PROSPECTUS OF THE CONGRESSIONAL GLOBE AND APPENDIX.

These works have now been published by us for ten consecutive sessions of Congress. Consisting with the session of 1839-40. They have had great circulation, and have been generally approved and sought after by the public, that we deem it necessary only in this prospectus to say that they will be continued at the next session of Congress, and to state, succinctly, their contents, the form in which they will be printed, and the prices for them.

The Congressional Globe is made up of the daily proceedings of the two Houses of Congress. The speeches of the members are abridged, or condensed, to bring them into a reasonable, or suitable length. All the resolutions offered, or motions made, are given at length, in the mover's own words, and the yeas and nays on all the important questions. It is printed with small type—broad and compact—on a double royal sheet, in quarto form, each number containing 16 royal quarto pages. It is printed as fast as the business done in Congress furnishes matter enough for a number—usually one number, but sometimes two numbers, a week. We have invariably printed more numbers than were wanted in a session. The approaching session of Congress, it is expected, will continue 7 months, if no subscribers may expect between 30 and 40 numbers, which, together, will make between 500 and 600 royal quarto pages.

The Appendix is made up of the President's annual message, the reports of the principal officers of the Government that accompany it, and all the long speeches of members of Congress, written out or revised by themselves. It is printed in the same form as the Congressional Globe, and usually makes about the same number of pages. Hereafter, on account of the great length of the speeches, and so long, we have not completed the Appendix until one or two months after the close of the session; but, in future, we intend to print the Appendix as fast as they shall be prepared, and of course shall complete the work within a full day after the adjournment.

Each of these works is complete in itself; but it is necessary for every subscriber to possess a full knowledge of the proceedings of Congress, to have both; because, there is first, as they shall be prepared, and of course shall complete the work within a full day after the adjournment.

Now, there is no source but the Congressional Globe and Appendix, from which a person can obtain a full history of the proceedings of Congress. Gates and Seward's Register of Debates, which contains a history, has been suspended for three or four years. It cost about five times as much for a session as the Congressional Globe and Appendix, and did not contain an equal amount of matter, a great portion of the current proceedings being omitted. We are enabled to print the Congressional Globe and Appendix at the low rate now proposed, by having a large quantity of type, and keeping the Congressional matter that we set up for the daily and semi-weekly Globes, standing for the Congressional Globe and Appendix. If we had to set up the matter afresh for these works, we could not afford to print them for double the price now charged.

Complete indexes to both the Congressional Globe and the Appendix are printed at the close of each session, and sent to all subscribers for free.

We have on hand 3,000 or 4,000 surplus copies of the Congressional Globe and Appendix for the latter session, which make together near one thousand royal quarto pages. They give the fullest history of Congress that has ever been published. We now sell them for \$1 each, that is, \$1 for the Congressional Globe, and \$1 for the Appendix. We propose to let subscribers for the Congressional Globe and Appendix for the next session, have them for 50 cents each. They will be necessary to understand fully the proceedings of the next session. The important matters discussed at the last, will be brought up at the next session, in consequence of the universal dissatisfaction caused in the late elections with the way and mode of conducting policy which the powers have introduced, and which was forced through Congress without making public opinion, or even allowing the full discussion usual in regard to subjects of ordinary interest. The reports of the Congressional Globe and Appendix are not in the least degree affected by the party spirit of the Editor. They are given precisely as written out by the Reporters and the members themselves. And the whole is subject to the revision and correction of the Reporters. They give in review in our daily sheet, in concise yet manufacturing or representative of their remarks throughout.

We make a full analysis of the business of Congress, and give our opinions in it freely, and this is published in the Daily Semi-weekly and Weekly Globes. The Daily Globe is \$10, the Semi-weekly Globe \$2 per annum, in advance.

In the second part of the Congressional Globe and Appendix, and complete index to both of the works.

TERMS: For the Congressional Globe and Appendix for the next session, \$1 per copy.

For the Congressional Globe for the next session, \$1 per copy.

For the Appendix for the next session, \$1 per copy.

For the Daily Globe for the next session, \$10 per annum, in advance.

For the Semi-weekly Globe for the next session, \$2 per annum, in advance.

No attention will be paid to any order unless the money accompanies it. BLAIR & RIVLES, Washington City, October 25, 1841.

GARDEN SEEDS.

A large variety of Garden Seeds for sale at the Salisbury Drug-Store, by C. B. WHEELER. February 18, 1842.

TO THE TANNERS OF THE UNITED STATES.

THE Undersigned have taken out a PATENT for an improvement made by themselves in the important art of Finishing Leather.

