ILLUSTRATED WITH ONE THOUSAND TWO HUNDRED AND FORTY-ONE ENGRAVINGS.

THIS is unquestionably the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which the bearned author endeavors to accomplish : 1st. To instruct the Manufacturer, Metallurgist and

Tradesman in the principle of their respective pro-scesses, so as to render them, in reality, the masters of cesses, so as to render them, in reality, the instant Bagging, their business; and, to emancipate them from a state Bale Rope, blind prejudice and a vicious routine. 2ndly. To afford Merchants, Brokers, Drysalters, Cotton Coffee,

Bragigsts, and officers of the Revenue, characteristic descriptions of the commodities which pass through Corn, (scarce) their hands.

Brdly. By exhibiting some of the finest developments of Chemistry and Physics, to lay open an excellent practical school to Students of these kindred sciences. Bacon 4thly. To teach Capitalists, who may be desirous of placing their funds in some productive branch of indus-Beeswax,

# - SATURDAY COURIER.

WITH THE LARGEST CIRCULATION IN THE WORLD !!

The publishers of this old established and universally opular Family Journal, would deem it superogatory to say a word in commendation of its past or present excel-lence and usefulness. Its unrivalled and increasing circulation, (over 35,000,) is its best recommendation. For the future, however, a determination to be FIRST in the van of the American Newspaper Weekly Press, will call for increased expenditures and renewed attractions for the coming year, 1842, not the least of which will be an improvement in the quality of the paper, and addition of popular contributors, embracing, we fully believe, the best list to any similar Journal in the world.

The Courier is independent in its character, fearlessly pursuing a straight-forward course, and supporting the best interests of the public. It is strictly neutral in politics and religion. It will maintain a high tone of morals, and not an article will appear in its pages which should not find a place at every fireside. It has more than double the number of constant readers, to that of any other paper published in the country, embracing the best families of our Republic.

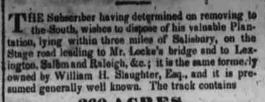

#### AMERICAN TALES.

Every one should be proud to paironise the Philadelhin Saturday Courier, as by its unbroken series of oriunal American Tales, by such native writers as Mrs. aroline Lee Hentz, Mrs. St. Leon Loud, "The Lady of Maryland," Professor Ingrahame, T. S. Arthur, Esq., Miss Sedgwick, Miss Leslie, and many others, it has justly earned the title of the American Family Newspaper

# Finishing Leather.

This improvement consists in a new mixture, of their invention, which is applied to the leather, and which saves the expense of tallow and the labor of whitening. They do not offer it to the public without having themselves effectually tested it, nor on their own recommen-dation alone, but ask attention to the certificates given below by highly respectable and experienced Tanners who have examined the invention, and being satisfied of its usefulness, have purchased rights :- and also to the certificates of the Boot and Shoe-makers who bear testimony to the quality and finish of the leather.

#### CERTIFICATES:

At the request of Messrs. Ronald & Miller, and for our own satisfaction, we have particularly examined their improved plan of finishing leather, and pronounces it altogether beyond our expectation for value; and we chcerfully recommend it to the Tanners of the Country as a great saving of labor and expense, and as giving a fine gloss and high finish to the leather. Being salis-fied of this, we have porchased for ourselves the right. to use their patent.

THE thorough-bred horse LATH, bred by Col. Wade Hampton, of South Carolina, will make his fourth and tast Scason, which is now commenced and will ead the Let July, at the following places, vis : at Jacob Cole-man's, Cabarrus county, every Monday and Tuesday ; at sainbury, Wednesday and Thursday ; and at Lexing-on, Davidson county, Friday and Saturday. He will be regularly at his stands, public days and high water excepted. He will be let to marce at the following re-duced prices :- \$12 the season, to be discharged by ten if paid before the season expires, and \$15 to insure, payable as soon as the mare is ascertained to be in foal, or the property changes owners, and fity cents to the group, CP Care will be taken to prevent accident, but, in no instance, will I be responsible for any that may occur. B. W. LONG. Mainsbury, N.C., March 18, 1942. Tr.

