 4 mile heats, at Camden, beating Sir Kenneth and Dombella at 3 heats; losing the first in consequence of bolting when several lengths in advance of the field, just before he reached the judges' stand; and getting entangled amongst the carriages, he sustained an injury which occasioned his withdrawal from the Turf.

LATH was a race horse of the first class, which he evinced in his trials with Bay Maria, Charlotte Russe, and Kitty Hoth, and in point of blood he is inferior to none, whether imported or native. His constitution is robust, having never been sick; and his temper good. His color, form, and action, speak for themselves. In a word, *Lath* unites in himself as many claims to public patronage, as any young Stallion that I know.

W. HAMPTON.

Willwood Jan. 22, 1839.

From the above Certificate of Col. Hampton, who bred and had LATH trained for the Turf, it will be seen that he considered him a Race horse of the first class,—not only from the races he has mentioned as having run publicly, but from private trials he has made with horses which are now on the Turf, and running with considerable success. It will also be observed by his certificate, that he considered Lath of the purest blood,—not to be surpassed by any horse, imported or native.

I consider it entirely unnecessary to attempt to eulogise *LATH*, either for his performances on the Turf or as to his blood, since, in every respect, he is so well attested. But will remark that Lath has not only descended from pure blood, but has come from stock both Sire, Grandsire, Dam, and Grandam, that are of the purest blood. For instance, his sire Godolphin made his four mile in 7 minutes and 50 seconds, his Grandsire, the American Eclipse, as well known at the North and South, made his time in the great match race, the North against the South, $20,000 aside, in 7 minutes and 37 seconds, which Eclipse won with considerable ease. This race gained him the unenviable name of the Champion of the North. His dam sired by the renowned Sir Archy, whose reputation as a racer, &c., stands unquestioned both in England and America. The grand dam of *LATH*, Old Lottery, bred by the great Southern Amateur of horses, Col. R. Singleton, of South Carolina, which has produced more fine race horses than any other mare in the Union. Thus it will be seen that there is united in LATH two of the best stocks of the South, Wade Hampton's and Singleton's crossed with Gen. Coles of the North.

The public is now presented with such an opportunity of improving the blood of their colts and useful animal, the horse, as rarely occurs in this section of country. R. W. L.

PROSPECTUS

OF THE

Western Carolina Temperance Advocate.

A monthly paper devoted to the Temperance Reform

Published at Asheville, N. C., and edited

BY D. R. M'ANALLY.

A TEMPERANCE CONVENTION that was held at this place early in September, resolved on publishing a paper devoted to Temperance and Literature, and appointed Dr. John Patterson, D. R. M'Anally, and Col. Wm. Patton a committee to conduct it. From the many promising names, Dr. Dickson and Col. Patton declined the appointment, and the duty devolved on the undersigned. Feeling my inability to discharge the duties of the office to the satisfaction of the friends of the cause, I declined the appointment, but was prevailed on to undertake