This improvement consists in a new mixture of their invention, which is applied to the leather, and which saves the expense of tallow and the labor of whitening. They do not offer it to the public without having themselves effectually tested it, nor on their own recommendation alone, but ask attention to the certificates given below by highly respectable and experienced Tanners who have examined the invention, and being satisfied of its usefulness, have purchased rights—and also to the certificates of the Boot and Shoe-makers who bear testimony to the quality and finish of the leather.

WM. A. RONALD, HENRY C. MILLER, China Grove, Rowan County, N. C.

Letters to the subscribers should be addressed, China Grove, Rowan County, N. C. March 4, 1842.

CERTIFICATES:

At the request of Messrs. Ronald & Miller, and for our own satisfaction, we have particularly examined their improved plan of finishing leather, and pronounce it altogether beyond our expectation for value; and we cheerfully recommend it to the Tanners of the Country as a great saving of labor and expense, and as giving a fine gloss and high finish to the leather. Being satisfied of this, we have purchased for ourselves the right to use their patent.

JOHN CLARK, Tanner, Salisbury.

JOHN SLOOP, JR., LEVI COWAN, WM. S. COWAN, Tanners, Rowan County.

We have manufactured a considerable quantity of leather finished on the improved plan, lately invented by Messrs. Ronald & Miller, and we consider it of the best quality, both for beauty of finish, and lasting property.

JAS. D. GLOVER, WM. LAMBERT, JOHN THOMPSON, Boot and Shoe makers, Salisbury.

PROSPECTUS OF THE NORTH CAROLINA TEMPERANCE UNION.

The North Carolina Temperance Society of N. C. at its annual meeting, directed its Executive Committee to take measures for the establishment of a paper, of a Journal, devoted to the cause of Temperance.

In obedience to their wishes, and impressed with the importance of such a publication, the Committee have determined, if sufficient encouragement can be obtained, to issue the first number of such a paper, to be called the NORTH CAROLINA TEMPERANCE REGISTER, on the first of January next.

The avowed object of the Union will be, the dissemination of Temperance principles. We shall endeavor to present in its pages, a full record of the progress of the Temperance cause in our own and in foreign lands—and original articles in defence of its principles, and in reply to the various objections urged against it.

While, however, the promotion of Temperance will be the first and leading object of our Journal, it is our intention, that its pages shall be enlivened by a general summary of the most important events of the day, and by particular attention to the interests of Agriculture.

In carrying out this object, the Committee have with confidence to the friends of Temperance, particularly in North Carolina, for aid and support. A new impulse has been given to the cause in this State. We have this proper occasion, we could tell a tale of what has been passing under our own eyes, which would send a thrill of joy through every benevolent heart. The reformation of the moderate has commenced, and is still going on with a power and success, which the most sanguine never dared to anticipate. Give us but the means of an announcement, and we trust that our influence will go forth from the Capitol of the old North State, in its remotest boundary, that will fill upon its happiness and prosperity through future generations.

For our friends, then, most especially to appear in every friend of Temperance, monthly, and good order, to aid us in our efforts. As the object is to commence with the new year, relying on the part of its friends may be fatal. Let every individual then, who loves an interest in our success, and every Temperance Society, become responsible, at once, for the number of copies, which they desire to be circulated in their vicinity, and forward that number, immediately, to the Editors, on or before the 10th of December next, at 10, 20, or 30 copies, as they may desire.

By this way only, can we hope for success in our effort.

At a meeting of the Executive Committee of the N. C. Temperance Society, the following resolution was adopted: "That, as soon as opportunity shall be made to commence the publication of a Temperance Journal in the City of Raleigh, the first issue of January next, postage one cent, shall be sent to all subscribers, and that it be most earnestly recommended to every friend of the State Temperance Society, to send to the Editor of the Journal, on or before the 10th of December next, the number of copies, which they desire to be circulated in their vicinity, and forward that number, immediately, to the Editors, on or before the 10th of December next, at 10, 20, or 30 copies, as they may desire."

By order of the Executive Committee of the North Carolina Temperance Society.

THE FAMILY NEWSPAPER. THE PHILADELPHIA SATURDAY COURIER. WITH THE LARGEST CIRCULATION IN THE WORLD!!

The publishers of this old established and universally popular Family Journal, would deem it supererogatory to say a word in commendation of its past or present excellence and usefulness. Its unrivalled and increasing circulation, (over 30,000) is its best recommendation. For the future, however, a determination to be made in the view of the American Newspaper Weekly Press, will call for increased expenditures and renewed attractions for the coming year, 1842, not the least of which will be an improvement in the quality of the paper, and addition of popular contributions, embracing, we fully believe, the best list to any similar Journal in the world.

