From the Charleston Mercury. THE ASHBURTON DINNER. The pitiful insult offered to the President of the United States, and through him to the whole country, by the Whig leaders at the Dinner given to Lord Ashburton, is justly and strongly reprobated.

From the New York Journal of Commerce. FOURTEEN DAYS LATER FROM EUROPE. By the steamer Calcutta at Boston, we have English papers to August 19th, inclusive. The C. reached Boston at 6 o'clock, A. M., yesterday morning.

The cotton market, it will be seen had been animated, and the sales large. For a few days previous to the departure of the steamer, the prevalence of turn out and riots among the manufacturers, had checked operations to some extent, though the sales continued larger than an average.

In other articles at London and Liverpool we notice nothing remarkable. No time for details. At Liverpool American ports had declined to 45l. 33c. a 45. 52c.

A 50 American beef brought in the Barnsey market 4l. per lb.; Am. pork 3l. The riots had occasioned some depression in the funds. On Thursday 18th, Consols stood at 91 1/2 for money, and 91 1/4 for the account.

Parliament was prorogued on the 12th by the Queen in person. The weather had continued fine, and the harvest was rapidly progressing. Of flour from the U. States 2323 barrels had arrived.

A dreadful earthquake had taken place at Messina. At Caledonia 30 houses and a covenant were destroyed. Washington Irving had arrived at Madrid, and been received in the most cordial manner.

A Liverpool paper announces the failure of Mr. Baker, an extensive Corn merchant, whose liabilities were £200,000.

SERIOUS OUTBREAKS IN ENGLAND AND SCOTLAND. Liverpool, Aug. 10.—A series of alarming riots have broken out in the manufacturing and mining districts of England and Scotland.

Liverpool, Aug. 10.—A series of alarming riots have broken out in the manufacturing and mining districts of England and Scotland. The people during the past two years have borne the most pressing privations with exemplary fortitude, and have submitted to repeated reductions of wages, on account of the bad state of trade, under the promise that whenever there should be a revival, better remuneration should be given to them.

The turn out weavers and spinners appear to have adopted a similar course, and in consequence of the crowded state of the population in the manufacturing district, they were the more formidable in their irruptions. After numerous meetings at Salford, Ashton, and Mottram, there was a general turn out of the spinners and weavers at the former place, in compliance with the demands of an immense mob.

A procession was then formed with banners, on which were inscribed their determination not to resume labor until their wages were raised to the same rate as in 1839 and 1840. They compelled colliers, calico printers, and other trades to join them, and went to Dackfield, Ashton, Oldham, Hyde, Fairfield, Droylsden, Demson, and other surrounding towns, stopping the mills in all these places.

At Maughester they were frequently dispersed by the military, but re-assembled and succeeded in stopping all the works of Manchester and Salford. Thence they extended their incursions to Stockport, Macclesfield, Glossop, Tintal, Heywood, Middleton, Oldham, Rochdale, Bury, Bolton, Chorley, Blackburn, Chatterton, Preston, Wigan and all the surrounding towns where the population was great or manufactures existed, causing one universal and wide-spread insurrection, whilst a similar course was pursued by the colliers in the Staffordshire Potteries and at Glasgow.

Since Tuesday, the 9th inst., Manchester has been in a complete state of organization, all business being at a stand still, and the military being constantly engaged in dispersing riotous assemblages. There has, however, been comparatively speaking very little destruction of property, and not much plunder, though many of the mills have been attacked and the sleepers have been compelled to give up their stocks of provisions. At Halifax, Blackburn, and Preston, the military have fired upon the mobs, and several lives have been lost.

The mill-owners having been compelled to close their establishments, have determined not to reopen them until quiet shall have been perfectly restored. Hundreds of thousands of people are therefore without bread, suffering from their folly.

The charters have endeavored to take advantage of the disturbances to extend their views, and the people are divided—one section declaring for higher wages and the other for the charter. In Staffordshire the houses of several gentlemen of property have been fired, and the mob have been otherwise excessively violent.

In this Town, on the 13th inst., Eliza, infant daughter of Maj. John B. and Ann N. S. Lord, aged 10 months and 15 days. In this Town, on the 9th inst., in a very young infant, to feel the want of those tender cares which nature but a wife and a mother can bestow.

