Moore's Rural New Yorker .- This excellent paper has taken another step forward in improvement, relating more especially to enlargement of size and the beauty of the publication. until now it may be said to stand at the head of illustrated Farm and Garden journals. We really cannot see how it could be much more improved in appearance. If it were possible to increase the value of the matter making up its pages in the same ratio, it would be faultless.

The Manufacturers of the RELIANCE WRINGER,

Have had unusual opportunities of ascertaining precisely what is wanted, and of producing a perfect machine. They have brought

out an entirely New Wringer, which they call the

"PROVIDENCE." PERFECT.

It Wrings Faster Than by Hand. We consider the Providence superior to all others, for the following reasons 1st. The Rollers, of large size and best qualiy of White Rubber, are all secured to their Shafts in the most permanent manner, by the MOULTON PROCESS, making the best Roller in the World

2d The PATENT METAL JOURNAL CASINGS prevent any wear upon the journals. The wooden journals in which the iron shafts of other machines run, soon wear, and the efficiency of Wringer is thereby greatly reduced.]
3d. The DOUBLE SPIRAL COGS used on this Wringer give the utmost case and steadiness in working, while the double step prevents them from bottoming or being thrown out of year. We furnish either single or double gear Providence, as desired. 4th. The ADJUSTABLE CURVED CLAMP readily adjusts this Machine to tube of any size

or thickness, making a perfect fastering. No

wooden pega or rubber straps on the Clamp. 15 h. SIMPLICITY, STRENGTH and BEAU-

ry, are combined in this Machine, with all the Providence Tool Co. PROVIDENCE, R. I.
