A large lot of Crockery and Glass Ware will be sold at Burk & Coffin's auction room on Friday and Saturday of this week.

Robt. and Andrew Murphy are now opening a new stock of goods in the room on the left of G. A. Bingham's family grocery. They are experienced business men, and their old customers will doubtless be glad to hear of their return to the mercantile business.

The Boynton Saw.—This new invention, advertised in another place, will arrest the attention of all who are any ways concerned in mechanical pursuits. We have seen no new thing whose excellencies have been so confidently asserted. Indeed some of the statements made concerning this saw are really marvelous. But of one thing we think there can be no doubt, and that is, that the Boynton saw is a most decided improvement on the old V toothed saw; and that, we believe, is the height of the claim set up by the manufacturer.

A six foot cross cut saw of Boynton's make is now on exhibition at Crawford & Hellig's Hardware Store. These gentlemen will supply orders for any size or kind with which they may be favored.

CONGRESSIONAL NEWS.
 WASHINGTON, March 11th—House.—The Speaker announced as the select committee on the charges against the Secretary of the Navy, Messrs. Blair, of Michigan, Sargent, Peters, Voorhees and Warren.

Getz offered a resolution instructing the Committee on Ways and Means to report on the propriety of abolishing all internal revenue laws and imposing taxes on the States in proportion to population. Agreed to.

A number of amnesty bills were presented and passed by unanimous consent and without being read.

POISONED TO DEATH.
 A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore remains in the blood and is conveyed to every part of the system.

WHAT DYSPEPSIA MAY END IN.
 Indigestion is not dangerous, say the faculty. Perhaps not in itself, while it remains mere indigestion; but look at the consequences to which it may lead, and often does lead when it becomes a chronic disease. A spark of fire in a small thing, a pressure of the foot will put it out; a breath will extinguish it. Yet it may fire a powder mill, or kindle a flame that will consume a city. In like manner indigestion may produce gastritis, cancer of the stomach, congestion of the bowels, apoplexy, liver disease, and many other dangerous maladies. Is it wise, then, to check it in the germ? Nothing is more clear and indisputably established than that Hostetter's Stomach Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to extinguish it in the first stages with this wholesome, powerful, and infallible tonic and alterative. It is easier to quench a spark than a flame, and it is easier to cure dyspepsia when it is first developed, than when it has made headway by neglect, and become complicated with other ailments. These are not the shadow of a doubt that the bitters are so directly antagonistic to dyspepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants leave a sting behind. But the sting is taken out of the aperient basis of this great remedy by vegetable medication, and, moreover, the stimulant thus medicated is of exceptional purity. Of all tonics taken as safeguards or remedies for fever and ague, bilious remittents, and other epidemics, it is the only one that can uniformly be depended on.

EVERY QUARTER OF THE GLOBE where it is known, and there are few indeed where it is not, the **MEXICAN MUSTARD LINIMENT** takes precedence of all similar preparations. Its medicinal merits have obtained for it a popular and almost universal reputation. Its medicinal merits are attested by the most eminent physicians, and its efficacy is attested by the most eminent practitioners. It is a most valuable remedy for all the ailments of the head, neck, and throat, and for all the ailments of the chest, lungs, and stomach. It is a most valuable remedy for all the ailments of the skin, and for all the ailments of the eyes, ears, nose, and throat. It is a most valuable remedy for all the ailments of the feet, and for all the ailments of the hands. It is a most valuable remedy for all the ailments of the body, and for all the ailments of the mind.

SPECIAL NOTICES.
Premature Loss of the Hair, may be entirely prevented by the use of Burnett's Cocoa. It has never failed to arrest decay, and to promote a healthy and vigorous growth. It is at the same time unrivaled as a dressing for the hair.

Cast Them Out.—If there any disease which does not the name demoniac, Dyspepsia is one of them. It racks and tears the system like a veritable fiend, and renders life a burden. The medicines of dispensary will not expel it. Cast it out with Dr. Williams' Pink Pills. Bitters. There is no form of indigestion, liver complaint that can withstand this potent tonic and alterative.

PATENT LIGHTNING SAW.

Super Extra Spring Steel, Warranted Refined.

