PEDIGREE : I certify that LATH was bred by me, and that he was fouled in the Spring of 1833. He was got by Godolphin, his dam Poenhentas, hy Sir Archy, his g, dam Young Lottery, also by Sir Archy, out of Col. Singleton's celebrated Lottery, by the imported Fedford out of the imported mare Anvillina; Godolphin was got by Eclipse; his dam Sylph, by Emphestion cut of Lotters by imported Bedford, &c. Haphestien was got by the i aported Buzzard cut of the dam of Sir Archy.

DESCRIPTION, PERFORMANCE, &C.

LATH is a fine bay, without white, 15 hands, 3 inches high, with good bone, and capital action. At 3 years old, he won the produce stake at Columbin, 2 mile cats, beating Mir. Taylor's Filly Baisy, and Capt. opper for the Jockey Ciub Purse, 3 mile heats; being at 3 heats; losing the first in consequence of bolting when several longths in advance of the field, just before he reached the judges' stand ; and getting entangled amongst the carriages, he sustained an injury which occasioned his withdra wal from the Turf.

LATH was a race horse of the first class, which he evinced in his trials with Bay Maria, Charlotte Russe, and Kitty Heth, and in point of blood he is inferior to none, whether imported or native. His constitution is robust, having never been sick, and his temper good. than double the number of sconstant readers, to that of this color, form, and action, speak for themselves. LLUSTRATED WITH ONE THOUSAND TWO HUNDRED AND FORTY-ONE ENGRAVINGS.

THIS is unquestionably the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which the carned author endeavors to accomplish :

1st. To instruct the Manufacturer, Metallurgist and Tradesman in the principle of their respective pro-cesses, so as to render them, in reality, the masters of their business; and, to emancipate them from a state of bondage to such as are too commonly governed by blind prejudice and a vicious routine, 2ndly. To afford Merchants, Brokers, Drysalter,

Drugigsts, and officers of the Revenue, characteristic descriptions of the commodities which pass through beir hands.

Brdly. By exhibiting some of the finest developments of Chemistry and Physics, to by open an excellent practical school to Students of these kindred sciences. 4thly. To teach Capitalists, who may be desirous of placing their funds in some productive branch of indutry, to select, judiciously, among plausible claimants. Bibly. To enable gentlemen of the Law to become well sequainted with the nature of those patent schemer.

which are so apt to give rise to litigation. 6thly: To present to legislators such a clear exper-tion of the staple manufactures, as may dissuade them from enacting laws which obstruct industry, or cherich one branch of it to the injury of many others.

And lastly, to give the general reader, intent chief, n Intellectual Cultivation, views of many of the ta-lest achievments of Science, in effecting those grant