The Courier is independent in its character, forswearing a straight forward course, and supporting the best interests of the public. It is strictly neutral in politics and religion. It will maintain a high tone of morals, and not an article will appear in its pages which should not find a place at every fireside. It has more than double the number of constant readers, to that of any other paper published in the country, embracing the best families of our Republic.

Every one should be proud to patronize the Philadelphia Saturday Courier, as by its unbroken series of original American Tales, by such native writers as Mrs. Caroline Lee Hentz, Mrs. St. Leon Leud, "The Lady of Maryland," Professor Ingraham, T. S. Arthur, Equi-Miss Schuyler, Miss Leslie, and many others, it has justly earned the title of the American Family Newspaper.

Foreign Literature and News. Determined to spare no expense in making the Saturday Courier a perfect model of a Universal Family Newspaper, of equal interest to all classes and persons of every age, we have made arrangements to receive all the Magazines and papers of interest, published in England and on the Continent, the news and news of which are immediately transferred to its columns, thus giving to emigrants, as well as others, a correct and complete account of whatever occurs of interest, either at home or abroad.

THE MARKETS. Particular care is taken to procure the earliest advices in reference to the prices of all kinds of Grain, Provisions, Produce, &c., the state of Stocks, Banks, Money and Loans, and our extensive arrangements will hereafter render our Prices Current of inestimable interest to the traveller, the farmer, and all business classes whatsoever.

The general character of the Courier is well known, for its contents contain a great variety of TALES, NARRATIVES, ESSAYS, AND BIOGRAPHIES, and articles in Literature, Science, the Arts, Mechanics, Agriculture, Education, Music, News, Health, Amusement, and in fact, in every department usually discussed in a Universal Family Newspaper, from such writers as Mrs. C. Lee Hentz, Mrs. St. Leon Leud, Professor Ingraham, T. S. Arthur, Equi-Miss Schuyler, Miss Leslie, and many others, it has justly earned the title of the American Family Newspaper.

TO AGENTS—TERMS. The terms of the Courier are \$2 per annum, payable in advance, but when any one will officiate to procure new subscribers, and send us \$15, per money and postage free, we will accept for one for each Seven copies for \$10, three copies for \$5, or one copy three years for \$15.

CLUBBING. Two copies of the Saturday Courier, and Godey's Lady's Book, one year, will be sent for \$5. Free copies of the Saturday Courier, and Godey's Lady's Book, one year, will be sent for \$10. Address: MUMFORD & HOLDEN, Philadelphia.

There will, when we exchange, will add to their own advantages by copying the above, or referring to our office.

Wanted.

THREE or four families to work at the Salisbury Factory—none but those who can come well recommended for industry, and sobriety, need apply. J. RHODES BROWNE, Agt. Salisbury, June 3, 1842.

IMPORTANT WORK! NOW IN THE COURSE OF PUBLICATION.

A DICTIONARY OF Arts, Manufactures and Mines, CONTAINING A CLEAR EXPOSITION OF THEIR PRINCIPLES AND PRACTICES.

By ANDREW URR, M. D., F. R. S. M. G. S. M. A. S. Lond., Mem. Acad. N. S. Philad., S. Ph. Soc. N. Germ. Hanov., Multi, &c. &c. &c.

ILLUSTRATED WITH ONE THOUSAND TWO HUNDRED AND FORTY-ONE ENGRAVINGS.

THIS is unquestionably the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which the learned author endeavors to accomplish:

1st. To instruct the Manufacturer, Metallurgist and Tradesman in the principle of their respective processes, so as to render them, in reality, the masters of their business; and, to emancipate them from a state of bondage to such as are too commonly governed by blind prejudice and a vicious routine.

2ndly. To afford Merchants, Brokers, Drysalers, Druggists, and officers of the Revenue, characteristic descriptions of the commodities which pass through their hands.

3rdly. By exhibiting some of the finest developments of Chemistry and Physics, to lay open an excellent practical school to Students of these kindred sciences.

4thly. To teach Capitalists, who may be desirous of placing their funds in some productive branch of industry, to select, judiciously, among plausible claimants.

5thly. To enable gentlemen of the Law to become well acquainted with the nature of those patent schemes, which are so apt to give rise to litigation.

6thly. To present to legislators such a clear exposition of the staple manufactures, as may dissuade them from enacting laws which obstruct industry, or cherish one branch of it to the injury of many others.

7thly. To give the general reader, intent chiefly on Intellectual Cultivation, views of many of the noblest achievements of Science, in effecting those grand transformations of matter to which Great Britain and the United States owe their permanent wealth, rank and power among the nations of the earth.

