### PROSPECTUS OF THE CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have now been published by us for ten consecutive sessions of Congress. Commencing with the session of 1832-3. They have had such wide circulation, and have been so universally approved and sought after by the public, that we deem it necessary only in this Prospectus to say that they will be continued at the next session of Congress, and to state, succinctly, their contents, the form in which they will be printed, and the prices for them.

The Congressional Globe is made up of the daily proceedings of the two Houses of Congress. The speeches of the members are abridged, or condensed, to bring them into a reasonable, or readable length. All the resolutions offered, or motions made, are given at length, in the mover's own words; and the yeas and nays on all the important questions. It is printed with small type—brevier and nonpareil—on a double royal sheet, in quarto form, each number containing 10 royal quarto pages. It is printed as fast as the business done in Congress furnishes matter enough for a number—usually one number, but sometimes two numbers, a week. We have invariably printed more numbers than there were weeks in a session. The approaching session of Congress, it is expected, will continue 7 months, if so, subscribers may expect between 30 and 40 numbers, which, together, will make between 500 and 600 royal quarto pages.

The Appendix is made up of the Debates, Resolutions, and Reports of the members of Congress, written out or revised by themselves. It is printed in the same form as the Congressional Globe, and usually makes about the same number of pages. Heretofore, on account of the great expense of printing, and the smallness of the paper, we have not completed the Appendix until one or two months after the close of the session; but, in future, we intend to print the speeches as fast as they shall be prepared, and of course shall complete the work within a few days after the adjournment.

Each of these works is complete in itself, but it is necessary for every subscriber who desires a full knowledge of the proceedings of Congress, to have both; because, then, if there should be any ambiguity in the synopsis of the speech, or any defect in its correctness, as published in the Congressional Globe, the reader may return to the Appendix to see the speech at length, corrected by the member himself.

Now, there is no source but the Congressional Globe and Appendix, from which a person can obtain a full history of the proceedings of Congress. Gales and SEATON'S Register of Debates, which contained a history, has been suspended for three or four years. It cost about five times as much for a session as the Congressional Globe and Appendix, and did not contain an equal amount of matter, a great portion of the current proceedings being omitted. We are enabled to print the Congressional Globe and Appendix at the low rate now proposed, by having a large quantity of type, and a superior printing press, that we set up for the Congressional Globe and Appendix. If we had to set up the matter purely for these works, we could not afford to print them for double the price now charged.

Complete indexes to both the Congressional Globe and the Appendix are printed at the close of each session, and sent to all subscribers for free.

We have on hand 1000 or 1000 surplus copies of the Congressional Globe and Appendix for the Extra Session, which make together near one thousand royal quarto pages. They give the fullest history of Congress that has ever been published. We now sell them for 81 each; that is, 81 for the Congressional Globe, and 81 for the Appendix. We propose to sell subscribers for the Congressional Globe and Appendix for the next session, have them for 50 cent each. They will be necessary to understand fully the proceedings of the next session. The important matters discussed at the last, will be brought up at the next session, in consequence of the universal dissatisfaction evinced in the late elections with the old and novel system of policy which the powers have introduced, and which was forced through Congress without consulting public opinion, or even allowing the full discussion usual in regard to subjects of ordinary interest. The reports of the Congressional Globe and Appendix are not in the least degree affected by the party, and are not in the least degree prejudicial to any one of the Editor. They are given precisely as written out by the Reporters and the members themselves. And the whole are subject to the revision and correction of the speakers, as they pass in review in our daily sheet, in case any misapprehension or misrepresentation of their remarks should occur.

We make a daily analysis of the debates in Congress, and give our opinions in it freely, but this is published only in the Daily, Semi-weekly, and Weekly Globes. The Daily Globe is \$10, the Semi-weekly Globe \$2 per annum, in advance. The Weekly Globe is printed in the same form as the Congressional Globe and Appendix, and a complete index made to it at the end of each year.

TERMS.

For the Congressional Globe and Appendix for the last Extra Session, \$1.

For the Congressional Globe for the next session, \$1 per copy.