EBEN MOODY BOYNTON,
 80 BEEKMAN STREET, New York.

Nov. 27, 1866; July 23, 1867; Jan. 14, 14, 1868; July 27, 1869.

Not One Failed in 20,000.

The New Year finds the LIGHTNING SAWS universally acknowledged to lead the American market. No manufacturer of saws has dared to question or publicly test at the American Institute, or otherwise, the matter of superiority of the latest improved Saws. The \$500 challenge for expenses of public contest is engraved on the saw.

The large increase of the business has compelled lease of No. 80 Beekman street, and arrangements for the manufacture of five thousand LIGHTNING Cross cuts per month, and hope to be able to fill all orders promptly. The supply has been unequal to the demand of the LIGHTNINGBUCK SAW, but hereafter I will endeavor to keep a stock on hand. The sale of several dozen of the above mentioned Saws causes belief that they are the best blades in the market. All Lightning Saws are indelibly etched with my name, the Cross-Cut with directions for filing, using, &c.

Each Lightning saw will cut and touch ends unpaired. Not one in twenty thousand has proved imperfect, so thorough is the inspection of these regular goods; but, for the benefit of such unskilled men as can not set and use a saw, I have inserted in the above mentioned saw, one year ago, no complaint of clogging has been received. The Lightning Saws are equally adapted for small and large timber, soft and hard wood, but soft timber requires it to be set wider. Lightning Saws are set and sharpened ready for use when sent out; are two gauges thinner on back.

E. M. BOYNTON, 80 Beekman Street, New York.—This certifies that I saw the Lightning Cross-Cut Saw, worked by hand, by two men and saw cut off a sound 8 1/2 inch chestnut log in 2 1/2 seconds; and 16 cuts of same, continuously, in two minutes and 15 seconds, or at the rate of a cord of wood in less than nine minutes. I am satisfied that for all purposes of cross-cutting, large and small timber, your cross-cut and wood saws have no rival in speed, in ease and in simplicity. I believe their universal use would save a vast amount of money and time, and lighten the toll of millions of men.

Superintendent and Engineer, American Institute Fair. Nov. 4, 1871. **J. W. BLAKE** certifies that I saw the Lightning Cross-Cut Saw, worked by hand, by two men and saw cut off a sound 8 1/2 inch chestnut log in 2 1/2 seconds; and 16 cuts of same, continuously, in two minutes and 15 seconds, or at the rate of a cord of wood in less than nine minutes. I am satisfied that for all purposes of cross-cutting, large and small timber, your cross-cut and wood saws have no rival in speed, in ease and in simplicity. I believe their universal use would save a vast amount of money and time, and lighten the toll of millions of men.

Why Use the Lightning Saw?
 Because the fastest is the cheapest, IF SIMPLE. It costs five hundred or more dollars for the labor that wears out the cross-cut saw, a saving of fifth by speed and ease of an improved saw saves the cost of a dozen. The only difficulty has been that unskilled men neglect to shorten any clearing teeth properly. If you can shorten your teeth, your teeth are all of one length and no shortening required and cut twice as fast as common saws. There have been many devices for clearing teeth, but no other patent cutting teeth for cross cutting but these are known. Why should a saw tooth be in an indirect raked V, rising over the timber, when, if the outside edges be projected and points double with one dress of set, a direct cutting and clearing is substituted? True, it will require better steel and harder tempering for a cutting saw, but you buy a poor tool of any other description, or use a rough rasp to sharpen your jenkins! Note carefully these Patent Cutters, with one dress of set for two points on one side of kerf, and next two reversed cut on other side. 2nd. One point behind the other, consequently cuts and clears only with outside edge. No slant to gauge out. If one point of M tooth was set one way and one the other, the slant would ride and lift out the tooth. 3d. Cuts at a direct or opposite angle to the old V tooth saw, beneath all sawdust, as a plow instead of a harrow. 4th. Edged with an oil stone, after filing teeth. 5th. These are the only patent direct cutting and clearing teeth known for cross cutting saws; cut faster, easier than any other, and are, with present form, as simple to sharpen as the old V tooth, as M shape.

