They combine Immense Power, Equality, Sweetness and Brilliancy of Tone, Elasticity of Touch, and Great Durability.

Dealers, Teachers and others desiring to purchase a first-class instrumentare invited to examine these Pianos before making he ir selections elsewhere.

PATENT AGRAFFE TREBLE, Together with all modern improvements. The most thoroughly seasoned timber the market affords is selected, regardless of cost, as we feel assured it will be the cheapest in the end

The great increase in the sale of our instru ments, has enabled us to reduce our prices for First Class Pianos, from ten to twenty-five per cent. less than any other house (offering the same class of instruments) in the United States

While we act upon the maxim of "quick sales and small profits," we make it, at the same time, a special object to furnish our customers with instruments in no way inferior to the best in the market.

Many families have had a desire to obtain a profit of from \$100 to \$300, neither do they wish to purchase a cheap made instrument, that would cost more to keep in repair than it i worth, hence a large class of our music loving people have been obliged to do without.

We can furnish New Seven-Octave Piano Fortes from 278 to 950 dollars. Second hand Pianos from 40 to 250 dollars. Parties ordering by mail may rely upon

Our Pianes are fully warranted for six years Descriptive Circulars sent to all parts of the country upon application.

The Burdett Combination Organ

As its name indicates, is an ingenius union of all our standard improvements, con bines with many new features never before introduced or attempted in Reed Organs, together making this trgsn the NE PLUS ULTRA of instruments, and one that has already created a revolution in the public mind in the decided favor of the general adoption of Reed Organs, both for secular and sacred music, where an instrument is required either to accompany the voice or to produce orchestral efects.

With the multitudinous and surprising combina tions that are contained in this instrument, the most intricate music of the "great masters," can be ren Factory in the land, besides affording a Conic for the melodeon can be played by a child.

All the various improvements on the Burdett Organ are protected by patent, belong exclusively to the Company, and can be used on no other organ.

The present Burdett Organ has received the most ed with the choicest information cordial and highest enconiums from those ranking among the first of musicians and organists.

The New York Independent says of the Burdett Organ : "It is by far the most perfect reed instrument we have ever seen."

The Christian Leader says : "We had no ides that a reed instrument could be brought to such

Persons with digoston talls it parred having the slightest pre-disposition to palmonary disease or if they take cold will be very in bie to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption with out that restoring a good digestion and healthy assimilation. The very first thing to be done is to cleause the stomach and bowers from all diseased muces and stime, which is clogging these organs so that they cannot perform their functions, and thea rouse up and restore the liver to a healthy action. For this purpose the swest and best remedy ville, the following valuable tracts and interests is Schenck's Mandrake Rills. These Pills clean the in Lands belonging to the estate of James F. stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. After this preparatory treatment, what remains to cure most cases of Consumption is the free and persevering use of Schenck's Patmonic Syrup. The Pulmonic Syrup nourishes the system, printies the blood and is readily absorbed into the circulation, and thence distributed to the diseased langs. There it ripensull more id matters, whether in the form of absesses or tubercies, and then assists Nature to expel all the diseased matter, in the form of free expectoration, when once it ripens.