For the Appendix for the next session, \$1 per copy.

Six copies of either of the above works will be sent for \$5; twelve copies for \$10, and so on in proportion for a greater number.

Payments may be transmitted by mail, postage paid, at our risk. By a rule of the Post Office Department, postmasters are permitted to frank letters containing money for subscriptions.

The notes of any bank, current where a subscriber resides, will be received by us at par.

To insure all the numbers, the subscribers should be in Washington by the 15th December next, at farthest, though it is probable that we shall print enough surplus copies to fill every subscription that may be paid before the 1st day of January next.

No attention will be paid to any order unless the money accompanies it.

### HORSE-BILLS NEATLY PRINTED AT THIS OFFICE.

### THE FAMILY NEWSPAPER. THE PHILADELPHIA SATURDAY COURIER.

WITH THE LARGEST CIRCULATION IN THE WORLD!!

The publishers of this old established and universally popular Family Journal, would deem it supererogatory to say a word in commendation of its past or present excellence and usefulness. Its unrivalled and increasing circulation, (over 35,000,) is its best recommendation. For the future, however, a determination to be first in the van of the American Newspaper Weekly Press, will call for increased expenditures and renewed attractions for the coming year, 1842, not the least of which will be an improvement in the quality of the paper, and addition of popular contributors, embracing, we fully believe, the best list to any similar Journal in the world.

The Courier is independent in its character, fearlessly pursuing a straight forward course, and supporting the best interests of the public. It is strictly neutral in politics and religion. It will maintain a high tone of morals, and not an article will appear in its pages which should not find a place at every fireside. It has more than double the number of constant readers, to that of any other paper published in the country, embracing the best families of our Republic.

### AMERICAN TALES.

Every one should be proud to patronize the Philadelphia, Saturday Courier, by their order, or to Mrs. Caroline Lee Hentz, Mrs. St. Leon Lourd, "The Lady of Maryland," Professor Ingraham, T. S. Arthur, Esq., Miss Sedgwick, Miss Leslie, and many others, it has justly earned the title of the American Family Newspaper.

### Foreign Literature and News.

Determined to spare no expense in making the Saturday Courier a perfect model of a Universal Family Newspaper, of equal interest to all classes and persons of every nation, we have made arrangements to receive all the Magazines and papers of Interest, published in England and on the Continent, the news and news of which are immediately translated to its columns, thus giving to emigrants, as well as others, a correct and connected account of whatever occurs of interest, either at home or abroad.

### THE MARKETS.

Particular care is taken to prepare the earliest and most correct advices in reference to the prices of all kinds of Grain, Provision, Produce, &c., the state of Stocks, Banks, Money and Land, and our extensive arrangements will hereafter render our Prices Current of inestimable interest to the traveler, the farmer, and all business classes whatever.

The general character of the Courier is well known. The columns contain a great variety of

TALES, NARRATIVES, ESSAYS, AND BIOGRAPHICAL, and articles in Literature, Science, the Arts, Mechanics, Agriculture, Education, Music, News, Health, Amusement, and in fact, in every department to which alluded in a Universal Family Newspaper, from its origin, we have as Mrs. C. Patton, Miss Mitchell, Professor Wilson, E. L. Bulwer, Joseph C. Neal, Thos. G. Spear, Capt. Murray, R. N. P. South.

### LATH, Grand-Sired by the AMERICAN ECLIPSE, The Champion of America.— Winner of the great match race, The North against the South, \$20,000 Aside.

THE thorough-bred horse LATH, bred by Col. Wade Hampton, of South Carolina, will make his fourth and last season, which is now commenced and will end the 1st July, at the following places, viz: at Jacob Coleman's, Cabarrus county, every Monday and Tuesday; at Salisbury, Wednesday and Thursday; and at Lexington, Davidson county, Friday and Saturday. He will be regularly at his stands, public days and high water excepted. He will be let to make at the following reduced prices—\$12 the season, to be discharged by ten if paid before the season expires, and \$15 to insure, or the property changes owners, and fifty cents to the groom. Care will be taken to prevent accidents, but, in no instance, will I be responsible for any that may occur.

