SALISBURY, FRIDAY NOV. 3.

It was once the prevailing conviction among all classes of citizens that the tiller of the soil, from the nature of his livelihood. must be uncducated, rude in speech, and uncultivated in manders-a mere "hewer of wood, and a drawer of water." In that twilight of the "Dark Ages," the universal conviction was also that if a boy or a young man happened to be slow to learn, and not so brilliant and ambitious as is desirable, it would be the height of folly to attempt to educate him for any of the stations occupied by lawyers, physicians & clergymen; yet, he would make a good farmer. But with the wrought by revolving years, and above referred to. with the developments of science boys of energy and talent. The great increase in the sale of our instru has ments, enabled us to reduce our prices for First Class Pianos, from ten to twenty-five pe cent. less than any other house (offering the same class of instruments) in the United States.

While we act upon the maxim of "quick sales and small profits," we make it, at the same time, a special object to furnish our customers with instruments in no way inferior to the best in the market.

Many families have had a desire to obtain a Piano, but could not afford to pay the dealer a profit of from \$100 to \$300, neither do they wish to purchase a cheap made instrument, that would cost more to keep in repair than it is worth, hence a large class of our music loving people have been obliged to do without.

We can furnish New Seven-Octave Piane Fortes from 275 to 950 dollars. Second hand Pianos from 40 to 250 dollars.