PEDIGREE:

PEDIGREE; I cortify that LATH was bred by me, and that he was foaled in the Spring of 1933. He was got by Go-dolphin, his dam Pocahontas, by Sir Archy; his g. dam Young Lottery, also by Sir Archy, out of Col. Single-ton's celebrated Lottery, by the imported Bedford out of the imported nure Anvillina; Godolphin was got by Eclipse; his dam Sylph, by Huphestion out of Lottery by imported Bedford, &c. Hephestion was got by the imported Buzzard out of the dam of Sir Archy.

#### DESCRIPTION, PERFORMANCE, &C.

DESCRIPTION, PERFORMANCE, &C. LATH is a fine bay, without white, 15 hands, 3 inches high, with good bone, and capital action. At 3 years old, he won the produce stake at Columbia, 2 mile heats, beating Mr. Taylor's Filly Daisy, and Capt Spana's Colt, Convention, nine others paying forteit.— Two weeks afterwards he won the Jockey Club Purce, 3 mile heats, at Augusta, beating Kite, and distancing Black Bird. At Charleston he was beaten by Clod-hopper for the Jockey Club Purse, 3 mile heats; being very much amiss he was withdrawn after the first heat At A very old. very much amiss he was withdrawn after the first heat At 4 years old, he won the Jockey Club Purse, 4 mile heats, at Camden, beating Sir Kenneth and Dorabella at 3 heats; locing the first in consequence of bolting when several lengths in advance of the field, just be-fore he reached the judges' stand; and getting entang-led amongst the carriages, he sustained an injury which occasioned his withdrawal from the Turf.

LATH was a race horse of the first class, which he evinced in his trials with Bay Maria, Charlotte Rasse, and Kitty Heth, and in point of blood he is Inferior to none, whether imported or nativo. His constitution is robust, having never been sick, and his temper good. His color, form, and action, speak for themselves. In a word, Lath unites in humself as many claims to public patronage, as any young Stallion that I know.

W. HAMPTON Willwood Jan. 22, 1839.

From the above Certificate of Col. Hampton, who bred and had LATH trained for the Turf, it will be seen that he considered him a Race horse of the first class, --not only from the races he has mentioned as having run publicly, but from private trials he has made with horses which are now on the Turf, and running with considerable success. It will also be observed by his certificate, that he considered Lath of the purest blood,—not to be surpassed by any horse, imported or native.

I consider it entirely unnecessary to astempt a culogise LATH, either for his performances on the Turf or as to his blood, since, in every respect, he is so well attested. But will remark that Lathhas not only descended from pure blood, but has come from stock both Sire, Grandsire, Dam, and Grand-dam, that are of the running blood. For Grand-dam, that are of the running blood. For instance, his sire Godolphin minds his four miles in 7 minutes and 50 seconds, his Grandsire, the American Eclipso, so well known at the North and South, made his time in the great match race, the North against the South, \$20,000 aside, in 7 min-utes and 37 seconds, which Eclipse won with considerable eclat. This race gained him the memorable name of the Champion of the North. His dam, sired by the renowned Sir Archy whose reputation as a racer, dec., stands unquestioned both in England and America. The grand-dam of LATH, Old Lottery, bred by the great Southern Amateur of horses, Col. R. Singleton, of South Carolina, which has produced more fine race horses than any other mare in the Union. Thus it will be seen that there is united in LATH two of the best stude of the South, Hampton's and Singleton's crossed with Gen. Coles of the North.