R. W. LONG.  
Salisbury, N. C., March 18, 1842.

### PEDIGREE:

I certify that LATH was bred by me, and that he was foaled in the Spring of 1833. He was got by Godolphin, his dam Pocahontas, by Sir Archy; his dam Young Lottery, also by Sir Archy, out of Col. Singleton's celebrated mare, by the imported Bedford out of the imported mare Anvilina; Godolphin was got by Eclipse; his dam Sylph, by Haphesation out of Lottery, by imported Bedford, &c. Haphesation was got by the imported Buzzard out of the dam of Sir Archy.

### DESCRIPTION, PERFORMANCE, &c.

LATH is a fine bay, without white, 15 hands, 3 inches high, with good bone, and capital action. At 3 years old, he won the produce stake at Columbia, 2 mile heats, beating Mr. Taylor's Filly Daisy, and Capt. Spaul's Colt, Convent-n, nine others paying forfeit. Two weeks afterwards he won the Jockey Club Purse, 3 mile heats, at Augusta, beating Kite, and distancing Black Bird. At Charleston he was beaten by Clodhopper for the Jockey Club Purse, 3 mile heats; being very much amiss he was withdrawn after the first heat. At 4 years old, he won the Jockey Club Purse, 4 mile heats, at Camden, beating Sir Kenneth and Dorabella at 3 heats; losing the first in consequence of bolting when several lengths in advance of the field, just before he reached the judges' stand; and getting entangled amongst the carriages, he sustained an injury which occasioned his withdrawal from the turf.

LATH was a race horse of the first class, which he evinced in his trials with Bay Moss, Charlotte Runce, and Kitty Leah, and in point of speed he is inferior to none, whether imported or native. His constitution is robust, having never been sick, and his temper good. His color, form, and action, speak for themselves. In a word, Lath unites in himself as many claims to public patronage, as any young Stallion that I know.

W. HAMPTON.  
Willwood Jan. 22, 1839.

Willwood Jan. 22, 1839.

I have the honor to certify that Col. Hampton, who bred the horse LATH, is the owner of the TURF, it will be seen that he considered him a Race Horse of the first class, not only from the races he has mentioned as having run publicly, but from private trials he has made with horses which are now on the Turf, and running with considerable success. It will also be observed by his certificate, that he considered Lath of the purest blood, not to be surpassed by any horse, imported or native.

I consider it entirely unnecessary to attempt to eulogize LATH, either for his performances on the Turf or as to his blood, since, in every respect, he is so well attested. But will remark that Lath has not only descended from pure blood, but has come from stock both Sure, Grand sire, Dam, and Grand dam, that are of the running blood. For instance, his sire Godolphin made his four miles in 7 minutes and 50 seconds, his Grand sire, the American Eclipse, so well known at the North and South, made his time in the great match race, the North against the South, \$20,000 aside, in 7 minutes and 47 seconds, which Eclipse won with considerable ease. This race gained him the memorable name of the Champion of the North. His dam, sired by the renowned Sir Archy whose reputation as a racer, &c., stands unquestioned both in England and America. The grand dam of LATH, Old Lottery, bred by the great Southern Amateur of horses, Col. R. Singleton, of South Carolina, which has produced more fine race horses than any other mare in the Union. Thus it will be seen that there is united in LATH two of the best studs of the South, Hampton's and Singleton's crossed with Gen. Coles of the North.

The public is now presented with such an opportunity of improving the blood of that noble and useful animal, the horse, as rarely occurs in this section of country.

### PROSPECTUS OF THE Western Carolina Temperance Advocate.

A monthly paper devoted to the Temperance Reform, Published at Asheville, N. C., and edited BY D. J. MANNALLY.

A TEMPERANCE CONVENTION that was held at this place early in September, resolved on publishing a paper of the above title and character, and appointed Dr. John Dickson and D. R. Mannally to conduct it. From the many pressing engagements, Dr. Dickson already has, he deems it impracticable for him to be recognized as one of the editors, though he will cheerfully use all his influence otherwise, to promote its interest, the subscriber therefore, proceeds to issue this Prospectus in his own name, with a hope that he will be aided in the undertaking, by all the friends of the Temperance cause throughout the country, and that the paper may soon have an extensive circulation.