BOYNTON'S PATENT LIGHTNING SAW.
 This saw possesses several great advantages over the ancient V tooth, which has hitherto been relied on, especially in cross-cut saws, the strength, stiffness and durability of these teeth, and their capacity for deep running are so obvious that we will only name four other points of comparison, viz: Speed, ease, simplicity and perfect clearance. These are all we are aware that an ordinary hand saw cuts only one way; i. e. the front cut is more effective than the back, or retreating cut. These teeth, with their opposite cutting faces, cutting in line, are equivalent to the front cut both ways of the hand saw, in distinction to the hack cuts of the old V saw; Hence speed is inevitable.

EASE OF CUTTING.—It is easier to plow a grove in timber than to crush one out. The application of this principle is very perfect, all the teeth being of even length, double pointed, set with outside vertical and projecting edges, and clear simultaneously with the same. **STABILITY.**—This is obvious, all the points being like hand-saw teeth, viz: the same length. No loose, or slack raking teeth, to be shortened; only one mill file is required to keep them in order, and they are as easy to be sharpened as the teeth of a hand saw. **PERFECT CLEARANCE.**—Continuously cutting and clearing, these opposite "cutting faces" not only cut, but clear, by lifting the fibers above the projecting blades, like a plow, which is the most perfect clearing implement.

By their circular we see that two Boynton brothers, by hand, cut off a twelve-inch sycamore (buttonwood) log in eight seconds, before Mr. General Meade and other distinguished men, at Independence Square, Philadelphia, September 1, 1869. We also note, as a proof of the ease that permits sustained effort in the sawing, by hand, of twenty-six cords of hard beech, maple, elm, ash, and hickory wood in eight hours (including lost time) in Michigan. Such work, by two men, with one saw once, filed in a wonder!

These Saws are made and sold by **E. M. BOYNTON, 80 Beekman Street, New York,** and are protected by four patents, dated respectively 27, 1866; July 23, 1867; January 14, 1868; July 27, 1869. We trust that the inventor of so valuable an improvement, in an article of such universal use as the saw, will be able to enjoy the fruit of their labors free from infringement or piracy of any kind.—*Am. Adv.*, 1, 1870.

These Saws are universally conceded to Surpass all others for Cross-cutting Timber. Although \$500 challenge for expense of test has been advertised in millions of papers, and engraved on each saw, no one has ever DARED to publicly test the matter, **NO other saw has double-pointed teeth, CONSTRUCTED TO CUT IN LINE SO AS TO CUT WITH OUTSIDE OF M TOOTH ONLY by direct action.**

N. B.—The cutting of all single pointed teeth are equal, and these M teeth are double, with direct-action, spaced, and slant concealed between points of M. If one point of M was set one way and one the other, the slant would ride and lift out the tooth. When the hardware trade do not sell, agents wanted, and no government license is required. A six foot cross cut and a brack saw-blade will be sent to any address on receipt of \$5, or \$1 per foot. One man saws \$1 25 per foot. [26:17]

THE TREMAINE Piano Fortes

are acknowledged by all who have them in use, and by the **First Musical Talent**, to be equal and in many respects,

Superior to any Manufactured
 They combine Immense Power, Equality, Sweetness and Brilliance of Tone, Elasticity of Touch, and Great Durability.

Dealers, Teachers and others
 desiring to purchase a first-class instrument are invited to examine these Pianos before making their selections elsewhere.

PATENT AGRAFFE TREBLE,
 Together with all modern improvements. The most thoroughly seasoned timber the market affords is selected, regardless of cost, as we feel assured it will be the cheapest in the end.

The great increase in the sale of our instruments, has enabled us to reduce our prices for First Class Pianos, from ten to twenty-five per cent. less than any other house (offering the same class of instruments) in the United States.

While we act upon the maxim of "quick sales and small profits," we make it, at the same time, a special object to furnish our customers with instruments in no way inferior to the best in the market.

Many families have had a desire to obtain a Piano, but could not afford to pay the dealer a profit of from \$100 to \$300, neither do they wish to purchase a cheap made instrument, that would cost more to keep in repair than it is worth, hence a large class of our music loving people have been obliged to do without.

We can furnish New Seven-Octave Pianos Fortes from **275 to 950 dollars.** Second hand Pianos from **40 to 250 dollars.**

Parties ordering mail may rely upon the best selections.