The deceased was a member of the Presbyterian Church of Franklin, and her conversation on her sick bed evinced that her hope was scriptural and steadfast. Her prolonged and various afflictions, which doubtless appear to her now to have been but for a moment, have worked out for her a far more exceeding weight of glory.

In this County, on the 9th inst., Mrs. Katharine Ketchy, wife of the late John Ketchy, aged 59 years, 10 months and 26 days.—Comm. JOHN W. ELLIS, Attorney at Law, SALISBURY, N. C., Office 2nd door of Mr. Cowan's Brick Row.

Moffat's Vegetable Life Pills and Purgative. These superlative family medicines have long since acquired an established reputation for direct and invariable efficacy in all the prevalent and ordinary diseases, as well as in many others of a peculiar and aggravated character. Their virtues are proved by the voluntary testimonials of the persons they have cured, and who accompany their certificates with their names and places of residence. These certificates now amount to thousands, being hundreds to each particular kind of disease. They embrace the most frightful and inveterate cases of Scrophulous, Piles, Dyspepsia, Jaundice, Bilious and Liver Affections, acute and chronic Rheumatism, Asthma, Bronchitis, Scrophulous, as well as Anxious Consumption, habitual costiveness, Worms, Stomach and Bowel complaints of all kinds, head ache, giddiness, and nervous debility, eruptive diseases, and the clouded, sallow, unhealthy appearance of the skin, arising from various causes of ill health, Fever and Ague of every variety, settled pains in the side, back, neck and limbs, humors, ulcers, foul breath and inward liver, night sweats and general weakness and loss of appetite, the mumps, swollen face and gums, affections of the Throat, indigestion, spleen and piles, and the sickness incidental to females, together with very many other maladies which cannot be here enumerated. The certificates of cure in all these diseases are numerous in number, and clearly, direct, and explicit in description, and coming either to us in every case from the persons cured, they are undeniably and conclusive in authority. These medicines should therefore be kept by every family and grown person in the Union, as they will be found to be not only the best remedies for disease, but also its most certain preventative, and the surest renovators of mental, cerebral and elastic health. They are singularly mild and agreeable in their operation, and though perfectly efficient, never occasion even the temporary prostration and nausea, which always follow the use of coarse, drastic purges and the use of calomel. Prepared wholesale and retail by Dr. Wm. B. Moffat, 375 Broadway, New York. For sale by the Agents.

The American Family Medicine. It is believed, that for some years past no medicine has been so extensively adapted in the intelligent and respectable families of the United States, as Dr. Moffat's Life Pills and Purgative. These medicines have achieved the general good opinion by their intrinsic virtues alone, without the artifice of quackery or extravagant pretensions. It is found by the unnumbered argument of practical experience, that they really do all that they profess to do, and a great deal more than the proprietor has ventured to claim for them. He has received testimonials in immense numbers from every section and almost every city and town of this widely extended country, including thousands from the city of New York and the neighborhood, that they are speedily and powerfully efficacious in all bilious and liver complaints, dyspepsia, costiveness, piles, asthma, bronchitis, consumption, diarrhoea, jaundice, fever and ague, worms, nervous debility, loss of appetite, eruptions of the skin, scrophulous, salt rheum, leprosy, erysipelas, rashes of blood to the head, palpitation of the heart, chronic headache, inward liver, affections of the bladder and kidneys, unobscured aspect of the skin, the sickness incident to females, general debility and waste of flesh, and all the ordinary symptoms of a derangement of the stomach and bowels, and impurity of the blood, from whatever cause arising. Although so mild and agreeable in their mode of operation, as never to prostrate even the weakest patients, and as to render them perfectly safe even for young children; they never fail to cleanse the bowels, liver, bladder and kidneys of all obstructions and impurities, and to give a most clear and healthful hue to the countenance. They should be kept in all families, and by every adult individual as renovators of health and preventives of disease. They are so kept by thousands with acknowledged advantage, and now proofs of their usefulness and astonishing effects even in apparently hopeless cases, are arriving every day from far and near. Prepared and sold by Dr. Wm. B. Moffat, 375 Broadway, N. Y., and also by the Agents. The above Medicine is for sale at the Salisbury Drug-Store, by C. B. WHEELER. September 2, 1842.