Persons of the Temperance Cause! to you we make a most earnest appeal—while thousands upon thousands of dollars are annually expended at theatres, at circuses, at the race track, at groceries, while his name are spared, the luxury of retirement, and ease foregone, and no labor deemed too severe to advance the interests of political aspirants, can you not do something in a cause that must be dear to every true patriot, philanthropist, and Christian! Recollect there are but few very few, such papers in all the Southern country.—The Western part of North Carolina, the Western part of Virginia, and the Eastern part of Tennessee particularly, need a periodical of this kind, and it is for you now to say whether they shall have it.

The very low price at which it was fixed by the Convention, will make it necessary, that a very large subscription be had, before the publication of it can be justified.

TERMS.

The Western Carolina Temperance Advocate will be published on a medium sheet, in quarto form, each number making eight pages, and will be furnished at the very low price of Fifty Cents a copy. Where single copies are taken, the payment must be made invariably upon the receipt of the first number.

Postmasters, editors or publishers of papers, and all Ministers of the Gospel, are authorized agents.

Being satisfied of this, we have purchased for ourselves the right to use their patent.

### PROSPECTUS OF THE North Carolina Temperance Union.

THE State Temperance Society of N. C. at its annual meeting, directed its Executive Committee to take measures for the establishment, at this place, of a Journal, devoted to the cause of Temperance.

In obedience to their wishes, and impressed with the importance of such a publication, the Committee have determined, if sufficient encouragement can be obtained, to issue the first number of such a publication, to be called the NORTH CAROLINA TEMPERANCE UNION, on the first of January next.

The leading object of the Union will be, the dissemination of Temperance principles. We shall endeavor to present, in its pages, a full record of the progress of the Temperance cause in our own and in foreign lands;—of its effect upon individuals and communities;—and original articles in defence of its principles, and in reply to the various objections urged against it.

While, however, the promotion of Temperance will be the first and leading object of our Journal, it is our intention, that its pages shall be enlivened by a general summary of the most important events of the day, and by particular attention to the interest of Agriculture.

In carrying out this object, the Committee look with confidence to the friends of Temperance, particularly in North Carolina, for aid and support. A new impetus has been given to the cause in this State. We trust this present occasion, we could tell a tale of what has been passing under our own eyes, which would send a thrill of joy through every benevolent heart. The reformation of the inebriate has commenced, and is still going on with a power and success, which the most sanguine never dared to anticipate. Give us but the means of communication, and we trust that an influence will go forth from the Capitol of the old North State, to its remotest boundary, that will tell upon its happiness and prosperity through all future generations.

Permit us, then, most earnestly to appeal to every friend of Temperance, Morality, and good order, to aid us promptly. As the object is to commence with the new year, delay on the part of its friends may be fatal. Let every individual then, who feels an interest in our success, and every Temperance Society, become responsible, or near for the success of our efforts.

At a meeting of the Executive Committee of the N. C. Temperance Society, the following resolution was adopted: Whereas, arrangements have been made to commence the publication of a Temperance Journal in the City of Raleigh, on the first week of January next, provided one thousand subscribers can be obtained.

Resolved, That it be most earnestly recommended to each of the Officers of the State Temperance Society, and to the members of the late State Convention, and to any who are friendly to the cause, immediately after the receipt of this resolution, to become responsible for from 10 to 50 Subscribers, so that the publication may commence at the time contemplated.

By order of the Executive Committee of the North Carolina State Temperance Society.

TERMS:

The North Carolina Temperance Union will be published weekly on a medium sheet, (say 20 by 18 inches,) at One Dollar and Fifty Cents per annum, payable IN ADVANCE. Letters containing Subscribers names and remittances, must be directed, postpaid or free, to the Treasurer of the Society, JAMES BROWN, Raleigh, North Carolina.

All the newspapers in the State are respectfully requested to give this Prospectus one or two insertions.