Our Pianos are fully warranted for six years. Descriptive Circulars sent to all parts of the country upon application.

THE BURDETT Combination ORGAN.

(With Carpenter and Burdett's New Improvements.)
 The disagreeable reedy tone entirely over-come in this instrument.

The Verdict is Unanimous!
The Greatest Success of the Age!!
 We Challenge the World to Equal It!

And cordially invite the profession, dealers and the musical world generally to examine this truly wonderful instrument.

The Burdett Combination Organ
 As its name indicates, has ingeniously combined all our standard improvements, combined with many new features never before introduced or attempted in Reed Organs, together making this Organ the most perfect of its kind. It is a most simple and easy to play, and one that has already created a revolution in the public mind in the decided favor of the general adoption of Reed Organs, both for secular and sacred music, where an instrument is required either to accompany the voice or to produce orchestral effects.

With the multitudinous and surprising combinations that are contained in this instrument, the most intricate music of the "great masters" can be rendered as on a grand organ; or the most simple music for the melodeon can be played by a child.

All the various improvements on the Burdett Organ are protected by patent, being exclusively the property of the Company, and can be used by no other party.

The present Burdett Organ has received the most cordial and highest testimonials from those ranking among the first of musicians and organists.

The **New York Independent** says of the Burdett Organ: "It is by far the most perfect reed instrument we have ever been."

The **Christian Leader** says: "We had no idea that a reed instrument could be brought to such perfection."

The **New York Observer** says: "Its purity of voice, richness of tone, and wonderful mechanical combinations, together with a number of new and original stops, render it an instrument of such perfection as to be beyond comparison."

The press and public everywhere who have had an opportunity of listening to its beautiful strains, not only give it their unqualified approval, but unhesitatingly concede that it stands without a rival.

The Burdett Organ ranges in price from **\$135 to \$1000.**
 We have also New Cabinet Organs at \$45, \$75, \$100, &c.

DR. RADWAY'S Sarsaparilla Recolvent
 Has made the most astonishing Cures; so quick, so rapid are the changes the body undergoes, under the influence of this truly Wonderful Medicine, that

EVERY DAY AN INCREASE IN FLESH AND WEIGHT IS SEEN AND FELT.

THE GREAT BLOOD PURIFIER.
 Every drop of the Sarsaparilla Recolvent communicates through the blood, sweat, urine and other fluids and juices of the system the vigor of life, for it repairs the waste of the body with new and sound material, and cures all forms of skin diseases, eruptions, pimples, scald head, ring worm, salt rheum, erysipelas, scabies, black spots, worms in the flesh, cancer in the womb, and all weakening and painful discharges, night sweats, loss of sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person wishing it for either of the above forms of disease its potent power to cure them.

In the patient, daily becoming reduced by the wastes and decomposition that is continual in progressing, advanced and arresting these wastes, and restoring the system to its normal state, from healthy blood—and this the Sarsaparilla will and does secure—a cure is certain; a when once this remedy commences its work of purification, and success is in establishing the loss of water, its repairs will be rapid, and every day the patient will feel himself growing better and stronger. The food digesting better, appetite improving, and the bowels regular, increasing. Not only does the Sarsaparilla Recolvent excel all known remedial agents in the cure of Chronic, Scrophulous, Constitutional and Skin diseases; but it is the only positive cure for **DRYNESS & IRRITABLE COMPLEXION**, Urinary and womb diseases, gravel, diabetes, dropsy, stoppage of water, incontinence of urine, Bright's disease, Albuminuria, and in all cases where there are brick dust spots on the face, a thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a scurf, dark, bilious appearance, and white hoarse-dust during the night, it is a prickling, burning sensation which passes over, and pain in the small of the back and along the loins.

DR. RADWAY'S Perfect Purgative Pills,
 perfectly tasteless, gently acted with an enervating, regulate, purify, cleanse and strengthen the Sarsaparilla, the cure of all diseases of the stomach, bowels, liver, kidneys, bladder, dropsy, diabetes, constipation, rheumatism, indigestion, dyspepsia, biliousness, bilious fever, indigestion of the bowels