PROSPECTUS

### OF THE

### North Carolina Temperance Union.

THE State Temperance Society of N. C. at its annual meeting, directed its Executive Committee to take measures for the establishment, at this place, of a Journal, devoted to the cause of Temperance. in obedience to their wishes, and impressed with the

importance of such a publications the Committee have determined, if sufficient encouragement can be obtained, to issue the first number of such a publication, to be called the NORTH CAROLINA TEMPE-RANCE UNION, on the first of January next. The leading object of the Union will be, the disse-mination of Temperance principles. We shall ep-

deavor to present in its pages, a full record of the progress of the Temperance cause in our own and in foreign lands-of its effect upon individuals and communities-and original articles in defence of its principles, and in reply to the various objections urged against it.

While, however, the promotion of Temperance will be the first and leading object of our Journal, it is our intention, that its pages shall be enlivened by a general summary of the most important events of the day, and by particular attention to the interest of Agriculture. In carrying out this object, the Committee look with confidence to the friends of Temperance, particularly in North Carolina, for aid and support. A new impulse has been given to the cause in this State. Were this the proper occasion, we could tell a tale of what has been passing under our own eyes, which would send a thrill of joy through every benevolent heart. The reformation of the inebriate has commenced, and is still going on with a power and success, which the most sanguine never dared to anticipate. Give us but the means of communication, and we trust that an influence will go forth from the Capitol of the old North State, to its remotest boundary, that will tell upon its

happiness and prosperity through all future generations. Permit us, then, most carnestly to appeal to every friend of Temperance, Morality, and good order, to aid us promptly. As the object is to commence with the new year, delay on the part of its friends may be fatal. Let every individual then, who feels an interest in our success, and every Temperance Society, become rosponsible, at once for the number of copies, which they suppose can be circulated in their vicinity, and forward their names immediately, for 10, 20, or 50 copies, as they may think the demand of their neighborhood may In this way only, can we hope for success in justify. our effort.

At a meeting of the Executive Co-mittee of the N. . Temperance Society, the following resolution was adopted : Whereas, arrangements have been made to commence the publication of a Temperance Journal in the City of Raleigh, on the first week of January next, provided one THOUSAND Subscribers can be obtained.

Resolved, That it be most earnestly recommended to each of the Officers of the State Temperance Society, the receipt of this resolution, to become responsible for from 10 to 50 Subscribers, so that the publication may commence at the time contemplated.

By order of the Executive Committee of the North Carolina State Temperance Society.

#### TERMS:

The North Carolina Temperance Union will be published weekly on a medium sheet, (say 26 by 18 inches,) ADVANCE. Letters containing Subscribers names and remittances, must be directed, postpaid or free, to the Treasurer of the Society, JAMES BROWN, Raleigh, NorthCaolina.

All the newspapers in the State are respectfully reuested to give this Prospectus one or two insertions.

The public is now presented with such an opporunity of improving the blood of that noble and ustful animal, the horse, as rarely occurs in this section of country. R. W. L.

A TEMPERANCE CONVENTION that was held at this place early in September, resolved on publishing a pa-per of the above title and character, and appointed Dr. John Dickson and D. R. M'Anally to conduct it. From the many pressing engagements, Dr. Dickson already has, he doems it impracticable for him to be recognit as one of the editors, though he will obsertably use all his influence otherwise, to promote its inverest; the subscriber therefore, proceeds to issue this Prospectus in his own name, with a hope that he will be aided in the undertaking, by all the friends of the Temperance cause throughout the country, and that the paper may soon have an extensive circulation.

Friends of the Temperance Cause ! to you we make a most carnest appeal-while thousands upon the sanda of dollars are annually expended at theatres, at circuses, at the race track, at groceries, while no pains are spared, the luxury of retirement and ease foregone, and no labor deemed too severe to advance the interests of political aspirants, can you not do something in a cause that must be dear to every true patriot, philanthropist, and christian ! Recollect there are but few, few, such papers in all the Southern country.-OTY Western part of North Carolina, the Western part of Virginia, and the Eastern part of Tennessee particularly, need a periodical of this kind, and it is for you now to say whether they shall have it.

The very low price at which it was fixed by the onvention, will make it necessary, that a very large ubscription be had, before the publication of it can be untified.