THIS is unquestionably the most popular work of the kind ever published, and a look most admirably adapted to the wants of all classes of the community. The following are the important objects which the learned author endeavors to accomplish:

1st. To instruct the Manufacturer, Metallurgist and Tradesman in the principle of their respective processes, so as to render them, in reality, the masters of their business; and, to emancipate them from a state of bondage to such as arrogate commonly for themselves blind prejudice and a vicious routine.

3dly. By exhibiting some of the finest developments of Chemistry and Physics, to lay open an excellent practical school to Students of these kindred sciences.

4thly. To teach Capitalists, who may be desirous of placing their funds in some productive branch of industry, to select, judiciously, among plausible claimants.

5thly. To enable gentlemen of the Law to become well acquainted with the nature of those patent sciences, which are so apt to give rise to litigation.

6thly. To present to legislators such a clear exposition of the staple manufactures as may dissuade them from enacting laws which obstruct industry, or cherish one branch of it to the injury of many others.

And lastly, to give the general reader, interested in Intellectual Cultivation, views of many of the noblest achievements of Science, in effecting those grand transformations of matter to which Great Britain and the United States owe their permanent wealth, rank and power among the nations of the earth.

### BANKRUPT LAW.

UNITED STATES—NORTH CAROLINA DISTRICT.

I HEREBY GIVE NOTICE, That on the first day of February next, I shall hold a Court at my house in Fayetteville, for the purpose of retaining petitions under an Act to establish a uniform system of Bankruptcy throughout the United States, and that the said Court will be kept open every day in succession (Sundays excepted) until notice shall be given to the contrary.

In the case of voluntary bankrupts, the Act provides that all persons whatsoever, residing in the State, &c., owing debts, which shall not have been created in consequence of a declaration as a public officer, or as executor, administrator, guardian or trustee, or while acting in any other fiduciary capacity, who shall, by petition, setting forth the best of their knowledge and belief, a list of their creditors, their respective places of residence, and the amount due to each, together with an accurate inventory of his or their property, rights and credits, of every name, kind, and description, and the location and situation of each and every parcel and portion thereof, verified on oath, (or affirmation) apply to the proper Court, for the benefit of the Act, and therein declare themselves to be unable to meet their debts and engagements, shall be deemed bankrupts within the purview of the Act, and may be so declared accordingly by a decree of the Court.

It is my opinion, that all persons coming within the purview of the Act, though they may be entirely destitute of property, are entitled to its benefits.

I perceive in the publications of several of the District Judges, a diversity of opinion, as I anticipated, on the construction of the act, even in the incipient stage of proceeding under it; and I am aware that other and more important difficulties will occur in the sequel. But I am now engaged in a correspondence with several District Judges, with the view of reconciling, as far as we can, the discrepancies of the Act, and of showing, at least, something like a uniformity of practice. I shall, however, hold myself in readiness to put the Act in operation, according to its spirit and the best of my ability, whether it be amended or not.

The necessary rules and forms, together with a tariff of fees, shall be given in due season.

According to my construction of the Act, the petition may be verified before any Judge or Justice of the Peace of this State; but I think the petitioner is required to appear in Court, at the hearing, either in person or by attorney, to declare himself to be unable to meet his debts and engagements.

The petitioner must comprise in his petition all the items required; and it will be found safest to adopt the very letter of the Act. He must name the county in which he resides.

The petitions, when received, will be referred, for hearing, to their respective Stated Courts in the Spring.

For instance, all within the District of Albemarle, will be heard at Edenton; all within the District of Pamlico, will be heard at Newbern; and all within the District of Cape Fear, at Wilmington. And publications will be ordered as directed by the Act.

The District of Albemarle comprises the two State Districts of Etowah and Halifax; the District of Pamlico comprises the Districts of Newbern and Hillsborough, together with all that part of the District of Wilmington which lies to the Northward and Eastward of New River; and the District of Cape Fear comprises the remainder part of the State.

All Communications on the subject of Bankruptcy, addressed to me by mail, if not post paid, will remain in the office.