The latest statistics of every important object of Manufacture are given from the best, and usually from official authority at the end of each article.

The work will be printed from the 21 London Edition, which sells for \$12 a copy. It will be put on good paper, in new brevier type, and will make about 1400 two pages. It will be issued in twenty-one semi-monthly numbers, in covers, at 25 cents each, payable on delivery.

To any person sending us five dollars at one time in advance, we will forward the numbers by mail, post paid, as soon as they come from the press.

To suitable agents this affords a rare opportunity, as we can put the work to them on terms extremely favorable. In every manufacturing town, and every village throughout the United States and Canada subscribers may be obtained with the greatest facility. Address, post paid, D. Appleton & Co., 200 Broadway, New York.

To every editor who gives this advertisement entire 12 insertions, we will forward, to order, one copy of the whole work, provided the paper containing this notice be sent to the New York Watchman, N. York. March 11, 1842.

D. APPLETON & CO., 200, Broadway, N. Y.

PROSPECTUS OF THE SPECTATOR.

THE Subscriber proposes to publish, at the seat of Government, a Weekly Newspaper, to be called "THE SPECTATOR." They believe that such a publication will not be superfluous. Its plan will be different from that of the papers already established in Washington. It will not give the debates at length, but present a comprehensive and satisfactory summary of the proceedings of both Houses of Congress, with such comment or remarks as will contribute to their elucidation. Striking or interesting speeches will also be inserted, from time to time, or such extracts therefrom as may be most worthy of attention.

The editorial department will discuss the questions of the day with spirit and with fairness, and in a manner which, it is hoped, will prove acceptable to the popular taste. A familiarity with domestic politics, acquired by a residence at the capital, and the acquirement of one of them abroad, of singular duration, at an interesting period of European history, have given them some slight advantages for the task proposed. Communications from intelligent sources will also be furnished, and it shall be their effort to present to their readers that attractive variety, without which the most important topics are apt to fall upon the public mind. Events are constantly occurring at home & abroad, beyond the sphere of mere personal and party politics, attention to which cannot fail to elucidate political questions, and promote national interests. Judicious selections from foreign journals, which are so accessible in Washington, continental as well as English, (popular attention in this country being directed too exclusively to the latter,) cannot but interest the enquiring reader, whose liberal curiosity and expansive sympathies extend beyond the confines, however ample, of his own country. Nor would literature and general information be neglected, though kept subordinate to the paramount ends of a political journal. In a word, it is the design of the subscribers to furnish a journal, for which, they are persuaded, peculiar facilities are found at the seat of Government.

Without appealing to their past position and exertions, they will content themselves here with declaring that their opinions are thoroughly and unbiassedly Democratic; yet, they would first hope, not offend or unduly irritate. They will discuss questions and judge upon what freedom, yet with that moderation which gives additional strength to firmness, and that candor which is the best proof and pledge of sincerity.

They are fully sensible of the doubts and difficulties which must ever attend a novel undertaking of this nature. But one man may succeed, where another has failed; and when one effort has proved abortive, a second may triumph over every obstacle. It has been said, by a wise and a great man, that no human enterprise would be attempted if every objection must first be removed. The subscribers have resolved to try, at least, and all they ask of their friends is a kind support of their first and feeble steps. They venture, also, to express a hope that Editors, personally or politically friendly, will give this brief prospectus an interesting favor which they will be happy to acknowledge in a suitable manner. J. L. MARTIN, J. HEART.

FOR SALE.

THE Subscriber having determined on removing to the South, wishes to dispose of his valuable Plantation, lying within three miles of Salisbury, on the Stage road leading to Mr. Locke's bridge and to Lexington, Salem and Raleigh, &c.; it is the same formerly owned by William H. Slaughter, Esq., and it is presumed generally well known. The tract contains 260 ACRES.

some of which is cleared and under cultivation, and about ten of it first rate meadow land, it is watered by Crane Creek and two branches which run through the land, an excellent orchard, consisting of a great variety of very choice

Apple, Peach and Cherry Trees, There are two dwelling Houses on the tract, the one on the road is well calculated for a house of entertainment, it being a large two story building, very convenient, having all necessary out houses conveniently arranged, and supplied with an excellent spring of water. The other dwelling house is near the meadow ground and a first rate spring, from which it is supplied with water, and a large barn which makes it convenient for packing away hay. The above property is pleasantly situated, and remarkably health.

The subscriber being anxious to sell will give a bargain, those wishing for further information can be gratified by calling on the premises, on the subscriber.
